The incident also underscores the need for greater diversity on campus. Following the pepper spraying of students and visitors by Campus Police, Alicia Garett, a Sophomore, said, citing the proposal to renovate the Academic Computing Center (ACAC), "This was a clear violation of our rights as a minority student."

"TheLC is a plan to help make the campus more student-centered, and it is a step in the right direction," she said. "It is important that all students, especially those from underrepresented groups, have a voice in the decision-making process."

"We hope that this will be a positive step forward for our university," she added. "But we also hope that the university will continue to work on addressing the needs of all students, regardless of their background or identity."
Post to read and sign books

Mary Bruce Post, the author of three books of poetry and one book of prose, will read her work at 2:30 p.m. Feb. 1 in the Graduate Studies Center. Attendees will have the opportunity to sign their books, which will be available for purchase.

Students sought for Africa trip

Students interested in a semester semester project in the Sudan region of West Africa are invited to contact Professor John K. Miller, professor of political science, who will be in residence this spring. The project aims to explore political and social issues in the region.

More about the Sudan region

The Sudan region, located in northeastern Africa, is known for its rich cultural heritage and diverse population. It is a land of contrasts, with a mix of traditions, languages, and religions. The region is also known for its challenging environment, with extreme weather conditions and limited access to resources.

Decision to allow women in residence

The decision to allow women in residence at the college was a significant step forward for gender equality and inclusivity. This change, which came after a long period of discussion and debate, has helped to create a more welcoming and supportive environment for all students.
DASA hopes to make upperclassmen-subject free a housing theme

By Michael H. Brown

Since the issue of upperclassmen-subject free housing that surfaced last year, interest in the subject has been growing, with more students becoming involved in recent community meetings. Members of Dons Against Subclass Discrimination (DASCOD) have been meeting in late November to prepare for a sequel to last year’s discussion. The theme of the new debate is "Making life better for the upperclassmen: students of color office also plans to schedule a debate with DASCOAD sometime this month. However, a definite date has been

AIDS Task Force members ready to begin campus, community education

By Tom Brown

The way to score new students is to begin with AIDS education, according to Tom Brown, president of the AIDS Task Force. The group is planning to take advantage of the new student population being introduced into next year’s classes.

Coleman created the group in concert with the student body and the Student Senate. The new task force is not a formal committee of the University. Rather, the task force is made up of Thomas E. Mullen, the dean of students; Provost David Brown; John C. Davis, the director of institutional effectiveness; and Andrew E. Combs, the director of institutional effectiveness. The group is also made up of Allen M. Brown, the director of institutional effectiveness; and Andrew E. Combs, the director of institutional effectiveness.

The group met this week to discuss the new proposal. The proposal is expected to go before the Board of Trustees this week.

The group will meet with the Board of Trustees today, said Mike Mullen, executive director of the AIDS Task Force. The meeting will be held at 2:30 p.m. in the Board of Trustees' room.

The group will be looking at the potential impact of the AIDS on the campus and the community. The group will also be looking at the potential impact of the AIDS on the student body.

Students ressurect Euzelian Society

Members of the newly-revitalized Euzelian Society discuss creation and the natural order with Walter Hartman, the director of planning for the proposed Divinity School, Jan. 26.

By Roy Ramsey
Director of the Euzelian Society

A number of students have ressurected Euzelian Society, an organization that was founded in 1847, to lead the discussion.

Societies president, a 2nd-year student, said the group plans to have a meeting every term, with one term being dedicated to a certain topic. According to the group, the society will begin to form a more well-rounded organization and be a part of the planning for the proposed Divinity School.

According to the director of planning for the proposed Divinity School, the society will have a meeting every term, with one term being dedicated to a certain topic. The society will begin to form a more well-rounded organization and be a part of the planning for the proposed Divinity School.

Senior Joy Goodman and Nancy Hartley, 92, revived the Philomathesian Society in 1991. Goodman said the group, which is composed of students who believe that students lack intellectual integrity.

"We are different from the Philomathesian Society, because they are one-dimensional. We would like to form a more well-rounded group, and have open discussions on one or two major issues," Goodman said. "Many professors believe that students lack intellectual integrity. One of our goals is to prove them wrong and show that Wake students can learn outside of the classroom."

For once, a cut in educational spending that actually helps students.

With Apple special low price cut, students can get a terrific deal on Macintosh, the latest computer design in personal computers for the college campus today. You can choose the affordable Macintosh 128 which comes complete with lots of powerful software to help you get through college. You can also choose the portable Apple PowerBook or the Power Macintosh - the world's fastest Mac. And because Macintosh is still the most personal computer you won't have to dig through complex manuals. Plus, with low student pricing, a Mac is easy to afford and as it is to use. All of which makes it the ideal time to discover the power of computer students need. The power of your future.

Elders was a fit Surgeon General. She said what a Surgeon General should do: she told the truth. And look where that got her.
Search for truth is baffling, rewarding and necessary

I am as an accomplished psychopath. I can judge people, often quite accurately, but then again I may not. At times, I process a staggering amount of information, as I am given more and more a sense of everything and decide what I want to hold on to and what I want to let go of. I am a change connoisseur.

In fact, I am more than a psychopath. I am a great, I am a genius, I am a god. You are only a few points short of being a genius, and you are about to make your first point. You have made a few great points already.

If you are going to be a genius, you must make some great points. It is the only way to be a genius. You have made a few great points already.

To divert yourself from the problems around you by saying that does not affect you in any way is a delusion. Everything affects you. We are all gods to each other, and gods to the will of every other god. Anyone's smallest step will affect you somehow.

Thomas Young

Co-Founder, Thomas Young

When I came to Wake Forest I chose substance free as an issue of personal safety. I thought that what we said about the dangers of alcohol had a point. I was afraid that we would have to worry about illegal drugs or underage drinking. Instead when I have been changed one more time to pluck the thorns from my soul. I have felt suffering. I have felt knowing what it is like to be in that state of mind. I have been changed one more time to pluck the thorns from my soul.

Unfortunately, my theories have been discredited. Everything which we have been supposed to be wrong about. I am not entirely the fault of the administrative board of ELBS. It is the responsibility of the student body to be responsible for their own actions. The student body is the only group of people who are responsible for their own actions.

Very soon ELBS will be reviewing the request for open chance substance-free housing. They will have to make their cases and they are in the same state. We are still in the same state. The law of averages, something pretty big happens.

I am not attempting to elev- en myself above everyone else. I am just trying to teach you what I have learned. I have learned that you should not have substance-free housing. I have learned that you should not have substance-free housing. I have learned that you should not have substance-free housing.

Fall establishes Pitt as more than hunks

By Brian Thomas

ARTS AND ENTERTAINMENT

In addition to their nationwide success, both Matarrese and Costner have experience in the industry—Matarrese was music director at WAKE FM in New Jersey, but Matarrese said they still had work to do even along the way. He continues to practice on a regular basis to keep his skills up. He also continues to take on new challenges, and he enjoys the experience of working with different artists and in different settings. In the future, he hopes to continue working in the music industry and to continue to challenge himself as a musician.

Despite the sometimes melodramatic script, this upsets and confused the audience who were looking at their watches during the end credits. Though remaining to be a "stickler" and never to be missed, it is a tour de force, and the artistry in this film is a triumph of style over substance. Though Matarrese said the goal is to jump to the next level of national success, and the movie was universally enjoyed by audiences.

An all-star team of young men and women mark Matarrese's contribution to the subcultural music circuit. As the插图所述，沙克一家已经表现出在音乐行业的先锋地位。在他们早期的生涯中，他们已经表现出对音乐的热爱和决心。尽管如此，他们并不放弃，而是继续追求自己的音乐梦想。

The Face of Change is both extremely talented, with T.O.C. in particular, performing on both the reunion tour and the next single release date. Both bands have pushed majors and are going for the greater glory.

Matarrese said the goal is to jump to the next level of national success, and the movie was universally enjoyed by audiences.

Sandrow, students depict lifetimes with cardboard

By Thomas Young

As an experiment in community service projects, several students have embarked on a project to create cardboard sculptures. The sculptures are created using cardboard boxes, which are filled with various objects to create a three-dimensional representation of the object. The students have been working on this project for several weeks, and they hope to complete it soon.

The project is sponsored by the Student Council, and it is intended to raise awareness about the importance of community service and the role that students can play in making a difference in their community. The sculptures will be displayed in a public space, such as a mall or a park, to reach as many people as possible.

The sculptures will be made from recycled cardboard boxes, which are not only environmentally friendly but also affordable. The students are working with local artists and materials to create a diverse range of sculptures, from animals to buildings to abstract shapes.

In addition, the project is also intended to help students develop their artistic skills and to encourage them to think creatively about how they can use everyday objects to create something beautiful.

Braswell's 13 straight in second half help take Deacons past N.C. State, 69-61

By DON BAYNON
The Demoiselle pulled out of their losing skid against N.C. State, as four starters scored 20 or more points and the team staged a dramatic 20-3 run in the final stanza to win the game, 69-61.

The win halted Braswell's 11-game on-again-off-again losing streak against N.C. State, as four starters scored 20 or more points and the team staged a dramatic 20-3 run in the final stanza to win the game, 69-61.

The Deacons started out slow, but the starters scored 20 or more points and the team staged a dramatic 20-3 run in the final stanza to win the game, 69-61.

Tennis team competes in last warmup match

By Scott Plambeck
North Carolina senior

The ACC Men's Indoor Championship, played in the Indoor Tennis Center at Wake Forest, was the last pre-season tournament on the Duke tennis team's schedule. The Blue Devils were paired with the North Carolina Tar Heels in the first round and defeated them 6-3, 6-3, 6-2, 6-4 to move on to the round of 16, where they would face Wake Forest.

The match was a blow-out, but Head Coach Larry Collmus believes the win is important for the team's confidence. "The win was very important, especially with the number of young players who are starting to contribute," Collmus said.

The Blue Devils will face Wake Forest in the round of 16, and Collmus is confident in his team's ability to advance. "I think we have a good chance of making it to the quarterfinals," he said.

Overall, the Blue Devils are looking forward to the tournament and hope to continue their winning streak. "We're really excited to be here," Collmus said. "We've been practicing hard and we're ready to take on the challenge."
