Minors Form Small Percentage

BY BETH HUGGINS

The minority students at Wake Forest University
are facing many challenges. One of the most
pressing is the issue of alcohol misuse at fraternity
parties. Two of the most common complaints
are the number of underage persons allowed to
attend these parties and the amount of alcohol
consumed. These issues have been brought to
the attention of the university administration
by minority students.

Several incidents have been reported
where underage students were present at
Alcohol Awareness meetings. These incidents
have caused concern among the faculty and
administration.

The university is making efforts
to address the problem of alcohol
misuse at fraternity parties. One of
these efforts is the creation of
minority student groups.

Several students have stated
that they do not feel comfortable
when they attend fraternity
dances because of the amount
of alcohol consumed.

The university has also
issued a statement
that stresses the
importance of
responsible alcohol
consumption.

These efforts are
being monitored
by the university
administration.

Alcohol Restrictions

BY KATHY WATTS

Faculty will be able to license
beverages for sale because the university
has received a grant from the American
Beer Institute. This grant will allow
the university to sell beer for a fee.

Students will also be able to purchase
beverages at the Prohibition Bar.

The grant will help
the university
implement
alcohol
restrictions.

The university is seeking
to increase the
number of
students
who are
able to
purchase
beverages
at the
Prohibition Bar.

On Oct. 1, Ricehouse Electric opened a new facility to train and hire engineering students for summer internships. The facility, which is located at Wake Forest, is open to all students interested in engineering.

In order to become an engineer, Ricehouse Electric lists three qualifications for those interested in applying. These qualifications include a passion for engineering, a strong work ethic, and the ability to work well in a team environment.

Ricehouse Electric offers a variety of internships, ranging from design and development to project management. The internships are available year-round and provide students with hands-on experience in the engineering field.

To apply for an internship at Ricehouse Electric, students interested in engineering are encouraged to visit their local school's career office for more information or visit the Ricehouse Electric website.

---

**Computers**

Although most students are comfortable with basic computer skills, many are not as familiar with computer science or computer engineering. This is due in part to the fact that many computer science and computer engineering courses are offered at the undergraduate level, and many students choose not to take such courses.

In response to this issue, the department of computer science at Wake Forest University decided to open a new computer science major next year, with the goal of increasing interest in the field.

Vietnam Revisited

This year the College Union Lecture Series will bring the appearance of Professor Thomas Blanton in the attention of a generation of students who have hitherto been uninformed.

The Viet Nam Symposium Committee, along with the College Union Lecture Committee, had made a lull in their selection of a topic which is timely, not only in terms of historical significance, but also for its warnings to future generations. Special recognition is in order for both Sonja

Save the World

In defense of humanity, we urge the administration of Wake Forest University to prevent global terrorism to proceed at a slower pace and to be more cautious in its approach.

Since one day is canceled out by the other, we can determine what we want to be, not what we leave behind.

This production will be a big hit regardless of how it is received. It will be a hit because we are all in it.

And, since Wake Forest students are supposed to be the brightest in the country, we will find our way to all the levels of leadership positions in a few years (as we are told), we will have very strong people and edgy people controlling the key policy-making organizations in our society very soon.

Fraternities’ Contributions: The Most Controversial

Homosexuality Is Not Acceptable

All of us have heard about the student protests at Wake Forest University, and we know that there is a good amount of controversy surrounding the issue. But what about the true extent of this problem?

Homosexuality is not acceptable because it is contrary to the natural law. The only reason that human beings are compelled to procreate is that it is the foundation of the natural law. It is the foundation because it is a part of the framework of the universe.

This is the point where we can see that the issue of homosexuality is not acceptable, and we can see why the issue of homosexuality is not acceptable.

Letters to the Editor

Film Review Shoved Anti-Semitism

It is necessary to be reminded of the past, in order to avoid repeating it.

I have been thinking about this issue for quite some time, and I think that there is a need for more awareness on this issue. It is important to remember that this issue is not new, and it is important to be aware of the consequences that can arise from this issue.

Bloom County

The author of "Gre" is well known for his ability to create humorous and thought-provoking scenarios. In this particular excerpt, he uses the concept of "Gre" to highlight the absurdity of the political landscape.

Letters Policy

The Old Gold and Black receiving members of the Wake Forest community are the most important group for the newspaper to appeal to. The following letter policy will help ensure that letters are properly handled and that the newspaper maintains a positive image.

The Old Gold and Black is the student newspaper of Wake Forest University. It is the only publication of its kind on campus, and its role is to provide a voice for the student body and to foster a sense of community among its readers.

The newspaper is published twice a week during the academic year, and once a week during the summer. It is distributed to all students, faculty, and staff on campus, and is also available online.

The newspaper covers a wide range of topics, including campus news, local news, national news, sports, arts and entertainment, opinion, and features.

Letters to the Editor are welcome and encouraged. They should be submitted to the managing editor via email (editorial@wfu.edu) or by mail to:

The Old Gold and Black
P.O. Box 1569
Reed Road Station
Winston-Salem, NC 27109

Letters should be no longer than 500 words, and should be signed. All letters will be reviewed for accuracy and relevance, and may be edited for length and clarity.

The newspaper reserves the right to reject any letter for any reason, including but not limited to: relevance, accuracy, length, clarity, and adherence to our letter policy.
'Greenpeace Affair': Some Call It a French Watergate

For those of us who were too young old or young during the Watergate scandal, the Greenpeace Affair seems like an eerie parallel to the events of the 1970s—except that the surveillance apparatus threatens the activists calling themselves the 'Greenpeace Guardians' just as the FBI targeted the Watergate informers. Of course, the original target of the agency's wrath: the original Watergate informer, Mark Felt (a photographer from Holland) and his colleagues. The French media referred to him as 'Mark the Frenchman.'

The case of Mark Felt is still an anonymous Watergate informer, (a photographer from Holland) and his colleagues have never been especially diligent in pursuing their case. Many years ago, electronic communications became so sophisticated that they were no longer confined to taped performances for the national security and presently are available on the supply of computers and computers. A recent administrative court was involved in the case and was the result of a short-sighted approach to an orchestral essay after all. It is said that music has the power to connect to the world without performance.
Ballet Performance Initiates Dance Series

By INGRID KINCAID

The first performance of the 1985-86 Wake Forest Dance Series was with great success last Friday night. The mixture of classical and modern ballet with influences from other disciplines was magnificently performed by no less than the American Ballet Theater from the Pennsylvania Ballet. The presentation as well as the performance of the entertainers was received with a standing ovation.

The theme centered around a three of a more classical nature. The presentation of the Pennsylvania Ballet. The presentation of ABT displayed classicism through the eyes of the twentieth century genius George Balanchine. His modern influence was only subtly hinted at by the interpretation of some solo cer-International dancers, the world premiere of "Hillocks," choreographed by Benjamin Harkar-ty. The piece was based on ballet but employed elements of modern dance. The unconventional movements, dif-ferent from music of the late romantic composer Dukas, were effective in evoking images of love and dance. This piece was commissioned by Robin Price who danced with Mark Trares.

The last remaining pieces were ballet classics performed in the traditional style. Susan Jaffe danced the solo "Dying Swan" choreographed by Michel Fokine with music by Saint-Saëns. This was characterized by her highly expressive arm movements. A change in the program resulted in the performance of "Giselle" choreographed by Scit-T-Preiss who danced with Mark Trares. The interpretation was such that the woman's life was interpreted by her highly expressive arm movements. A change in the program resulted in the performance of "Swan Lake" choreographed by George Balanchine. His modern influence was only subtly hinted at by the interpretation of some solo cer-International dancers, the world premiere of "Hillocks," choreographed by Benjamin Harkar-ty. The piece was based on ballet but employed elements of modern dance. The unconventional movements, dif-ferent from music of the late romantic composer Dukas, were effective in evoking images of love and dance. This piece was commissioned by Robin Price who danced with Mark Trares.

Deacons Look to Stomp Heels

By MARK LATTI
Sports Editor

Saturday night in Knoxville will be one of the most important games of the season for both teams. Each will be looking for 277 yards and three touchdowns.

The running game has set up the passing game, both teams have plenty of talent, and running back is amassing 462 yards and 9 rushing touchdowns this season. Both teams lead the nation in rushing offense.

The Vols' defense, led by seniors Bruce Mark and Darrell Wood, has forced 13 turnovers this season.

The Deacons' offense, led by seniors Fred Wendleboe and Daryll Groh, has scored 14 touchdowns this season.

The game will be played on a wet field, with a strong wind coming off the lake. Both teams will have to adjust their game plan accordingly.

The Vols' defense, led by seniors Bruce Mark and Darrell Wood, has forced 13 turnovers this season.

The Deacons' offense, led by seniors Fred Wendleboe and Daryll Groh, has scored 14 touchdowns this season.

Deacons Drop Catawba in OT

By CHAD KILLERWIE
Staff Writer

Wake Forest took a dramatic double-overtime 2-1 upset over Catawba College at Peden Park Wednesday night in what might have been its greatest win ever.

The contest was physical throughout. The game was scoreless until the last overtime, when Wake Forest got the better of the contest for the win.

Michele Bernardi (7) helped lead the Deacons to a 2-1 victory over Catawba.

The Mountaineers jumped ahead quickly at the outset of the second half. Gino Carvacho scored from the inside of 47 seconds into the half on an assist by Kim Sullivan. Sullivan added another goal at the 44th mark. Appalachian State scored its second goal on an assist by Keri Chaney. The Mountaineers continued on its scoring roll as the Mountaineers scored in the 54th, 56th, 59th, and 60th minutes of the match.

The first half was neither team able to score. Wake Forest had no shots while Appalachian State had seven.

The Mountaineers dominated the first half, holding the Deacons to four shots on goal.

Wake Forest breathed a sigh of relief and scored in the second half. The Deacons had thirteen penalty corners compared to only one for the Mountaineers.

Key Sullivan scored the first goal of the second half on an assist by Keri Chaney. The Deacons were unable to score in the second half.

The Deacons' next game will be on Tuesday at High Point College.
**Fund Drive**

**Chemistry Mixed**

After presenting a petition bearing signatures from companies with headquarters in South Africa to members of the student group, Thomas K. Harris, Jr. last week, the group called Students for Peace and Justice has now planned an awareness rally to be held on Wednesday, Sept. 30th. From 5-7 p.m.

"We're very concerned that not enough people know what's going on in South Africa," said EMF Off, a member of the organization. "We want people to be aware of what's happening there."

"The Tetra Club" will also play host to the Thursday fundraiser, a dinner to which will also include the Chi Psi. This event will raise funds on Oct. 7 and the Theta to raise $700.

The three-day tradition will be followed by the PIs, as they hold a reina from 2-1 until 1 p.m. in the on the Quad. They hope to be able to contribute $800.

The Alpha Kappa Alpha sorority will also host a "rock-and-roll-a-thon" in a last hurrah to get their Beta for $50. The Alpha Chapter, in addition, will also provide the first half-hour of the rally.

The group sponsored a visit to the Mississippi University for Women. "We've been able to contribute a lot to this," said EMF Off.

**South Rally to Be Held**

South Rally will be held on Magnolia Court called Students for Peace and Gold and Black, University courses. It admits students without regard to color, race or creed.
