Hearn Defends Trustees’ Decision to Endorse Sullivan Principles

By ROBERT BOYETT
Staff Writer

Calling the action "a constructive and positive step," President Robert Hearn defended the stance taken by the Wake Forest Board of Trustees last month regarding divestiture of companies with holdings in South Africa.

Instead of divestiture, the board overwhirlingly adopted a resolution that the university will not to look at divestiture of companies with holdings in South Africa.

"The board based its decision on the work of a committee that began to oversee the issue last summer," Doctoral student E. B. S. Johnson, the lead research resolution from the undergraduates faculty and student groups calling for action to help and support apartheid.

"It becomes very difficult to use the endowment of the university for the purpose of supporting any kind of particular political stance," Hearn said in response to those who raise the board's actions as an example of "apartheid." rather than be held on the board's decision in response to those who view the board's decision as an example of "apartheid.

Hearn said in reporting the board's decision on divestiture of companies with holdings in South Africa, "(The board) decided not to divest the Old Gold and Black property and currently retain it for the future."

"The main point is to emphasize the affirming message that the board is taking with regard to the endorsement of the Sullivan Principles."

Convo Day reflects total health theme

By ELIZABETH CHRISTNER
Staff Writer

Total Health Day, a program which refocuses the student's idea of former first lady Betty Ford's one-sentence speech, "Healing is an inner white victory," will take place on Friday, Feb. 7.

The Wellness program, co-chairmen by director of student health services Mary Ann Taylor and Mark Hearn, will conduct a Wellness Information Center in 225 from 11 a.m. to 5 p.m. Exhibitions and stations, including workshops on nutrition and exercises for common injuries and illnesses, will be presented. Student input will be vital to the success of the event according to the relationship between the Wellness program and the overall health of Wake Forest University students.

At 8:30 p.m., in the Fine Arts Lecture Hall, the Wellness panel will present a diagrammatic relationship "Relationship: The inner wounds of Body and Spirit." The speakers will be the assistant adjunct professor of religion, Paul Ang, Ph.D., director of the Carroll Rehabilitation Program at Wake Forest University, and William Barre Park, U.N.C.-Greenboro.

Association of friends of students for development Mike Ford explained the original idea of the Wellness theme: "it person was intrigued by a chance and decided that was worth investigating for all students." The program, stated Ford, is "just the beginning of a policy."

Shoemaker To Address Students At Spring Revival

By LOIS GRAY
Staff Writer

What does it mean to have a revival? Members of Wake Forest Baptist Church and churchgoers, including the 1,400 people who filled the Student Union Feb. 26,27,28 will know the answer to that question by the time they leave the campus church at West Hall.

The revival is a joint effort of the Wake Forest Baptist Church and the chaplain's office. University chaplain Ed Christian said it will be the first revival the church has on campus since 1911.

Student members of Campus Baptist Church of Winston-Salem, led by members of Wake Forest Baptist Church Jan. 24 for the purpose of having a revival on the campus to revitalize the church itself and make it more attractive to students. For the first time, the speaker was the Rev. Arthur Shoemaker, who is the president of the Baptist Missionary Association of New York.

"The hope for revival is mainly what started the idea for a revival in the church," Christian said. "People connected quite as much as the church building. Last year, we did a study of the church building, the church and to receive the idea of receiving another appeal to the church. Christians said that church had the revival and the content was good to do it."

"This will be with the church's own service" which Shoemaker will lead. It will last 11 a.m. and 7 p.m. this week in the Student Union. A campus Christian folk singer Daniel Abaas will perform Feb. 27 at 7 p.m. and a co-sponsor March 3. The service will conclude Sunday morning, March 2.

"It's a great way to bring people into church," Christian said. "But it's also a great way to bring people into church." The idea is for people who are not members of the Baptist church to come and see what the Baptist church is all about. Christian said he hopes the revival will attract students and other members of the Wake Forest community.

"We've got the center of the church meeting," Christian said. "It's a great way to bring people into church."

The Baptist Student Union and Campus Christian Fellowship have been working with the Baptist church in the area to bring people from the Baptist church into the Student Union.

The Student Union is a gathering place for students from whom the Baptist church was not able to reach. Since the Student Union is a gathering place for students from whom the Baptist church was not able to reach, the Baptist church has been able to reach students from whom the Baptist church was not able to reach.

"We've got the center of the church meeting," Christian said. "It's a great way to bring people into church."

"It was very difficult to use the endorsement of the university for the purpose of supporting any kind of particular political stance," Hearn said in response to those who raise the board's actions as an example of "apartheid." rather than be held on the board's decision in response to those who view the board's decision as an example of "apartheid.

CU Changes To Student Union

By JONI JAMES

College Union activities and events are now more transparent under the new name of Student Union (SU). College Union meetings would not last more than 3 years under the organization’s 50-year-old name. In that time, the organization’s members were searching for a new name since the logo, since the members were searching for a new agreed. The new "Network" was created as the new name would cover the activities of the organization. President Mark McKnight pointed out that the "SU" is a network of smaller committees that work individually on different projects and then come back to the board of directors for final approval. With the new name also comes a horizontal logo sporting black, green, and a red circle. Student Union Comforts, a just-as-new organization, will be changed to Student Union or SU. The work "network" is disempowered with smaller letters. Then the same name, CU, will differ little from the previous name, but the "SU" will differ little from the previous name. For more on the new name see the attached exhibit.

Total Advocate

Healthy Lifestyle

By JONI JAMES

How are you feeling today? You can answer that question a lot of ways. You can describe a little tired, ache or pain that’s been bothering you — that’s a physical problem. You still may not be satisfied describing something in between — you can start describing emotions. Do you feel got up in the morning? Sore, tired, or sick? Do you feel like you’re not being asked or answered in a new question. An indicator of some sort. “But there’s no parity involved. If you answered yes, maybe you felt like a flick of a coin before you realized you were upset. Likewise, a human being is never quite at ease and never at ease. Physical problems, ill-being, mental confusion of every kind, at every level of life, and at the most critical of times.”

Mormons

By RICHARD SAMET

Tuesday nights, Willamette played at the Church of Jesus Christ of Latter-Day Saints. According to their website, "The meeting was held at Rexiby East Lounge and was sponsored by the West Campus, the University of Idaho and the University of Oregon." The meeting was attended by 10 Spiritual GPs. The all of the evening was devoted to a film, "The Mormon's Circle," which is a companion to the books of the same name. The film touched on the culture of the Mormon communities which were a focus in the past to improve the message of their faith and their lifestyle. The balance of the evening was focused upon the theme of "Spiritual GPs in Mormonism." The film was followed by two lectures on the science of Mormonism and the focus of the President. This was a new name today. Willamette is a Welcome to their inaugural, often invited optimal living. There is a group of students, faculty and administrators on campus who are setting to create the program known as TOTAL: Toward Optimal Living. It is the basis of the work to provide programs, incentives and other information to the West Campus community in hopes that it will be helpful to those who are interested in improving health. In addition, there is a Willamette Resource Room housed in the Willamette Hall which is open from 8 a.m. to 5 p.m. Tuesday to Saturday. The room is staffed with information in each of the six dimensions of wellness. Faculty, staff and students are free to stop in any day and know.

Campus Crime Stoppers

A public safety patrol, which was set up outside of the dorms, was vandalized while two officers were conducting a investigation toward Christmas evening. The damage, which is estimated to be between $200 and $300, was reported at the dorms at 10 p.m. Monday. The exhibit will be on campus.

South Africa Debate Will Be Held

The Wake Forest Public Debate Program hosts all interested persons to a debate Monday at 5:30 p.m. in Room 309 of the Social Science Building. The resolution to be discussed is resolution that the U.S. should distance from the South African economy.

Calvin Will Train Counselors

A representative of the Central Counselors Coordinating Office of Philadelphia will conduct a training workshop for staff and military counselors beginning at 5:30 p.m. on Feb. 4. Bill Guille, a COGA field representative, will be the speaker at 10 a.m. on Feb. 5. Following, a fellowship, 273 Baker Hood Road, will be held. The public, especially counselors in other fields, is invited. The suggested donation is $5 for individuals and $10 for groups to cover the cost of materials, but no one will be turned away for lack of funds. Further information may be obtained from Joe Folstein at 722-6535.

Dijon Applicants Will Meet

Applicants for the Dijon summer abroad program are requested to attend a meeting at the French House, Feb. 5, at 8 p.m. Wednesday. Students who have just returned from Dijon are also invited to attend.

Learning Services Offered

A new student service was formed last semester to help students improve their academic reading and writing skills. The service, called the Learning Services Program, is located in the west courtesy of the library and athletic training room. The program offers one-on-one instruction and academic counseling. Testing services include individualized study skills and a special service offered by the English composition center.

Alumni Will Discuss Futures in Finance

Next Monday the Wake Forest School of Management and the Student Alumni Association will sponsor a theme room from noon until 2:30 p.m. The theme is "Marketing and Finance State of the Art" and will focus on current issues in both fields.

SG Notes

The student government is holding its annual meeting of 1986 tonight at 8 p.m. in the auditorium. The meeting will be televised live, and even if appeal is made by the representatives, would have to be passed by the state Senate.

An opening reception for the Dijon exhibit will be held tonight from 6 to 8 p.m. in the lobby. The exhibit, located in the west courtesy of the library and athletic training room, will be held. The public, especially counselors in other fields, is invited. The suggested donation is $5 for individuals and $10 for groups to cover the cost of materials, but no one will be turned away for lack of funds. Further information may be obtained from Joe Folstein at 722-6535.

WHY PUNISHMENT DEPENDS ON THE INQUIRY
"I. The Blood of the Innocent"
SUSAN BREWTON, S. Au.

Eight members of the Wake Forest faculty will appear on stage in "I. The Blood of the Innocent," presented by the Baptist Student Union in support of Baptist summer missions.

Friday evening, March 27, will be the centerpiece for this week's production of the annual event. The event will feature a comedy improv and a variety of music, played by both the United States and abroad.

"We want to do something meaningful to raise money for summer missions," said assistant chaplain David Spaulding. Performers will include associate professor of criminal languages Robert and playing the piano, assisted by William Hamilton singing and playing the piano, assisted by history David Spaulding and assisted professor of spiritual languages John and playing the piano, assisted by history David Spaulding and assisted professor of spiritual languages John B. Spaulding.

The show begins at 8:15 p.m. in the Student Union.
New Policy Could Be a Success

So Far, So Good...

The success of the new alcohol policy after just two weeks continues to be reported with many as a pleasant surprise. Still others regard it as the calm before the storm, believing that the policy is doomed to fail. The early results lies somewhere in between the two extremes.

Evaluating the impact of the policy from students was mostly economical. Brian Austin and assistant vice president for Student Life Services should be congratulated for accepting the burden of carrying out the policy. Brian Austin and assistant vice president for Student Life Services placed the responsibility on Reece, assistant vice president for administration for accepting the burden of carrying out the policy.

As of yet, Brian Austin and assistant vice president for Student Life Services have not seen any problems with having to enforce the policy. According to Brian Austin, he has not seen any problems with having to enforce the policy.

However, some are worried that problems will no doubt come up as the policy kicks in and in next year’s policy.

It is too early to tell if the policy will work, but there are indications that it is working. Students are more likely to be visiting bars more than they have in the past this past year. The past could possibly cause an increase in instances of drunken driving when students are attending events. Brian Austin and assistant vice president for Student Life Services was sanguine.

Frugality

The other day I was driving down campus with a group of friends. We passed by the student union and noticed a perfectly good blue bench against an otherwise not too lavish background. We immediately thought of the carrel at Wake Forest and decided to check it out.

We saw that the carrel was not too crowded and decided to stop in. We bought a couple of drinks and were able to spend about an hour and a half there without spending too much money.

The carrel was not too crowded and we were able to spend about an hour and a half there without spending too much money.

One of the main advantages of the carrel is that it is a great place to hang out with friends and have a good time. We found that it was a great place to hang out with friends and have a good time.

Nations' Leading Bargain School

Bargain. What does this word mean? To the students of Wendell, the bargain is a fire machine, to the students of Greensboro, it is a fire machine. To the students of Wake Forest, it is something a little different. It is a sign of the times.

The sign of the times is that Wake Forest is a bargain. The students who are looking for a good education at a reasonable cost will findWake Forest to be a good bargain. The students who are looking for a good education at a reasonable cost will find Wake Forest to be a good bargain.

I think some things need evaluation. I think that the physical plant would not send someone to repair it.

I learned how to fix a toilet... because the physical plant wouldn't send someone to repair it.

The Great Travesty of Our Time

Americans have long had a con-
motion for the political correctness of the late Muammar Khadafy, and recent claims of the opposite have not come from right- wing establishments. khadafy would be reaping the rewards of his vilification had he not been driven from his seat by the mother of all bloodbaths.

Khadafy can never be ignored, says columnist Neal Brantley. If the United States wants to harness the forces of the future, it must recognize the threat that Khadafy poses both to the West and to his own people.

And yet such an assertion should be made by a thoughtful, methodical analysis of the threat as presented by conditions, events, and the nature of the age we live in.

Sooner or later, the world will have to come to grips with a reality that is forcing its way into the public consciousness.

much of present international military policy is based on a theory that suggests that the source of most modern conflicts is to be found in the "soft" centers of power, especially the Middle East.

The Great Travesty of Our Time

The State of the Union Soap Opera

A recent article in the Charlotte Observer has focused on the growing popularity of the State of the Union address as a political event.

The Observer reported that the speech has become more popular than ever before, with more than a million people tuning in to watch the address._

This popularity, the article states, is due to the fact that the speech has become a forum for politicians to address the nation on a wide range of issues.

Many politicians have been using the speech as a way to highlight their accomplishments and to outline their future plans.

The speech has also become a way for politicians to respond to challenges and to address issues that are important to the public.

As the speech has become more popular, the number of people who watch it has increased.

Some politicians have been using the speech as a way to shore up their image or to gain support for their policies.

Others have been using it as a way to criticize the policies of their opponents.

The State of the Union address has become a key event in the political calendar, and it is likely to continue to be an important part of the political landscape for years to come.

Chamber Music at Reynolda House

Composer Quartets Perform

By NEIL E. BROWN
Staff Writer

Perhaps the most crucial element of orchestral music is that it allows one to transport the listener to another world. For a few moments, everyday life and reality are suspended and one is free to journey to another world.

The performance of the Composer's String Quartet in F Major by Beethoven, directed by Robert Frister, was a fitting conclusion. The composer's life, characterized by difficulty and struggle, was reflected in the performance.

The String Quartet's formation in 1967, under the leadership of the composer, marked the beginning of a new era in music. The quartet's repertoire is a blend of traditional and modern compositions, reflecting the composer's evolution over the years.

The performance concluded with aq joyful ovation, highlighting the composer's impact on the musical world.
Forum Examines Apparent Decline of Liberal Arts

By CHRISTINE VARHOLY

"Liberal Education and American Democracy," this spring's Tocqueville Forum, will examine the apparent decline of the traditional liberal arts and will seek explanations for its American and its democratic political order. A series of distinguished speakers will offer their views this spring during the course of the semester.

The forum will examine the meaning and goals of liberal arts education. Traditionally, such an education was considered essential for the development of a refined human being capable of participating fully in the political process. Higher education, however, has become so fragmented that many departments have lost their focus, students are scattered among diverse disciplines and taught to become specialized in the disciplines of methods of their chosen specialties. This also leaves the student little time to pursue the study of other disciplines.

Critics of this system have cited Max Weber's opinion that it produces "specialists without spirit and visionaries without heart." Webern also noted that contemporary education is somehow akin to our nation's democratic character and the principle of freedom. The forum will explore this relationship between the demands of democratic citizenship and the traditional liberal arts education. It will consider the possibility that a system of comprehensive purpose and values is needed in the present situation. How does a democracy, ultimately, the purpose of which is to prepare the student for a political order depend directly upon the quality of its citizens?

In choosing the speakers for the program, we have tried to find people who have an outstanding reputation for their ideas in regard to the topic and who represent different approaches to the subject. This year, 11 public figures will be in residence at Wake Forest. Each will present an original essay which was commissioned by the faculty advisory board of the Tocqueville Forum. Many will also present informal seminars while on campus. Utley encourages all members of the campus community to attend these events as well as the lectures.

In addition to directing the forum, Utley is conducting "Public Life and the Liberal Arts," a course which runs in conjunction with the forum. There are also two evening courses being offered to members of the university by a faculty of professors from Wake Forest and other institutions to the community. Approximately 300 people are enrolled in these courses. The forum will begin with a course organized by the Wake Forest faculty advisor, followed by the speaker from the Tocqueville Forum, and then other faculty members who will discuss the subject during the semester. "The forum is important for us to examine the issues," said Utley. "We try to find alternative approaches to the topic and who encourage students to look beyond the traditional political science of the American Founding and the Constitution. Utley hopes to continue the speakers' central claim that the Constitution represents "a code of the ages" through careful analysis of their guiding principles.

The institutions formed by the U.S. Constitution, such as the presidency and Congress, will be the subject of the 1999 forum. This study will include the events after 1789 which have fundamentally altered the political map of the country, such as the creation of the party system and the New Deal, and their effects on those institutions.

Post-constitutions, an all-parties system which would unite all parties and not continue with the political science of the American Constitution. We propose to present a faculty advisory board of the Tocqueville Forum for a three-year period, consisting of a series of courses which will explore the political science of the American Constitution. Our goal is to establish a new center of excellence in the political science of the American Constitution. We propose to present a faculty advisory board of the Tocqueville Forum for a three-year period, consisting of a series of courses which will explore the political science of the American Constitution. Our goal is to establish a new center of excellence in the political science of the American Constitution.

To he blend of sessions at Wake Forest. Each will present an original essay which was commissioned by the faculty advisory board of the Tocqueville Forum. Many will also present informal seminars while on campus. Utley encourages all members of the campus community to attend these events as well as the lectures.

In addition to directing the forum, Utley is conducting "Public Life and the Liberal Arts," a course which runs in conjunction with the forum. There are also two evening courses being offered to members of the university by a faculty of professors from Wake Forest and other institutions to the community. Approximately 300 people are enrolled in these courses. The forum will begin with a course organized by the Wake Forest faculty advisor, followed by the speaker from the Tocqueville Forum, and then other faculty members who will discuss the subject during the semester. "The forum is important for us to examine the issues," said Utley. "We try to find alternative approaches to the topic and who encourage students to look beyond the traditional political science of the American Constitution. Utley hopes to continue the speakers' central claim that the Constitution represents "a code of the ages" through careful analysis of their guiding principles.

The institutions formed by the U.S. Constitution, such as the presidency and Congress, will be the subject of the 1999 forum. This study will include the events after 1789 which have fundamentally altered the political map of the country, such as the creation of the party system and the New Deal, and their effects on those institutions.

Post-constitutions, an all-parties system which would unite all parties and not continue with the political science of the American Constitution. Romantics Rock Baity’s

By TEREZA TASHOY

Leon Friday, Baity’s Buckhead was no place to celebrate Valentine’s Day. The Buckhead was hosting a dinner and dance with a special guest, Country singer Travis Tritt. When asked what he liked about the Buckhead, Travis Tritt said, "The Buckhead is a great place to celebrate Valentine’s Day. I love the atmosphere and the food is delicious." Despite the rigorous travel schedule, Tritt gave an interview about his upcoming tour and the release of his new album.

Leon’s Cafe: Nostalgia at its Finest

By RICHARD SAMET

Every day there is a new restaurant in Atlanta that opens its doors to the public. Many of them fail because they cannot attract customers. However, there are a few restaurants that have managed to stay in business for a long time. One of them is Leon’s Cafe. "Leon’s Cafe has been serving its customers for over 30 years," said a customer who has been a regular. "The food is great and the service is always friendly." The cafe was first opened in 1986 and has been a favorite spot for many Atlantans.

Variety

The American family is the cornerstone of our institutions. Bud Yorkin's film which explores the effects of the breakup of a marriage as well as the pain and growth which accompany it, is perhaps the most realistic look at the American family as it is best . . . and worst.

Dionne Warwick's "Twice in a Lifetime" allows us to watch for a few brief minutes as she leapt onto a man who sang to her mother, who, even after all those years, never spoke to her father.

Harry is a funny, fervent protection of his mother, who, when he is grown up, will not let her mother. But Bette Davis, who, even after all those years, never speaks to her husband Keith (Stephen Lang) when he tells her that "Don't get a chance!" Bette Davis is a woman who can act for her mother and confide in her father.

"Twice in a Lifetime" allows us to watch for a few brief minutes as she leapt onto a man who sang to her mother, who, after all those years, never speaks to her father.

Harry is soon spending every spare minute with Audrey and they try to decide how to end his marriage to a quiet but insecure young man named Tim. We see him take it, she simply asks, "How did you know?"

Students Choose Business Majors

(275) - College students are fo-
tured to major in computer science and pursue computing careers that have been expanded by recent developments in computing technology. The proportion of freshmen plan-
ning to major in computer science and pursuing careers in computing has expanded by 16 percent in just two years. Only 4.4 percent of the Class of 1989 aspire to be computer pro-
grammers or analysts, compared to 6.1 percent last year and 6.0 percent in 1988. Declining interest in computing careers parallels declining interest in engineering. The percent of respondents planning to pursue engineering careers has dropped by 28 percent in just two years. "Taken together, these decline in student interest in technological careers stands in stark contrast to the growing national concern for in-
creasing technological capability in our schools and colleges," said the

Drama

The intensity and suspense of the stage scenes. According to the epic style, that is its purpose. Similarly, slides projected on the wall, mixing the elements of natural science and political economy, reinforce the realism of the ghastly crime, and seriously limit the power of the scene. Possibilities of surprise to major in computer science, as a career.

**Sports**

**Old Gold and Black**

**Walkoff Nips Deacons**

**By CHAD KILBREED**

North Carolina State, after trailing 17-0 to Wake Forest, saw its nine-game winning streak come to an end in Raleigh Friday night. The Deacons took their first lead of the season late in the first half, then went on to a 78-66 victory over the Demon Deacons by scoring on consecutive free throws down the stretch.

The Demon Deacons, combining a driving attack and strong defense, continued their strong play down the stretch. Wake Forest, which was struggling for its ninth consecutive game, was unable to find the right mix of offense and defense to pull away.

North Carolina State's 19-year-old senior point guard Collin Smith led the Wolfpack with 18 points. His performance was critical in helping the team take control of the game.

**Collins Is Key to Success**

**By TIM GONNERT**

For Lady Deacon basketball player Jenny Collins, winning the ACC Player of the Year award means more than just the recognition of her hard work and dedication. It's a testament to her leadership and confidence on the court.

Collins is a senior forward who has been a consistent presence on the team for the past four years. Her leadership and strong work ethic have set an example for her teammates, inspiring them to work harder and strive for excellence.

**Walk-ons Are Curious Breed**

At Wake Forest, the amount of experience on the team is minimal. The team's second-year head coach, Denny Groh, recently welcomed the arrival of two new transfers who have significant experience under their belts.

**Cline Lends Experience to Youthful Stallions**

**By JAMIN D. WHITE**

Mark Cline, a junior basketball player at the University of North Carolina, is one of the team's most reliable players. His experience and leadership are valuable assets to the team.

Cline has played on several teams during his college career, including the University of Wisconsin and the University of Kentucky. His experience playing in big games has helped him become a valuable teammate.

**Terps Down Deacons in Battle For Cellar**

**By BAYNE VLEUGEL**

Sunday night, the Wake Forest Demon Deacons travelled to College Park, Maryland, to face the Maryland Terrapins. The Torps, led by senior forward Gillian Bock, were looking to end their four-game losing streak.

**Turpins**

**By BRET TURPIN**

At Pitt, the Demon Deacons were faced with a tough challenge against the Pitt Panthers. The Panthers, led by senior guard John Larkin, were looking to extend their winning streak.

**Run**

**By MARTY WYATT**

Track coach Joe Wren will use the Clemson track meet this weekend to evaluate his runners and prepare them for future competitions.

**Alpine Skiing**

**By JACOB H. WATSON**

The American Skiing team competed in the second day of the NCAA Championships, finishing 16th in the women's slalom and 17th in the men's slalom.
1500 weekly.

The game started slowly. Neither team scored for the first 10 minutes. The Jackets finally scored on a free throw by Sanchez, but it was 10-10 at the 13:05 mark.

The Jackets continued to dominate, building a 23-15 lead at the 9:30 mark. The Deacons scored the next five points, but the Jackets regained control and led 35-22 at the 5:30 mark. The Deacons cut the lead to 36-32 at the 3:30 mark, but the Jackets scored the next three points to take a 39-32 lead.

The lead ballooned to 46-32 at the 1:30 mark, and the Deacons never recovered. The final score was 50-32.

Senior Convos

To Raise

By SUSAN BRENT

On Wednesday this year, the student body will begin the challenge of the Class of 1994. The challenge is to raise $15,000 for the 1994 Scholarship Fund. This goal is to be reached by the Class of 1994, and it is the responsibility of the Class of 1994 to reach this goal.

This year's campaign will begin with a seminar on Saturday, March 11, at 2:00 pm in McCollum Center. This seminar will be led by Paul Moore, the director of the Office of Student Employment. The seminar will be followed by a workshop on how to write effective letters of support for the scholarship fund.

To receive more information on the senior convos, please contact the Office of Student Employment at 761-5279.
