Students protested segregation of lunch counter 20 years ago

TheStudent government loan program is out of order because the students have decided to take matters into their own hands. The students have decided to put a hold on the entire student body loan program. Because the students feel that the current system is unfair, they have decided to take control of the program. If the students are to pay back the loan within 20 years, the program will be abandoned.

** Defaults on student bank loan

Although the terms and civil rights issues continue to be debated, the federal government has imposed stricter regulations on student loans. The government believes that the current system of student loans is not working and is not helping the students. As a result, the government has decided to impose stricter regulations on the student loan program.

** The Berlin student government loan

The Berlin student government loan program has been a source of controversy for many years. The program has been criticized for being unfair to students and for not providing enough financial assistance. As a result, the Berlin student government has decided to take control of the program and make changes to ensure that it is fairer to all students.

** The treasurer's cooperatives could decrease demand in loans

The treasurer of the Berlin student government has proposed a new plan that could help to decrease the demand for student loans. The plan involves increasing the interest rate on student loans. This would make it less attractive for students to borrow money.

** Business change affects seniors

The changes in the business program have affected seniors in a number of ways. The students have been forced to change their course of study in order to complete their business major.

** Margaret Kerfoot

Margaret Kerfoot was one of the first students to take Economics 152. She was the first student to take the course and was one of the students who had taken Economics 152 concurrently with Marketing 221. The students were aware of the change requirements for the majors.

** Business majors were not affected by change

Although the students were concerned about the change, they were not affected by it. All business majors were not affected by the change in requirements for the majors.

** The students affected by the change were those that took Principles of Economics 152, although not necessarily in Economics 152

The students affected by the change were those that took Principles of Economics 152. They were not necessarily those that took Economics 152.

Jornalism lab opens

Chyanne Moore
weekly news
The 1153-D.O.
D. Rawley Journalism Laboratory now operates as the home of the English Department's journalism
base.
The laboratory is used by faculty and students who are
visiting from the English Department, Shirish Sau,
Journalism.

All seniors who are
interested and who
desire to participate in the
English Department's
journalism office, this
semester, may
audition.

Students are
encouraged to
submit a copy of
their work
immediately.

The student can view
his story on the screen
of the VDT. When he is
satisfied with his story,
the student hits a key
and the story is punched
in memory. The
computer then prints
the story on a punch card
that can then be fed into
the reader, which will
give the student and
producer a prompt out of
the story, thereby
allowing for editing.

Plans for the
laboratory began in the
spring of 1984 when
Robert Shaw
agreed to
Contribute
money for the
laboratory, which
is

A glimpse of these
erase corporate
sources, such as
advertisements
and newspapers,
will be given in the
laboratory along with
trained laboratory
front pages.

**Seminar aims at sophomores**

Anastasia Kavanagh

As an opening seminar for prospective students, the Office of Planning and Placement and the Department of Psychology recently sponsored a seminar to present the range of options available to students at Wake Forest.

Ralph T. Miller, director of the Office of Planning and Placement, Vicki Hissong, of Psychology, and Linda Youngblood, coordinator of academic services, are responsible for the seminar.

Correction

**The Chapel in the Woods**

For the benefit of those interested in attending the seminar on Creating and Reaching the Campus Community, held in Reynolda Manor on the evening of October 28, the following correction is necessary:

During the seminar the final copy for the booklet will be distributed to the students. Those who cannot attend the seminar can obtain a copy of the booklet by calling the Office of Planning and Placement at 724-7600.

**B&M Grill**

No room

The twentieth anniversary of the student demonstration by the Black Panthers should be a day of examination, not celebration.

Any progress in civil rights of the Negro in the last generation of the 70's appears to be in great jeopardy. The following are some examples of the integration of the 70's. Strides were taken in the '60s to eradicate discrimination by law. However, in the '70s, these gains simply voided the gains of the 60's segregation, all over the nation's schools, colleges and universities. The results have appeared to be all too apparent.

Blacks were trapped between a rock and the 500,000 police. The police stopped at the front of the black community in the 70's. For many Americans, it was the first time they saw the police, the armed guards, as protectors of the community. The black community's rights were protected.

The Baptist college that established the Baptist demonstration by the Black Panthers was the black community's lifeline. The college had established in the black community, because the police could not be trusted. The college was the only lifeline that the blacks had. The blacks in the community are all too apparent.

However, if outraged job discrimination is the result of why it is to 40 percent of black people and 30 or 40 percent of whites? Society now offers blacks the chance to compete, but whites still have the house advantage. The house advantage is not simply the economic advantage. Those without economic advantage or political influence in the community are the first to lose out of any program. We have found that it does not necessarily benefit the poor. Those with money are the first to benefit from any program.

Basic economic principles are applied with the same economic principles in every program. In 1980, approximately 80 percent of black students attending Wake Forest University were predominantly black. It is interesting to note that there is a trend toward淡化 its significance. What's really that partially black, what's really that partially black, what's really that partially black, what's really that partially black, what's really that partially black, what's really that partially black.

Blacks may find room in the black community, but their efforts are not enough to make a difference in the community. Their efforts are not enough to make a difference in the community. Their efforts are not enough to make a difference in the community. Their efforts are not enough to make a difference in the community. Their efforts are not enough to make a difference in the community.

Blacks may find room in the black community, but their efforts are not enough to make a difference in the community. Their efforts are not enough to make a difference in the community. Their efforts are not enough to make a difference in the community. Their efforts are not enough to make a difference in the community. Their efforts are not enough to make a difference in the community.

Course aids reading rate

Victor Hastings

The speed-reading course offered by EDII is designed to teach students how to read more quickly and efficiently. Students are encouraged to practice reading for one hour each day and to write a short essay on what they have read. The course is based on the belief that reading for comprehension is more important than reading for speed.

"The key to improving reading speed is to become an active reader," said Hastings. "You should not only read what you are looking at, but also understand what you are reading."

For example, English majors benefit by learning to read more quickly, but this does not mean that they should read without understanding what they are reading." Students who read more quickly tend to make fewer mistakes and are able to understand their reading more easily.

"The course is designed to help students develop a better understanding of their reading material," said Hastings. "Students learn how to read more quickly, but they also learn how to read more effectively."
George West

It was perfection. That's the word that comes to mind when thinking about George West. He was the epitome of perfection on the basketball court. From his jump shot to his defensive skills, West was a complete player. It was his determination and passion for the game that made him stand out. Whether it was scoring, passing, or defending, West was always at the top of his game. His dedication and hard work paid off, and he became one of the most successful players in the history of basketball. George West will always be remembered as one of the greatest basketball players of all time.

Interested in a Career in Health Administration?

The Duke Program in Health Administration is designed for the student's foremost graduate training courses leading to the professional degree of Master of Health Administration.

Duke graduates have gone on to careers in hospital and clinic management, consulting, health planning, insurance, medical center administration, and numerous federal and state government agencies. They now hold leadership positions in organizations throughout the country.

During the two-year Duke curriculum, Master's students gain practical and managerial accounting, quantitative methods, organizational theory, health economics, law, personnel systems, social dimensions of illness, health law and public policy, and field training in health institutions.

Ruggers wins big

Paul Bailey, Reserve for Wake Forest

The Wake Forest Rugby Club traveled to Davidson College Saturday afternoon and took a 24-7 victory over the Thundering Herd.

The game was held on the main campus of Davidson College.

The Wake Forest team consisted of 12 players, including three reserves.

Head Coach Steve Greybeal said he was pleased with the team's performance, especially in defense.

Home run king to give lecture in Wait Chapel

By Mario Beavers

Hank Aaron will speak at the annual College Crisis games in a 3:40 p.m. Sunday in Wait Chapel.

Aaron, who is a management position for the Atlanta Braves and the starting pros are for the very out of reachable for the average college student.

The second half of the parcours is a great way to get in balance. Advance you money on your pizza. And it will give you.
