Students Form Group to Demonstrate Support for Troops in Gulf

Founder's Day Convocation Goes on as Planned, Despite Wicker's Absence

Greek Representatives Trained as ‘Guards’ for Their Groups
Committee Examines American Studies Minor

By Eric Williams

Addressing the students in its presen-
tative meeting, a faculty committee is in the process of discussing the American studies minor.

Brock, who said he had not read the report, also said that he was very interested in the minor and would like to see it approved.

The committee is composed of four professors: Charles R. Harmon of the English department, who chairs the committee; Barbara J. Mauk, a professor of history; and Dan S. Wiersma, a professor of political science.

The task of American studies is to understand... what Americans are and have been.

"Teach America" Recruiters Visit

By Alcinda Farrow

A recruiter with a national teaching corps speaks to members of the school's English and history departments.

The recruiter, who was not identified, was one of several recruiters who visited the school earlier this week.

The recruiter began by saying that she had been working with Teach America for five years and that she was there to talk to the faculty about the opportunities available through the program.

She then explained the benefits of joining Teach America, including the opportunity to teach in urban and rural areas, the chance to work with diverse populations, and the opportunity to make a difference in the lives of those who are less fortunate.

She also mentioned the financial benefits of the program, such as the stipend and health insurance.

The recruiter then went on to explain the application process, including the requirements for joining Teach America and the steps necessary to become a recruiter.

She also said that the program is open to anyone who is interested in teaching and who meets the qualifications, regardless of their educational background.

She concluded by answering any questions that the faculty members had and emphasizing the importance of diversity in the classroom.

Graduate from Class of '59 Named Director of Institute

By Bob Money

Philip A. McGinnis, a member of the class of '59, was named the director of the Institute for American Studies Minor.

He received his degree from Wake Forest in 1959 and has held several positions at the University, including assistant professor of history, associate professor of history, and dean of the College.

He is also a member of the Wake Forest President's Council and the Wake Forest Board of Visitors.

McGinnis said that he was excited to be named director of the Institute and that he is looking forward to working with the students and faculty.

He added that he is committed to ensuring that the Institute remains a vital part of the Wake Forest community and that it continues to serve as a valuable resource for students and faculty.
SG Approves
Appointments On Tuesday

By KATHY BARNES

Student Legislator approved several legislative appointments this week, including Speaker Michelle Bowers, Student Senate Vice President Craig Casper, Speaker Anthony Thompson, Speaker Anthony Thompson, and Student Senate President Robert Butler.

Student Senate President Andrew Barefield, who is also a member of the Student Senate, was appointed to the SAA Executive Board. The SAA Executive Board consists of the President, Vice President, and Secretary of the Student Senate.

The Student Senate also approved two new bills. The first bill, which was introduced by Speaker Michelle Bowers, would increase the amount of money allocated to the Student Senate for travel and registration fees. The second bill, which was introduced by Speaker Anthony Thompson, would create a new position for a Student Senate liaison to the University Senate.

Convocation

From Page 1

Convocation will begin at 4:00 p.m. in the Alumni Recreation Center on Saturday, April 1. The convocation will feature speeches by President James D. Zopp, who will deliver the keynote address, and President Margaret H. Hearn, who will present the annual convocation address. The convocation will also feature music performed by the Wake Forest University Chorale and the Wake Forest University Wind Ensemble.

Awards

Several awards will be presented during the convocation. The outstanding student award will be presented to a member of the senior class, and the outstanding faculty member award will be presented to a member of the faculty. The Distinguished Alumnus Award will be presented to a member of the alumni association. The Outstanding Student Award will be presented to a member of the student body.

**Seven Killed in Friendly Fire**

IRAQ—Seven Americans were killed in a ground engagement on the Kuwaiti border Tuesday. The deaths were caused by a friendly fire incident from a United States plane during an extensive furnace battle.

The Marines were contracted by DOD to attack Iraq, trying to cross the border into Kuwait. They were ordered and executed, and a search continues for the others.

Air Force officials announced that three U.S. aircraft went down, including a B-52 bomber. Three of the six crew members of the bomber were rescued and a search continues for the others.

American planes spotted three United States Marines were killed during ground operations near the Kuwaiti border Tuesday.

**Bush Rules Out Draft**

WASHINGTON, D.C.—President George Bush said Tuesday that the U.S. military is not planning to draft the nation's young men and women.

Bush added that the decision was made to avoid the public backlash that would be inevitable if the policy were changed. A major draft could deal a political blow to Bush, who is seeking re-election in 1992.

**Bank Overhaul Proposed**

WASHINGTON, D.C.—The Bush administration today proposed legislation that would overhaul the United States financial system. The plan was designed to modernize the financial system and make it more competitive with the world economy. The legislation would also provide for increased regulation and supervision of banks and thrift institutions.

The plan calls for a number of reforms, including the creation of a new federal banking regulator, the elimination of the Glass-Steagall Act, and the creation of a new federal deposit insurance fund.

The legislation was introduced in both the House and Senate, and is expected to be debated in the coming weeks.

**SECURITY BEAT**

**Anton Targeted By Thieves**

Five Jay-Jay vehicles were broken into between Jan. 31 and Feb. 4. Thieves unsuccessfully attempted to remove the executive's private office and student's dormitory, but they did use audio cassettes, video, sports equipment, phones and an amphotin, sold at a total of $1,850.

Three of the vehicles were parked in Lot Q, two in Lot C, and the fourth was on West Road near the equestrian area. Thieves gained entry to the vehicles by unlocking them with keyless ignition.

In unrelated incidents, side-view mirrors were clipped off two automobiles parked in Lot N, near the library. The vehicles were unoccupied.

Someone broke into university security's impounded car lot between Jan. 30 and 31, but no damage or thefts were reported.

A front wheel valued at $500 was stolen from a parked motorcycle and student's dormitory in Tower House between Jan. 24 and 25.

Five lockers were broken into in Lot 30 at the Turf, resulting in the theft of $70.

In another incident, a student's dormitory was broken into between Jan. 31 and Feb. 3, thee vehicles were unoccupied.

**Trustees From Page 1**

The university's need-blind admissions policy ... continues. The added goals of diversifying the student body and maintaining financial aid for students from North Carolina students... continues. The goal is to maintain... for students from North Carolina.

Trustee Thomas K. House, Jr., said the trustees realize middle-class students will feel the burden of the tuition increases. However, he said the trustees... for middle-class students who... do not qualify for financial aid.

**February is Black History Month**

A large collection of appropriate titles is on display at The College Bookstore.

University stores "On The Campus" are owned and operated by the university for the convenience of students, faculty, and staff.

Study Examines Substance Abuse

A new five-year study will focus on the effects of substance abuse prevention programs on the use of drugs and alcohol by middle school students.

The National Institute on Drug Abuse (NIDA) is funding the $1.5 million study, with William B. Hanson, an associate professor of public health sciences at the University of Wisconsin-Milwaukee, leading the research team.

Hanson will analyze those program's impact on drug use and the beliefs of 12,500 students in 13 Public School districts.

The study will entitled "Effective School-Based Strategies for Prevention of Substance Abuse," will directly measure changes that will result from the implementation of the programs in drug abuse. Although it only analyzes changes due to the programs, it will include data from a wider range of schools to provide a broader perspective.

"Historically, the question 'What makes an effective substance abuse prevention program?' is not an easy question,' Hanson said.

"This study will help identify factors that contribute to the success of drug abuse prevention programs," he said.

In the study, researchers will evaluate the effectiveness of different types of drug prevention programs, including those that provide education, counseling, or both.

Researchers will also track the impact of the programs on the beliefs of students, including their attitudes toward drug use.

The study's findings will help educators and policymakers understand how best to prevent substance abuse among middle school students.
Rubber-Stamp Board "Lacks Responsibility"

In previous years criticism has been levied at the University Board of Trustees for their role in the annual tuition increase. However, credit for their actions does not lie solely with the trustees but equally to our friends in Reynolda Hall. In past years the trustees have not only failed but have actually been trigger-happy to increase tuition. The Board of Trustees.

As a result, the trustees met last Friday morning to approve any plan the administration put in front of them. They even upped the cost of attendance three times a year. But perhaps it is not relevant to their actions. After all, the role of trustees is not exactly middle class. They have been minor contributors approximating 1% of annual tuition increases. Small contributions from small-minded benefactors. In fact, students would seem to approve of the Board of Trustees' actions.

Perhaps we should take the attitude of those other trustees, for they know not what they do. After all, the Board of Trustees is not exactly middle class. They have been minor contributors approximating 1% of annual tuition increases. Small contributions from small-minded benefactors. In fact, students would seem to approve of the Board of Trustees' actions.

Abortion Creates Too Many Problems to Be a Solution

Stella Clinic
Student Columnist

The theory of a woman's right to be sovereign over her body is not new. The popularization of abortion in the U.S. dates back to the 1960s. The theory originated in the 19th century, when women fought for the right to control their own bodies. However, the legal and social acceptance of abortion has been slow and fraught with controversy.

Beaumont Vance
Student Columnist

There are several reasons why abortion is an important issue. First, it is a matter of personal freedom. Women should have the right to choose whether or not to carry a pregnancy to term. Second, it is a matter of health care. Abortion is a safe and effective procedure that can prevent serious health problems for both the mother and the fetus. Third, it is a matter of economic security. Abortion can provide women with the opportunity to pursue Education and career goals.

Jeff Charapan

War and Peace

The Gulf War of 1990-1991, which many people consider the first "real" war of the modern age, was marked by a new level of violence. The use of precision-guided munitions and other technologies allowed armies to strike targets with greater accuracy and less collateral damage. However, the human cost was still high, with over 100,000 deaths on all sides.

6. First of all, no one can assume that tactical nuclear weapons are as common in warfare as the mass murder in Iraq. These weapons have the potential to destroy entire cities and end lives on a massive scale. It is essential that they be prohibited.
7. Second, the use of these weapons is not inevitable. There are alternatives, such as surgical strikes and targeted assassinations, that can be just as effective and less dangerous.
8. Third, the use of these weapons is not necessary. There are other means of achieving political goals, such as economic sanctions and diplomatic pressure.
9. Fourth, the use of these weapons is not justifiable. The human cost is too great.
10. Finally, the use of these weapons is not sustainable. The world cannot afford the consequences of continued nuclear proliferation.

WAKE FOREST STUDENTS DISCUSSED CASH'S BOOK AMIDST CAMPUST EVENTS

BY KELLY GREENE

WAKE Forest played a pivotal role in the world of politics and philanthropy in the 1940s. With the resignation of President Gray, this student body was left to determine their course of action. The Wake Forest College, still(array added)

The medical school moved to the old Gray School of Medicine in May 1941. The campus now housed the medical school, and the old Gray School was donated by a local to the state for educational purposes. The medical school remained there until 1947, when it moved to its current location. This student body was also attentive to the athletics events. The Wake Forest College (wake) maintained its championship status in football. In 1941, the Wake Forest Demon Deacons won the Southern Conference championship, defeating the University of North Carolina in the final game. This victory solidified Wake Forest's reputation as a football powerhouse.

The Old Gold and Black reported in every phase of life that occurred on the Wake Forest College campus. This included news of the students, faculty, and alumni. The school newspaper, the WACO, published articles on a wide range of topics, from academic achievements to social events. The Old Gold and Black also published a weekly bulletin, the Wake Forest Register, which included news of local and national events.

The Wake Forest College campus was the center of the old campus and on a smaller campus that included a smaller chapel. The original campus of Wake Forest College remained constant throughout construction. The campus interest in the book—daily routine, campus activities, and the new buildings—was not affected by the uncertain future. During this time, freshmen, badges on lapel, handbooks in hand, learned "Here's to Wake Forest." Students were already fighting with the W.J. Cash, associate editor of the Charlotte Observer, about the future of the South. But the dizzying social life of the Wake Forest College remained constant —construction. The student's life centered around the campus and its activities. The student body, including the faculty and alumni, remained interested in the campus and its events.

The student body was also interested in the book "The Mind of the South," by W. J. Cash. Cash was a journalist and writer who had previously worked for the Charlotte Observer. Cash's book was published in 1941 and was a major work on the history and culture of the South. The book was widely read and discussed on the Wake Forest College campus. The book was also a major inspiration for the students of the time, who were interested in the future of the South and the role of the South in American politics.

**NCAA Tournament Fever? This Weekend May Tell The Story**

By Rob Blake

**Sports**

Finch, February 8, 1989

While Wake Forest fans have been busy cheering on their Demon Deacons basketball team, the Wake Forest women's tennis team has been doing well too. This weekend the Demon Deacons have a couple of important ACC matches that could help determine their NCAA tournament fate.

The Demon Deacons will travel to Chapel Hill to face Duke on Friday and to Wake Forest to face Virginia on Saturday.

The Demon Deacons are currently in third place in the ACC standings, with a record of 7-3. A win over Duke and a victory over the Cavaliers would give the Demon Deacons a 9-3 record, which would likely clinch them a spot in the NCAA tournament.

On the other hand, a loss to either Duke or Virginia would drop the Demon Deacons to 7-5, which would make it more difficult for them to qualify for the NCAA tournament.

The Demon Deacons will need to win both matches this weekend to have a chance at securing a spot in the NCAA tournament. But even if they lose one, they still have a chance if they can win their remaining ACC matches.

The Demon Deacons have had a strong season so far, with a record of 17-6. They have won five out of their last six ACC matches.

If the Demon Deacons can win both matches this weekend, they will likely be in a good position to make the NCAA tournament. But if they lose both, they will need to win the remaining three ACC matches to have a chance at qualification.

Fans of the Demon Deacons should be aware that the NCAA tournament selection committee looks at a team's overall record, conference record, and performance in the ACC tournament when deciding who will make the NCAA tournament.

The Demon Deacons currently have a 7-3 record in the ACC, which is good enough to make them competitive for an NCAA tournament berth. But they need to win their remaining ACC matches to have a better chance of qualification.

So, this weekend's ACC matches could be crucial for the Demon Deacons. A win over Duke and Virginia would definitely be a big boost for their NCAA tournament chances.

On the other hand, a loss to either team would make it more difficult for the Demon Deacons to qualify for the NCAA tournament. But they still have a chance if they can win their remaining ACC matches.

Regardless of the outcome of this weekend's matches, the Demon Deacons have had a strong season so far and have a good chance of making the NCAA tournament. But they need to win their remaining ACC matches to have a better chance of qualification.

Fans of the Demon Deacons should be excited about this weekend's matches and the possibility of their team making the NCAA tournament. But they should also be patient and supportive, as college tennis is a sport that takes a lot of hard work and dedication.

The Demon Deacons have a bright future ahead of them, and with the right attitude and effort, they could make a deep run in the NCAA tournament. So, let's cheer them on this weekend and see what the future brings for the Demon Deacons.
Mitchell Has Sights Set on Records as Her Winds Down

By Jo Ann Price

When the Wake Forest women's basketball team defeated Virginia Tech 97-91 in overtime on February 8, senior forward Cheryl Mitchell said she is coming to terms with the idea that she won't be able to pass The Yellow Jackets lead in points for each contest, has a chance to pass the team.

The Yellow Jackets, despite a late rally, are still left in the game. The Demon Deacons (13-8 in the Atlantic Coast Conference) stormed back from a six-point halftime deficit on the way to winning the game against Virginia Tech. The Yellow Jackets (15-6) were limited to 33 points and trailed only 33-32 at half-time.

The Demon Deacons (13-8) scored 50 points in the second half to win the game. They led on April 15, 1991.

The key for the Demon Deacons was senior forward Cheryl Mitchell, who scored 24 points and 12 rebounds.

The game was held in the Cameron Indoor Stadium on the campus of Duke University.

Duke-Wake Forest Basketball

by Cheryl Mitchell

Wake Forest was not surprised to con- cerns about the team's chemistry, saying that the team has worked hard to improve.

Wake Forest, which has had its share of ups and downs, has been able to put together a solid season despite the early loss to Georgia Tech.

There was talk earlier in the season that the team's chemistry was in question, but head coach Danita Kastendiek said that the team has worked hard to improve.

The West Pointer's senior night began the season's third game against Virginia, and was characterized by a tense, emotional atmosphere. After falling behind early in the game, the Leopardsottered hard to keep up with the Cavaliers in the final quarter. Despite the loss, both teams showed great sportsmanship and respect towards each other.

Meanwhile, the Greensboro High Point Marriott is holding a job fair on February 3, 1991, offering positions in Management, Professional Sales, Insurance Administration, and many more. Interested individuals are encouraged to attend. The job fair will run from 8:30 a.m. to 4:00 p.m.

**Benson Center Needs You!** Positions Open for Part-time catering service wait staff. Weekly wages, plus service fees, plus meals provided, flexible hours. Interested, contact Dawn Alkens in service area of Multipurpose Room in Benson 402, phone 759-5157, or Dee Phillips at 759-5610.

ARTS AND ENTERTAINMENT

Chicago Pro Musica
Entertains, Educates

BY JAMIE VACSON

The Winds is a combination of brass, woodwinds and strings that performs music of every style and period, from the baroque to the romantic. The group's director is John Bruce, who is also the conductor of the school's orchestra. The Winds is currently composed of 12 members, including several students from the music school. The group performs frequently throughout the year, and its concerts are always well-received. The Winds is known for its high level of professionalism and its ability to convey the emotions of the music it performs. Its concerts are a must-see for any music lover.

Beginning Actors Perform Well in Thought-Provoking Lab Shows

BY JULIE BOWEN

Lena was actually fine. The method was sometimes screamingly funny, sometimes paral-lel, but always a learning tool. And judging from the posture of the performers, the Worm's seed was not yet sown. In 2005, this would have been exactly as it was at the moment of the performance. The performances of the group members did not need to beCfre from their rich inner lives, since their expression was almost always contained. The performers, whether playing the leading roles or the supporting characters, were all capable of conveying a wide range of emotions. The group was unlike any other that the audience had ever experienced.

Dreyfuss, Hunter Team Works Second Time 'Round

BY PAT BEAUCHAMP

I'm very happy with our efforts in this past weekend's performance. The group is really working well together, and I think we've made some great progress. The members have been very receptive to my guidance, and I'm confident that we'll continue to improve in the future. The upcoming performance is going to be a great opportunity for us to showcase our progress and continue to grow as a team.

and education for years, and she was chosen by a single panel of the South Carolina Department of Health and Environmental Control for the job.

As usual, the players handled the piece well, and it was a joy to hear every note with precision and without a flaw.

Following intermission the group played a few encores, including “The Boy from the Bar,” “The Sailor’s Hornpipe,” and “The Chief.”

The next section of the program was devoted to African music and dance. The rhythm and energy of the African drummers and dancers were captivating.

This was followed by a short presentation of modern dance, which contrasted with the traditional music and dance.

The evening ended with a rendition of “Jingle Bells,” sung by the entire ensemble.

Overall, it was a memorable and enjoyable evening of music and dance. The audience was enthusiastic, and the group’s performance was highly praised.
COLLEGE HORSCOPE

Joyce Jiltson

11th-17th February

There’s a need to think logically about your current situation. A change that brings you a new opportunity should be considered. Your feelings may be clouded, but you should try to analyze your situation carefully. Make sure you’re not overlooking any important factors. Communication is key in resolving any issues that may arise.

LIBRA (Sept. 23-Oct. 22)
- Communication is crucial in achieving success. Make sure you’re clear and concise in your dealings. A problem may arise due to miscommunication, but it can be resolved with effective dialogue.
- A period of change may be on the horizon. Be prepared to adapt to new situations and embrace new opportunities.

ARIES (Mar. 21-Apr. 19)
- Express your emotions in a healthy and constructive way. Venting your frustrations can be therapeutic. However, be mindful of your mannerisms and avoid causing unnecessary conflict.
- A new beginning may be on the horizon. Take advantage of this opportunity to start fresh and pursue new goals.

SAGITTARIUS (Nov. 22-Dec. 21)
- A period of travel or relocation may be in your future. Consider the benefits and drawbacks of moving to a new location. Be open to new experiences and opportunities.
- A period of change may be on the horizon. Be prepared to adapt to new situations and embrace new opportunities.

VOLUME N

Few Things Equal Answering a Few Questions

You understand that if you don’t answer a question and/or administrate the following opinions, the whole opinion will be deleted.

1. The president is: [ ] a) a charismatic leader with a natural ability to lead the country. [ ] b) a competent executive with a proven track record. [ ] c) a visionary with a clear plan for the future.

2. In your opinion, is the current administration doing a good job or bad job?

3. What is the most important issue facing the country today?

APART

BY BEATRICE K.

April 20

On April 20, 1986, the world was shocked when the Chernobyl Nuclear Power Plant suffered a catastrophic explosion. In the days following the disaster, millions around the world were left wondering what had happened and how such an accident could have occurred. Today, as we commemorate the 35th anniversary of this tragedy, we are reminded of the importance of safety in the nuclear industry and the need for continued vigilance in preventing similar accidents.

VOLUME M

Hit a Wall

A study released last month found that the number of U.S. adults who have ever used illegal substances has increased significantly over the past decade. The study, conducted by the University of Michigan’s Monitoring the Future project, found that 30% of high school seniors reported using marijuana in the past year, up from 20% in 2010. The increase in drug use among teenagers is a concern for parents and educators, who are working to find effective ways to prevent and treat substance abuse.

Old School

The South and North Building Center advises that the community is encouraged to attend the upcoming meeting of the Old School Board. The meeting is scheduled for next Monday at 7 p.m. in the Great Hall of the School Building Center. The Old School Board is responsible for the maintenance and operation of the Old School, which is a historic site located in the heart of the community. The Old School Board is seeking input from the community on ways to improve the school and preserve its heritage.
