Study Programs Recommended for Conversion of Societies to National Sororities

By Roby Lance

The Greek Women's Expansion Study, which was com-
pleted last fall, indicates that the university's Student
life office can make the recommendation that the
Women's Expansion Study, which conducts a survey of
women's issues and community service; academic support
and scholarship programs; and preprofessional training
and career development.

The study's findings also suggest that in some cases
women's groups may be better served by forming a
national sorority. The study's findings also suggest that
in some cases women's groups may be better served by
forming a national sorority.

Fraternities Extend Spring Bids

By Lawrence Jordan

The Fraternity Spring Bidding is this weekend, as more than 1,000 students register for the 216 registered national fraternities. A total of 103 Sigma Pi, 28 Chi Omega, 12 Sigma Nu, 10 Chi Psi, 10 Delta Sigma Phi, 7 Kappa Alpha, 6 Alpha Phi Alpha, 5 Delta Kappa, 3 Alpha Epsilon Phi, 3 Delta Tau Delta, 2 Alpha Phi Alpha, 1 Delta Sigma Theta, 1 Delta Upsilon, and 1 Delta Tau Delta were among the fraternities who were extended the bids.

Spring Rush, 1990

New York, Fleming said she believes black students should concentrate more on making students diversity, rather than simply numeric. rape. They believe that the curriculum should be expanded to her peers, rather than simply numeric. The curriculum should be expanded to

Author Jacqueline Fleming Shares Insight on Frustrations Blacks Face in College

By Stephanie Spriesters Cup Enhance

"What it to me is the social environ- ment of the school," said Jacqueline Fleming, the mother of the black College. "Whereby you can see the whole inter­ nalization of the social system." Fleming said, "As a visiting scholar at the Peace Corps, I have seen the whole inter­ nalization of the social system. Fleming said, "As a visiting scholar at the Peace Corps, I have seen the whole inter­ nalization of the social system. **Babbuck Hosts Lecture Series**  
Campus Choral director and vice president of artistic planning and business development for Classical/Choral Collections of Eastman, Vivian Babbuck will be the first speaker in the color workshop series at the Babbuck School of Management Leadership Series. The next speaker in the series will be Stephen W. DePauw, Jr., a vice president of Ramo Eastman, Inc. and the president of the American Choral Directors Association. The workshop will be on "Public and Private Environ­ments" at 11:30 a.m. Feb. 10 in the Constructors.

**London Applications Due Thurs.**  
The application deadline for the spring semester in London program is Feb. 15. Students will need to submit their applications to the academic dean's office. Applications can be submitted in Scalise Arts Center, Room 208. Wake Forest will post the names of the 10 recipients and 4 alternates by March 15.

**Relaxation Group Meets Weekly**  
A group for relaxation, stress reduction and improving communication will meet at 3 p.m. each Thursday beginning next week. Students may attend regularly or sit in on single sessions.

---

**Campus News**

---

**Satellite Houses To Hold Meeting**  
The satellite houses council will hold an open meeting at 10:30 p.m. Feb. 12 in the student center. The council meets to discuss various issues on campus.

---

**Students Asked to Stay Off Track**  
The new track behind Reynolda Gymnasium will be open to students to run in the campus later this year. The track will be managed by us, and will be a safe training area. Construction officials have not set a date for construction due to bad weather conditions.

---

**Board of Trustees Honors Four**  
The university's board of trustees recently honored four alumni for their outstanding work in the Wake Forest-Greensboro Center Conference. The honorees were honored for their contributions to the community. The honorees were:

cannot be too strictly enforced. The
new committee, the public
safety officers. The board
was told to form a
Student Garden Committee
which includes
President Aaron Christensen
of the John H. Bunting
Library.

Stafford said that the
NPC groups would
not be a part of the
new committee, the
security officers.

The study recommends that
any group interested in forming
campus life committees should
follow NPC traditions and
everything local and
national standards set by
the NPC.

The study also
noted that
security would change
the group's focus and
be more focused
on diversity and inclusion.

In the end, the
committee agreed
that the NPC groups
should continue
their work and
maintain the same
values and practices.

One member of the
committee said that
the NPC groups
would continue
their work and
maintain the same
values and practices.

The study concludes
that the NPC groups
have a positive
impact on campus life
and should be encouraged
to continue their work.

In conclusion, the
committee agreed
that the NPC groups
should continue
their work and
maintain the same
values and practices.

The study concludes
that the NPC groups
have a positive
impact on campus life
and should be encouraged
to continue their work.

In the end, the
committee agreed
that the NPC groups
should continue
their work and
maintain the same
values and practices.

The study concludes
that the NPC groups
have a positive
impact on campus life
and should be encouraged
to continue their work.

In conclusion, the
committee agreed
that the NPC groups
should continue
their work and
maintain the same
values and practices.

The study concludes
that the NPC groups
have a positive
impact on campus life
and should be encouraged
to continue their work.

In the end, the
committee agreed
that the NPC groups
should continue
their work and
maintain the same
values and practices.

The study concludes
that the NPC groups
have a positive
impact on campus life
and should be encouraged
to continue their work.

In conclusion, the
committee agreed
that the NPC groups
should continue
their work and
maintain the same
values and practices.

The study concludes
that the NPC groups

Life and Housing.

Housemates have a right to broadcast their own preferences if the habit does not inconvenience others of their actions.

Women Guilty Too

"You can see me take a step back after the first time. It's my fault! Need a fund?" huh? Have you given your funds for the ceremonies, for the ceremonies, for the ceremonies, for having a better WFU experience, for having a better WFU experience, for having a better WFU experience. We have never had the power to take steps 10 times, but until we've got the support of all the students, we've got our students, the students, and the students. We're taking steps, and we're doing it for the future.

\[3.5 \text{ days} - (90 \% \text{ chance})\]

Women have not always been regarded as equal to men in society. Despite these challenges, women continue to prove their abilities and make contributions to various fields. They have played an integral role in shaping the world we live in today.

Cable Beneficial

I am writing in response to WtG/Cable's 'Editorial: "Cable Demons" (OLG&B, February 2, 1990). My name is a student and member of WtG/Cable. I would like to address the issues raised in the editorial.

We do know that cable television has a significant impact on our society. Much more than just entertainment, cable television offers a wide range of educational and civic programming to its viewers.

Epilogue

The issue of cable television is complex and multifaceted. It requires careful consideration and thoughtful deliberation to ensure that the benefits of cable television are realized while addressing any concerns or potential drawbacks. By engaging in open and constructive dialogue, we can work toward a balanced and equitable approach to cable television that meets the needs and values of our society.

The state of the Un.stion Address last week was the 107th, and it was the first time in which there was a woman in the room. She was speaking, of course, about the future of the country.

President Bush was born in 1941, the same year as the publication of "Sapien Superiority," which describes the evolution of humans from a species on the verge of extinction to a species that has dominated the planet.

The president's address was a call for action on several fronts, including climate change, education, and national security. He emphasized the importance of innovation and creativity in addressing these challenges.

"The state of the union is strong," Bush said. "We have made significant progress in reducing the deficit, and we are on the cusp of achieving energy independence.

"The education system is improving, and we are making great strides in fighting terrorism. But there is much more work to be done."
Special Educational Prices
47% to 53% OFF

Up to your ears?
Dig yourself out with a deal on an IBM PS/2.

Before you get snowed under with work this year, get an IBM Personal System 2.* Choose from five different packages of hardware and software—now at special low student prices. Each system comes with easy-to-use software loaded and ready to go! What's more, when you buy your PS/2, you get a mouse pad, a 3.5-inch diskette holder, and a power strip—all free. And that's not all. You're also entitled to a special low price on the PRODIGY service, too.

And aside from all this, three of the most popular IBM Printers are available at special low prices:

Don't get left out in the cold! Offer ends February 15, 1990. Come in today.

How're you going to do it? PS/2 it!

Offer ends soon.
For more informational call 721-4359

*This offer is limited to qualified students, faculty and staff who order an IBM PS/2 Model 8570-E61 through December 31, 1989. This offer is subject to change and withdrawal without notice at any time. IBM PS/2 and IBM are registered trademarks of International Business Machines Corporation.

PRODIGY is a registered service mark and trademark of Prodigy Services Company, a partnership of IBM, Deutsche Bank Edwards and other companies.
It's Not a Class, It's an Adventure

ROTC Cadets Take to the Woods to Train for Battle

By Kelly Gross

S

The students destroyed a simulated survival camp that was training third-world terrorists. They also tried to save a hostage when they entered the camp.

No. Stetson Lawrence, the assistant professor of military science who designed the exercise, said that the hostage was really American.

The two squads of cadets blew up the supply base, but failed to rescue the hostage.

Dennis R. M. Johnson, a junior cadet, said the cadets took four or five minutes of war while moving around the tent (unlike the "survival tent" on the market and the same number when they finally reached it).

"You can't always be anything wrong, but as long as your actions were right, the FTC is a success," he said.

Every junior unit set a squad on a mock hostage and was evaluated by senior officers. "Their actions were outstanding," the Senior Cadet Capt. Silas Bragg said.

"It's a success because they really understood the situation," Johnson said. "And you guys spread out over the most and minority everywhere.

"You can't fall too fast from the front," he said.

"We trained as hard as we could and trained as fast as we could," Bragg said. "We trained as fast as we could."

"I think things were not going to change," Johnson said. "But in this situation..."

Carden U.S. Sign Language

"This squad will not remain alone on the coast of the state," he said. "We trained as hard as we can."

But cadets are no longer trained with prisoners other than the ones they are practicing for.

The cadets trained in the open field, connecting 100 meters with the leader in the middle and a radio operator behind him. Legal said.

"You have to have some contact. You can never relax. But it is the FTC, some of this is happening.

"(at certain) camp, when you work with the same people do you get sick of them? But I think, Hey! This is working!"

"It's a success," Bragg said, "but people really understand the importance of communication. When we first got down, we were talking very well. But, "If we want to save this hostage, we have to be in a different situation, but if we want to save people, we have to be in this situation to save people."

The cadets are a new unit, with the majority of them being graduates of the academy the year the cadets are training.

"Everyday we're one big family as far as the people that work together," Johnson said. "We can't argue. We have to be in a different situation.

Squad Felt by Battle Situation

Downs said during their five hours in the field, the cadets carried several weapons each, including rifles, an M-14 rifle, and machine guns.

"You have to get down all the time on your knees with all this equipment, and it was really and ready. And we had to move as a team with a fluid above our head. The whole time was up and down, up and out," he said.

"In the end, minutes..." He had to move on his knees and often. It was really different from the classroom experience," he said. "But it was fast when we were ready to move.

Downs led the squad for three weeks of class, planning attacks and organizing supplies. During this time, he was a superior officer and had to move into the head of his squad so he could be identified," he said.

He was told to fly to the body, marked in location on his map and moved on.

"I'm sorry, I said the equipment, borrowed from the N.C. National Guard, was impressive even though it was not used during the exercise. "The military equipment was really loud, and we had red, green and yellow smoke for cover or aggression different things," he said.

ROTC Field Exercises

Starting at 6:30 a.m., Friday's cadets received their weapons and began to move up. Lawrence said all the cadets would have placed on a new area, which would meet their travel about 21 miles from their homes, and were called at 6 a.m. with orders to be at the armory on Blue Ridge Parkway to two hours.

They spent the night making plans and taking chances. "It takes time to make a transition from being a student to being a soldier," Lawrence said.

Bartusiak, a senior tactical officer, taught a course that night on how to employ a camouflage mines, bank or high explosives. At 6 a.m. (the cadets) went in their camouflages and, as he said.

Major Trainee Solver for the West

"It's a fake but we've been doing it since the FTC is a success," he said. "I think that the FTC has two to three variables in every situation. Where you can train and take a new idea."

"I think that the FTC was a success because we had a good idea how to train people."

"We can't take the time to go have a play," he said.

"We can't take the time to go have a play," he said.

The FTC was successful in training everyone to be a different place. "Sometimes guys don't want to be Army girls, especially when we are in basic camp two years ago.

"You should have to go twice as fast. But if the guys don't want to play, you just get on, because a bad attitude can be recognized in two years."

"We don't take the time to go have a play," he said.

"We have to make the FTC and the FTC really have to be realized because of the FTC leader realistic. Sometimes guys don't want to be Army girls, especially when we are in basic camp two years ago.

Men's Team Falls to Georgia Tech 79-70, Downs ODU 60-58

By Matt Smith

ATLANTA AND NORFOLK, Va. — The Wake Forest basketball team fell to Georgia Tech 79-70 Saturday in the top-ranked team's first ACC game of the season.

The Demon Deacons had a solid performance in the ACC opener. Despite the loss, they held a lead for much of the game. They played hard and fought back, but Georgia Tech was simply too much for them.

Sophomore Austin King, the Demon Deacons' leading scorer, finished the game with 21 points. He was one of four players who scored in double figures for Wake Forest.

To ACC Victories

Sophomore Austin Doles

Sophomore Austin Should Help WPU

To ACC Victories

By Lyndsey Rock

Air Wake Forest's talked team is trying to improve on last year's 15-20 mark, and one factor that has set him on an ACC Championship. "It's exciting to be a part of an ACC team," he said. "We have the ability to play at a high level and have the potential to win the conference."

Air Wake Forest's continued to hope for a better year this season. "We've been working hard in the off-season, and we're ready to take our game to the next level," he said.

Air Wake Forest's team is led by senior forward Austin Doles. He had a strong performance in the team's first ACC game.

Recovering Becomes Important Aspect of Building a Basketball Program

By Barry Blake

Rising senior forward Austin Doles and sophomore guard Brandon Massenburg were both named to the All-ACC second team this week.

Senior forward Austin Doles continued his strong play from last season. He is averaging 17 points and eight rebounds per game for the Demon Deacons.

Brandon Massenburg has also been a key contributor for Wake Forest. He is averaging 13 points and six rebounds per game.

Georgia Tech turns the ball over 15 times to Wake Forest's 12, but the Deacons struggled to convert those turnovers into points.

Despite the loss, Wake Forest showed flashes of potential. They outrebounded Georgia Tech 41-32 and outscored them in the paint 34-24.

Sophomore guard Austin Doles

From the Pressbox

By Russ Blake

It's not a question of how many basketball players last season, but how many basketball players are playing this season. The ACC has seen a decrease in the number of players on the floor in recent years.

According to Wake Forest's athletic director, recruiting in the ACC has been challenging. "There are fewer spots available, and there are more players in the pool," he said.

The Demon Deacons have five returning players from last season and are counting on those players to lead the team.

Senior forward Austin Doles and sophomore guard Brandon Massenburg are expected to be the leaders on the court.

"Austin and Brandon are both returning players with a lot of experience," said coach Joe Dooley. "They are key to our success this year."

Dooley has been working hard to build the program and attract top talent. "We have a lot of work to do, but we're excited about the future," he said.
Second-Half Surge Lifts N.C. State Past North Carolina 87-77

N.C. State took a big step forward in the ACC race by scoring 42-23 in the second half of the 77-55 victory over Maryland on Saturday. The Wolfpack needed a strong second half to keep the Terrapins at bay and to end the season with a win.

The Wolfpack's victory over Maryland was their third straight win in ACC play. N.C. State has now won six of their last seven ACC games, moving to 4-2 in the conference.

Maryland, on the other hand, dropped to 5-3 in ACC play. The Terrapins were led by Jordan McLaughlin with 19 points, but their offense struggled as they shot just 36.9% from the field.

N.C. State's offense was led by Shakeel Moore with 20 points and 12 rebounds. The Wolfpack also got a strong performance from Jay Myrick, who scored 17 points.

With the win, N.C. State moves to 10-10 overall and 4-2 in ACC play. Maryland falls to 14-9 overall and 5-3 in ACC play.

ماتو ينوتوتو سالمو.
Runner Seana Arnold Leaves School for Personal Reasons
By Chet Phillips
Wake Forest's All-American Seana Arnold withdrew from the basketball team and will not be with the Demon Deacons next season.
Arnold had no comment on her departure.
The sophomore won All-America honors and was named as a First Team choice in the United States Basketball Writers Association All-America voting. She was also the recipient of the Naismith Trophy, the first Demon Deacon ever to be honored by the organization.

Tech
From Page 10
"We followed with another three-pointer to put Georgia Tech up by 11, 55-48," Siracusa said. "Kirk followed with a long two-pointer to stretch our lead to 13, 58-48. We were trying to put the game out of reach in wake of a major foul." The Demon Deacons hit 45.3 percent of their shots in the game, compared to 42.9 percent for the Yellow Jackets. Georgia Tech shot 87 percent from the free-throw line for the game, compared to 61.8 percent by Wake Forest.

Austin
From Page 10
"Over Christmas, I hit with my dad, and lifestyle and weight are getting better," Decker said. "During the off-season, Austin concentrated on improving some specific aspects of his game. "I work on hitting the free-throw, and I work on the dribble and weapons," Decker said. "I work on my turns, and I work on my one-hand passes. And on my one-hand passes, I work on the dribble and doing everything that I can to help the team. I try to do anything that the coach asks me to do and overcome his doubts," Decker said. "I'm offensively superior to most other guard players. But the only thing is that we're not very good in the one-hand passes. But I work on everything that I can to help the team."

Cavs
From Page 10
30 Cavaliers scored 19 rebounds with a shorter jumper in the game. "We were 41-30 on the boards," Holmquist said. "We were able to get on the floor and get the rebounds." The Cavaliers' defense held Virginia to just 14 rebounds, the lowest total of the year for the Cavaliers. "Our defense was able to contain Virginia's offense all game," Holmquist said. "Virginia's defense has been good all year, but our defense was able to hold Virginia to just 14 rebounds."

Tournant
From Page 10
Adcock followed the lead and ended up with 23 points in the game, scoring on a follow-up shot off a missed layup by Jackson to put the Demon Deacons up 63-58. Tournant also added 12 rebounds and three assists for the game.

Recruiting
From Page 10
There were no stories to tell in the game at point guard when McQueen was forced to sit out the second half of the game. "I was sure of during the recruiting process," he said. "It's the only thing I can say for sure."

Boxing Out
Intraconference battles heated up this week at WPU as seen in the ring at Reynolds Gym.

Cast Doesn’t Rest, Performs Variety Show Nationwide

by Julie Beatrice

Muriel Sugden, the president of the Wake Forest University Anthropology Department, is very proud of the new exhibit that will open this month. Sugden, who is also a professor of anthropology, said, “We are very excited about this exhibit because it is the first of its kind in the country.” The exhibit is called “Cartoonists’ View: Anthropology,” and it features student-collected cartoons and the museum’s own collection of anthropological practices. The exhibit will be on display from now until September 15.

Sugden said that the exhibit is designed to give students an opportunity to express their views on anthropology in cartoon. “It was decided that this would be a good way to reach a younger audience,” she explained. “We wanted to make anthropology accessible and fun.”

The exhibit includes a wide range of cartoons, from humorous illustrations to more serious discussion of anthropological issues. Some of the cartoons depict anthropologists in action, while others show anthropological practices in a more abstract way. For example, there is one cartoon showing an anthropologist with a camera, while another shows a person with a map.

Sugden said that the exhibit is also a way to raise awareness of anthropology among the general public. “We hope that people will come to the museum and see the exhibit, and then go on to learn more about anthropology,” she said. “We want people to be inspired to pursue studies in anthropology.”

The exhibit is open to the public from now until September 15. Visitors can view the exhibit for free, but they are encouraged to make a donation to support the museum’s ongoing efforts.

The Museum of Anthropology, located in the center of thought and whatever, is open from 10 a.m. to 4 p.m. weekdays and from 11 a.m. to 3 p.m. on weekends. For more information, please call (336) 758-6216.
As the fourth annual Black Arts Gallery in 1990, the United States is known for a variety of visual and performing events during February and March. The festival is meant me to celebrate the contributions that local, regional and national black artists have made to American culture.

Today: The Shaw University Theatre Players will perform The African-American Experience And Are You For It? at the Auditorium, Greensboro College.

This musical and dramatic production, directed by Dr. Obama, takes on the issue of African American from an American perspective to contemporary America.

Cable television with poetry with music (for children) at the Gate. It’s convenient.

On the campus of the University of North Carolina at Greensboro, there will be the musical theater production of Spamalot at 8:15 p.m. Tickets are available at the box office.

On the campus of Old Gold and Black, there will be a musical review of the famous Elvis Presley’s life in Armstrong Hall, University of North Carolina at Greensboro.

After playing so many shows, Bobbi always does his group very nervous anyway. “When we first opened for business, it was great excitement. It is exciting to see a crowd of people live with the band. We don’t have a lot of experience. But when we play to a crowd of people live face to face with the people, it’s different.”

Currently though, things are working out fine. Bobbi has a band of people that he has been involved with for the last ten years. And they are current and good ones now. But we’re not used to it, it’s not the same. Bobbi said.

Bobbi, who is a Biology/Chemistry double major, was the university’s only student and was the Alumni Advisory Board as the winner of the 1990 Scholarship Award.

Bobbi Weathersman, president of Delta Sigma Phi Alumni Advisory Board, presents a check for $800 to Bobbi McDonald. Scott was chosen by the Alumni Advisory Board as the 1990 winner. Scott McDonald, founded upon a brother’s contribution to the foundation of the Alumni Scholarship and a minimum of $25. This is the second award which has been presented by the AAB.

Delta Sigma Phi Fraternity congratulates Scott McDonald as the winner of the 1990 Senior Scholarship Award.

Some Students Would Kill For $50

By Nancy Sherwood

The boy or girl hanging around dark alleys, may be the one being shot by the student gunners. He may be in the middle of his own classroom.

After last semester's success, Student Union is again sponsoring the Assassination Game, which is heavily based on the movie Goodfellas. The theme of this game is war, but the secondary theme is murder.

Two minutes apply, however. The boy or girl must pass through the main doors of the classroom. The boy or girl must kill one of our classmates and then the gunners must kill the boy or girl. The game is only open to students.

Life in Hell

By Matt Groening

ZENITH INNOVATES AGAIN WITH THE NEW Z-286 LP
THE AT COMPATIBLE THAT TRANSPORTS YOU
FROM CAMPUS TO THE CORNER OFFICE!

If your studies need AT power now, and your career could use
MS-OS/2® performance later on, then you really need the new
Z-286 LP Desktop PC from Zenith Data Systems—the leading
supplier of high-speed AT compatibles.*

As the one desktop computer that can keep pace with your data
processing requirements and growing ambition, the Zenith
Data Systems Z-286 LP lets you harness 286 speed and power
in a surprisingly compact design that won’t crowd you out of
your dormroom.

You’ll find the new Z-286 LP compatible with thousands of AT
peripherals... and virtually all MS-DOS® software. But that’s not
all. The Z-286 LP also gives you the capability to move up to the
new MS-OS/2 technology whenever you feel your career path is
ready for more advanced performance.

The Zenith Data Systems Z-286 LP also comes complete with
1MB RAM — expandable to 6MB without using an expansion slot.
Plus a single 3.5" 1.44MB floppy disk drive that lets you “read”
and “write” 720K floppy disks. And a 20MB hard disk to store
thousands of pages of information for heavy-duty word processing
and spreadsheets... as well as a lot of other software programs
that you may need. Either now or in the future.

So transport your success through time with the one desktop
computer that can take you all the way from college to career.
Get the Zenith Data Systems Z-286 LP today. And think like a
true innovator!

**Greer Hopes Demon Deacons Maintain Level of Last Season's Successful Team**

By Matt Smith
Sports Editor

Wake Forest's baseball team wants to repeat the success of last year's 35-23 season under the direction of third-year Head Coach George Greer.

Greer will guide a young but experienced team into the 1990 campaign after making it to the final four in the ACC Tournament last year for the first time since 1982.

The Demon Deacons have a great deal of depth on this year's squad, Greer said.

"We have a lot more depth, and sometimes you can have a problem with who to play," Greer said. "It's been our experience that someone is always ill or injured, and someone will have three exams and a lab on the same day."

"Depth will help us in the long run," Greer said.

The Demon Deacons return starters at every position this year, including junior All-American Warren Sawkiw.

Seeing the most action behind the plate will be senior Gregg Cox and sophomore Ross Restucci. Cox hit .240 last year while starting 32 games for the Demon Deacons. He threw out eight base runners and had an impressive .990 fielding percentage.

Restucci started 27 games and hit .179 with 13 runs batted in (RBI). He also played solid defense behind the plate.

Junior Paul Reinisch will start at first base. Reinisch was the second leading hitter of the regulars on the team last year with a .329 average.

"All five of these players have started games and all are excellent," Greer said. "All of those players have started games and all are excellent."

The outfield will be anchored by sophomore Jake Austin, who hit .319 with 24 home runs and 61 RBI. He also stole seven bases on seven attempts.

Senior all-ACC selection Brian Shabosky will start again at shortstop. Shabosky missed only two of the 58 games the Demon Deacons played last season, and he hit .320 with 24 RBI. He also led the team in stolen bases with 15.

Sharing the starting spot at third will be junior Deron Weston and sophomore Danny Martz.

Weston hit .257 last year with 12 RBI, while Martz hit .257 with eight RBI. Martz was one of two Demon Deacons to hit a grand slam last year.

Greer said, "All of those players have started games and all are excellent." The outfield will be anchored by sophomore Jake Austin, who hit .319 with 11 home runs and 49 RBI last year. He led the team in game-winning RBI with five.

Vying for the other spots in the outfield will be sophomores David Marzano, David Kennedy and George Coghill and freshmen Brocke Walker and Matt Rigs.

Marzano punched six hits in eight at-bats with six RBI last season.

Kennedy hit .290 with nine RBI. He also started four games last year on the mound.

Coghill, who participates in three sports at Wake Forest, hit .200 in limited action last year. He is also a defensive back for the football team and a triple-jumper on the track and field squad.

Kennedy, Kowlick, Coghill and Rigs are the front runners for the designated hitter position.

The pitching staff returns nine starters from last year's team. The four main starters are senior Buddy Jenkins and juniors Kennedy, Kevin Jarvis and Chan Crane.

Jenkins pitched a team-high 91 innings last year and had a 7-5 record, starting 16 games for Wake Forest. He struck out 78 while walking only 41. He also had a 5.14 earned run average (ERA).

Jarvis was 4-3 last year in nine starts. He had a 6.63 ERA in 54.1 innings pitched.

Crane was 6-2 in 11 starts and had a 5.03 ERA in 62.2 innings pitched.

Kennedy had the lowest ERA of the starters at 2.75 in 19.2 innings pitched.

In four starts, he went 3-0.

Senior Larry Colbourne, juniors Brett Donovan and Reinisch, sophomore Brian Hunter and freshmen Mike Buddie, DeFranco and Marc Palmieri will see action.
Men's Golf

O'Connell Gives Men's Team Needed Experience

Wake Forest's 1990 men's golf team is facing a rebuilding year after the departure of four seniors from last year's squad. Gone from last year's team are second-team All-American Barry Fabian, third-team All-American Tony Mollica, ACC Individual Champion Tim Strickland and Len Mantle.

The 1989 team did not qualify for the NCAA Tournament, despite the presence of three members who were part of Wake Forest's NCAA championship team of 1986.

Will the 1990 team be the second consecutive Demon Deacons squad, for the first time since the 1965-66 rendition, not to qualify for the NCAA's?

That all depends on if the team can improve from what Head Coach Jesse Haddock called mediocre play in the fall.

"Well, it's tough to replace four seniors of that talent—it's practically impossible," Haddock said. "We do have some outstanding talent joining us. Some have done very well, no one has done great of the new group. The main thing is that I feel they can do a lot better."

"We've been through rebuilding years before, but the difference this year is that we have only one dynamic senior, and seniors are so important for intra squad leadership, like helping the freshmen adjust not only to golf but to college life," Haddock said.

Haddock said that the team's poor academic performance last semester spilled over onto the team's play on the golf course.

"We just did not discipline ourselves last semester to do the things that were necessary," Haddock said. "It has been one of my most disappointing years here so far, there's no question about that."

He also said that the poor attitude of the team was the main weakness last season. "It seems that the attitude (of the team) has been slightly passive. And I think we're going to get a more active attitude," Haddock said.

There will be one definite bright spot this year, and that is senior and 1988 second-team All-American Eoghan O'Connell, who will return to lead the Demon Deacons.

O'Connell, a native of Ballydesmond, Cork, Ireland, was the Demon Deacons' top finisher in high school last season. His best individual performance was a three-day total of 218 at the Golf World/ Palmetto Dunes Collegiate last November, which gave him a 15th place finish.

During the summer, O'Connell was a member of the Great Britain/Ireland Walker Cup team that defeated the United States in that competition for the first time since 1971.

O'Connell earned a third-place finish last March at the prestigious Golf Digest Collegiate Invitational to highlight last season.

"Well, we all know from what Eoghan O'Connell has done in the past that he will be in the starting lineup," Haddock said.

Another good bet is that freshman Hans Albertsson of Manchester Village, Va., will also be in Haddock's top five.

Albertsson participated in all four fall tournaments, and tied O'Connell's individual best for a round of 54 with a 218 at the Carpet Capital Classic in October to finish third.

The third-place finish Albertsson earned there was the highest finish for a Wake Forest golfer last fall.

As a prepster at the St. Andrew's School, he was named to the 1986 All-JGA/Roger Appleby All American team. Also in that year, Golf Digest named him as the eighth best player in the nation for his age group.

Freshman Bob Fisher of Oakland, N.J., was another new Demon Deacon golfer to have participated in all four fall tournaments.

Fisher's best performance came at the Golf World/Palmetto Dunes Collegiate at Hilton Head in November, as he posted a three-day total of 224, which earned him 39th place.

"I think we're good enough to make the NCAAs if we play what we're capable of playing," Haddock said. "I think we'll see better results this spring. We'll know once we get into competition.

Wake Forest's NCAA championship team of 1989 went on to place 68 on the second day at the Palmetto B.

In 1988, Fisher won the Met Junior Tournament, and this past summer he placed third in the New Jersey State Open.

Junior Mark Strickland of Ed Cao, Calif., played in three of the four fall contests, and he is also a possible contender for one of the top five scoring positions.

Strickland's individual fall superlative was a three-day score of 226, good for 17th place, at the MacGregor Tournament of Champions held in Knoxville, Tenn., last October.

Last season, Strickland participated on the Wake Forest squad that went on to compete in the Japan-U.S. Friendship Tournament.

In 1988, he finished 24th in the ACC Tournament. Freshman and former prep All-America Colby Lynch of Dunn participated in three of the Demon Deacons fall tournaments, but his scores were only counted in two of those.

Lynch tied for fourteenth place at the MacGregor Tournament of Champions in October, as he tied for 54 hole total of 225.

Last summer, Lynch was placed third in the American Preparatory Championship.

Senior Mark Cero of Lebanon, Ind., and junior Jim Johnson of Charlotte each participated in one tournament last fall.

Cero shot a three-day total of 236 at the Carpet Classic for 19th place, while Johnson turned in a 36 hole total of 154 at the Golfweek/MacGregor Preview International in September, earning 52nd place.

Cero has had some fine performances last summer, finishing second in the 1989 Northern Amateur and fourth in the Indiana State Amateur.

Freshman Matt McIntire of Lexington, Ky., also got his first taste of collegiate competition last fall.

McIntire fired a 229 over the 54 holes at the Golf World/ Palmetto Dunes Collegiate in November. Just because the above players participated in the fall tournaments does not guarantee them a starting spot on the 1990 spring squad, Haddock stressed. He said the situation is at best "up in the air."

"We'll just have to see who will start," Haddock said.

"There's potential there, but the talent has not been developed to the degree where it's obvious that one player is playing better than another," he said.

He said that junior Ed Kropp of Atlanta and freshman Skip Sevier of Greensboro also have shot at making the starting five.

During the fall season, the team's best performance came at the MacGregor Tournament of Champions, where they finished third out of 12 teams.

But in the other tournaments, the team lingered around the middle of the pack, as they placed seventh of 12 in the Golfweek/MacGregor Preview Invitational, seventh of 15 in the Carpet Capital Classic, and ninth of 18 in Golf World/ Palmetto Dunes Collegiate.

As for defending the ACC Championship, which the Demon Deacons claimed last season for the first time since 1980, Haddock acknowledged that it would be very difficult.

"I'd like to think we can be a contender, but we must be realistic," Haddock said. "It would be a drastic move to go from a very poor fall semester to an extremely successful spring."

"But it can be done, and we're going to work as if it can be done," he said.

Statistics

Women's Team Will Depend on Play of D'Alessandro

After a fall season which saw Wake Forest's women's golf team win one tournament and place in the top five in two other events, Coach Dianne Dailey is justifiably optimistic about the upcoming spring season.

"We got good play from our freshmen. We need experience to get going now," she said. "We especially need to strengthen our fourth and fifth positions." In order to accomplish that goal, Dailey will have to turn to an agile group of freshmen.

This year's squad is recovering from the losses of Karen Noble, Kiernan Prechtl and Loren Millbench, and features three seniors along with five new players. This spring, the Demon Deacons will be led by returning senior Laura D'Alessandro. D'Alessandro, a native of Toms River, N.J., had an immensely successful summer, which included competing in the U.S. Women's Open before returning to Winston-Salem this fall to lead the Demon Deacons in scoring with a 75.87 average.

D'Alessandro won the first two tournaments of the fall season, the Dotie Invitational and the Lady Tar Heel Invitational, and placed in the top four in the other three events in which the team participated.

"Laura D'Alessandro is a very strong player," Dailey said. "She has improved dramatically. She is one of the longest players in collegiate golf and possesses a good game overall. She just keeps getting better and better. She has an excellent chance for All-America honors."

Dailey credits D'Alessandro's rapid improvement to increased practice. "Laura has turned around quicker than anyone I've ever seen. She worked really hard and now it is paying off. She has gone from a stroke average of 79 or 80 last spring to 74 or 75 this year.

D'Alessandro is the country's 18th ranked collegiate women's player, and Dailey anticipates a very productive spring from her. One of the new faces on the team, freshman Kim Tyrer, rose to capture the second spot on the squad. Tyrer, from Frankfort, Ky., posted three top-five finishes and was second in scoring average for the fall season.

Tyrer comes to Wake Forest after a very successful junior college career that saw her named American Junior Golf Association first team all-American.

"Kim is a very solid player," Dailey said. "She only had one round in the 80s the whole season and was very consistent and solid."

Dianne Dailey has the help of three seniors, Laura D'Alessandro, Anne-Marie Goslak, and Cindy Kodak, for the 1990 season, which will begin Mar. 11-13.
Fifth-Ranked Ameline Leads Men’s Tennis Squad

After an eventful and successful fall, the Wake Forest University men’s tennis team is anticipat-
ing a strong spring season. Head Coach Ian Crookenden, in his sixth season at Wake Forest, takes a talented but inexperienced team up against a daunting slate of opponents.

The men’s team faces a schedule that includes nine of the top 25 ranked clubs and the always tough Atlantic Coast Conference teams. The schedule also includes 18 away matches.

However, the Demon Deacons should be up to the challenge. Captain Mike Dilworth cites “a more unified team” as the key to future success.

Brian Powell, commenting about the tough schedule, said, “It will take everyone’s effort. We have a lot of determination and desire. If we use that, we can win a lot of matches people don’t think we can win.”

The team has been training extremely hard since the beginning of the semester. They have incorporated a workout of running, aerobics and circuit training in addition to practicing. Erik Simanis said the hard work should “pay off big” throughout the season.

Leading the squad this season is Gilles Ameline. A senior from Saint-Lo, France, Ameline is currently ranked fifth in the Volvo Tennis national rankings and number four in the regional rankings.

Ameline earned this ranking by performing extremely well in the first two legs of the collegiate Grand Slam. His consolation final win in the Volvo championships and his quarterfinal performance in the National Clay Courts tournament propelled him to his ranking. Feb. 8, Ameline will begin competition in the third leg of the Grand Slam, the Rolex Indoors. Ameline qualified for this tournament by reaching the finals of the regional indoor tournament held last semester at Wake Forest.

Ameline is one of the top players in the history of the program at Wake Forest. Crookenden said, “With his current ranking and a reasonable spring, he should automatically qualify for the NCAA tournament.” Crookenden also added that Ameline has an excellent chance to become the first ever singles All-American in Wake Forest men’s tennis history. For a player to be selected as an All-American, he must finish either in the top 16 computer rankings or reach the round of 16 in the NCAA tournament.

Playing in the number one singles position, Ameline will face the top players in the nation. All of the top 25 ranked squads have talented, highly ranked first seeds. The ACC is also filled with talented players such as Duke’s nationally ranked Mark Mancer and North Carolina’s rising star Bryan Jones. “If Gilles wins 60 percent of his matches, that would make an excellent spring,” Crookenden said.

Joining Ameline in the leadership role this season are senior Justin Chapman, senior captain Mike Dilworth, and junior Steve Rooney.

The Wake Forest team lost one of its top two players from last season with the loss of Siegmund Deglar. Deglar is currently serving a term in the German army.

The younger Wake Forest players will be forced to move up to higher seeded positions due to his absence.

“It seems like we are always catching up, trying to gain experience,” Crookenden said. “However, I have confidence that with sophomores Powell, Sedeno, and Simanis, we have plenty of talent. By the time we get to ACC play, we will be a competitive team.”

Sophomore Jorge Sedeno hailing from Caceres, Spain, is currently ranked twentieth in the region.

The team will also benefit from the return of sophomore Erik Simanis from Lexington, Va. Simanis was injured last season and had an operation over the summer.

Freshman Lawrence Key is coming off a 6-5 fall performance and, according to Crookenden, should play an important role this season.

Two other freshmen, Brian Martin from Owensboro, Ky., and Justin Harwood from Johnnysburg, South Africa, round out the team’s freshmen.

With the vast array of individual talent on the Wake Forest team, Crookenden believes that good doubles play will be essential to the team’s success.

“The key to our season will be how quickly we can consolidate our doubles teams. We didn’t have the opportunity this fall to establish our doubles line-up,” Crookenden said.

The most likely number one doubles team is Dilworth and Sedeno. This duo represented Wake Forest in the Rolex Indoor tournament.

The other teams will be determined over the next few matches. Crookenden noted that the return of Simanis will provide an extra dimension of strength to the doubles line-up.

Given one of the top experienced players in the nation and a group of talented, young players, the future looks bright for the men’s team.

“We are delighted with the group of players we have,” Crookenden said. “Barring any accidents, we are looking at this squad growing rapidly this season.”

Sophomore Brian Powell will specialize in doubles play for the Demon Deacon tennis team and will play at the number five or number six spot on the singles team.
Tournament, McKeon Give Women’s Squad New Outlook

The women’s tennis team will try to capture its first ACC title this spring after two second-place Atlantic Coast Conference finishes in the past three years. With three strong freshman players, the team is ranked fifth in the Southeast in the 1990 Preseason Volvo Tennis/College Rankings.

Coach Lew Gerrard said, “Our main goal is to win the ACC. As far as the ACC goes, on paper, Duke looks like the preseason strongest team, and we look like number two.” Duke is ranked 12th in the country in the preseason.

“Overall, the season depends on how healthy we can remain. With a healthy team, we’ll have a chance to win every match. We’re very strong in the lower part of the team, and most of our matches will depend on how well we play in doubles.

“Our number-one player, senior Beatrice Guery, is recovering from foot surgery, and should be ready within a few weeks,” Gerrard said. Guery and senior Lisa Pamintuan will form the number-one doubles team.

Freshman Celine Toumant, coming off an impressive fall season, is ranked 11th in the Southeast and 40th in the country. She and freshman Diane McKeon were Wake Forest’s first-ever qualifiers for the National Clay Courts, held in November. McKeon is ranked 18th in the region.

Team Captain Karin Dallwitz, a junior, is ranked 31st in the region. She and Toumant will make up the number-two doubles team.

Freshman Tracy Zawacki is the team’s sixth player and is ranked 27th in the region. She and McKeon form the number-three doubles team, which went unbeaten in the fall.

Noelle Paschon will also see action this season for the Demon Deacons.

“Paschon) has seen only limited action in the last 12 months because of a wrist injury. The injury is now healed, and she is in good physical shape,” Gerrard said.

The Deacons face a demanding schedule this spring, playing eight teams ranked in the preseason top 25. Their first home match will be Feb. 18 against 18th-ranked Tennessee. The team will play 11 consecutive away matches over the next five weeks and will return home March 29.

“We play a tough schedule, one that is strong from the beginning. We only have two or three easy matches. We want to be matched tough by the time we begin our ACC schedule,” Gerrard said.

“With the schedule we’ve got, if we can get enough wins, we can definitely be ranked in the top 20 in the country and earn a berth in the NCAA tournament,” he said.

The Deacons start play Saturday against Richmond after a previous match at Vanderbilt was cancelled.

Men's Track

Babcock, Brown: Backbone of Men's Track Team

Afer the best season in school history last year, the men's track team has high hopes for further improvement in 1990.

When Wake Forest's Head Coach John Goodridge came here in 1984, he said his first priority was to make the cross-country team nationally competitive. The third-place finish in last year's NCAA championships achieved that goal. Goodridge said he will now concentrate on the development of the track and field program.

He has a good base on which to build. Last year, the team scored the most points in school history in the outdoor Atlantic Coast Conference meet and had the first All-American in school history when junior Steve Brown merited honors in the 110-meter high hurdles.

The team also expects to benefit from using new practice facilities in the spring.

Goodridge said this year's team has "many strong individuals in a variety of events."

Brown should pace the team this season. He holds school records in both the 110- and 400-meter hurdles events, and he was ACC champion and an All-American in the 110-meter hurdles.

Goodridge said: "The great thing about Steve is his ability to continually improve to increasingly higher levels of competition. His challenge for this season is defending his ACC championship. His main goal is to become a national champion, which is well within his potential."

Bill Babcock will return strong for the Demon Deacons. Babcock was the ACC Champion in the 5,000 meters with a time of 14:27.4 last season.

Cross-country All-Americans Ben Schoonover and Jon Hume, who will each run in both the 5,000- and 10,000-meter events, lead the long-distance runners along with Babcock.

Goodridge said Schoonover "made a significant contribution to the cross-country program (and) has the potential to develop nationally on the track."

Hume finished third in last year's 5,000-meter ACC finals. "Jon has contributed to the success of the program since his freshman year, and he is probably our most consistent performer, year in and year out, in the ACC championships," Goodridge said.

Other standouts include sophomores John Sarriegui, sixth in last year's 5,000-meter ACC finals; and freshmen Paul Gauthier, Greg Harrington, Paul Sklar, and Andrew Lusby.

Hume and Daniggelis starred for the Deacons in the indoor Kodak Invitational in Johnson City, Tenn., Jan. 26-27, They placed in the 3,000 meters, when Hume finished second and Daniggelis placed fourth.

Senior distance runner Bill Babcock celebrates his victory in the 5,000-meter race in last year's ACC Championships. Babcock should once again be a front runner on the Demon Deacon track team.
Crisp and Becker Lead Talented Women’s Team

The Wake Forest women’s track team has a busy season ahead as eight runners are returning and 11 freshmen are beginning the season. After finishing seventh last season in the Atlantic Coast Conference, Coach Francie Goodridge said she is “really looking forward to the season.”

Susan Crisp and Liz Becker are the two seniors returning for the Demon Deacons, on whom the team will rely for its strength. Crisp, the 1989 track MVP, placed third in the ACC’s 1,500-meter race outdoors and fourth in the ACC’s indoor 800-meter sprint last season. Goodridge said, “She is running very well and is pointing toward high goals in both events.” Crisp placed third Jan. 20 in the 1,000 meters in the team’s first meet, the Santee Marriott Invitational.

All-ACC cross country runner Becker suffered a stress fracture late in the fall season after coming back from a brain tumor and is working on alternative training.

Sophomore Mary Powell will also be a primary team leader in the long-distance races. She finished fifth in the mile in the Santee Marriott Invitational and placed third in the 5,000 meters at the Kodak Invitational Jan. 26-27.

Seanna Arnold, cross country All-American performer left school last week, and her departure will unquestionably hurt the Demon Deacons. Junior Tania Lane is nursing injuries along with Becker. Although Lane had surgery late in the fall season, she competed in the 55-meter dash in the first meet of the 1990 season and ran well. Goodridge said, “She needs a little more endurance, but she showed that she has good speed early this season.” Lane, who had six top-10 finishes in 1989, is working on relays and hurdles as well as sprints.

Despite injuries to three returning runners, 11 freshmen are on the team and Goodridge said she feels “this will be our best season yet.”

Freshman Carrie Powers from Georgetown, Ontario, runs the 800 meters and 1,500 meters. “She will develop into a top contender in the conference in those events,” Goodridge said.

Kim Many, also a freshman, runs the mile and the 800-meter run and is “concentrating on developing her speed,” Goodridge said.

Tara Haggett, a freshman from Wakefield, Mass., has taken six feet off the previous Wake Forest shot put record. Despite a slight muscle strain, she is a promising newcomer.

Freshman Sarah Rezak of Roswell, Ga., throws the shot indoors and will throw the discus during the outdoor season.

Goodridge said she is very optimistic about two other freshmen, Vicki Peek and Jennifer Olive, both from Asheville.

Peek, a “top-notch high jumper,” is running the 400 meters and mile relay, and she will eventually perform in the high jump. Olive is “running excellent 400’s” and will soon move up to the middle distances, Goodridge said.

Other freshmen “showing excellent potential” are Stacy Herman, Kara McMahon, Karen Roberson, Pam Weatherford and Artina Dawkins.

With a mix of excellent veterans and a strong incoming class, Goodridge said she hopes the team can perform at unprecedented levels.

Junior sprinter Tina Lane holds the school record in the 100 meters.
**Track**

From Page 8

Junior Mike Quegan, school record-holder in both the 400- and 800-meter runs, leads the middle-distance runners.

Goodridge said: "Mike has performed very well in the ACC since his freshman season, and he has become one of the top middle-distance runners in the conference. This is the best year of preparation he has had."

Others expected to contribute include junior Ken Morton, sophomores Mike Crockett and Ken Redding, and freshmen Blake Buckingham, Corey Schneider and Terry Weil.

"We have a good young sprint group, especially the 4 X 100-meter relay team, which finished third at last year's ACC championships," Go dridge said.

Of the four relay team members, one has graduated. Sophomore Mike Farrell will probably join the then remaining runners on the team: juniors Brown and Pat Kelley and sophomore Darrell France.

France, Farrell, Ke. ley and sophomore Keith Shackelford will also run both the 100- and 200-meter dash events.

Goodridge said Kelley "had an outstanding season as a freshman, but as a sophomore was almost continually sick with pneumonia and bronchitis, and he was even hospitalized for a time. He is now in the midst of his comeback and is looking forward to regaining his previous form."

Triple-jumper George Cogbill holds the school record in the event and finished fifth in last year's ACC finals.

France returns this season in the long jump. "France is a very versatile athlete," Goodridge said. "He helps out in the sprints, relays and horizontal jumps. Darrell suffered a knee injury during football season, but he is working his way back, and by outdoor season he should be in top form."

**Baseball**

From Page 3

come out of the bullpen in relief.
Colbourne was 3-1 last year with a 2.06 ERA in 39.1 innings pitched.
Many Demon Deacons played in strong summer leagues, which should add experience to the team. Sawtkw and Austin played in the prestigious Cape Cod League. Austin was also invited to the USA National Team tryouts.
Wake Forest will once again have a difficult schedule with only one non-Division Out of

The ACC will also be extremely competitive, and Georgia Tech is the team to beat. Greer said, "They are going to be a team to be reckoned with because they have the good arms."

"Clemson and North Carolina will battle for the top spot along with N.C. State and Wake Forest."

Greer said, "You couldn't see us exchange uniforms with N.C. State as you wouldn't be able to tell the two teams apart."

"The team's goals are to: 1) in the conference and advance to the NCA 3 playoffs and perhaps the College World Series, Greer said, "I believe that it is with our reach if we play up to our potential."

"Every game is important to us," Greer said. "We missed out on an at large bid (to the NCAA Tournament) last year."

Out of a group of five wild card teams last year, Wake Forest lost out to Georgia Tech, whom the Demon Deacons beat in the ACC Tournament. The Yellow Jacket had a better overall record, however.

"We just want to go out and play hard every game," Greer said. "It is up to senior leadership to make sure we play hard."

**Golf**

From Page 5

Penfield, N.Y., and Brighton, Mich., respectively, are two other players Dailey hopes will continue to contribute this spring.

"Kodak was a little inconsistent in the fall. I look to her to play better this spring," Dailey said.

"Anne Marie Godak played in four tournaments this fall. She needs consistency and some good solid rounds. I expect her to play better in the spring also," Dailey said.

The team will be filled out by freshmen Kristi Joiner, Jill Sanders, Elizabeth Bradenburgh, and Mariana Iribare.

Joiner, who played in four tournaments in the fall, possesses in Dailey's words, "a game that has really improved a lot." Dailey hopes that Sanders, Bradenburgh and Iribare will play with increased confidence in the spring and will be attending some tournaments.

At the beginning of the season, the team set some lofty, but realistic goals.

The Demon Deacons wanted to have a national ranking at the end of the year and receive an invitation to the NCAA Tournament.

Currently, the Deacons are ranked 19th in the nation by Golf Week, and are 24th in the country in statistical rankings. Dailey hopes to get both rankings into the top 20 for what would be the second year in a row.

The Deacons' season opens tomorrow at the Peggy Kirk Bell Invitational in Winter Park, Fla., and hopes to close their season last weekend in May at the NCAA Tournament in Hilton Head, S.C. Judging from their fall performances, they are well on their way to reaching their goal.
