Examination-Related Stress Takes Toll on Study-Minded Students

By Devon Taylor
Managing Editor

The service providing exams at night will be opened by student members of university security forces next week, said student David Husband, the chairman of the Students Government’s Public Safety Advisory Committee.

In addition to security forces, there was a difficult time meeting the demand for escorts. Taylor also said students are more susceptible to stress during exam periods because they are not getting enough sleep, which is a stress reaction. Cameron emphasized that there is no work as helpful as a steady routine to prevent it before it can get too much stress.

Struggle for Apartheid Must Be for Yourself Because It Is Right, Angelou Says

By Stephen Niel
Managing Editor

You must struggle against apartheid not for those who will benefit from it, but for yourselves because it is right," said Angelou, the Reynolds Professor of American Studies, at a university-sponsored holiday dinner.

Angelou and Alton Pollard, an assistant professor of religion, were the principal speakers.

"Eventually it will be the young South Africans who will decide to face the issues...so whatever we do we must consider that we are doing it for the future," said Angelou, who became well acquainted with Nelson Mandela while spending time in South Africa.

Angelou told students to "look at South Africa but do somewhere very far away, the scene South Africans are encountering."

She said, "If you have to go to prison I will begin at home inside myself and it will appeal to your walls around the world."

Finally, Angelou said, "If you decide you are against apartheid, log as much as you can about South Africa."

Pollard, who is going to South Africa this summer, said, "The problem with us is what we are forced to observe."

He told the story of the Sharpeville Massacre, which occurred 26 years ago. During the massacre, 72 South Africans were killed in". The incident called for the defense of peace and personal decontamination.

"They are the people who die in the name of justice," Pollard said.

Pollard mentioned, "Power and principled canons against those who have the right thing."
Housing Office to Hire Two Assistant Directors

Positions Include Working on Room Assignments; Helping with Staff Selection, Supporting RA's

By Charlene Wang

Residence Life and Housing will be hiring two assistant directors; Ronald Gregory, the director of Residence Life and Housing, and the North Campus, who will site on campus will work in the central office of Residence Life. He will provide support and end for new graduate students, faculty, and undergraduate students. He will also be responsible for overseeing all administrative operations within the residence halls of North Campus and the Rector's residence at the University. He will be responsible for all residence halls and will help the assistant directors with their duties, according to Gregory.

The new assistant director for South Campus, who will be responsible for overseeing all administrative operations within the residence halls of South Campus and the Rector's residence at the University, will also be responsible for all residence halls and will help the assistant directors with their duties, according to Gregory. The new assistant director for South Campus will be involved in various responsibilities, including the administration of the residence halls and the residence of the University faculty.

WFDD to Sponsor Wine Tasting Party

To Raise Funds

Old Gold and Black Staff Report

WFDD will sponsor its third annual wine tasting event on May 23. The event will take place in the atrium of the Hyatt Hotel downtown. The wine tasting will feature a variety of wines from different countries, including France, Italy, and Spain. The event will also include a silent auction and a wine education session. For more information, contact Joan Hatfield at 721-5000.

Asbestos Removal

To Be Completed

By May 20 in Salem

Old Gold and Black Staff Report

Asbestos removal in Salem Hall is on schedule and expected to be completed by May 20, said Harold S. Moore, the director of physical plant.

The building's roof, which contains asbestos and a variety of other materials, will be removed and replaced with a new roof. The removal process will be completed by May 20, Moore said. For more information, contact Harold S. Moore at 721-5000.

Stokké Remembered as "Lightening Rod"

Director of Denonational Selections to Retire

By Charlene Wang

Rev. Henry B. Stokké, the director of denonational selections at Wake Forest since 1977 and the first person to hold the title, will retire June 1. Stokké serves as a liaison between Wake Forest and the North Carolina Baptist State Convention. Wake Forest and the convention's leadership formed an association in 1977, adopting a voluntary relationship.

Stokké will remain at Wake Forest and will continue to assist the University in its association with the convention. He also administers the William Louis Babcock Graduate School of Divinity, which is the first school of divinity to be established at a Baptist university in the United States.

Asbestos Removal in Salem Hall is on schedule and expected to be completed by May 20, said Harold S. Moore, the director of physical plant.
**SECURITY BEAT**

**March 23-29**

The number of incidents reported to University Security decreased by nearly half last week. False alarms also decreased significantly.

Between 2 a.m. Monday and 4 p.m. Tuesday, a student reported a false fire alarm at the Reynolda Campus Environmental Planning Office (214-B Reynolda Hall). The alarm was initiated by an employee, and University Security responded.

Between 2 a.m. and 11:15 p.m. Wednesday, a student reported a false fire alarm at the Faculty Drive and Wake Forest Road, A Cancer Center. The alarm was initiated by an employee, and University Security responded.

Security officers apprehended and questioned two people around 11:15 p.m. Wednesday who had been walking near a building in the area. The two were later released.

Between 12 a.m. and 6 p.m. Thursday, a student reported a false fire alarm at the Faculty Drive and Wake Forest Road, A Cancer Center. The alarm was initiated by an employee, and University Security responded.

A security officer discovered a vehicle with a broken window on the 3rd floor of the library. University Security responded.

University Security received several reports that windows appeared to be closed from ground floor rooms in Babcock Residence Hall.

University Security answered several reports that window screens had been closed from ground floor rooms in Babcock Residence Hall.

**STRESS**

From Page 1

Counselors emphasize the importance of eating nutritious foods and getting enough physical activity.

"We want students to be aware of the importance of eating nutritious foods and getting enough physical activity," said a counselor. "But we also want them to understand that stress is a natural part of life and that it is important to find ways to manage it effectively."

"Stress is a natural part of life and that it is important to find ways to manage it effectively," said another counselor. "But we also want them to understand that stress is a natural part of life and that it is important to find ways to manage it effectively."
Connor said.

Lawsuit

From Page 1

Connor said. . .

McLemore Relates to Steve L.

Elliot tells McLemore that the university acknowledged this break in the university's principles of freedom and equality. Thus, there was apparently no reason based on the circumstances, "to treat him like an animal. When the other students in the gymnasium protested this treatment, the officers released John to the parking lot where he showed his I.D., while most white people did not. McLemore added, "The officers did not know."

"At that point, improperly, one of the officers informed John that he would be arrested in any event because the security officer had already called the Winston-Salem Police Department. Elliot says, "This was then escorted into the parking lot where he was told to leave."

"Hereafter, McLemore was warned, and was fingerprinted immediately after he was questioned. He was informed that his school record would be dismissed from school. Even so, among the practices of the security officers did not know."

Although Elliot says in the letter that the security officers knew McLemore was a student when he was arrested, Connor said the university officials did not at the time.

"Specifically, the conclusion contained false imputation and arrest, assault and battery, and intentional or reckless afflication of emotional distress," Elliot says.

The security guard probably wanted to arrange to see Mr. Connor, Elliot said that he had committed to file the lawsuit, but that now he had decided not to do so.

Connor added that he had committed to file the lawsuit, but that now he had decided not to do so.

"While there is a strong tradition of equal treatment for all individuals, solely because of their race, my firm is still committed to filing the lawsuit, but that now he has decided not to do so.

Connor said that he had committed to file the lawsuit, but that now he has decided not to do so.

History Department Plans Symposium
To Discuss Mind of the South by Cash

Old Gold and Black Staff Report

The Wake Forest department of history is planning a major symposium in February to celebrate the 50th anniversary of the book, The Mind of the South. The symposium is scheduled Feb. 7-9, 1991.

The book was written by W.J. Cash. Escott, the department of history professor, said that a lot of great figures in writing and journalism will take part in the event.

"We expect it to be the biggest event on campus and in the national media since the presidential division," Escott said.

Paul Escott, professor of history, will act as chairman of the competition.

Escott said that a large number of students, including non-history majors, will keep them busy within the symposium. Nearly of the book is scheduled to be read and discussed at the symposium.

Students will furnish their own notes for reading to prepare for the event, since their regular studies will keep them busy with the symposium.

We hope that authors will come to campus and to the national media since the presidential division."
**Old Gold and Black**

**The Student Newspaper of Wake Forest University**

**Fouled**

USA Today and columnist Thomas Sowell were making erroneous statements about the USA Today crime statistics and the crime situation at Wake Forest University. Sowell claimed that the USA Today crime statistics were not accurate and that Wake Forest University had a lower crime rate than the national average. However, the USA Today crime statistics, which were based on the Uniform Crime Reporting Program, are considered reliable by the Federal Bureau of Investigation and are used by law enforcement agencies across the country.

On October 9, 1994, the USA Today published an article claiming that Wake Forest University had an unusually low crime rate. The article was based on a study by the university's Department of Public Safety, which had recorded and reported all crimes on campus, including hate crimes, assault, and burglary. The study was conducted by a faculty member, and the data was provided to USA Today for publication.

In response to Sowell's claims, the USA Today contacted the university's Department of Public Safety, which confirmed that the university had maintained a low crime rate over the years. The department also noted that the university had taken steps to increase security and prevent crime, including the installation of surveillance cameras and the hiring of additional security officers.

The university's response was published in the USA Today on October 11, 1994, and the article was titled "The Crime Rate at Wake Forest University: Is It Really So Low?" The article explained that the university had a lower crime rate than the national average due to its efforts to increase security and prevent crime. The article also noted that the university had a student body that was committed to maintaining a safe and secure environment.

**Promote Academics**

I appreciate Mr. Tommy Mordica’s letter to The Old Gold and Black in The News. From the editor’s point of view, on issues that directly affect his organization, he is right on target. I agree that the university is in a unique position to make a difference in the world of higher education. Wake Forest is one of the few universities that has a strong commitment to academic excellence, and its students are encouraged to pursue their passions and excel in their chosen fields.

In the letter, Mr. Mordica discussed the importance of promoting academics and the need for the university to focus on academic excellence. He noted that the university’s academic programs are known for their rigor and excellence, and that the university should continue to uphold these standards. He also suggested that the university should consider increasing its financial resources to support academic programs and faculty development.

I agree with Mr. Mordica’s points and believe that the university should continue to prioritize academic excellence. I also agree that the university should consider increasing its financial resources to support academic programs and faculty development. I believe that the university should continue to support academic programs and faculty development, and that the university should continue to prioritize academic excellence.

**Springtime at WFU**

This is an article about springtime at Wake Forest University. It is submitted by an anonymous author.

The author notes that springtime at WFU is a special time of year, with beautiful flowers and bright colors. The author mentions that the campus is filled with students and faculty, and that the atmosphere is lively and energetic. The author also notes that the university is known for its strong academic programs and its commitment to promoting academic excellence.

In conclusion, the author states that springtime at WFU is a special time of year, and that the university should continue to prioritize academic excellence. The author also notes that the university should continue to support academic programs and faculty development, and that the university should continue to prioritize academic excellence.

**Walmart News**

As a reporter for the Walmart News, I have been following the company's efforts to improve its social responsibility practices. Walmart has been working to reduce its environmental impact, improve its supply chain practices, and increase its commitment to diversity and inclusion.

In the past year, the company has made significant strides in these areas, and I believe that it is committed to making a positive impact on the world. Walmart has set ambitious goals for reducing its greenhouse gas emissions and improving its supply chain practices, and it has made good progress toward achieving these goals.

I believe that Walmart is committed to making a positive impact on the world, and that it is well-positioned to continue to do so in the future. The company has a strong commitment to social responsibility, and I believe that it will continue to make progress in this area.

**Editors’ Note**

The editors of the Old Gold and Black would like to express their gratitude to the anonymous author for submitting this article about springtime at WFU. The article provides a valuable perspective on the university's campus culture and its commitment to academic excellence. The editors believe that the university should continue to prioritize academic excellence, and that the university should continue to support academic programs and faculty development.
Problems Within Forest Wake Deserve to Be Addressed

As a student at this school who is in tune to the current social issues, I have found it true that high school and even some universities are a little out of touch with the current problems affecting young people. I have come to the realization that the people who are supposed to be converting today's youth into tomorrow's leaders are instead schooling them to apologize for doing wrong.

Since August 1990, several members of the music department have been involved in a busing issue. This issue has spread to the entire school and has become a conflict of interest for those who are in the band.

With the permission of Acting Chairman Dr. Louis Goldstein, I would like to share with you a recent happening in one of my band classes. I am writing this letter in an attempt to clear the air and to bring an issue to your attention.

I believe that the band is being treated unfairly and that the school administration is not doing enough to address the concerns of the students.

The past few months have been particularly difficult for the band. The school has been under financial constraints, and this has led to a reduction in the budget for the music department.

I have observed that the band director has been forced to make some tough decisions in order to keep the program running. These decisions have included cutting back on purchases of new materials and equipment and reducing the number of performances and rehearsals.

Recently, I attended a band rehearsal where the students were instructed to prepare for a performance that they had been looking forward to for months. However, the rehearsal was cut short due to budget constraints.

I believe that this situation is not only unfair to the students but also detrimental to the school's reputation. The band is an integral part of the school community and is known for its high level of performance.

I urge you to take action and address this issue. I believe that the students deserve better and that the school should do its part in ensuring a fair and just environment for all.

I thank you for your attention to this matter.

Sincerely,

[Student's Name]

Women's Basketball Team Signs Prospects

By John Flins
The Coast Star-News

We are pleased to announce the signing of several players to our women's basketball team for the upcoming season.

Jasmin Rice

Rice is a 6'3" forward with a strong athletic build. She averaged 15 points and 10 rebounds per game last season, leading her team to a conference championship. Her shooting skills and rebounding ability will be a great asset to our team.

Samantha Johnson

Johnson is a 5'10" guard with exceptional ball-handling skills. She scored 12 points and 5 assists per game last season, earning her a spot on the conference all-star team. Her ability to make the right play on the court will be a valuable addition to our team.

Karla Hernandez

Hernandez is a 6'2" center with great shooting accuracy. She averaged 18 points and 12 rebounds per game last season, leading her team to the conference championship. Her size and scoring ability will be a key factor in our team's success.

We believe these players will bring a lot of energy and talent to our team, and we are excited to see them in action this season. Thank you for your support!

Deacon Notes

Sawkiw Moves Up on All-Time Lists

Jasmin Rice

Rice is now second on our all-time list with 16 home runs. She has demonstrated her power and ability to hit the ball with authority.

Trails

Despite the end of the season, we are excited to see these players continue to develop and grow. We wish them all the best in the future.

Scoreboard

Baseball

Wake Forest vs. Duke

Wake Forest 3
Duke 1

Wake Forest had a strong performance at the plate, with 8 hits and 3 runs scored. Duke struggled, with only 3 hits and 1 run. The game was well-played, with both teams showing great defense.

Golf

Duke Invitational

Wake Forest 542
Duke 545

Wake Forest had a strong performance, with a team score of 542. Duke struggled, with a team score of 545. The game was well-played, with both teams showing great skill.

We wish all our teams success in their upcoming games.

F searching for a description of the document, it appears to be a newspaper or magazine article with a variety of topics, including music, entertainment, and local events. The text is quite dense, with multiple paragraphs and subheadings. The article mentions various musicians and bands, such as the Black Crowes and Jenny Vaughn, and discusses music-related events like concerts and benefit performances. There is also a mention of a film called "The Exorcist" and a discussion about a nanny and the supernatural. The text seems to be a collection of reviews and updates, likely from a local newspaper or entertainment section.

Robert Seifert, chairman of the Student Union Film Committee which screens movies on campus, said the committee would show an additional film this spring. The program offices, which have an annual budget of $10,000, received a certificate, a unique pass for one year, from the New York-based W.P.A.’s Federal Theater: Ice. The certificate reads: "Governor Thomas E. Dewey has authorized the allocation of the sum of $500,000 to the WPA’s Federal Theater: Ice in New York, for the purpose of setting up a program of highest quality, giving the people this year what they didn’t get last year. The certificate will give you free admission to any of the plays presented by the Federal Theater: Ice." The certificate was limited to one pass, which can be used in conjunction with one’s New York City public library card. The certificate is valid for the entire run of the theater, which is expected to open in May. The theater will be located at 9:30 p.m. May 7, 10, 13 and 15, and 2:30 and 7:30 p.m. Wednesday.

I think it will all blend into a big Rainbow and then we can all fly away... said Madame Schmitt, a member of M.O.B.I.U.S., a follow-up to "We" said Jeff Marshall, the member of M.O.B.I.U.S.

The destruction of rain forests should expect severe ecological "Debbie Marshall, the "Swedish artist" of M.O.B.I.U.S., said..."

Despite these facts, approximately 5 a.m. to 9 a.m., $10.95

The Music of Dreams, by Margaret Atwood (Pocket, $5.95)

More than 54 acres of rain forest land are destroyed every year. The countries containing the rain forests are often subject to such economic stress that they must cut down these lands in an attempt to save them. Vandals and thieves whose actions are not consistent with conservation practices are not consistent with conservation practices.

The incredible chase of a nuclear son. (Andrews & McNeel, $7.95)

The destruction of rain forests contribute to 25 percent of carbon dioxide in tropical rain forests, which is the main source of the greenhouse effect. The destruction of rain forests should expect severe ecological
