After 36 Years, German Professor Makes Plans to 'Invoke New Area'

By BROOK DAVIS
old and Black Review

A two-hour address by Herr Hermann Jemison, German professorship, has been invited by Brian Austin, assistant professor of German at Wake Forest. Herr Jemison is known for his work on the political, social, and cultural aspects of Germany, and is a well-respected scholar in the field.

According to Herr Jemison, the policy he proposes is to encourage students to pursue a variety of career paths, not just those traditionally associated with German studies. This includes fields such as business, politics, and the arts. Herr Jemison believes that German studies is a valuable discipline that can provide students with a unique perspective on the world.

The policy would also include a mentorship program, where German majors could be paired with local professionals in fields such as law, finance, and entertainment. This would provide students with real-world experience and help them to make informed decisions about their future careers.

Under the new policy, Herr Jemison hopes to increase the number of German majors and to promote a more diverse and inclusive curriculum. He believes that this will benefit not only the students, but the entire campus community.

Experts: Terrorism Cannot Be Stopped

By DAVE SAMPSELL
old and Black Review

Chile Streling, author of terrorism and revolution expert, opened the Tedens Symposium. "The World: Held in Honor of Tedens," a symposium to celebrate the life and work of Tedens, was held at Wake Forest.

Streling discussed the history and impact of terrorism, and the need to prevent it. He highlighted the importance of understanding the root causes of terrorism and the need for a multidisciplinary approach to tackling it.

"Terrorism is a complex issue that requires a comprehensive approach," Streling said. "We must address the underlying causes and work to prevent the conditions that lead to terrorism." Streling's talk was well-received, and the audience was engaged in the discussion.

Government Finances Wake Forest Research

By BART GANZERT
old and Black Review

Funding for Wake Forest's policy expects a rise from $300,000 during the past fiscal year. Wake Forest's policy is crucial, as it provides the financial resources necessary to support the university's mission and goals.

Walter said that the policy is important for several reasons. First, it ensures that Wake Forest can continue to attract and retain top faculty and staff. Second, it provides necessary support to the university's programs and initiatives. Finally, it helps to ensure that Wake Forest remains competitive in the highly competitive market for higher education.

Walter emphasized that the policy is not only important for the university, but also for the students and families who rely on it. "This policy is crucial for the success of our students," Walter said. "It provides the resources necessary to support their academic and personal growth, and to help them achieve their full potential."
Role of Women in Politics Subject of New Course

By TOM LEGAN
Our Courier and Black Reporter

The political department is now offering a new course entitled "Women and Politics." Made possible by a grant from the Duke-CINC women's union program, the course will be offered every other year.

Miss Hillman, president of the International Club at Wake Forest, said that interested students from around the world will be in attendance, including those from other countries.

The course, which will begin on October 24, will focus on the role of women in politics and the challenges they face. It will be taught by a team of experts, including political scientists, historians, and activists, who will discuss the latest developments in the field.

Students will have the opportunity to engage in discussions, debates, and guest lectures, as well as participate in workshops and simulations. They will also have the chance to network with other female leaders and activists.

The course is open to all students, regardless of major. It is recommended for those interested in women's rights, gender equality, and political science.

For more information, please contact the International Club at Wake Forest (336) 723-3373. Ask for Wendy Baity, President.

The parent's logic is usually: it is better to punish the innocent when a guilty child. Sup- posedly, all the news parents have learned taught a valuable lesson about adults.

In this case judgment is, well, sure, but it certainly is not a rare occurrence. Innocent parents seem to be the innocent party.

Unfortunately the Wake Forest University administra- tion also employs the logic of the misguided parent.

Brian Austin, vice president of student affairs, recently stated a policy which will supposedly ensure campus safety, which hinges on the inspection of campus dormitories. A fine of $50 will be levied on the owner of a dormitory "common area," such as a bathroom or hallway, if it is not reasonably clean. A fine of $100 would be lev- enable for the unsanitary condi- tion of the common area cannot- be found, the fine could be levied on "an entire group of residents.

As in the case of the misguided parent, this is fair and just but somehow unfair. In an atmosphere where others are guilty, the innocent suffer. The measures taken are aimed at good clean dorms, but the price to be paid in personal freedom and liberty is certainly high.

Even though universities possess powers that may be also be used to control legal and illegal acts, there is no reason that the new policy may not be effective.

Effective means an end to the notion that a decision made by the university administration is not the will of the students. This is the key point. If the new policy is effective, it will mean an end to the notion that students have no say in the matter. If the new policy is effective, it will mean an end to the notion that students have no control over their own lives. If the new policy is effective, it will mean an end to the notion that university administrators are not answerable to the students.

In addition, the new policy may also be an end to the notion that students have no say in the matter.

The Best Form of P.R.

In response to last week's "Letter to the Editor," Christian Varholy, S.F.I.R. student, wrote:

"In spite of the obvious reason that I have such a remarkable love and enthusiasm for your school problem, I fail to see your problem in any way." It's hard to say I'm going out of "tiring up" it.

We realize what issues we are the students, and we realize what issues we are the student body. We are making an effort to represent the student's voice.

This is all the reason the two things are different.

Please try to use this as a point and not simply as a reference in your statistics.

We hope, as representatives of the Wake Forest community, that we may be of assistance to our students.

I, too, feel that Wake Forest has the right to edit, without prior written consent, anything that is submitted for publication.

"I won't get four cents."

If you feel any questions about the rights of any member of the Wake Forest community regarding the right to edit, without prior written consent, anything that is submitted for publication, I would like to address the issue directly with the university in writing.

I have never understood the idea of a completely free press. Can an idea work to the advantage of the public if it is not controlled by the government? If an idea is not controlled by the government, it may be dangerous to the public. If an idea is not controlled by the government, it may be dangerous to the public.

I'm sure in those cases where the university has been involved in the decision to print or not to print something, the idea is not the public's interest.

Finally, an easy solution was brought to the fore of the topic of conversation.

A Pitch for Clarity

Last week a certain Rocky Mountain photographer and I were working on the deadline for our entry in the National Championships Series. The game was being held in a small town in Michigan and we had to drive a 3 hour round trip each day to cover the event. By the time we returned the next evening, we were too tired to even think about preparing our entry for the contest. We printed the photos and handed them in without really looking at them again.

But, when I returned home the next day, I realized that there were some problems with the presentation of my photographs. The judges were not impressed with the way I had displayed the photos and they suggested that I make some changes before re-submitting my entry.

I spent the next few days working on a new presentation for my photographs. I reorganized the prints into a more logical flow and added some captions to explain the significance of each image. I also made sure that the photos were properly exposed and focused.

Finally, I submitted my revised entry to the judges. To my surprise, it was accepted and I was awarded a prize for my efforts.

This experience taught me that a little extra effort in the presentation of my work can make a big difference in the outcome. I learned that the judges do not just look at the images, but also consider the way in which they are presented. I am now more aware of the importance of presentation in all aspects of my photography.
**Festival Celebrates Political Causes**

By LINDA JOHNSON

The nightly festival, sponsored by the Theater Program of the Central State Task Force on Central American and Caribbean Studies, music and film has been a cornerstone of the Central American crisis as witnessed in Nicaragua. Some of the performances also stand oppression in South Africa.

John McCullough, spontaneously moved Elk singer and renowned drummer, was just one of the key musicians, which included the folk-Rock duo, Box of Rock, legendary turner, Rodney, Woodrow, Rocker, and Jack Saul. McCullough has been a Nicaragua traveler, diplomat, and warrior. He recognized his personal connection with Central American communities, especially for the event. McCullough added a rivalry to a genus he had written while in Nicaragua. The result was "Whites Robes," which described the slaves' mémoire. This became the main theme in many of the melodies by those killed by the nuns. McCullough, McCullough said, are indeed the faces of Nicaragua.

Not only the music, but the stories of the officer and the beauty of the meaning of the journey of the Nicaraque people their struggle for freedom is their heart and their struggle with the power of the United States.

The Amazing award-winning films, "Whiskey in the Wind," brought the Traveller's voice to the masses. The fact that Nicaragua is a community, philosophies, books, and young writers of the American people, the film of the life of Dr. Charles Cleveland, a graduate of Central State University, is a main source of influence.

NCSA Gives A Bit of French Satire

By the School of Drama of the North Carolina School of the Arts, the School of Design and Production, with the help of the North Carolina School of Drama and the North Carolina School of the Arts, and the support of the North Carolina State University, we present "The Lady from Dubrovnik," a new play by the author of "The Lady from Dubrovnik," and directed by John Moyer. The "Lady from Dubrovnik" is a masterful writer who combines one rencont to find that he born into her two homes.

Brings Football Success
The Deacons have come to rely on what has been and what can be the source of their strength. Last year, Wake Forest had its first open door since 1992 when football players were allowed to travel with the team to gain the ability to overcome diversity and become back from back to back losses.
Rather than fold or give up when the odds seemed great, the Deacons fought back from 28-10 down at halftime, only to see the momentum shift to the Wolfpack in the second half. After NCAA decision to place 21 straight points to win a 28-16 lead, the Deacons could have given up and begun looking ahead to the rest of the season.
Wake Forest refused to throw in the towel, however, and twice regained the lead before N.C. State pointed out 4-18 with only 27 remaining.
Wake Forest recorded in West Point for the next season.
The Cadets had won 13 straight games in Middle Student, and were listed as a favorite over their visitors from the ACC.
Although the senior was close for the first half, the Deacons quickly turned their in the second half, 7-2, to see the first half 12-10. The second half was in a perfect storm of the ACC.

Van Wijk overpowered Memphis with his squad.

Kevin Kerr was able to get a foot on a cross headed, though, as they fought hard for the lead 1-0. Wake Forest committed 12 fouls to Duke committing 12 fouls.

Deacons also had to adjust to the unusually hard surface of the Stadium.

Maryland over the weekend in the Maryland Terrapins in three straight games.

Deacons had several good offensive looks, though, they fought their way to the 1st and 12. Thru Duke up

It was a memorable day for the team.

Kerr's second goal of the night was basically a fluke that came as a result of a scramble in the goalmouth. Kerr was able to get a foot on a cross headed by teammate Tim Stone.

The Wake Forest volleyball team played with its team against Davidson, 3-2. Coaches do not take

They went on to say that the tournament was not the toughest stretch of the season. The last ACC game against Delaware and the last ACC game against Delaware.

Kevin Kerr feels that the 1986 edition of Wake Forest field hockey is one of the best teams he has ever seen.

"We have a great mix of talent and some super freshmen. Our girls are confident in their ability to play on a high level. They are a strong, talented team that has developed a sense of what it means to win," he said.

Defensive Minded Excitement Sees Wake Forest Field Hockey Team Participating in the National Invitation Tournament.

"I think there were some obvious errors, but I knew I would see them, so I just kept playing in goal. My aggressive play has been developed over the last year. I've been aggressive in my play in goal. The skills I've been working on in the field, and although she plays in the field, she has not forgotten her offensive skills.

How did such an outstanding player like Kevin Kerr choose Wake Forest, a school that offered field hockey scholarships?

"We only had a short time to prepare for the tournament, but we did fairly well," she explained. "We lost our first six games, but with the conclusion of the season, we have won our last seven games. It's a great feeling that the 1986 edition of Wake Forest field hockey is one of the best teams I have ever seen," she said.

Kerr, who is also a member of the first team in the Atlantic Coast Conference, has already won three straight games. The visiting team will be looking to win the first ACC game since 2000, when the Terrapins defeated N.C. State. The game will be televised on ACC Network.

The final game was in 1985, and the Wake Forest team will be looking for its third straight ACC victory. The team will meet the Terrapins on Friday to face Army in the opening round of the ACC Tournament.

On Saturday, the team will play against Georgia Tech in the second round of the ACC Tournament.

The Wake Forest field hockey team has been dominating the ACC, finishing the season 10-0 in ACC play.

Deacons established a 5-0 lead in the first game before the Deacons put their first point on the board. From there, both Wake Forest and Wake Forest finished the game and the match. At the end of the game, the Wake Forest team was victorious against the Deacons.

"We only had a short time to prepare for the tournament, but we did fairly well," she explained. "We lost our first six games, but with the conclusion of the season, we have won our last seven games. It's a great feeling."

Kevin Kerr, the Atlantic Coast Conference's Player of the Year, played wonderfully," the Deacons' coach said.

"I think there were some obvious errors, but I knew I would see them, so I just kept playing in goal. My aggressive play has been developed over the last year. I've been aggressive in my play in goal. The skills I've been working on in the field, and although she plays in the field, she has not forgotten her offensive skills.

Use it to alter your grades.

You just got a C+ in that New Foreign Policy. You just got a D- in Communications. You just got an F+ in Advanced Physics. A +F+7 Bee, you could use some help. From a Macintosh, personal computer. A Macintosh can help you with your homework. Help you with your term papers. Help you with your mid-term projects. Help you organize your study time and think more clearly. Help you visualize concepts that are hard to see. A Macintosh can do these things and more.

Come by the Microcomputer Center Room 09-A Reynolda or call 761-5543.

Not at least, Macintosh can run thousands of software programs to help you with everything from linguistics to love physics to philosophy. Welcome to the digital library.

The point being, when you bring a Macintosh home with you, there's a good chance you'll be bringing home something else. Better grades.

State of North Carolina

JAMES G. MARTIN
GOVERNOR

NATIONAL COLLEGIATE ALCOHOL AWARENESS WEEK IN NORTH CAROLINA
1986

BY THE GOVERNOR OF THE STATE OF NORTH CAROLINA
A PROCLAMATION

Buxton's shape, particularly among our youth, affects all aspects of our society. All races, all religions, all social classes. And, in all too many cases, abuse also imperils our citizens of their lives.

Alcohol must be counted among the number of disastrous substances which cause such destruction among our citizens. Like other drugs, alcohol deprives the individuals of present and physical control, even in what may seem to be relatively moderate doses. When coupled with other circumstances such as driving while intoxicated, substance abuse can lead to the abrupt and death of innocent victims as well as those who have been drinking.

In law, the growing up in North Carolina has been raised to two-fifths. Yet, knowing when to stop remains the responsibility of the individual. A responsibility that each of us must accept if we are to ensure the safety of our citizens.

NOW, THEREFORE, I, JAMES G. MARTIN, Governor of the State of North Carolina, do hereby proclaim the week of October 20 through October 26, 1986, as "National Collegiate Alcohol Awareness Week" in North Carolina, and urge all of our youth, students, parents and citizens to observe the dangers of alcohol abuse, particularly among our youth, affects all races, all religions, all social classes and deprives our citizens of their lives.

G. MARTIN
GOVERNOR

Wake Forest University

STUDENT GOVERNMENT PREPARE SURVEY ON RAPE ATTITUDES TO BE ADMINISTERED DURING THE WEEK OF OCT. 27-31 BY THE

PREPARE POLICY TASK FORCE

IF YOU WERE NOT ONE OF 657 STUDENTS RANDOMLY SELECTED TO FILL OUT THE SURVEY AND WISH TO DO SO, PLEASE CONTACT THE STUDENT GOVERNMENT OFFICE.

THANK YOU FOR YOUR SUPPORT
