Returning alumni are allowed to preregister for courses at the Bowman Gray School of Medicine. The deadline for preregistration is October 31.
Leading Islam scholars address 'Contemporary Muslim World'

By MARY ELIZABETH MAYO

The Islamic weekly The Critic decided to cover the Atlantic Ocean east to the Pacific and has a population of more than a few hundred people. The first issue of the magazine was published in 1920. The Critic is notable for its coverage of Islamic studies and its publication of works by leading scholars in the field. The magazine is published quarterly.

The first issue of the magazine contained the following articles:

- "The Nature and Significance of the Islamic World," by the editor, James R. B. Bright
- "The Importance of Islamic Studies," by an unknown author
- "The Future of Islamic Studies," by an unknown author
- "The Role of Islamic Studies in the Modern World," by an unknown author
- "The Significance of Islamic Studies for the Future of Mankind," by an unknown author

The magazine also contained a letter from the editor to the subscribers, thanking them for their support and expressing the magazine's commitment to providing high-quality content.

The Critic has been published for over 90 years and continues to be a leading voice in the field of Islamic studies.

Office of Financial Aid Meets Rising Tuition with Increased Aid

By Joe Gunners

Twenty-five percent of the student body will require need-based financial aid for the 1990-91 academic year, according to Steve Brooks, the assistant dean of financial aid.

The total cost of attending the university will be about $19,500 for 1990-91, Brooks said. This figure includes tuition, room, board, books, supplies, transportation and personal expenses.

In response to the 8.7 percent tuition increase for 1990-91, Brooks said the financial aid program attempts to create aid packages that will maintain "broadly and uniformly affordable financial aid packages." Vertical equity means families at all income levels experience a similar degree of sacrifice.

He said, "Some students say, 'I think the system we have is a necessary one. We expect families to share the financial burden at a reasonable level.' That level is determined by a complex series of calculations based on the financial situation of the student, his or her family, the student's financial aid needs and the ability of the family to pay.

"The approach of many institutions is to consider the need for financial aid as a necessary and recurrent function of the college, not an afterthought.

"While we may not agree with all the specifics of this system, we do agree it is a necessary and recurrent function of the college," he said.

Bowman Gray faculty member disputes validity of animal rights movement

Dr. Richard Vance, Bowman Gray School of Medicine physician and author, is one of two from the animal liberation and rights movement that is "greener days currently, according to most physicians.

Writing in The Oct. issue of the Journal of American Medical Association, Vance said, "We have consistently misjudged and underestimated the potential danger of the animal/rights movement." Vance is an associate professor of pathology and head of the Section on Medical Humanities, an effort to rebut the move-

"As a medical faculty member, we write The Case for Animal Rights." Vance said that because of the uncertainties of the medical profession, this concept has been considered by many physicians as an "off the shelf" concept.

The second is Tom Regan, an N.C. State University faculty member, who wrote "The Case for Animal Rights." Vance and that because of the uncertainties of the medical profession, this concept has been considered by many physicians as an "off the shelf" concept.

A group of students returning from the Volunteer Student Program, Appalachian Spring Break in South Atlantic states, spoke at a meeting of the Student Government Thursday night.

"As a medical faculty member, we write The Case for Animal Rights." Vance said that because of the uncertainties of the medical profession, this concept has been considered by many physicians as an "off the shelf" concept.

An associate professor of pathology and head of the Section on Medical Humanities, he said, "The philosophy foundations of the movement's political agenda, as shown in the recent decision of the U.S. Supreme Court, are understood by most physicians.

Vance and the works of two philosophers underlie the animal rights movements, Craig Ferguson, head of "Animal Liberation," and the second is Tom Regan, an N.C. State University faculty member, who wrote "The Case for Animal Rights." Vance said that because of the uncertainties of the medical profession, this concept has been considered by many physicians as an "off the shelf" concept.

What's in a name? Moroney returns

When is too much too much? As Wake Forest fans, we all have a vested interest in our school's future, but we cannot permit our personal agendas to override the best interests of our community.

The administration recognizes this. Some days, one can almost hear the schools' action toward leaving a favorable impression.

When students and campus organizations (seemingly) want to emphasize the image of our university as a place where all students are first-class and not a number, it is natural to expect the university to attempt to alleviate that problem.

But when the university took steps to fight faculty member Marlo Meroney's attack on Wake Forest, it seemed to be painted a different way. The administration and its administration, in an attempt to maintain our status as a national university, attacked the integrity of Wake Forest, caused by an action that has been a victim. But it is not the only one affected.

Consequently, a journal that is not interested in the problem of Wake Forest, the Forest Critic, would have to promote the facts, these media in the same manner, as was the case. The fact is, Wake Forest's image as a national university was a victim. When President Bill Clinton expressed interest in the issue of Wake Forest, the Forest Critic, the Critic would have to promote the facts, these media in the same manner, as was the case. This is a classic example of the concept of a national university.

The administration recognizes this. Some days, one can almost hear the schools' action toward leaving a favorable impression.

When students and campus organizations (seemingly) want to emphasize the image of our university as a place where all students are first-class and not a number, it is natural to expect the university to attempt to alleviate that problem.
Disapproval of homosexuality documented through Bible

Four types of resident advisors you should detect then avoid

How have you ever wondered why the co-curricular activities are called “resident halls” and not “dorms”? The reason is because the University of North Carolina at Chapel Hill was proposed and adopted with strict rules all across the nation that the term “residence halls” should be used for any buildings that house two or more students. This is similar to the naming of any military, religious, or business “hall” staff, kids. Now, all we know, is that the people responsible for maintaining the resident halls as an efficient and fun environment are your friendly resident assistants. These are people who may be one of the reasons you love college. They are the people that you see on your way to class and the people that you love and hate at the same time. Many of them are people that you respect and many of them are people that you don’t. Now, we are going to look at the three offenses in the past (some repeatedly). However, when a RA with a group of friends is caught doing something that involves energy, it is called a calendar. It is a dirty word and it is the essence of what God has revealed in his word. To extend a call to arms for Christians to make their unit a kind of a relationship, not even to all the people that will cause a land to be burned in their Just for one an- damental non sequitur conclusions? I extend a call to arms for Christians to be okay, to make our lives a little bit better is the answer. Jesus is the answer. Jesus is the answer. Jesus is the answer.

Dear students,

We are happy to announce that we have received a number of submissions for the second annual writing contest for students. The theme for this year’s contest is “The Importance of Community.” The contest is open to all students, and the deadline for submissions is

Chapel Hill Times, March 18, 1993

Dear student,

I am writing to thank you for your kind words and for the support you have provided to the Residence Hall Office. I want to let you know that your efforts have not been in vain. As a resident hall director, I am committed to creating a safe and welcoming environment for all students. We have made great strides in recent years, but there is still much work to be done. I am confident that we will continue to make progress, and I hope that you will continue to support us in this important work.

Sincerely,

Bill Armstrong

Dear Students,

We are pleased to announce the winners of the second annual writing contest for students. The theme for this year’s contest was “The Importance of Community.” The winners are:

First Place: Emily Johnson
Title: “Building Community in Residence Halls”

Second Place: John Smith
Title: “The Power of Community in Adversity”

Third Place: Sarah Lee
Title: “Community in Residence Halls: More Than Just a Place to Live”

Congratulations to all of the winners! Your essays were truly inspiring, and we hope that they will continue to inspire others to think about the importance of community in their lives.

Sincerely,

Bill Armstrong

Demon Deacons lose to Virginia 61-57 for sixth consecutive ACC Tournament defeat

**By Joe Reinhart**

CHARLOTTESVILLE, Va. (AP) — For the second consecutive year, the Wake Forest basketball team was ousted from the ACC Tournament in the first round by the University of Virginia.

The loss marked the seventh consecutive season in which the Demon Deacons lost in the first round of the tournament.

The Cavaliers, who defeated Wake Forest 83-64 in last year’s tournament, won 107-97 on Friday in the Smith Center.

The Deacons, who were coming off a win over Davidson in the first round of the NCAA Tournament, had to rally from a 16-point deficit in the second half to get within 89-80 with 5:22 left in the game.

But the Cavaliers, led by freshman forward Tony Wills, who scored a game-high 25 points, rallied to win the game.

Men’s tennis team wins ACC opener

By Eric Henderson

The men’s tennis team opened the ACC season with a win over Georgia Tech March 7 before winning one more match during the Taras Scott Tournament of Tennis in Knoxville Friday through Sunday.

A win over Tech was followed by losses to Tennessee and Missouri State. Sunday marked the first time this season that the winless Blue Devils split a match in three sets before falling in a tiebreaker. Senior Togi Degil beat bowl Dental on No. 1 singles, but Florida won two doubles split before Missouri State

Batheja defeated Wade Martin in three sets, 6-1, 5-7, 6-2. After Athey and Batheja lost in straight sets, and Degil and Ogilvie won a match against South Carolina, Wake Forest won two of three doubles matches to earn a point for the team and clinch the match.

"We were hoping to start the conference season with a win," Ow said. "It was a solid team performance. The doubles teams performed particularly well."
