Administrators, students discuss letters

By DANIEL PURDY

On Jan. 24, Warren Brooks of Chicago was arrested on a warrants that charge him with threatening the life of Wake Forest student and poet laureate Tara Byers. When The Watauga Democrat reported that Friday (that was this past Friday), Brooks reached the Watauga County Detention Center. Brooks is at

he does not receive the full attention of the

The office of Minority Affairs has asked to keep black student records separate in order to prevent harassment. The state and federal governments have been critical of the university's actions, as have the black students themselves. The university has taken some steps to address the situation, but the problem continues to exist.

The university has taken some steps to solve the problem. The administration will take into consideration the opinions and emotions of the students. Student organizers of the telethon, arranging for students to be given to the callers with the most pledges. Union Carbide's reputation for social responsibility in the community has been enhanced.

The letter writers are the provost of the Black Student Alliance, Schüler Student Government and the Gold and Black. In addition, Brooks has threatened the provost's office in a letter last week.

The letters have been sent to black students who should not be allowed to wake Forest University address and that black students have the "right to die" for their presence at the university. In Kingston's case, Brooks has hinted that he has dangerous friends. Although the letters have not been sent to black students, they contain veiled threats against black students. The university has taken some steps to address the situation, but the problem continues to exist.

Water closes WWFD down

WWFD was off the air for about five hours Thursday as a precautionary move after a water pipe burst, sending water into the control rooms below. Station Manager Cleve Collins described the situation as fairly minor, confined to water damage as fairly minor, confined to water into the control rooms below.

Manager Collins said the decision to go off the air was made because of the extreme cold weather on inauguration day, save for a few local communities that would not benefit from the water burst, sending water into the control rooms below.

The station was also off the air for brief periods on Sunday because of the extreme temperature.

Inauguration

Tuesday, the last day of student classes will end. It will be a day that students will remember for a long time.

Wellness programs expand

By W. Scott Hedrick

What about these New Year's resolutions to take better care of yourself? Is it going to be any different this year? If it's going to be the same, let's talk about the Wellness Resource Center in New York City.

If you're really going to do anything about your health, you need to look at the physical and mental health. The physical health is one side of the coin, but mental health is another.

The center's hours have been expanded this semester. New programs have been added as well. On Monday, Wednesday, and Thursday.

The expanded hours are possible due to the increased interest and more peer educators, and the increased attention on the campus of P.J. Hart, a health education graduate student from the University of North Carolina at Greensboro. Hart is serving as an intern at Wake Forest University Health Services. She will be actively involved in wellness programs both in the resource center activities and in planning some special wellness events later in the spring.

“Would you consider the three basic questions to be: ‘Why?’ ‘For whom?’ ‘What?’”

In a poll taken a couple of years ago, the following question was posed in a panel, but the panelists were not satisfied with the results. Any plans for the program are for any type of campus group, and information is available, especially on topics related to substance abuse.

Finally, if your New Year's resolution was made or an alcohol or drug problem in your family or if you experience thoughts about substance abuse in your family, you can contact the Wellness Resource Center for help.

Free-lance writer opens lecture series

By BILLY SCOGGIN

The College Union Lecture Committee continues to book spring semester lecture series, and more than 150 students applied to participate. The committee, editor and media coordinator, will be on campus to speak on two related topics. "The Death of Aristotle," and "The Death of Advertising." The committee will present "The Death of Aristotle," and "The Death of Advertising," in the media on Monday, February 10th. The committee is also interested in exploring advertising and alcohol, and their effects on young people with a project entitled "Under the Influence." The Project is called "Advertising." Both lectures will examine the serious nature of alcohol advertising, and the effects of alcohol advertising on society as a whole.

Econ Society gears up for busy year

By CATHERINE MALONE

Makai Forest is gearing up for spring 1985 and the Econ Society is left to be left behind. For today only, the society is offering "Adam Smith's Bicentennial Premier Market Barley." The Makai Forest currently, is able to do the Reynolda Market's "Harry Barry" suppliers last, "said society President David Krause.

"I think that Krause showed the society, in this way it is moving on a finished club on campus. With a combination of alcohol and cigarettes, the group is now extending its projects in film classes.

"Makai Forest is a new group of alcoholics, but we hope to be able to get them involved in advertising," said Krause.

"We will have our usual monthly meetings, and we will be able to have our usual guest speakers and the usual free drink," said Krause.

Spring rush sees several changes

By VALENSA VALKINE

The smokers, parties and festivities of spring rush began last weekend, and the students are enjoying the social activities. Several new changes have been made for this year, and many changes have been made for the past year.

"Spring rush is just one of the ways SEC is striving to accommodate these new years," said SEC President Debbe Billeci.

"SEC is a club for students who enjoy the social activities of SEC," said Billeci.

SEC is making changes to accommodate the rush many students are going through.

A MESSAGE TO THE MOST IMPORTANT PERSON WE KNOW... THE BEER DRINKER.

At Anheuser-Busch, brewing is an art. No one takes more time or goes to more effort or expense than we do in preserving the quality and popular family of beers in the world.

We take pride in this distinction, yet the distillation action carries with it certain responsibilities. Beer is a beverage to be enjoyed by adults socially—with family and friends at home... in your clubs, restaurants and at special events. It is also the beverage of moderation, and good judgment should be used when you drink.

Thankfully, the vast majority of those who consume beer do so in moderation. Nevertheless, anything less than responsible consumption of alcoholic beverages is detrimental to the individual and society. We at Anheuser-Busch believe that the public has a right to be concerned about, and to be assured that the beverage industry is dedicated to the support of research, education, and treatment programs aimed at combating alcoholism and alcohol abuse.

Chairman of the Board and President
Dangers profiles.

Regardless of the threats, the university must cope with them. After all, they are being waged within the walls of the campus. So, the administration must be alert to any signs of a potential danger situation. By doing so, they may prevent some of the damage and inconvenience that could be caused.

Also, the university’s security must work closely with the local police to make sure that there is no danger to the campus. If there is a threat, the police must be notified and taken care of.

The university must also be aware of the legal implications of any actions taken. If there is a threat, it is important to consult with legal experts to make sure that the university is not violating any laws.

In conclusion, the university should be aware of all possible types of threats. By being vigilant and prepared, the university can prevent any harm that might be caused.

Appendix: The university should have a plan in place for any type of threat. This plan should include the following:

1. A list of all possible threats
2. A list of all people who need to be notified in case of a threat
3. A list of all procedures to be followed in case of a threat
4. A list of all people who need to be contacted in case of a threat

By having a plan in place, the university can ensure that it is prepared for any type of threat.
Workshops help job hunters

By LISA GERMAIN

The Office of Career Planning and Placement is offering free workshops throughout this semester for students and other students who are in the process of obtaining employment. The first of these workshops, called "Resume Writing," will be held at 7 a.m. Monday in the East Library of the Henderson Hall at 45. For additional times and places, see the information ad above.

Several workshops on "Job Searching" will be conducted at 7 a.m. Tuesday and Thursday in the Real Living. The workshops are being held to familiarize students with job searching techniques and interview methods. Students wishing to attend these classes should see the Office of Career Planning and Placement.

The workshops on job searching and researching will begin with an overview of the job search process, but will most of the time be devoted to the job search techniques. The information will be presented in a relaxed setting where students can ask any questions they have regarding the job search process. The information presented will be available in a written form. Students who are interested in attending the workshops should see the Office of Career Planning and Placement.

The workshop will start with a brief introduction to the job search process, followed by an overview of the job search techniques. The information will be presented in an interactive format, so that students can ask any questions they have regarding the job search process. The information presented will be available in a written form. Students who are interested in attending the workshops should see the Office of Career Planning and Placement.

APO aids local Lupus Chapter

By SUSAN BEAL

Ruth Barlowly is a polite woman who depends on energy for five or six people even though she has an incurable disease and is in pain most of the time.

Barlowly has Lupus Strykerstein, which is a disease that causes the body to fight against itself. It can affect the skin and/or any of the vital organs, but Barlowly has been told her disease is under control.

Barlowly is the president of the Winston-Salem APO Lupus Chapter, an organization formed to aid lupus patients areas in the area. The group plans to hold fund raisers to pay for medical expenses.

Many lupus patients show up negative at the latest scan. Although the course is not known, some of the triggering mechanisms are certain drugs or infections, heat and/or pressure relief drugs, pregnancy, exercise or the apoptotic allograft. The Winsdtom-Salem Chapter asks patients to contact lupus patients and their families.

The organization began with three people, but has grown to over 50 people in just the Winston-Salem and surrounding areas. The organization is now a part of the North Carolina Lupus Foundation, and is a chapter of the Lupus Foundation of America.

Lupus is a disease that impacts people of all ages and backgrounds. It can be seen by anyone and is common. Lupus is more present than many other diseases because it requires multiple tests of those who are known. Women, over 65 or who have traveled to foreign countries, are prone to lupus.

WAKE is back

While Raleigh is able to draw energy and ready to start a new chapter almost a year later, WAKE Radio had crossed many bridges in its way to becoming the Wake Forest student radio station. Many view WAKE as an important social and educational incubator outside of the education department.

Sophomore Caroline Day enjoys WAKE's historical significance and feels with friends. She said, "I'mI cleaning up the place and getting it ready to use. It's a great opportunity to be part of history."

WAKE Radio has crossed many bridges. It has grown from a mere testing ground for new groups. Acts such as The Police, The Police, and others. WAKE is increasing its audience and providing a variety of music to listeners at all times.

Corbin's changes status, goes private

Corbin's Tavern has undergone a recent renovation and status change in that it is now an independent establishment. As a result, the education department will no longer be responsible for its operation.

The tavern, located at 1234 College Road, is now under the management of an independent entity called Wapiti Lodge.

The changes will affect the overall atmosphere of the establishment. According to owner Fred Litcher, "The tavern will be more relaxed and welcoming. We will offer a wider selection of food and drinks."

Litcher has plans to expand the menu and introduce new specials. He said, "We are excited about the changes and look forward to serving our customers."

Those interested in learning more about Wapiti Lodge can visit the tavern located at 1234 College Road. For reservations, please call (919) 555-1234.
Make us laugh, Eddie!

By ELIZABETH A. ASHLEY

Laughter certainly isn’t short of material from “Beverly Hills Cop,” starring Eddie Murphy as a Humpty-Dumpty type detective who months ago kingdom building! from beginning to end.

Murphy plays a detour cop on assignment in Beverly Hills, where he has a hard time making any friends. He is also notorious for his lack of professional discipline, and he continues to make a fool of himself in every scene. But he has a great sense of humor, which helps him find some solace in his life.

Reviewers finally give in to his antics to substutude because the audience has grown tired of the same old story. And now he’s only got a few more scenes to go.

The funniest section is the one where Murphy’s character, Detective Carter, is trying to catch a crook who has been robbing people in the neighborhood. As Murphy chases after the crook, he winds up running into several other criminals, including a man who is wanted for murder. Despite the chaos, Murphy manages to outsmart them all and bring them to justice.

Once the crook is finally subdued, Murphy goes back to his police station, where he is greeted with cheers and applause from his colleagues. And as the camera rolls, the audience can’t help but laugh along with Murphy’s antics.

The elements take over

By STEVE MONTZ

The elements take over, the stars of “Titanic,” the movie about the ill-fated voyage of the RMS Titanic. The film is a disaster, but it’s also a love story about Jack and Rose, played by Leonardo DiCaprio and Kate Winslet, respectively.

It’s a tale of two hearts, one pure and innocent, the other hardened by life. Jack is a penniless artist who falls in love with Rose, a society girl who is wealthy and beautiful. But their love is doomed to be destroyed by the treacherous waters of the Atlantic Ocean.

The story is told through flashbacks, showing the passengers of the Titanic as they prepare for their journey. We see the wealthy and the poor, the happy and the sad, all on the same ship, headed to the same destination.

The elements take over, and the music of the sea echoes through the Titanic, creating a sense of mystery and suspense. And then, just as the ship begins to sink, the music builds to a climax, and we are left with the question: will Jack and Rose survive?

Early release expected

“Cocoon,” the Zanuck/Brown production originally scheduled for a fall release, is now set to open in theaters on Wednesday, April 1. Lawrence Gordon, president and chief executive officer of Zanuck/Brown Company and Entertainment Group, announced the change in a statement: “We are pleased to announce that “Cocoon,” the science-fiction adventure film directed by Howard Zanuck, will open in theaters on April 1.”

The movie tells the story of a group of elderly people who have been transformed into young, healthy beings by a mysterious energy field. The characters must decide whether to stay in the cocoon and live forever, or to return to their normal lives.

The cast includes an all-star ensemble, including Michael Douglas, Burt Reynolds, and Jessica Lange. The film has been praised for its performances and its special effects, which were created using the latest technology.

The release of “Cocoon” comes as the industry is facing criticism for its lack of diversity and inclusion. Many people have called for more representation in Hollywood, and “Cocoon” is seen as an opportunity to address these issues.

The movie is directed by Howard Zanuck, who has a long history in the film industry. He was an executive at 20th Century Fox before joining Zanuck/Brown, and he has produced several successful films.

The release of “Cocoon” is expected to be a major event in the film industry, and it will be interesting to see how it is received by audiences.

Deacons stampede Broncos

By TAD SHIBAHARA and EDMUND J. HERNANDEZ

The Wake Forest Demon Deacons' upperclassmen who stood between the Deacons and victory were as cold as the thunderous slam by Kenny Green. Green, a transfer from New Mexico State where he had starred in both basketball and football, led the Demon Deacons to the first 20-0 start in school history with a decisive 85-70 win over the visiting North Carolina Tar Heels Saturday night in an Atlantic Coast Conference game at the Lawrence Joel Coliseum.

Deacons' scoring was as cold as the thunderous slam by Kenny Green. Green, a transfer from New Mexico State where he had starred in both basketball and football, led the Demon Deacons to the first 20-0 start in school history with a decisive 85-70 win over the visiting North Carolina Tar Heels Saturday night in an Atlantic Coast Conference game at the Lawrence Joel Coliseum.

The Demon Deacons (20-0, 7-0) never trailed and were never threatened throughout the game. In fact, their lead increased from 13 at the half to 24 at the end of the game and stood at a record holding 28 at one time in the final minutes after a last-second bucket by North Carolina's Pete Inglis didn't fall.

The Win over the Tar Heels, the first top-ranked team the Demon Deacons have ever defeated, should make the Deacons' case for a berth in the NCAA tournament stronger.

Freshman Jeff McGill and the Wake Forest Demon, Deacons combining to score the second Deacon figure. Bogues is the second Wake Forest basketball player to be named the ACC Player-of-the-Week and the demonstration of the AC downhill man battle with a pair of all-pack at the top of the heap.

The Deacons turned the game on a high note after upsetting the Virginia Cavaliers at the last minute of the game on a seven-game winning streak they had developed.

Green, a transfer from New Mexico State where he had starred in both basketball and football, led the Demon Deacons to the first 20-0 start in school history with a decisive 85-70 win over the visiting North Carolina Tar Heels Saturday night in an Atlantic Coast Conference game at the Lawrence Joel Coliseum.

The Demon Deacons (20-0, 7-0) never trailed and were never threatened throughout the game. In fact, their lead increased from 13 at the half to 24 at the end of the game and stood at a record holding 28 at one time in the final minutes after a last-second bucket by North Carolina's Pete Inglis didn't fall.

The Win over the Tar Heels, the first top-ranked team the Demon Deacons have ever defeated, should make the Deacons' case for a berth in the NCAA tournament stronger.

Freshman Jeff McGill and the Wake Forest Demon, Deacons combining to score the second Deacon figure. Bogues is the second Wake Forest basketball player to be named the ACC Player-of-the-Week and the demonstration of the AC downhill man battle with a pair of all-pack at the top of the heap.

The Deacons turned the game on a high note after upsetting the Virginia Cavaliers at the last minute of the game on a seven-game winning streak they had developed.

Deacons' scoring was as cold as the thunderous slam by Kenny Green. Green, a transfer from New Mexico State where he had starred in both basketball and football, led the Demon Deacons to the first 20-0 start in school history with a decisive 85-70 win over the visiting North Carolina Tar Heels Saturday night in an Atlantic Coast Conference game at the Lawrence Joel Coliseum.

WE WANT YOU TO START AT THE TOP.

THEN WORK YOUR WAY UP.

You can be part of the greatest alliance in American business history — Electronic Data Systems and General Motors. This alliance combines the information processing strengths of EDS with the resources of the largest company in the nation. And with it comes vast opportunities for you — the kind that business professionals can spend their entire careers seeking. You're already starting at the top with our outstanding resources for growth and success. And the only way to go is up.

We're looking for self-starters — people with the confidence to set high goals and the determination to reach them. We want to put you at the core of EDS' operations as a Systems Engineer. EDS Systems Engineers use both business and technical skills to solve complex problems for our clients. The SED Program will prepare you for the leadership responsibilities you will have in the EDS and GM alliance. It lasts approximately 18 months and will undoubtedly be one of the most rigorous and rewarding business experiences of your life. You'll receive intensive classroom training, and you'll also have the chance to deal directly with our customers. You'll gain knowledge that will place you far ahead of your peers. And when you graduate, you'll have an exciting position with unlimited growth potential.

To qualify for the SED Program, you must be a college graduate with a technical aptitude and an outstanding record of achievement. You should have a major in Management Information Systems, Computer Information Systems, Computer Science, or Engineering. We will also consider candidates with any academic major and a strong interest in business and information processing. In addition, you must be flexible to relocate and travel. Finally, you must be a U.S. citizen or permanent resident. If you are a successful candidate, EDS will reward you with a competitive compensation package. And you're sure to thrive in our corporate environment where rewards are based on achievement — not seniority.

TAKE THE FIRST STEP TOWARD JOINING THE GREATEST ALLIANCE IN AMERICAN BUSINESS HISTORY.

Contact your college placement office today to schedule an interview with a local EDS recruiter. Or write to: Electronic Data Systems Corporation, 7171 Forest Lane, Dept. 1570255, Dallas, TX 75230. (214) 661-6060. An Equal Opportunity Employer.
