Blacks Anticipate Sorority

By Tom Logan

Phi Delta Theta Society for black women was first approved from the faculty and the Student Life Commission after being approved last week by the Charter Committee and the Student Government Legislature.

Phi Delta Theta's William Smith said the society probably won't have much trouble getting approved.

Junior Ronald Caldwell, one of the charter members, said that he is trying to bring Delta Sigma Theta to campus for the fall semester. Caldwell said that the society probably won't have any trouble getting approved.

"Our main problem in getting approved is that we have a large number of minority women on campus who are both interested in forming a minority women's organization and also interested in forming their own sorority," Caldwell said.

"We have a lot of minority women on campus and we have a lot of minority women who want to be part of a minority sorority," Caldwell said.

"I think that this sorority will provide some opportunities for women to work closely with the Intersociety Council and will work closely with the Interfraternity Council," Caldwell said.

"If we're both interested in forming a minority women's organization and also interested in forming a minority women's sorority," Caldwell said.

"The Delta Sigma Theta sorority is going to be both a minority women's sorority and a minority women's organization," Caldwell said.

"If we want to control the process of black women being served a subpoena to testify in a breaking and entering case," Caldwell said.

"We're not going to control the process of black women being served a subpoena to testify in a breaking and entering case," Caldwell said.

"We have not been served a subpoena to testify in a breaking and entering case," Caldwell said.

"This is the first school in the South that is offering a scholarship program Wednesday to the core of students," Caldwell said.

"We'd like to be a part of the program and the first school in the South that is offering a scholarship program Wednesday to the core of students," Caldwell said.

"This is the first school in the South that is offering a scholarship program Wednesday to the core of students," Caldwell said.

Israel
For a limited time (until the end of the 1987-88 school year), you can get a Macintosh Plus or a Zenith eZapTM for an incredibly low price.

Check out the details...

The Macintosh Plus Bundle

$1700.00 (plus tax)

- mouse
- keyboard
- mouse pad
- 800K disk drive
- 1.4 Mb of memory
- surge suppressor
- HyperCardTM package
- external 20 Mb SCSI hard disk

The Zenith eZapTM PC Bundle

$1125.00 (plus tax)

- 94-key keyboard
- parallel and serial ports
- 3.5 inch 720K disk drive
- internal 20 Mb hard disk
- 9680 compatible microprocessor
- advanced computing mouse
- 14" monitor with color or monochrome base
- 2 Mb RAM memory (expandable to 64K)
- MS-DOS, MS-DOS Manager, and Gateway memory enhancement
- Plus a Zenith 19" color monitor with built-in control (included at no extra charge)

Stop by the Microcomputer Center (09A Reynolda Hall) during sales hours (M-F 9-5; Sat 9-1; Sun 1-5) or call 761-5543 for more information.

The Microcomputer Center is proud to announce the

"It’s Time to Buy a Computer" sale.

Apathy Encouraged

Some people in this great country of ours hold apathy as a principle. That attitude is detrimental to our society and to their lives as well. As a result, they often fail to realize that things are not their own business or that they can do something about it.

The apathy of an individual or group can have a profound effect on life in our great country. Fortunately, at Wake Forest the administration is doing something about our heavy burden of "self-government." Apathy is encouraged.

Unfortunately, our grandfathers long ago did a good job of teaching apathy. They instilled in us a love of leisure and a lack of interest in things that are not their own business.

It is my opinion that one of the greatest assets of Wake Forest University's history, its student body, has been its ability to remain apathetic to those things that are not its own business. Wake Forest students have traditionally been rather carefree about the things that they consider to be the province of others.

The administration of Wake Forest University is very interested in the student body and in the things that affect the student body. Therefore, it seems appropriate that we encourage apathy as a principle. If we do not, our society may suffer.

Apathy is encouraged.

God Owes Us Nothing

If we often do not hear ourselves repeating that "God is no more than human" or "Jesus is just another guy" or that religion is "the result of many years of superstition," then we are surely wasting our time and our efforts.

Unfortunately, our grandfathers long ago did a good job of teaching apathy. They instilled in us a love of leisure and a lack of interest in things that are not our own business.

LETTERS TO THE EDITOR

We Should Tolerate

After reading Tom Knight's flagrant misrepresentation of an event that took place nearly 200 years ago, I cannot help but cringe with his intolerance.

What I was attempting to convey was that after the Battle of New Orleans, American armed forces were not ready to capture British-held New Orleans. In addition, American forces were not ready to capture the British-held New Orleans. In fact, the entire American force was not much more than 1,000 men.

I cannot imagine how one can read the article in this paper without feeling that this is a misrepresentation of the truth and that this is a misrepresentation of the truth.

We should tolerate.

Homelessness and Rent Controls

The term "rent control" refers to the social reformers in the plight of the homeless.

"I'm afraid," says one, "as a non-homeless person involved in housing policy, I'm not sure. The reason is too complex to be described in detail. It involves the interaction of many factors, including economic, social, and political forces." The problem is particularly acute in urban areas, where the cost of housing has risen sharply in recent years. 

Some critics argue that rent controls are necessary to protect tenants from excessive rent increases, while others believe that they discourage investment in housing and lead to a shortage of housing.

Schools Should Be Careful of Hypocritical Gripping: It Could Be Heard By Anyone

The tri-delta society's member, David Shaylock, writes about the importance of education and the role of the university in the lives of students. He notes that the university should be a place where students can learn and grow, not just a place where they are expected to conform to certain standards.

Labekes, Monte Carlo Orchestra End Series

By Donna Barnes

The Secret Artist Series will exist in 1985-86 season with a performance by the Monte Carlo Orchestra conducted by Amaury Barron. A portion of the proceeds will benefit The Silver Resource Project, and additional proceeds will be left with Marielle Labeque, two sisters who are pianists in their own right. The concert will take place at 8 p.m. Tuesday in Wait Chapel. Tickets are to be sold and can be picked up at the Student Union office or at Bynum Hall.

Wake Forest students may see the Labeques in concert on such programs as the Tonight Show, Today show and CBS Sunday Morning. They are vivacious, attractive and, incidentally, extremely talented artists.

The sisters were born on the French Atlantic coast and received their first piano lessons from their mother, a well-known piano teacher. They continued their studies at the Musée National de la Musique when they are not appearing with Simon Rattle and the London Symphony Orchestra, or with the Boston Symphony Orchestra under Seiji Ozawa. Katia and Marielle Labeque are known to the general public through the numerous radio and television appearances they have made on such programs as the Tonight Show, Today show and CBS Sunday Morning. They are known as an extremely talented and successful duo, and their departures from the concert world have not been without the most significant affections for their fans. Katia has been very active in the arts, she believes that her future is not just for her, but for the world. I don't care whether I could see her again, Page.

Pirates Is Feast for Audiences

By Scott Schneider

As the curtain rose, the pirates' boat sign ages the stage, as the audience is greeted by the sound of moonlight. A scene from the play is set in the background. With a “aye, matey,” the Walker plays the ridiculous and absurdly humorous role of Captain Phips of Pirates of Penzance begins.

The pirates' bountiful fill the theater and the audience up in the excitement created, at least in part, by the hearty tunes and the large crew of brightly-clad buccaneers. The directing and choreography of the ensemble is outstanding, with the ensemble making use of the entire stage and keeping the pace lively. The pirates' boisterousness fills the theater and the audience up at the Student Union stage with laughter.

Harvey's Astronomical Sources Spot Giant Asteroid Hurtling Toward Earth

By Chris Harvey

The most significant event in hundreds and hundreds of years is rapidly approaching, and very few people are aware of it. The event is called theHarmanus Convergence, the most significant, and is more distressing than a Coconis-led band led by Steve Jobs, out of nowhere, and the event is the only one we've ever heard about, and we are not aware of it.

It's a giant asteroid, headed straight for Earth. The estimated time of impact is 1985. The object is a giant asteroid, hurtling at a speed of nearly 30,000 miles per hour, and on course for the Earth. The object is a giant asteroid, hurtling at a speed of nearly 30,000 miles per hour, and on course for the Earth.

The Monte Carlo Philharmonic Orchestra has also found itself in critical and popular hands. Founded in 1995, the orchestra has been hailed with some of the most prominent musicians of our time, including Claudio Abbado, Yuri Temirkanov, Vladimir Jurowski and Bernard Haitink. The orchestra is regarded as the musical equivalent of Monaco's glamour and high society. The internationally renowned Monte Carlo Philharmonic Orchestra has the privilege of being accompanied by world-famous experts and the orchestra has performed with the greatest names in the music world. They have won several Grand Prix. Their resident director, Lawrence Foster, has been associated with the orchestra since 1979. He is regarded as one of the most successful conductors in the orchestra's audiences and critics. In addition to his post at Monte Carlo, he holds the position of Principal Conductor of the Oregon Symphony and more.

Earth: "There are many who associate Durga Puja with the festival of elephants. Many American Indian tribes have legends about the scientist's existence. The historian tells me that the story of the same event, the story of Siva and Shakti, is one of the oldest in the world. The stories of many peoples, including the Navajo, Peruvians, and the other groups of the world, are similar to the scientist's existence. These stories of many peoples, including the Navajo, Peruvians, and the other groups of the world, are similar to the scientist's existence. These stories are a result of the scientist's existence. These stories are a result of the scientist's existence.

When the pirates happen upon the lady's existence, all characters appear on stage with one notable exception: the pirate father, the Major-General played by Todd Margaret, The Major-General is playing a couple of scenes. These characters of "I Am the Very Model of a Modern Major-General" received an ovation, and thoroughly deserved one. Of all the songs in The Pirates of Penzance, this number is undoubtedly the most famous, and it was added to the core of Major-General Stanley.

The pirates, led by the Emperor of China (played by Chris Young), certainly contributed their share to the performance. Of course, a lyric opera could not be possible without the accompaniment of the orchestra, who, even though they may appear on stage, never take part in the production through just as much practice as the principle.

**Baseball Team Drops 3 Games Over Weekend**

By Bob O’Brien

The Wake Forest baseball team tasted defeat with the start of the ACC Atlantic Coast Conference last weekend and came away with three losses in as many games.

The teams had to schedule games this weekend, because the ACC cancelled all previous scheduled games as a result of Hurricane Fran.

The Wake Forest offense was inconsistent with a total of six home runs, but the pitchers were solid with a total of 20 strikeouts.

**Strong Performances of Kartalia and Rioux Lead Track Team**

By Jakie White

Stefim, the unoffrireil assistant coach of the Wake Forest University Student Athletics Department, can be a small hero, because he was part of the winning team.

Stefim, one of the leading heroes in the conference, was born on the Scholastic Aptitude Test (SAT) and decided to become a coach.

"With the SAT, we have to hard work to add points," Stefim said.

"One thing that worries me about this is that we usually don't come back until the second game after a first loss," Stefim said.

The Depression era was a time of uncertainty, so Stefim hoped to keep his team in the tournament.

"In the last decade, Stefim has been successful in the conference," Stefim said.

"Our chances at making the NCAA tournament are very slim," Stefim said.

"Worried about the tournament is a tough problem," Stefim said.

**Proposition 48 Presents Problems for Academic and Athletic Administrators**

A thorough investigation of the academic and athletic sections of the university was conducted to find the source of the problem.

The results of the investigation were remarkable.

"It was like finding a needle in a haystack," Stefim said.

"The academic and athletic sections of the university have not been working well together," Stefim said.

"We are definitely looking for a shot at Clemson in the next season," Stefim said.

**ACC Tourney Begins Today**

Deacons Will Face Terrapins In First Round of Competition

By Damien Coffee

The Wake Forest men's tennis team faces the University of Maryland this weekend in the ACC tennis tournament.

"We are definitely looking for a shot at Clemson in the next season," Stefim said.

"We have to hard work to add points," Stefim said.

"Our chances at making the NCAA tournament are very slim," Stefim said.

"Worried about the tournament is a tough problem," Stefim said.

"With the SAT, we have to hard work to add points," Stefim said.

"One thing that worries me about this is that we usually don't come back until the second game after a first loss," Stefim said.

The Depression era was a time of uncertainty, so Stefim hoped to keep his team in the tournament.

"In the last decade, Stefim has been successful in the conference," Stefim said.

"Our chances at making the NCAA tournament are very slim," Stefim said.

"Worried about the tournament is a tough problem," Stefim said.

"The academic and athletic sections of the university have not been working well together," Stefim said.
Noble's Attitude and Improvement Contribute to Team's Success

By Russell Rogers

In what has been a very successful season, the Wake Forest women's golf team has taken third place at the Duke Invitational and third place in the Troy State-Hudson Invitational and seventh place at the LSU-Pearlwood Club Invitational.

Junior co-captain Karen Noble has been an integral part of this success. Noble's scores have consistently improved over the season. She took 55th place in a field of 72 at LSU, and a strong fifth out of 76 at Duke.

Noble credits the steady improvement during the season.

"Every day provides something new. Even if you have a bad round, there's no way I'm going to give up. And if I feel good in a tournament, you never know what you may pull off. Every day provides something new."

Noble comes from a golfing family, though an NCAA bid is certainly on the horizon for Noble and the team, next year may be easier.

Karen Noble's play this season has put her in strong contention for an individual ACC Championship. After 12 rounds of golf, all of her scores have been between 76 and 81. She has a 74.89 spring average of 81.24.

Though on NCAA bid is certainly on her mind, Noble's primary concern is the team's performance in the NCAA Regional competition this weekend.

Sixteen nationally-ranked teams and players will be competing. As for the future, she hopes for a bigger thrust in a bigger tournament.

"It's going to be a bigger thrill if you actually win a bigger tournament, or participate in nationals yourself.

"But all of the other tournaments are memories."

Even if you didn't start college on a scholarship, you could finish on one. Army ROTC Scholarships pay for full tuition and allowances for educational fees and textbooks. Along with up to $1,000 a year. Get all the facts.
Deacon Golfer Mattiace Participates in Masters

By Russell Blake

Mattiace is the first Wake Forest golfer to make the cut at The Masters.

"I feel very fortunate just to have made the cut," Mattiace said. "To play with some of the best golfers in the world is a dream come true."

Mattiace, a junior at Wake Forest, said he was happy to represent the school and the United States in his debut at The Masters.

"I feel like I've been waiting my whole life for this," Mattiace said. "To be able to play in The Masters is a dream come true."

Mattiace said he was particularly excited to play against some of the best players in the world.

"I've always looked up to players like Tiger Woods and Phil Mickelson," Mattiace said. "To be able to play against them is a real honor."

Mattiace said he was also looking forward to playing with some of the older players in the field.

"I've always been a fan of players like Jack Nicklaus and Tom Watson," Mattiace said. "To be able to play against them is a real honor."

Mattiace said he was also excited to play in front of a large crowd.

"I've always loved playing in front of a large crowd," Mattiace said. "To be able to play in front of 100,000 people is a real treat."
Freshman Guegan Makes Immediate Impact on Track Program

By Dave Seagraves

Most college athletes do not have major impact on their sport's performance during their freshman season. But Mike Guegan, a middle distance runner on the Wake Forest track team, is a typical example of the exception to the rule.

Guegan, who is from the Channel Island off the coast of England, has made an immediate contribution to the Deacon track program. It has already made an immediate contribution to the Deacon track program.

Mike Guegan's running at a young age. He served as captain of the Victoria College track team between ages 15 and 18. He represented the Channel Islands off the coast of England, having finished school at the United States Naval Academy. He was a key member of the British 400-meter relay team, having won silver medals in the 400, 800, and 1500 meters, and also holds the Olympic record in the 400 meters. The record was set in 1960 in Rome, Italy.
