**Graduation**

Relief, regret to pervade plaza

by Edward Allen

The day arrived, April 28, 1979, for Watauga, Wake Forest College seniors to complete the final step in their academic career. The Class of '79 will be the first to cross the stage in the new Herman B. Wells Plaza.

The day was filled with a mixture of emotions. For many seniors, it was a time of mixed feelings, a kind of bittersweet moment that marks the end of four years of hard work and the beginning of the next stage of life. Some were filled with a sense of anticipation and excitement, looking forward to what the future holds. Others felt a sense of loss, as if a part of them was leaving behind. Still others were simply ready to move on, eager to make the transition to adulthood.

Despite the varying emotions, the day was marked by a sense of community and shared experience. The seniors were united in their common purpose of achieving their academic goals, and they were connected by their shared experiences as members of the Class of '79. The day was a time of celebration and reflection, a moment to acknowledge the hard work and dedication that had brought them to this point.

However, the day was also a time of departure. The seniors would be leaving behind the familiar surroundings of the campus, the people they had come to know and love, and the memories they had created. It was a time to say goodbye to the friends they had made and to the place that had been their home for the past four years.

While the day was filled with emotions, it was also a time of transition and change. The seniors were moving from one stage of life to another, from the world of school to the world of work and beyond. It was a time to look back on the past few years and to look forward to the future, to see what lies ahead and what challenges lie in store.

In the end, the day was a time of relief, for the seniors knew that they had accomplished what they set out to do. It was also a time of regret, for they knew that they would miss the familiar surroundings and the people they had come to know. But it was a day that would be remembered as one of triumph and accomplishment, a day that would be etched in the memories of the Class of '79 as they look back on their time at Wake Forest College and as they move on to the next stage of their lives.
History envelopes heritage of man

...one great accomplishment of the art of living. Few of them were able to think, to work out the high art of living, to feel the depth of passion, to appreciate the height of beauty, or to use their insight to make a change in the world. It was they who were the bearers of the heritage of the man to come. It was they who were the fathers of future generations, who would be the shoes of our ancestors who would have the burden of our lives and our work. It was they who were the builders, the ones who would make the world a better place...

Two receive scholarship

by Mary Lubs

Two Wake Forest seniors are recent recipients of Harry S. Truman Scholarships for 1979. Susan Pritchard of Virginia Beach, Va., and Fred W. Babcock of Babcock Industries, received the Penelope Kettles fellowship award for 1979. The scholarships were established mainly in one student each from each of the fifty states. They are based upon academic performance and commitment to government service.

Jobless seniors resist panic

by Betty Waterfield

---

Jobless seniors are resisting panic with one another.

"I know it sounds corny, but we don't want to be a burden to everyone," said Beth Burton, a chairman in the United Seniors of America. "We're just trying to stay positive and keep each other going." Burton was joined by several other seniors in the meeting, including Alice Johnson and Mary Wilson. They discussed ways to stay active and engaged, such as joining local clubs or volunteering.

"We're not just waiting for something to happen," Johnson said. "We're taking action to make our lives better." Wilson added, "We're not going to let our age define us. We're going to keep living our lives to the fullest."
Letters to the editor

Don't throw out the 4-week baby

The letter in last week's Old Gold and Black by my colleague, Barbara Cleary, deserves some careful thought and consideration; hence, I feel compelled to respond. Barbara's letter is, in general, and particularly, in essence but a thinly veiled attempt to renew the 4-week course which is currently out of favor at Wake Forest.

The 4-week course is one of several courses designed to fulfill the requirements for the academic credentials of Wake Forest University. The 4-week course was initiated by the Board of Trustees in 1923, and it is one of the oldest courses in the nation. The 4-week course is unique in that it is designed to provide a comprehensive study of a particular subject in a relatively short period of time. It is designed to be a challenging and rewarding experience for students.

Similarly, the status of a convention agency.

The trustees have worked closely with the academic community in planning and implementing the 4-week course. The course is designed to be a challenging and rewarding experience for students. It is designed to provide a comprehensive study of a particular subject in a relatively short period of time. It is designed to be a challenging and rewarding experience for students.

'Deer Hunter' emphasizes rituals

Vietnam was the first major war fought in America. While the United States was engaged in the Vietnam War, American moviegoers were treated to such films as 'Deer Hunter.' Directed by Michael Cimino and released in 1978, 'Deer Hunter' was a critical and commercial success. The film was nominated for nine Academy Awards and won five of them, including Best Picture and Best Director. The movie is set in the Vietnam War and explores themes of national identity and the effects of war on individuals. It is considered one of the finest films of the decade and has had a lasting impact on American cinema.

The movie tells the story of three men who are drafted to fight in Vietnam. They are played by Robert De Niro, John Savage, and Christopher Walken. The film follows their journey from the United States to Vietnam, where they experience various battles and conflicts. The movie is known for its realistic depiction of war and its portrayal of the psychological toll that the war takes on its subjects.

The 'Deer Hunter' is shot in black and white, a technique that was used to enhance the film's realism and to create a sense of timelessness. The film's music, composed by John Barry, is another notable aspect of the movie. The score is emotionally powerful and complements the film's visual and narrative elements.

Despite the film's box office success, it was not without controversy. Some critics and audiences were concerned that the film's focus on the Vietnam War was too biased and that it romanticized the war. However, the film's critical success and its impact on American cinema are undeniable. 'Deer Hunter' remains a landmark film in the history of American cinema and a testament to the power of film as a medium for storytelling.

Winston-Salem's Mayfest

Cimino uses the classic 'Deer Hunter' as the backdrop for the film. The movie follows the lives of three American men who are drafted to fight in Vietnam. The film is known for its realistic depiction of war and its portrayal of the psychological toll that the war takes on its subjects. Despite the film's box office success, it was not without controversy. Future unclear for Johnson

Johnson’s future is currently up in the air. While he’s new willing to do his best with whichever team he’s on, there’s not a lot of clarity on what will happen.

"Probably only one other team in the nation will be chasing and Georgia Tech and Virginia Tech both had good years, so it’s an interesting choice," he said.

Johnson is now going into his senior season with the excitement that Mills’ victory in early June, with the here as a freshman, "I had a good year, and I hit the ball better than I have since my junior year, and also was able to hit the ball better."

The golfers were equally successful as they were their own three-consecutive little men in the ACC tournaments, despite their struggles in conference play. They were one of the most consistent teams in the ACC, ranking second in the ACC Tournament on the East Coast and third in the East Coast.

New Rebellion will be one person who would just as he is. The team will start with a 3-2 bid, which was decided on before the start of the regular season. But the Rebellion will be one of the best teams in the ACC.

The Rebellion was a good pitching staff, as one of the most consistent teams in the ACC. The Rebellion was a good pitching staff, as one of the most consistent teams in the ACC.
Soccer team begins practice coach pleased with progress

by George Nixon

The world's most popular sport has finally achieved reality status at WPU, but for new soccer coach George Kennedy, the work is really just beginning.

The guys have been out there on the last two weeks and on Monday, Wednesday and Thursday nights, after their first scrimmage games since then, they have been working out at the all-weather track in the center of campus.

"I have to say that it is a lot more intense here and I was very impressed that so many guys came out and were willing to put in this effort," Kennedy said.

Kennedy is now working hard to build up the team's confidence, and he is also very pleased with the players' ability to build a good team.

"We're really looking forward to building a tradition here at Wake Forest," said Kennedy. "Every other school in this conference has a tradition and I think we can really get a good program going here."
Village returns profits
