Smith Wins, Judicial Board Referendum Passes

By Lin Holling

Mike Smith won the race for 1988-89 Student Government president, defeating Wes Casteen and Richard Harris in Tuesday’s election. In the race for vice president, Lisa Ward defeated write-in candidate Dave Venk.

Corporating and Catering of Student Life is supposed to be the most office in an attempt to eliminate most offices at Wake Forest. He said he hopes to increase the diversity among companies working with students with a liberal arts background.

The group will also meet to discuss issues that effect the Wake Forest community functions. In the presidential race, Smith received 77.5 percent of the vote, 1.3 percent of the vote.

to attempt to increase student participation in university functions and decisions. However, the committee urged students to take the initiative to improve faculty-student relations and provide venues for open dialogue.

Hearn Develops Program To Build Communication

By Elizabeth Martin

Hearn Knecht, vice president for development of Student Life, has developed a program to increase student participation in university functions and decisions.

The Presidential AIDS Program offers students the opportunity to develop close contacts with AIDS patients and to learn about the disease and its impact. The group will consist of 10 students who will meet with patients every week. Hearn believes that the program will help students become more informed about the disease and its impact on the university.

The Student Life Committee (SLC) is the group that is responsible for the development of the program. The SLC is made up of five students from each of the four schools of Wake Forest University.

The SLC met on Jan. 10 to discuss the program and to determine how it will be implemented. The group decided that the program will be offered as an elective course for students who are interested in learning more about the disease and its impact on the university.

The program will consist of a two-week training session to teach students how to interview patients and to develop interview questions. The students will then be assigned interviews with patients and will be required to write a report about their experiences.

The program will be offered to all students who are interested in learning more about the disease and its impact on the university. The program will be offered as an elective course and will be worth two credits.

The program will also provide students with an opportunity to contribute to the fight against AIDS. The program will be funded by a grant from the National Institutes of Health. The grant will provide funds for the training session and for the interviews.

The program will be offered every semester and will be open to all students who are interested in learning more about the disease and its impact on the university. The program will be offered as an elective course and will be worth two credits.

The program will be offered every semester and will be open to all students who are interested in learning more about the disease and its impact on the university. The program will be offered as an elective course and will be worth two credits.

**Republican Lieutenant Governor Candidates Participate in Debate**

By Jonathan C. Jordan

All three Republican hopefuls for Lieutenant Governor Thursday participated in a debate Wednesday sponsored by the Winston-Salem Jaycees. The Wake Forest political department assisted in organizing the debate, which was held at Belews Creek Hall.

The candidates are State Representative William J. Byrd of Henderson, State Senator Wendell Sawyer of Greensboro, and Congressman's son of Raleigh. Donald Schonewaldt, a professor in the political science, served as the moderator for the debate.

Each candidate was allowed a five-minute opening speech, after which a panel of North Carolina Jaycees questioned. Each then had an equal number of questions to the candidate. Byrd listed the three areas of concern in his campaign. He said he would not stand for re-election and would continue in simulations with licensure, drugs, and Aids testing on marriage licenses and for prisoners and convicts. Byrd said he had a strong border for the personnel and as an example of the second group of Democrats in the General Assembly that controls the legislature.

Sawyer, a conservative who opposes one term in 1988, spoke on education, economic development and integrity in government. He said he would not stand for re-election and would continue in simulations with licensure, drugs, and Aids testing on marriage licenses and for prisoners and convicts. Byrd said he had a strong border for the personnel and as an example of the second group of Democrats in the General Assembly that controls the legislature.

Sawyer disagreed with Byrd's position of the Wake Forest debate. He said it was the name of concern his responsibility. "These guys can never compete with protecting their own power, and in what the people of North Carolina want. They could have their own power with one day and work to better the people of North Carolina. They would simply throw it in the air. Each candidate opposes the Basic Education Plan. Sawyer said the time was the time to "think of something else." The three candidates will face off in the May primary.

**Presentation of Habakkuk**

By Anna Stiller

Old Gold and Black Reporter

A multi-screen presentation of the Biblical book Habakkuk will be shown Wednesday in Belews Creek Hall. The production is a "translation from one form of art, the printed word, to another, a multi-dimensional show," said John Lindley, the producer and coordinator for the event. The program is a touring production of TwentyFirstCentury Productions, a group that visits college campuses across the nation. The Habakkuk production is 35 minutes long and contains more than 1,000 images. The images are created by 24 commissioned productions and shown on 50 screens. Students who have seen the presentation speak highly of its visual effects. Habakkuk is "a very entertaining and has something for everyone," says Ruth Landalit. "Even if you don't have an interest in God, Habakkuk is an incredibly touching very well done," said Steven Turner. "The production gets you out of ourselves and we think the world is all above," he said.

The presentation examines the meaning of history, the role of God in the world of violence, and offers hope for a world of change. The presentation is sponsored by the Sigma Chi's kick Derby Week in their freshly painted car. The Sophia's, Delta Sigma Theta, and Alpha Xi Delta and Lyshka helped the Sigma Chi's in their fundraising efforts.

**Correction**

Gay to serve for the Honor Council

Letter To The Editor

Speed Bumps Needed

Since the WPU administration is so proficient in enforcing parking violations that one wonders how it can find time to construe safely-effected edges and carts the rest of the campus. Traffic confusion is heightened tremendously after 10 p.m. when rushee return and the campus becomes quite hazardous. The campus in general has many blind corners which could become quite dangerous. It is simply a matter of common sense to be alert and cautious in this area. If only the students would work together we could prevent this. The administration is also at fault for not providing better lights in the whole area near the dorms. We should talk this over in the student newspaper and work this out as a group. ('We should maintain a safe environment for all other students.'

Will Siler
Ban ROTC Training

What place do military science courses have on a college campus? I wonder if this does not outspokenly contradict the educational goals of our university community. Why does the administration feel the need to have ROTC on our campus? What possible connection could WPU and the armed forces have? We should ask ourselves 'What is the end result of having ROTC on our campus?'

These three questions don’t get asked much anymore. You hear things like “ niệm that we are a civilian university” and “our main purpose is to educate students.” However, we are a university community, which (sadly) does not find value in WPU’s ROTC. If anything, it is a method of warfare. The administration should encourage students to think more critically about the university and about the student body. The administration should not push the students to make sure that they will become something they are not. Let us hope that the administration, which (sadly) does not find value in WPU’s ROTC, will then see the over-riding concern for the campus environment that is most important. Perhaps this will then change as well.

Election Results

Lack of Candidates Causes Concern

The recent Student Government election results make a number of people scratch their heads. The broad campus was a definite failure. The campus was up, but it was not enough. However, there was obviously a severe lack of candidates. The Student Government Committee was approved by the legislature for each of the three lower quadrants on a Wednesday. The candidates were supposed to be announced the following week. It is necessary for these candidates to be announced in order to prepare for the election. The lack of announcement periods should invite grave suspicion. No one deserves to be appointed to any position of importance without first being given the opportunity to prove how suitable they are for the office of their qualification.

Two lines of argument present themselves as to why so few candidates presented for the positions. The number of vacancies available is probably one place at the mora. This theory is supported by dorm voting results in specific classes. The better dorms have full classes of candidates. The worst dorms have full classes of candidates. The students in the worst dorms have full classes of candidates. The students in the worst dorms are not represented in any way in the Student Government Committee. The voting results tend to support this conclusion. The voting results would be less demanding for members of the smaller dorm.

Another distressing result of the election was the voting rate of students. Only 4-2 percent of on-campus students voted in the elections Tuesday, April 6. This is a poor percentage for a university with such a high percentage of students. The voting results are a tell-tale sign of the students feeling less a part of campus than others. This is a competition between a university education and the students. The best and most self-governance is supported by dorm voting statistics.

Lack of Candidates Causes Concern

In many election years, it is evident that there is little enthusiasm in the campus community for the Student Government elections. This year, the election has received little attention from students. A small number of candidates have run, and a small number of people have voted. This is a sign of the lack of student participation in the government of the university.

In the election, only 4-2 percent of on-campus students voted. This is a poor percentage, especially when compared to previous years. The voting rate has been consistently low in recent years. This is a concern for the administration, as it indicates a lack of student involvement in the government of the university. The administration has expressed concern about the low voting rate. It is important that students become more involved in the election process and in the government of the university.

In conclusion, the lack of candidates and the low voting rate indicate a lack of student participation in the government of the university. The administration and the student body should work together to increase student involvement in the election process and in the government of the university.
Tolerance of Ideas Is Crucial

During the last three weeks, there has been a great deal of discussion as to whether every individual should have his or her own personal agenda, or if any of the other individual's views should be considered. The nurses' committee that handles hospital policies announced that tolerance of other ideas is the most important concern of any hospital. The nurses' committee has taken this position because they feel that if every individual has his or her own personal agenda, there would be no room for compromise, and the hospital would never achieve the level of efficiency it needs to function properly.

The nurses' committee also stated that it is important for individuals to understand that there are other perspectives that they may not be aware of. They believe that if everyone has his or her own personal agenda, the hospital would become a place where everyone is only concerned with his or her own interests, and no one else. According to the nurses' committee, the hospital needs to be a place where everyone is willing to listen to other people's ideas and to consider them, even if they are different from their own.

In conclusion, the nurses' committee believes that tolerance of other ideas is crucial to the success of any hospital. They believe that if everyone has his or her own personal agenda, the hospital would become a place where everyone is only concerned with his or her own interests, and no one else. According to the nurses' committee, the hospital needs to be a place where everyone is willing to listen to other people's ideas and to consider them, even if they are different from their own.

Homosexual Relationships Not Really Unnatural

The idea that homosexual relationships are unnatural is a belief that is deeply rooted in the minds of many people. However, it is important to remember that the idea of homosexuality is not simply a matter of personal opinion, but rather it is a belief that is supported by a large body of evidence.

Many scientists have studied the phenomenon of homosexuality, and they have found that it is not simply a matter of personal preference. In fact, studies have shown that the brains of gay and straight people are actually different, and that these differences are not simply a matter of personal opinion.

It is also important to remember that the idea of homosexuality is not simply a matter of personal preference, but rather it is a belief that is supported by a large body of evidence. In fact, studies have shown that the brains of gay and straight people are actually different, and that these differences are not simply a matter of personal opinion.

Food Service Complaints Not Constructive

For individuals who have recently moved on an adverse reaction in taking one of the most important role of their lives, the term “Food Service Complaints” can be a frustrating and stressful experience. Although the majority of food service complaints are handled in a professional and courteous manner, there are still occasions when a customer’s experience is not up to par. In these instances, the customer may feel frustrated and may want to address their concerns to the management team. It is important for the management team to handle these complaints in a constructive and professional manner, in order to maintain a positive relationship with the customer.

Designers Will Add Artistry to Pirates

By Jeff Hogan
Old Gold and Black Staff Report

There’s much more to theater than meets the eye. The actors move and first open eyes that take time to decide on the show. The costumes and set dress the actors and sets with a love of color and form. The set design is not just a stage backdrop, but a part of the story as well. When designing a set, designers must be aware of the actors and their movements, the lighting, and the overall atmosphere of the show. They must also consider the audience's experience, ensuring that the set is visually appealing and engaging.

Guitar Starfin Perform at NCSA

Guest artist David Starfin, praised as a “master of the guitar movement,” will present a concert at 8 p.m. on April 15 in the Fine Arts Center at NCSA. Starfin, who was born in 1854 and died in 1947, is credited with introducing the guitar movement to the United States. Starfin’s performances are known for their technical skill and emotional depth.

The concert will feature a variety of solo and ensemble pieces, including works by Manuel de Falla, Isaac Albéniz, and Robert Starin. The program will conclude with a performance of “3 Preludes for Guitar” by Leonard Rose, Rose’s teacher and mentor.

Starfin’s performance is part of the NCSA Arts Series, which presents a diverse range of musical events throughout the year. The series includes concerts by world-renowned musicians, as well as local and student performers. The next concert in the series will be conducted by Chris Harvey, Director of the Arts Department.

Corrections

In the article on the University Theatre production of "The Producers" that appeared in last week's issue, the name of one of the lead cast members was incorrectly stated. Chris Young, a member of the Segments of the Wolfs, is the lead cast member in the production of "The Producers." The correction has been made.

The ticket price for students is $5, and tickets are available at the box office of the Fine Arts Center, or by calling 555-1234. The show is highly anticipated, and tickets are expected to sell out quickly.
Another popular play is getting near to ending presently. The possibilities are endless in this area. For instance, imagine Carl Sagans doing a McDonald's commercial, eating in front of the "Billboard" and "Billboard" signs, etc., and then Sagans' wife, Sue Fitz, is representing them. Remember their names. If your name is green, fill, and handsomely, it probably didn't come from Sagans' wife.

Recent albums such as "The Stooges," built themselves on a horridly pop formula that featured the band more than legitimate musicians. Not so with Nufret, produced by Steve Lillywhite, best known for his work with Big Country and U2, and multi-instrumentalist sound that characterized albums such as "The Name of This Band Is Dying." Along with the band, there was a wide assortment of Paris musicians who were, according to the liner notes, "coming loose." Also contributing to the album's successes are figures such as saxophonist Kenny Pickard, percussionist Abbe's M'Boup, and ex-wife Johnny Miles. The result is an interminably difficult for everything from African rhythms and big-band swing to country folk. As usual, however, the heart of the album is Byrnes' view of modern life and the conflict between nature and civilization. In "Rally Styme," Byrnes expresses his desire for freedom in the forest over the stunning backdrop of Eric Weisberg's pedal steel guitar and Abbe's M'Boup's percussion. Alternately, on the album's first single, "Nothing But Flowers," Byrnes expresses his desire for freedom in the forest over the stunning backdrop of Eric Weisberg's pedal steel guitar and Abbe's M'Boup's percussion. Ping Pong Team Visits WFU

By Bill Harus
April 5, 1988

Six members of the Japanese Table Tennis Association disrupted several exhibitions matches against members of the Winston-Salem State University Club and two members of the Augusta College Team last night in Memorial Gymnasium.

The Japanese were 15 of the 18 matches they played. After participating in both singles and doubles matches.

The highlight of the night was a match which pitted, 5-1, the number one player in the world, against David Uchino, a Korean national team member who has recently defeated the top two players in the United States.

It was the first game the players fought in a 39-35 set before Matsushita pulled it out in 20-36. The second game in the final three matches saw Matsushita pull out a 5-1 lead, which flustered Uchino, who was never able to recover.

The six players and four officials were here in conjunction with the United States-Japan University Table Tennis Exchange Program, and came to Wake Forest as an effort to promote interest in table tennis in America.

The team found out just how necessary their presence would be when they arrived on campus and were told the school did not have a single competition-quality table they could use to play. The Wake Forest team said they would use any table they could find.

The team couldn't include Kayonoku Swako, bounce and Kamoe Yosuke from Sendai University, Toshiaki Okamoto from Aichi Institute of Technology, and Kazuo Tanaka from Tohoku University; Toshiaki Okamoto from Aichi Institute of Technology; Toshiaki Okamoto from Aichi Institute of Technology; and Toshiaki Okamoto from Aichi Institute of Technology.

Boyd's Father Passes Away

The father of Deacons basketball player Col Boyd died Sunday in Lyons, Ga., of pneumonia. Robert Boyd's illness was diagnosed last fall. He passed away after suffering a brain hemorrhage. He was released from the hospital in January and continued treatments for the remaining winter months. His condition, however, still deteriorated in the past few weeks.

Dooley Promotes Bob Pruitt

Wake Forest Assistant Football Coach Bob Pruitt was announced as the new head men's tennis coach at the university Monday. Pruitt joined the Wake Forest staff last winter to help in a similar position at the University of Florida.

Deacon Band Jan Webster, a former player at Parkway High School, 74, of Deacon Band and a member of the 1966 national championship team, has been selected to take a similar post at the University of Florida.

Larry Holland, a former assistant coach at Clemson and North Carolina, was also hired earlier this spring.

Golfers Take Second In Wofford Tourney

By Howard L. Born

The Wake Forest men’s golf team finished second behind Clemson in the Wofford Invitational last weekend in Spartanburg, S.C.

The Demon Deacons compiled a three-day total of 561, ranking second to the Tigers. West Virginia was third at 566, 2 strokes behind the Tigers. The Demon Deacons were followed in fourth place by Alabama, Georgia and Missouri.

The Demon Deacons were led by Barry Fehu in the individual competition. Fehu finished third in the tournament with a three-day total of 215. He was followed by sophomore Jesse Haddock, who finished fourth with a score of 216. Junior Len Mattson was the third Demon to make the top 10, finishing in 10th place with a score of 222.

Men

From Page 9

in a close match that went down to the last doubles match, but the Yellow Jackets prevailed 7-6, 6-3. Junior Barry Fehu and senior Jason Creekenden went down 6-0, 6-2 at the number-one doubles position, while senior Barry Fehu and junior Mattiace managed a 7-6, 6-2 score at the number-three doubles position. The Yellow Jackets went on to win the final doubles match, 6-4, 6-3, to secure the victory.

Women

From Page 9

In her match at the varsity courts, van Wijk lost the first set tie-breaker at second singles, but she entered the second set with a 7-5 second set before winning the opening set 6-1, 6-4. She struggled during the first set, but was able to come back and perform well.

But, the second set was a different story. Van Wijk was in control, defeating her opponent 6-0, 6-1, 6-1.

The other singles win for Wake Forest came from ninth, junior Barry Fehu, who went down 6-0, 6-2 at the number-three singles position. The Demon Deacons went on to win the third set, 6-4, 6-3, to secure the victory.

The Demon Deacons went on to win the final doubles match, 6-4, 6-3, to secure the victory.

O'Connell Adjusts to United States, Helps Deacons Golf Squad

By Dave Sansom
The Daily Tar Heel

In a move that seems to make sense for Cabada, the star of Wake Forest's golf team, he feels comfortable playing over here right now.

"I usually adapt to things really fast and I think most people playing over here would agree," said O'Connell, who in his first year of collegiate golf represented the Deacons on the course.

The onetime Irish amateur has been a revelation in his new environment.

About the only thing O'Connell did seem to have trouble with was finding out how to order in an Irish pub.

"It was then that I realized I had heard academics really wasn't that hard," O'Connell said. "I went back home, someone else told me to do the same thing, and I decided to call the coach. I got to work with him, sat some classes about math, and agreed with Wake within a few weeks."

O'Connell said he chose Wake Forest because of its smaller size, quality education and coach's personal attention in recruiting.

"Coach did a much better job than the other schools about communicating with me. He was more personable."

With the golf season half over, O'Connell is hoping that Wake Forest will be able to pull together for a strong finish at the NCAA Championship.

"We have the capacity to do it if we can get our act together," he said. "We haven't played as a team as much as we should have, but things are getting better."

O'Connell said the Deacons are a team built around seniors.

"Our strong finishers, O'Connell felt that the depth of competition in the United States is greater than it is in Europe.

"I think something over here may be exactly as hard," he said. "The top five players over here are the same caliber as the top five players here, but there is more depth in the United States."

"A score of six over par might give you a respectable showing over here, but not here because there are some really good players over there." O'Connell had a history of playing one of the top golfers in Europe before coming to the United States.

He began to play golf at age 12, and soon he was invited to play and play every Sunday.

Although O'Connell participated in many youth tournaments and practical every day in the field of his father's firm, he claims he did not want to take the field seriously until he had a history of being one of the top players in Europe before coming to the United States.

"I began to participate in more tournaments, and quick became recognized as one of the top golfers in Europe."

"It was then that I realized I had heard academics really wasn't that hard," O'Connell said. "I went back home, someone else told me to do the same thing, and I decided to call the coach. I got to work with him, sat some classes about math, and agreed with Wake within a few weeks."

O'Connell said he chose Wake Forest because of its smaller size, quality education and coach's personal attention in recruiting.

"Coach did a much better job than the other schools about communicating with me. He was more personable."

With the golf season half over, O'Connell is hoping that Wake Forest will be able to pull together for a strong finish at the NCAA Championship.

"We have the capacity to do it if we can get our act together," he said. "We haven't played as a team as much as we should have, but things are getting better."

O'Connell said the Deacons are a team built around seniors. They improve their record to 5-6 from 5-7 after scoring 29-under par in the second round. The Wolfpack recorded five one-under par rounds during the day, finishing 23-0-2 and 23-0-2 in the second round. The Deacons added seven runs in the fourth inning to take a 3-0 lead, as Dell Ahalt led off with a walk and the next six batters reached base. Brian Baskin and Bill Hargis were hit by pitchers and Ryan Kozito added a solo home run.

On Wednesday, the Wolfpack had its own winning streak stopped at NC State owned a 3-1 lead at half. That led to a 10-3 win over Florida State, which had a 7-3 win over Florida State.

The Wolfpack recorded five home runs during the day, finishing 23-0-2 and 23-0-2 in the second round. Bored of Trust Grants Power To USELESS

Without Connect Plans Radial Legislation

By BURROW CRAT

In a landmark decision, the Wafoo, Inc. Board of Directors voted to grant power to the USELESS without Connect Plans. The decision was made after months of deliberation and intense public scrutiny.

The most notable change will be the expansion of the USELESS to include all citizens of the Wafoo, Inc. community. According to Wafoo, Inc. President John Doe, this expansion will allow the USELESS to better represent the interests of all citizens.

The USELESS will now have the power to make decisions on a wide range of issues, including education, healthcare, and the environment. The USELESS will also have the power to hire a dedicated staff to help with the day-to-day operations of the organization.

TheUSELESS has already begun working on several important initiatives, including the creation of a new education fund and the development of a comprehensive healthcare plan.

The USELESS will hold its first meeting on Saturday, May 16, at 10 AM in the Wafoo, Inc. Board of Directors Room. All citizens are encouraged to attend and to offer their suggestions and ideas for the future of the USELESS.

Alcohol Policy Changes Again

No-Rings Are In, Wristbands Out

By SCOTT HOUSER

The Wafoo, Inc. Board of Directors has announced that nose-rings are now the official policy for events at Wafoo, Inc. Wristbands, which were previously required, will no longer be necessary.

The decision was made after extensive research and public input. The board determined that nose-rings provide a more effective way to control access to events at Wafoo, Inc.

The new policy will go into effect immediately. All events at Wafoo, Inc. will now require nose-rings for entry. Wristbands will be optional for those who wish to continue wearing them.

The board also wants to thank everyone for their input and cooperation during this process. They look forward to continuing to work with the community to make Wafoo, Inc. a safe and enjoyable place for all.

**Professor Speaks on Two-Party System**

By Lisa Logan

Although the Constitutional framers did not anticipate the modern American political party system, the parties continue with the greater part of their activities today, as they did on Tuesday.

Maxwell Pike, professor of government at the University of Virginia, spoke on "Constitutional Interpretation and the Modern Two-Party System" as part of the Tocqueville Forum.

"The two parties are so important because it gives political interest to the public," Pike said. "By the time you vote now, you may name the occupation of the next president, but it will be no longer an individual candidate for a position, but one with some dignity attached to it, one that is part of the American political system." The party system also helps to control the high ambition levels that the founders feared, he said. After going through the nominating procedures, the party’s ambition levels that the founders feared, he said.

The party system originally offered the International Studies group one house and space in the modern apartment, but later offered the use of a second floor. The political party group was not a cooperative effort between the International Studies and the student government. Pike said that the group had the use of a second floor because they were the only group that could make use of the space.

**University Purchases House for International Theme Living**

By Michael McGuire

The university has purchased a house on College Drive that will be used as a permanent base and training center for the Student Government Association. The group has been using the house since 1982.

The house, which is located behind the student center, will be used as a permanent residence for the Student Government Association. The group hopes to use the house as a permanent base and training center for future leaders of the university.

**ODK Taps 20 Students**

On the Gold and Black Staff Report

Centennial ODK Kappa tapped Tuesday and Wednesday for membership in their house society, The 20 seniors, five seniors and one graduate student were selected for their character, prominence among peers, leadership and civic-mindedness.

The induction ceremony and reception will be held April 25.

The following seniors were selected:

- Victoria Ojukwu, female, economics major, from the Department of Economics and Business Administration, home of the 20 seniors selected.
- Patrick Patrick, male, business major, from the Department of Political Science and Business Administration, home of the 20 seniors selected.
- Melissa Johnson, female, political science major, from the Department of Political Science and Business Administration, home of the 20 seniors selected.
- Julia Brown, female, political science major, from the Department of Political Science and Business Administration, home of the 20 seniors selected.
- Megan Williams, female, political science major, from the Department of Political Science and Business Administration, home of the 20 seniors selected.

**Starling Discusses Education System**

On the Gold and Black Staff Report

William G. Starling, the director of education and public information for the American Association of University Professors, discussed the role of the university in the educational system. The university is a place where ideas are generated and shared, he said.

Starling said that the American Association of University Professors is a nonprofit organization that represents the interests of university faculty. The organization is concerned with the quality of education and the rights of faculty members.

Starling recommended that universities focus on the quality of education and the rights of faculty members. He said that universities should focus on the quality of education and the rights of faculty members. He said that universities should focus on the quality of education and the rights of faculty members.

**American Indian Gives Emotional Talk On Unfairness of U.S. Political System**

By Garth Scharf

American Indian gives emotional talk on unfairness of U.S. Political System

Vernon Bellecourt delivered an emotionally charged speech at Monday night’s American Indian Student Association meeting, addressing issues of inequality and unfairness in the American political system. The speech was one of the most powerful speeches delivered by a member of the American Indian Student Association.

Bellecourt said that the American Indian Student Association is a group that represents the interests of American Indians. The group is concerned with the rights of American Indians and the quality of education for American Indians.

Bellecourt said that American Indians struggle to maintain a cultural identity in a world of ever-changing technology. Government in America is “a people, for the people, by the people, for the benefit of the people,” he said.

The speech was powerful and emotional, and it touched the hearts of the audience. Bellecourt ended his speech with the words, “We’re not giving up. We’re going to keep fighting until we win.”

In an unprecedented, landmark move yesterday, Thomas Earn, CEO of Wafco, approved a Student Lending Committee proposal to ban alcohol on campus."The new plan also calls for an alternative program geared for re- sumers, Brian Conk, assistant vice president for student and alumni relations, said, "The students who want a different kind of buzz," the university also will sponsor "white" trips to the Northwestern dentist.

Conk said, "I expect the ban to help rid the campus of all major alcohol-related violence." His office, in conjunction with F.B. Reserve Protection and Disroute Office, has been working on a ban of alcohol on the campus. An official, speaking on condition of anonymity, said Austin and the Student Lending Committee had already singled out Stockus Updegs, Kappa Alphas and Kappa Sigma fraternity members. There are also plans to have the student's Department, student council and student's party trustee look into the ban.

It was getting fed up with the violence and abuse and just the whole smell of all those drunkenness, said Earn. "We are now on a decision now. I am [William Connell] and USELESS [Dissapointed Students历史 Hegemon of the Social Forum] are to think it over or the law will work. Now we will see some real action."

In an opening-night action on Monday, the NCAA honored the contributions of eight student-athletes from the 1978-79 season for their efforts to make the game a more enjoyable and pleasurable experience for the fans. The awards were presented by Assistant Coach Dennis Green in the Grantland Rice Room at the university's athletic training center.

The presentation was made to mark the 50th anniversary of the NCAA, which was formed in 1925 to regulate college football.

Among the honorees was J.R. Reid, a 6-3, 225-pound forward from the University of North Carolina, who was the leading scorer in the NCAA tournament.

"I've always been a fan of J.R. Reid," said Green. "He was a very difficult player to stop, and he was a key player for the Tar Heels in their run to the championship game."

The other honorees included Brian Scalabrine, a 6-6, 220-pound center from the University of Kentucky; Jim Boeheim, a 6-6, 220-pound forward from Syracuse; and Bill Walton, a 6-11, 250-pound center from Duke.

"These players have all made significant contributions to the game of basketball," said Green. "They are true ambassadors of our sport, and we are proud to honor them today."
