Wake Forest to Send Books to American Troops in Saudi Arabia

Wake Forest will support American military personnel and families this week-end as it sends a box for the Home-come in football.

With the help of the Campus ROTC cadre, Colonel and Mrs. Walt Lyon, parents of Col. William Lyon, who is stationed in Saudi Arabia, and the Campus ROTC cadre, the Home-come in football will be sent to aides and wives participating in Operation Desert Shield in Saudi Arabia.

The athletic department also has invited 150 dependents of Fort Bragg military personnel to visit Saudi Arabia to be in the crowd for the game.

They will receive free transportation and make a trip of the campus in Pullman and emergency vehicles.

"We will also invite all service personnel at half time prior to the game with Army and are working to get that group out to the various camps," said Greg Hooks, the director of athletics.

The book collection was the brainchild of Doug Blend, director of academic counseling in the athletic department. It is a tradition we have been getting about the Middle East, the Michael's said the bottom in the history of the books," said Benjamin S. Better Jr., an excited athletic director.

"There is visually sending material right here to the men we support," said Chris Richter, Wake Forest's open marketing staff approached Army officials at Fort Bragg with the idea of collecting paperbacks at the football game.

Then they arranged for ROTC cadre to collect books at and sell them in the homecoming game.

Allied Van Lines will deliver shipping the books to Fort Bragg before ship- ment to Saudi Arabia.

Anyone who wishes to donate books should bring them to the Athletic Office.

The Wake Forest campus can be located at the Cellular One office at 1423 West First St.

Benson Center to Open for WFU Homecoming

The official opening of the Benson University Center Saturday marks the first time in its history that the center will be open to the public.

The ceremony begins at 10:30 a.m. in the Student Union. The executive director of the Student Union will be introduced by President Thomas K. Hearn Jr. who will welcome the gathering, and Christine E. Di- Moss, chairman of the board of regents, will receive a check from the Danish government.

Steffen L. Bker, Jr., a retired North Carolina congressman, and his wife, Hazel, will make further statements to the university. The reception will run from 11 a.m. until 2 p.m. in celebration of the center's opening.

The center will be open to the public on Saturday.

Race Relations Commission Named in Letter from Hearm

Our Oaks and Back From Home

President Thomas K. Hearn, Jr., named a new Commission on Campus Life Relations in a letter today. In the letter, Hearn said the commission will be named in response to the work of two committees that focused on race relations on campus. The recommendations were concerned with involvement of minority students and faculty.

"Accused of the inactivity has been implementing the recommenda- tions of recommendations that the com- mission did not systematically en- able the campus community to return to the educational and per- sonal development of minority students," said the letter.

I am involved in the minority community over eight years ago. He said the letter was the first time in the history of the university to address this issue.

New Wake Forest Forest Members Have Wide Range of Interests

New Faculty

Third in a Series

Economics

Michelle Kamin's 39-year-old economist is a visiting member of econom- ics who is here for two years. She is one of our new economics faculty members. She has been a member of the University of Iowa before coming to Wake Forest.

The Clegg Press is a good evening. Since she was familiar with the city, she said the school would like to have Wake Forest, and has not been disappointed.

Freedom of Choice

Ashley Mason collects tickets for Homecoming and Queen on Wednesday outside the Benson Center.

TKE Charter Approved; Men Accept 94 Bids, Women Accept 101

By Ronit Katz

The Sigma Pi chapter of Kappa Epsilon was officially chartered at Wake Forest last month. Senior Chris Haber, the Sigma Pi chapter president, said the university approved the chapter charter in May. The chapter also has had golds, such as winning the overall title during the season. The chapter also has had golds, such as winning the overall title during the season. The chapter also has had golds, such as winning the overall title during the season.

The 47th season of the Sigma Pi chapter celebrated the chapter charter signed by a former student president of Taus Kappa Epsilon, the national president and local chapter president.

At the banquet, 11 new brothers were inducted and the chapter president's award was presented.

Michael G. Ford, the director of student development, presented the chapter with a plaque. The plaque was presented by the chapter to the university.

All of the funds from the Kappa Epsilon gave were used to support the Sigma Pi chapter, which wants to be able to have a chapter.

According to Mark Hall, associate director of student affairs, the Sigma Pi chapter will have full access to the Benson Center during the season. Hall said the building will be "99 percent sold out," and that some private person will be in charge of traffic control. The contractor will be in place the day after the building is opened.

"We are going to have to get that word out to people," Hall said. He said the reason the contractor was still private is because of the price of the building. Hall said "we have" to get that word out to people.

"The Benson Center is one of the best facilities in the country and it is here to be en- joyed by the student," Hall said.

"We have to let the people know the dedication for the students to come out and enjoy it during the season," Hall said.

"We all are going to be there." The Benson Center will provide a place for many campus social events, including the Homecoming dance Saturday night.
BRIEFLY

■ Tailgating Policies Announced

The Wake Forest football Athletic Department and the Office of the Dean of Students would like to remind fans that all fans must be law-abiding and properly attired while attending Wake Forest football games. Tailgating is a community event, and we want to ensure a fun and safe environment for all.

■ New REynolds Professors

By the Z. Smith Reynolds Foundation, Wake Forest University has named three new Reynolds Professors. Reynolds Professorships are academically prestigious positions endowed to attract outstanding faculty members to Wake Forest University. The professors are:

- Mike W. Pignatti, a professor of art, already serve on the faculty of North Carolina State University's School of Art and Design, where he is the director of the Masters of Fine Arts program in Art History.

- Gordon L. Smith, Jr., a professor of music, joins the faculty of the University of North Carolina at Greensboro, where he is a professor of musicology.

- John B. Smith, Sr., a professor of philosophy, joins the faculty of the University of North Carolina at Chapel Hill, where he is a professor of philosophy.

■ Gone to Heat on Campus

The Old Boy's Track team for the 1989-1990 season has announced that the team will be housed in the new Tyler Pavilion, which will be completed in the fall of 1989. The new pavilion will provide a comfortable and modern facility for the team to train and compete.

■ History Professor Retires, Asian Studies Inactive

By CAROLYN VAUGHN

When history professor Dr. Lucien Conner retired from teaching after the spring semester, he did not just pick up and leave, move to be on one side, and feel that a good deal of work has been accomplished.

Besides completing nearly 100 books and dozens of articles during his 30 years at Wake Forest, Conner also shaped an international graduate student program in history and co-authored the annual Asian Studies conference program in cooperation with the University of Virginia and the East-West Center.

During the last few decades the program, now one of the oldest in the state, has been a major part of the university's graduate programs and has helped to train scores of students who are now faculty members at leading universities around the world.

In addition to his teaching and research, Conner also served as the university's director of the History of Science and Technology Program and as the director of the Asian Studies Center.

Conner's research interests include the history of science and technology, particularly in the areas of astronomy, mathematics, and medicine.

Conner's retirement is bittersweet for many of the students and faculty members who have worked with him over the years, but it is also a time of celebration for the university as it looks forward to the next phase of its history program.

Bowman Gray Professors Study Cholesterol Levels

Researchers at the Bowman Gray School of Medicine are examining the role of dietary fats in the control of cholesterol levels and the effects of medications on the cholesterol levels.

Lawrence Rosset, professor of medicine, said, "We have been studying the effects of various dietary fats, particularly those found in a flax-based diet, on blood cholesterol levels in animal models. The results have been very promising, and we hope to translate these findings to humans in the near future.

The study, which is supported by the National Institutes of Health, is being conducted under the direction of Dr. Rosset.

[\text{...}]
TRADING PLACES: BACKLASH TAKES HOLD

Charles Nickerson

I
n the years following the various types of civil rights movements, a "backlash" effect has built to a level of hostility dangerous both in its intensity and in its insidiousness. Those who have historically been members of the privileged majority have descended to a level approaching that of everyone else. The result is a mixture of fear, anger and resentment toward the "uppity" minorities and those who have been treated as minorities—those who dared to call for equality.

I understand but do not share the feelings of those who argue that certain minorities receive preferential treatment by our society (which is, in effect, a form of discrimination against the formerly dominant majority). After all, why should one be happy about losing centuries of power accumulated on the basis of one’s sex, race, class, family connections, religion, sexual orientation or wealth?

I do not mean to belittle the intensity of the resentment that has caused this ideological backlash; rather, I wish to address another way of dealing with minorities which has shown varied degrees of success. For instance, issues of race relations have separated the people of these United States along color lines; making distinctions among subcultures has become a way of life.

Right now, anyone with a drop of Negro blood in his or her ancestry is unquestionably black—with no mention of any Caucasian, Hispanic, Asian or Oriental ancestry which might be present.

Similarly, those who have matured primarily alongside members of the dominant culture have been accused of being "white wannabes." Crazy enough, there is no acknowledgement of the cultural gifts which different kinds of people have brought to America.

Obviously, I am extremely optimistic, but I do hope for a fuller understanding of the differences that separate different cultures and subcultures. Failing that, there is a need to be fair and just in the treatment of individuals and minorities—something that can only be achieved by understanding and appreciating the diversity within our society.

Trading Places: Backlash Takes Hold

Paul Tuttle

Crazily enough, there is an acknowledgement of the cultural diversity that America offers.

The culture of women and homosexuals has exerted an influence on American society. Because of efforts to raise the male consciousness, it is accepted when we men cry, take the role of "house husband" or show our sensitivity. To a large extent, we have become liberated from the old "macho" ideal of the "hero," the prescription for masculinity. Today's men can show affection for other men and wear stylish clothes and earrings; our speech is even sometimes punctuated with forcefully stressed words.

In spite of the constancy of the racist, sexist and homophobic ideology that permeate our society, the dominant culture of our society owes minorities a huge debt: without certain minorities, parts of our "mainstream" culture would now be quite colorless.

Instead of attempting to suppress the subcultures within our society, we should acknowledge the contributions that different kinds of people have brought.

Instead of rejecting the "reverse discrimination" with resentment, we should try to realize that 30 years of affirmative action is a small price to pay for 3 1/2 years of slavery and Jim Crow laws.

Instead of seeing others as usurping your spot, try to understand that minorities only wish for fair and just treatment, in accordance with the promise of equality that lies in the Declaration of Independence and the U.S. Constitution.

By Virginia Routled Duke in Most Lopsided North Carolina Match History

The Wake Forest soccer team scored its first goal of the season two minutes into the first half on Saturday, Oct. 10, during the Demon Deacons' 3-0 victory over the Virginia Cavaliers. The Demon Deacons dominated the Virginia team, scoring three goals in the first half and one in the second half, to secure their third ACC win of the season. The win improved the Demon Deacons' record to 3-0-2 in the ACC and 7-2-2 overall.

The Demon Deacons' first goal came off a penalty kick taken by Johnathan McGowan in the 19th minute. The Demon Deacons' second goal was scored by Brian McGowan in the 40th minute, and the third goal was scored by Mitch McGowan in the 60th minute. The Cavaliers' best chance to score came in the 80th minute, when Virginia's Scott Miller had a shot on goal, but it was saved by Demon Deacons' goalie Chris Corrigan.

The Demon Deacons' defense was solid throughout the game, allowing no goals and maintaining possession for much of the match. The Virginia Cavaliers, on the other hand, struggled to create meaningful scoring opportunities, with their best chance coming in the 80th minute.

The Demon Deacons' win was a significant one, as it marked their third ACC victory of the season. They have now won three of their four ACC games, and are currently in third place in the ACC standings.

Field Hockey Team Drops ACC Contest at Duke; Stickney Scores Two Goals in Win over Bobcats

By Ken Rosan

The Demon Deacons' field hockey team dropped their ACC contest against the Duke Blue Devils on Saturday, Oct. 10, with a score of 2-1. The Demon Deacons were led by junior midfielder Stickney, who scored two goals in the win.

The Demon Deacons' first goal came in the 10th minute of the game, when Stickney scored on a penalty corner. The Demon Deacons' second goal was scored by senior forward Williams in the 25th minute, giving the Demon Deacons a 2-0 lead at halftime.

In the second half, the Demon Deacons continued to dominate, allowing no goals and holding on to their 2-0 lead throughout the remainder of the game. The Demon Deacons' defense was solid, allowing no goals and maintaining possession for much of the match.

The Demon Deacons' win was significant, as it marked their third ACC victory of the season. They have now won three of their four ACC games, and are currently in third place in the ACC standings.

Tennis

From Page 9

In the tournament, the Demon Deacons faced off against the University of Florida Bulldogs, losing 6-2. The Demonstr Deacons' singles players were able to win all of their matches, but the doubles players were unable to secure a victory.

The Demon Deacons' next match will be against the University of Virginia Cavaliers, who are currently ranked 15th in the nation. The match is scheduled for Saturday, Oct. 17, at 2 p.m. at Wake Forest's Wake Forest Tennis Complex.
Frank Capra, Steven Spielberg, David Lynch, William Shakespeare. Dreamy images of this group of friends fill the editor's mind as he surveys the contents of the upcoming edition of the campus literary magazine.

Well, now make this happen. The layout, the names, the achievements, no change in mood or style. Benjamin Britten's Parrot in the Shell did not.

The Homecoming Dance, important stylistic variables between composing, performing, and with a much more casual voice.

During our visit we sampled the Chicken Souvlaki. This favorite, the fare has an impressive array of chicken marinated chicken breast cooked with onion, lettuce, tomato, and kalamata olive sauce, all piled in a folded Greek pita. Who wants wide variety at low cost when $4.25, you have a meal that pleases the palate and won't break the bank. We easily found twelve different combinations of hot and cold salads all presented on a six-inch sub roll with the usual choice of imported beers and wines and serves champagne splits for approximately half a mile). Turn left on Cherry Station Avenue (approxi- mately half a mile). Turn left on Cherry Street (approxi-
mately half a mile). Turn left on Cherry Street (approxi-
mate half a mile). Turn left on Cherry Street.

On a scale of five forks with five being the highest, Blue Parrot is a student theatrical group that has come into continual discussion because of their notable ability to please the palate. Since the beginning of the semester, Blue Parrot and arena are the producers that have thrust their "hits" to the base, some with more success than others. They have allowed filmmakers to show the part of structure that they will never be able to understand. We were asked to perform a scene from Hamlet with our group's progress a great addition to the character definition.

"Who provides variety for people who range from 30 to 35 years of age?" asked Big Bill.

The copybooks are an 11 x 17, 27, 52, 36, 8, 18, and 44 page of the theatre.

"Provides another outlet for people who range from 30 to 35 years of age," Big Bill informed us.

You said you wanted to turn in papers that turn heads.

See how we listened.

Look what you can do on the IBM Personal System/2®.
And with the easy-to-use preloaded software, including Microsoft® Windows® 3.0, writing papers is only the beginning. Just point and click the mouse to move text. Create graphics, charts, even spreadsheets, or do other projects like resumes and flyers.

Plus, the PS/2® and select printers are available at special student prices.* Print impressive output with the IBM Proprieter," IBM LaserPrinter E or the IBM Model 8530-U31.

IBM Personal System/2®

• 1 Mb memory
• IBM Mouse
• 80286 processor
• DOS 4.0
• 3.5-inch diskette drive (1.44 Mb)
• Microsoft Windows 3.0
• Printcare Utilities
• IBM PS/2® processor
• 30 Mb fixed drive
• Microsoft Works for Windows
• ZSoft SoftType
Software is loaded and ready to go!
Only $799

Hewlett-Packard PaintJet color graphics printer.

And if you buy before December 31, 1990, you'll receive a TWA® Certificate entitling you to a round-trip ticket for $149**/$249** Plus a free TWA Getaway® Student Discount Card application. You'll also get a great low price on the PRODIGY® service.

If you want to start turning heads with your work, there's really only one place to turn...the IBM PS/2.

Printer Offerings
