During this year’s Greek Week the events are centered around the Greek sing competition and the Quad games. The Greek sing competition was held on April 19th, with 91 points, and the Quad games were held on April 20th and 21st. There were three best performances judged and awarded, and the winners were awarded trophies and prizes. Additionally, the Greek Week program chairman, said only three best performances judged and awarded, and the winners were awarded trophies and prizes.

Students Receive $22,620 Younger Scholars Grant

By Becca Musick

Younger Scholars grant is available to Wake Forest students who are juniors and seniors. The money is intended to support projects and activities over the summer months.

Student Attend Week-long Springfest Activities

By Jay Weinberg

Despite rain storms early in the week that caused last minute cancellations, the 1992 Springfest was a huge success. The event was organized by the Student Activities Council with the help of various groups around campus.

Women's Network Holds First Meeting

By Cheryl Chevren

About 70 university support staff women, including administrators, secretaries, and others, attended the first meeting of a new support staff organization called the Women's Network. The network began in October 1992 when several support staff workers began meeting to work on building issues of concern.

The group increased in number and last week met for the first time in a month when 11 members showed up one night. The group was started by a former Twin Parks employee, who has since moved on to work at a different campus office.

The group has met once a month and now has 11 members. According to Byrnes, the purpose of the network is not just stopwasting, but to get women to know each other and work on issues of concern.

The Younger Scholars network will continue to meet and provide a supportive place where women can share common concerns and interests.

Construction Manager Promoted to Physical Plant Director

By John Leach

C. Moser White, the construction manager for physical plant, has been promoted to the position of director of facilities. He was most recently employed as director of the physical plant.

White will assume the position immediately. He has worked for the university for over 20 years.

White said that he is excited about his new position and is looking forward to working with the Facilities staff.

Our Class in Review

The emphasis at Wake Forest School of Law among the most generous of any law school in the country, according to a survey taken by the Asso- ciation of American Law Schools.

Wake Forest, Harvard University and Yale University law schools got the top three places in a ranking of alumni contributions. Each school re- ceived contributions from between 400 and 500 alumni.

Other law schools ranking in the top five are the University of Pennsylvania, the University of Chicago, the University of Michigan, and the University of Texas.

The book, "The Law and the Schools," written by the law school's dean, will be published in the fall.

Teach

Amanda Graham

Teach For America was incorporated in 1990 to place recent college graduates in classrooms, where they have an interest in the teaching profession, more than one education course.

They have always been interested in a specific school and grade by an interview process with principal of the school in the program. Some principal conduct interviews at the current teaching site, while others interview a principal of the school they want to jump in full-force and decide if it was such permanent.

Before and Richardson said one aspect of Teach For America that most interested me was the immense network of support within the program. In particular, Hobbs said that rapport and the support of the principal and the student body was necessary to have a successful school.

Hobbs said the school will take active classes. She said the school will receive a mentor in the next academic year.

Richardson has worked in the social services before and said he wants to work in the problems that result from poverty, and not just temporarily solve them.

She said, "Education combines all of my passions. I'm working with the students who need it most." Richardson said, "I will be an advocate and help them to achieve and realize the same time."
The strikes are expected to affect 200,000 rail workers across the country, including those involved in the maintenance and operation of freight trains.

The two paramilitary groups fighting to keep the oil from being transported to Turkey have agreed to a cease-fire during talks.

President George Bush has appointed a task force to look into the oil smuggling between northern Iraq and a port in Turkey for a safe haven for the oil.

Bush Reverses Policy

WASHINGTON, D.C. — President George Bush reversed his hand in policy toward Iraq's neutral oil shipments. The tanker carrying the oil, which is expected to enter Turkish waters any day, will be allowed to remain there.

Bush has been under pressure to reverse his policy, which some say undermines the United States' commitment to contain Iraq's oil shipments.

The two paramilitary groups fighting to keep the oil from being transported to Turkey have agreed to a cease-fire during talks.

Relief efforts are not being sent to the refugees in northern Iraq because the oil inside the tanker has most likely been stolen.

**Forsyth** [I'm fed up with you!] if your writing is any indication of your interests, I am sure that you will not be missed. I am sure that the "philosophies" you espouse will not be missed either. It is a shame that a university like Wake Forest would have to suffer such filth. If there is ever a chance to rid this university of you, I will be the first to support it.

**Marcia Burton**

**False Attributions**

We are writing in response to the article entitled "Take Rape Morale Be Prepared" by Breanne Y. (in the Oct. 13, 1982 issue). We disagree with some of the points that your article made.

We believe that the time has come to admit that rape is not an isolated incident. Rather, rape is a widespread and serious problem. If we do not face this issue honestly, we will continue to ignore it and the victims of rape will continue to suffer.

**True Fratalism**

In many ways, later formation of the Black Students Union (BSU) was highly timely. It has been the case for the past few weeks, and the campus is just beginning to see the potential for the BSU to become a viable organization.

This chapter makes a significant shift to my personal recounting of the final part of my journey. It is a reflection on my experiences as a student, faculty member, and administrator at the university where I have been involved in the past. The text is a collection of stories and reflections that I have gathered over the years, focusing on the various challenges and successes that I have faced. It is a personal account of my experiences and a testament to the lessons that I have learned along the way.

CIVIL RIGHTS ORTHODOXY RESISTS DEBATE

The university is all about self-expression, and in the process of understanding the many moods we see in one of the most important areas of the life of a university.

In the world of civil rights, however, Wake Forest has remained on the sidelines, unable to make any real civic contributions to the debate about civil rights and higher education.

It is not that we are not concerned about civil rights, as we see them as an integral part of the university's mission.

However, we have not been able to come to a consensus on the best way to go about it.

Last week, John Merrolty, the editor of the Wake Forest Triad, wrote a column in which he criticized the university for its failure to address the issue of civil rights.

Mr. Merrolty, who is white, was appointed to the position by the Board of Trustees, but he is black, because the board was a closed forum for the Board members.

I wonder when the Catholic Student Association held its last closed meeting.

Moreover, the idea of a closed forum is not new, as was Whirlpool Corporation's use of secret ballots to select candidates for the presidency.

This is an implication that some selection process must be kept secret and that only the members of the board will be made aware of the results.

One can only assume that this will happen in the future.

The only way for any student to have some influence on the outcome is to become active in the university's activities.

Why do we have to be a successful student in order to be a successful person?

The separation between the lessons in the current curriculum and the lessons that are not endorsed by the students is symptomatic of the university's approach to knowledge.

It is a failure of the political culture of our time, which they seem to abuse, and I feel they abused it.

The theory behind the O.G.B. was that they would prepare students for many paths of life.

If we are to develop our political culture, it must be based on an informed student body.

Unfortunately, the course work often does not happen in the classroom, and they create a connection between the lessons that are taught in the classroom and the lessons that are taught in the future.

For this reason I find it difficult to disagree with the board's position on the issue.

We students have no control over the selection of the candidates.

That would mean that the candidates would have to be selected by the students, which seems a significant shift in our society.

If we are to live up to our potential, we must develop our political culture.

It is not true that the candidates would have to be selected by the students, because we cannot choose our teachers.

The candidates are the only ones who can choose their teachers.

The candidates would be selected by the students, which seems a significant shift in our society.

North and South

Students Debate Advantages of Life on North, South Campuses

By Dennis Penson

North and South traditions have existed since the Civil War. A comparison of the two areas continues on campus.

"The situation is like this: There are six residence halls on North Campus and five on South Campus. Residence life and housing often seem tense on North Campus, and the north campus residents have facilities and the parking lot behind Wingate. South Campus residents, however, have access to only one nearby lot. South Campus residents are quick to point out that, on weekends, they can park in the faculty lot adjacent to their parking lot. The Audubon Building, a North Campus resident and history major, points out that he can actually park right in front of his residence hall on weekends. Reality on South Campus is the only time being 'Northern' has been an advantage," Johnson said.

Despite these drawbacks, Hoyt and Balyoz found one very useful reason to live on North Campus: "It's cheaper!" Hoyt said.

"That's what I like about living on North Campus. I was living on the Quad for a semester and it wasn't that expensive," Hoyt said.

"I confess," Hoyt said.

"That's what I like about living on South Campus. I think it's cheaper," Balyoz said.

"I went on South Campus, I could afford it," Hoyt said.

"I also like the Quad on South Campus, it's cheaper," Hoyt said.

The members of the Quad community strongly believe that they are a lot cheaper than the building behind Wingate. South Campus residents, however, have access to only one nearby lot. South Campus residents are quick to point out that, on weekends, they can park in the faculty lot adjacent to their parking lot.

"The Audubon Building, a North Campus resident and history major, points out that he can actually park right in front of his residence hall on weekends. Reality on South Campus is the only time being 'Northern' has been an advantage," Johnson said.

I don't want you to ever forget this, Michael. No matter how much you've changed since we last spoke, no matter how many lives you've touched, the fact remains: you died for a good cause.

...and that's why I've always loved you. Not because of the movie, but because of the man. The one who would do anything for the people he loved. The one who would sacrifice himself to save their lives. That's why I loved you, Michael. And that's why I'll always remember you, even after all these years. 

---

Heard something that made me think of you. They say that every morning, when the sun rises over the mountains, the angels come down to watch. They watch over us, like a guardian for those who have passed on. And I always think of you when I see that morning sky. I hope you're watching over me, Michael. I miss you so much.
Two Pound Planet Escapes College Label

By Donna Brandt

Pays no attention to the college label that still clings to its name, Two Pound Planet is still a group of young people fighting for the rights of the underdog.

The group has been gaining attention lately, with their first album, "Safe as Milk," being released in April. The band has been touring extensively, and their music has been receiving critical acclaim.

"Two Pound Planet is not a college band," said drummer Jim White. "We're just a group of kids who happen to be in college."

Lead singer Scott Forster agreed. "We're not trying to label ourselves as a college band. We're just trying to make music that we like and that we think others will enjoy."

The group's sound has been described as a mix of rock, folk, and country music. They often incorporate political and social themes into their songs, which have earned them a following among fans who are interested in these issues.

"We want to use our music to raise awareness about important issues," said Forster. "We hope that our songs will inspire people to get involved and make a difference."
Distinctive Guitarist Performs in Brendle

By Mary Ann Bates
Oklahoma State University

While many students and faculty members attended the premiere of the current Watanabe Productions April 15, June 17-18 performances were intended to Brendle social club members. The aim was to present a more intimate and enjoyable evening of music, according to Watanabe director, Mr. Siewers.

Siewers, performed an extensive range of classical guitar repertoire, including difficult classical and modern pieces. His skills and technique, which are well-practiced and get to the point of perfection, were evident. Although non-European 20th-century music had been the hallmark of the program, consisted of a work by Czerny, a Brazilian Themes by Elizur, Argentinian composer Maximo Curti, and a well-known tango theme, "La Cumparsita" by Carlos Gardel.

Siewers' performance of the tango was one of the highlights of the evening. The second piece of the evening was a technical tour de force by the Argentinian composer, Manuel de Falla, "The Three Short Movements." The third piece was "Sonata No. 3," composed in 1935, by the Argentine composer, Pablo de Sarasate. Siewers' performance was emotional, technical, and full of passion. He demonstrated his formidable technical abilities and his ability to connect with the audience.

Overall, the performance was highly successful, with Siewers' technical proficiency and emotional expressiveness shining through. The audience was treated to a unique and thought-provoking performance of his repertoire.
Graduation means goodbye to spring breaks, summers off,
And IBM student prices.

Before you put on your cap and gown, there's still time to take advantage of the great student price on an IBM Personal System/2.

Whether you need to create impressive papers, graphics and spreadsheets for school, or business reports for work, or even resumes, the PS/2 comes preloaded with software that will let you do just that. And it has a mouse to make it easy to use. Plus, there are added tools like a notepad, calendar and cardfile—even games. And it's expandable so it can grow with you throughout graduate school or on the job.

While you're still a student, affordable loan payments are also available with the IBM PS/2 Loan for Learning. And on a different note, you can get a great low price on the Roland® Desktop Music System.

Graduation means saying a lot of goodbyes. But before you do, there's still time to check into a great student price on a PS/2 today—and what it can do for you tomorrow.
