Merchants Discontinue
Plans Of Discount Program Rebuffed

By BRYAN BARNES
ASSOCIATE EDITOR

A group of downtown Winston-Salem merchants have dis¬
continued the discount program which was set up ear¬
lier this fall. The program, under which merchants were in¬
vited to lower prices on certain items for students wishing
to purchase the privilege, was disapproved by the Student
Affairs Committee of the Student Senate. The committee
felt that the program was not in the best interests of all partici¬
pants. Photos by Rob.

NSF To Sponsor Institute To Be Conducted At Wake

A summer institute for high school students of science and math is being sponsored by the National Science Foundation and will be conducted at Wake Forest University from July 20 on the Wake Forest campus.

The program is being conducted by the Eckerd Science Institute, which is located on the Tulane University campus. The program is open to all high school students and will be free of charge.

Three teachers, all members of the Tulane University faculty, will be Dr. Charles M. Allen, professor of mathematics and statistics; Dr. James E. Crampton, professor of biology and chemistry; and Dr. John W. R. Smith, professor of political science.

The program will consist of lectures and discussions on a variety of topics, including mathematics, science, and political science.

The program will begin on July 20 and last for three weeks. It will conclude on August 10.

The program is open to all high school students, regardless of race, color, or national origin.

If you have any questions or would like more information, please contact the program staff at 334-1051.

The program is sponsored by the National Science Foundation, which is dedicated to promoting scientific research and development.

Wake Forest Students Have Created Fine Image
To College Loving Community—Winston-Salem

By SILVIA FREDEN

This article is the second of a series of articles on the Wach-Wach, a new college newspaper at the Wake Forest College and its Penthouse Press. The first article appeared in the April issue of the Winston-Salem Times.

Winston-Salem

Citizens of Winston-Salem noted an interesting and popular feature of the current college atmosphere. Many agree that the Wake Forest College students (and others) have become increasingly interested in the local community. The students, many of whom are from larger cities, have become accustomed to living in the small town of Winston-Salem. The newspaper, however, has not been as popular among the students as one might expect. Many students have expressed dissatisfaction with the current state of the newspaper and have called for a more substantive and informative publication.

The students have also expressed concern about the lack of diversity in the newspaper. Many believe that the current publication is not representative of the diverse student body and that it fails to provide a platform for the voices of underrepresented groups.

The students have also expressed concern about the lack of diversity in the newspaper. Many believe that the current publication is not representative of the diverse student body and that it fails to provide a platform for the voices of underrepresented groups.

**Student Discount Plan Is Not An Urgent Need**

When the magnolia trees were blooming and the sun was shining, the entire community of Winona, Georgia looked forward to the annual gathering of the students. The town was buzzing with excitement as the students arrived from schools across the country. The hotel and restaurants were packed, and the local businesses were thriving.

**Campus Parking Problem**

President Johnson, in his State of the Union address, proposed a new program for students and staff alike. The implementation of a campus-wide parking system was met with mixed reactions by the students. The new system, designed to alleviate the parking problems on campus, was not well received. Many students complained about the increased cost of parking and the limited availability of spaces.

**The Final Exam Scene**

Once a year, the students of Wake Forest College prepare for the final exams. This year, the students were faced with a unique challenge: a historic snowstorm hit the area, making travel to the考场s impossible.

**Influence Elections**

Negro's Importance Emerges In Politics

**By JERRY ATKINSON**

There can be no doubt that the Negro vote is of increasing importance in American politics. This is especially true in the Southern states, where the Negro population is concentrated.

**In conclusion, I must add**

Hey! Look Who’s Arrived

Sometimes it’s pretty hard to write about a person whom you’ve known for almost four years, especially since he has been in the same group for three of those years. What makes it even more difficult is that when you’re writing, Richard is pretty engrossed in the radio, pointing out to the boys in the room, "The Name Game." There are many things to be said about Richard’s herding. His father, John Herring, has made it clear that he is a terrifically nice guy, and that he is a daughter’s best friend. Richard has many fine qualities, but there is one that many may feel has been too great a burden for him, and that is his large, hairy hands. Richard’s parents have always advised him to use them more for the season, but his father has been known to throw them a bit of a curve when he needs his help. The Herring’s combination of son and daughter has made for a very interesting element in the family. Richard has inherited his mother’s concern for others, and his father’s sense of humor. Richard has taken advantage of both these qualities, and his mother has told him that he is a terrific young man.

Richard Herring

It was almost 3:00 when I first met Richard. He was talking to some boys in his room, and they were all laughing. Richard was telling them about his first college game, and how excited he was to be a part of it. He was wearing a white and red basketball uniform, and the boys were all laughing at him. Richard was telling them that he had been scared to death of the game, but that he had done well. He was telling them that he had made a few points, and that he had helped his team win. Richard was talking about how much fun he had had, and how much he had enjoyed the game. The boys were all laughing at him, and Richard was laughing along with them. Richard was telling them that he had enjoyed the experience, and that he was looking forward to the next game.

Richard Eats ’Em Up

Throughout his career at stand ard, Herring’s junior year has been the most memorable. He was one of the key players, and he didn’t disappoint. He averaged 16.9 and 16.2 points per game, and was one of the team’s best shooters. He was a key player in the team’s 78-68 win over Davidson in the championship game.

Late in the game, the Blue Devils went ahead by one point and Wake came back on a fast break. Frank Christia showed up late, and passed him to Herring who then hit a three-pointer. It was a key play in the game.

Talented Carolinians

Herring’s prospects took place. The Deacons had been struggling, but with the victory over Davidson, the team started to find its rhythm. The Deacons could be the ones to watch in the conference.

DAECON TRACK

WAKES GREAT GUARD Bob Herring drove for Wake Forest’s Castle Marvin in the opening game loss to the Wake Forest Owls Saturday, January 30 when the two teams will meet in a rematch.

St. Joe’s Herring Will Fly In

By DAVID ROBERTS

The junior guard from the Carolinas has impressed everyone who has had the chance to see him play. He has been a key player for the Deacons, and has helped his team win several games. His drive and determination have been the key to his success.

Deacons Face Top-Ranked Teams

Post-Exam Tilts Look Tight

KA’s Sweep Swimming, Kappa Sig’s Win Wrestling

The KA’s upset both of their opponents in the interfraternity swimming competition. KA’s in all events, except three in which Wakefield won, and three in which Wakefield tied ODU. KA’s won the 100 and 200 yard freestyle races, and the 4x100 relay.

The new intramural records included the 100 yard medley relay in 1.44.4 sec., the 100 yard backstroke in 1.48.2 sec., and Ronny Wooten of Phi Delta Phi and Jack Ramsay, Kappa Sigma, both broke the 200 yard medley record.

The final tally went to the KA’s with six points followed by the Theta Chi’s, with a distant third place finish. The Theta Chi’s won the 100 yard medley relay, and Phi Delta Phi won the 4x100 relay.

Kappa Sigma’s Dales

In intramural wrestling, the Kappa Sigma’s dominated the rest of the field winning five of the six matches. They lost a close match to the Phi Delta Phi’s, but won the other five matches with ease.

Duke Defeats Wake, 105-77

In Double Overtime

Duncan Bowl To Maryland
After Bombarding Georgia Tech

By KEITH BEMERICK

The Duke Blue Devils basketball team now possesses a record of 17-2 and five losses. This rather poor record does not give an accurate account of the team.

Coach Jack McNamee said, "The Duke Blue Devils have a 17-2 record but five losses. We have lost some games to teams that have strong teams on paper. However, we have also lost to teams that surprised us.

The recent statement was made by the game with the Duke Blue Devils last Tuesday. Despite those 15 points at the half, the Blue Devils were still ahead. However, the game ended in a 17-2 record. We didn't throw the ball away, we took good shots, and we rebounded well.

Another problem the freshman coach faces is an apparent lack of high school seniors in all conferences. Duke coaches all the Blue Devils have had to play this season for the first time."

Leonard gave way up to score two more two-pointers against Maryland in the double overtime loss to the Blue Devils.

Ellison Has Old Problem
Lack Of “Fish” In Tank

By RICH PATER

Once again, an athletic problem has cropped up to harass the Duke Blue Devils. The problem is the lack of a consistent point guard.

Coach Elliott finds that this lack is more pronounced than in previous seasons. He gets the same complaints from fans and from the intercollegiate football players that complain to him about his team.

However, the Blue Devils still have the luxury of choosing between two options. Coach Elliott stated, "We have two experienced point guards who have been consistent and capable of stepping up to the challenge."

Soaks And Jetsons

Beau Dunlap’s forces ofEAPEM and Jones have completed another season, and the team has worked hard. However, they have faced challenges in the past.

The most notable issue is the lack of depth, which has been a problem throughout the season. Despite this, they have been able to keep their spirits up and remain positive.

The team has been able to maintain a high level of performance despite the challenges. They have been able to keep their spirits up and remain positive throughout the season.
