Lyons Gray Soundly Defeats Jordan in Quest for 39th District Legislative Seat

By James Thomas

The Wake Forest University student body on Monday chose Lyons Gray, a 21-year-old political science major, over John R. Jordan, the incumbent for the 39th District, in a contest that was decided long before voters went to the polls. Gray, who received 51 percent of the vote, was distributor late last spring to major campus groups for a moneymaking venture in which he sold student entertainment. Gray's in-school lobbyists are expressing concern that he may have overstepped his bounds in his role as the campus' representative on the Student Government. Gray's major lobbyist, Mary Beil, the professor of speech communication, was distribution late last spring to major campus groups for a moneymaking venture in which he sold student entertainment. Gray's in-school lobbyists are expressing concern that he may have overstepped his bounds in his role as the campus' representative on the Student Government.

Campus Pub Makes First Call Tonight

By Kevin Kirby

The Wake Forest Student Government (SG) proposed resolutions to the Student Government that would require the Wake Forest Student's Pub to move its first call from 11 p.m. to 12:30 a.m. The proposal was made last week by SG executives, who questioned the current policy that allows the Pub to move its first call anytime it wants with the approval of the Winston-Salem Zoning Board of Adjustments. The proposal would require the Pub to move its first call to 12:30 a.m. or later, or to seek approval from the Winston-Salem Zoning Board of Adjustments if it wants to move it at a later time. The proposal was supported by SG executives, who said it would help ensure that the Pub operates in a responsible manner and that it is not disruptive to the campus community.

Residents Upset by WFU's Decision To House Students in Their Neighborhood

By Deena Kink

The residents of the neighborhood surrounding Wake Forest's campus are expressing concern that the university will house students in their neighborhood. They are concerned about the impact that the housing will have on their property values and the potential for increased crime and noise. The residents have been working with the university to find a solution that will address their concerns.

SLC Proposes Revisions of Judicial Process

By Bill Boggs

The Student Life Committee (SLC) has proposed revisions to the university's judicial process. The revisions include changes to the hearing process, the appeals process, and the responsibilities of the judicial officers. The SLC's proposed changes are designed to increase the fairness and efficiency of the judicial process.

The Sports Club: A Place To Hang Out With The Guys

By Dan Gove

The Sports Club is a popular hangout spot for male students on campus. It is a place where people can engage in activities that are typical for college men, such as drinking and socializing. The Sports Club is located in the Student Union Building and is open to all male students. The club is run by the Student Life Committee, which is responsible for planning events and activities.

Renovated Sports Club: Not Just For Men

The Sports Club has undergone a renovation to make it more welcoming to female students. The renovation includes new furniture, lighting, and decor that are more appealing to women. The Sports Club now offers a variety of activities and events for both men and women, and it is open to all students.

Nightclubbing: Second in a Series

Another, and more practical solution is available. A diverse group of students, including the Student Government, the Student Union, and the Wake Forest University Police Department, are working to implement a new system for controlling nighttime activity on campus. The system will include the use of lights that are turned on at specific times, the use of security cameras, and the implementation of a new parking system. The goal is to decrease the amount of alcohol consumption and the potential for off-campus alcohol-related incidents.
New Soccer Stadium To Offer Large Seating Area, Artificial Turf

By Jesse Vaughn
New York Times

Although construction of the new soccer stadium behind the gymnasium is scheduled to be completed in November, it is very possible that the facility will not be used until next fall. The complex will be used for soccer, soccer field hockey.

The new facility will consist of an artificial surface, which will enhance the players' performance and reduce injuries. The artificial turf will be able to absorb shocks and provide better traction for the athletes. The stadium will be able to accommodate up to 10,000 spectators, providing a comfortable viewing experience.

The design of the stadium incorporates features such as floodlights for night games, a seating arrangement that optimizes the viewing experience for all spectators, and easy access for disabled persons. The stadium will also include restrooms, concessions, and other amenities to make the experience more enjoyable for the fans.

Although the stadium is currently under construction, the university has already initiated plans for the upcoming season. The first games are expected to be played in November, and the full schedule will be announced in the near future. The university is excited about the new facility and looks forward to the upcoming season.
Soviets Arrive at WFU, Take in Winston-Salem

By David Marquardt
Old Gold and Black Correspondent

A delegation of 21 Soviet senior managers arrived in Winston-Salem Friday as part of a business-management exchange program with Northwestern University's Graduate School of Management.

"Over the next three weeks the Soviets will take in a crash course in accounting, marketing, organizational behavior, strategy, and operations.

"They will participate in excursions in the north to such places as Asheville, Lake Lure, Biltmore Estate, Smith Brothers and Moravian College.

"James M. Clipper, a co-director of the program, said, "This is the first time a group of senior Soviet managers has traveled to U.S. business universities to take part in a general management development program designed specifically to meet their needs. Clipper also said he hoped this exchange would be continued and contribute to enhancing U.S.-Soviet economic relations."\n
The Soviet delegation will participate in a business exchange program in the Soviet Union after a six-week review, Clipper said.

"The WHO will visit three or four sites and will experience a program that is highly cultured and polished in its presentation and delivery.

"Details on eligibility for the trip are being discussed.

"Alexander Katsin, a professor at the Northwestern Institute of Foreign Relations and an expert on American and Japanese management, heads the Soviet delegation. Katsinsaid his role is to assist his students to digest the material."

Students Elect Representatives To Legislature, Honor Council

By Jo: Neita
Old Gold and Black Correspondent

Elections were held Tuesday for positions on the Student Government Association, Student Honor Council and the Student Activities Committee (SAC).

Classmen elected to the legislature are: Kay Pugh, Linda Williams, Amy Wolffs and Amy Young from Bowman Residence Hall; Sae Ivy and Jose Pineda from Person-Hoffman; and Jay. Barden and Carter Kern from Huffman Residence Hall.

Their slate includes: RichardHowell, Idee Bunn, Bobbie Hadden, Greg Jones, Mark Songer, Van West and Van Wade from Eastern Residence Hall; Rachel Howey, Jerry Clor, Jessica Thachert, Anne Glauser and Kathleen Wood from Bubashoehall; Rachel Brown, D.J. Burchell, Ronda Jones, Nick Maia, Tim Miller, Matt Smith and Paul Wiggam from Dean Residence Hall; and Karen Griffin, Mike Casto, Robert Lebron, Mathew Rohde, Sarah Stoltz and Bob Wurth from Taylor Residence Hall.

The second forum, entitled "Psychiatric Diagnosis and Treatment in America," will be offered Oct. 28 and it will be held in the school's auditorium. Admission is free, and the program begins at 7:30 p.m.

New Assistant Director Named

Paul N. Cane has been named the new assistant director for admissions. He comes from Stone and Webster Engineering Corp. in Boston, where he was vice president of marketing services. Prior to that appointment in 1984, he was marketing representative and manager of presentations and cooperation training.

Law School Offers Programs

The School of Law is offering a series of research lectures, workshops and seminar courses on areas such as federal regulation; "Legal Research Refresher" will be offered Oct. 21 and 22 from 12:30 to 2:30 p.m.

"Research in Federal Taxation" will be offered Oct. 20 and 23 from 12:30 to 2:30 p.m.

"Business Law Seminar" will be offered Oct. 26 and 27 from 12:30 to 2:30 p.m. 

All programs, except the Legal Research Refresher, are scheduled from 10 a.m. to noon on Tuesday and will be open to any university faculty or staff members. Interested individuals may call Tom Staden at 759-5440 for more information.

"They will also participate in a cultural and educational program in the Soviet Union after a six-week review, Clipper said.

"This is the first time a group of senior Soviet managers has traveled to U.S. business universities to take part in a general management development program designed specifically to meet their needs. Clipper also said he hoped this exchange would be continued and contribute to enhancing U.S.-Soviet economic relations."

W
do all these guys who hang out on the Greek rows have a clue what they’re doing? And how many of them, with their arms around their hips and their gym bags, really know anything about their community’s heritage and traditions? To be fair, a large percentage of the fraternity house looks upon the Greek system as a way to party without responsibility.

The next time you see a Greek on the Greek row, with a beer and a cigarette in his hand, you may be inclined to think that he is just another lazy, beer-swilling fraternity brother. However, this is not necessarily the case. Many of these fraternities have strict rules and regulations that their members must follow.

For example, the Alpha Epsilon Pi fraternity at the University of Illinois has a strict dress code, which includes a mandatory suit and tie for formal events. This is in contrast to the Kappa Alpha Theta fraternity, which has a more relaxed dress code.

In addition to the dress code, many fraternities have strict curfews and are required to attend meetings on a regular basis. This is in order to maintain the high standards of the fraternity and to ensure that all members are following the rules.

Overall, the Greek system is a way for students to socialize and make friends while still maintaining a sense of community and responsibility. It is important to recognize that the Greek system is not just about parties and drinking, but also about building strong relationships and learning new skills.

Opportunities for Leadership

The Greek system provides many opportunities for leadership. Many fraternities have positions such as president, treasurer, or secretary, which are important roles that help run the fraternity.

These positions not only provide leadership opportunities but also provide a way for students to develop new skills. By taking on these roles, students can learn how to manage a team, communicate effectively, and work towards a common goal.

Overall, the Greek system is a valuable part of the college experience. It provides many opportunities for leadership, socialization, and personal growth. It is important to recognize the benefits of the Greek system and to encourage participation in these organizations.

Greek Scene

First in a Series

The Greek system is a significant aspect of college life, and it is important to understand how it operates. This series will explore various aspects of the Greek system, including the history of fraternities and sororities, the role of Greek life in college culture, and the impact of Greek life on students.

In the first installment of this series, we will take a closer look at the history of fraternities and sororities. We will explore how these organizations came to be and how they have evolved over time. This will include a discussion of the founding of the first fraternities and sororities, as well as the role of these organizations in shaping college culture.

Through this series, we hope to provide a deeper understanding of the Greek system and to encourage students to think critically about their involvement in these organizations.
Change Perceptions

Paul Tuttle

TheH
day you can tell who is a successful business woman. What, of course, is the term used to describe who is a successful business woman? The New York Times ran a story titled "The Great American Woman Businesswoman." And yet, I am not surprised by the "sexist" nature of the story. "Sexist" is a term that is often used to describe individuals who use gender stereotypes to define success. But what if we were to redefine this term? What if we were to consider the concept of "sexist" from a different perspective? In this article, I will explore the issue of gender stereotyping and the role it plays in our society.

The story in The New York Times highlights the challenges that women face in the business world. The article points out that women are often judged on their ability to conform to gender stereotypes, even when they are not necessarily applicable. This is a common issue in many industries, where women are expected to fit into certain roles based on their gender.

In the context of business, gender stereotypes can be particularly harmful. For example, it is often assumed that men are better suited for technical positions, while women are better suited for administrative roles. This can lead to women being passed over for promotions, or being offered lower salaries than their male counterparts.

But this is not the case. Women are just as capable of excelling in technical roles as men, and they often bring a unique perspective to these positions. Similarly, men can be excellent in administrative roles, and they often bring a different approach to solving problems.

The key is to move away from these gender stereotypes and focus on individual merit. By doing so, we can create a more just and equitable society where everyone is valued for their unique skills and abilities, rather than predefined by their gender. Only then can we truly change the perception of what it means to be a successful business woman.
Legalization of Drugs Will Make Trafficking Unprofitable

This war has gone on for almost 10 years. The result is 10 years of increased violence. The result is 10 years of drug-related violence. We have seen this violence in our cities, in our schools, and in our neighborhoods. We must find a solution that works.

Proponents of drug legalization argue that it will reduce violence and increase safety. They point to countries where drug legalization has been implemented, such as Uruguay and the Netherlands, where violence has decreased and public safety has improved.

Opponents argue that drug legalization will increase violence and put more money in the hands of drug cartels. They point to countries where drug legalization has been implemented, such as Mexico and Colombia, where violence has increased.

In conclusion, the evidence suggests that drug legalization can make trafficking less profitable for drug cartels. This could lead to a decrease in violence and an increase in public safety. However, it is important to carefully consider the potential consequences of any policy change. We must work together to find a solution that works for all of our communities.

Sincerely,
[Signature]

Deacons Defeat Tigers, Fall To UNC-Greensburg

Ninth-ranked Spartans Upset 13th-ranked WFU, Score Off Direct Kick Proves To Be Winning Goal

By Rick Waren

The Demon Deacons were definitely not looking for a fight against the Greensboro College soccer team. On Friday night at Wallace Wade Stadium, they found themselves in a battle for a win.

The Deacons were unable to capitalize on several good scoring opportunities in the first half, and UNCG goalkeeper Anthony DeMelo made some key saves to keep the game scoreless.

In the second half, Wake Forest controlled the tempo and outplayed the Spartans, but UNCG's defense held firm and allowed just one goal. Wake Forest's defense was solid throughout the game, holding the Spartans to just 13 shots on goal.

The Demon Deacons came out on top in the end, with a 1-0 victory at Wallace Wade Stadium.

Field Hockey Team Falls to Duke 3-0, Defeats Sweet Briar 6-0

By By Randy Maly

Wake Forest's field hockey team was defeated by Duke on Saturday afternoon, 3-0. The Demon Deacons were held scoreless in the first half but got on the board early in the second half.

The game was a hard-fought battle, with both teams vying for control of the midfield. Wake Forest managed to find the back of the net once in the second half, but it wasn't enough to overcome Duke's strong defense.

The Demon Deacons will now turn their attention to sweet briar in the upcoming game, where they hope to extend their winning streak.

Volleyball Team Falls To No. 24 Wake Forest

By By Randy Maly

The Wake Forest volleyball team dropped a close game to No. 24 Wake Forest on Saturday afternoon, falling 3-2. The Demon Deacons had a chance to tie the game in the fifth set, but couldn't come through, as Wake Forest scored the final 11 points to claim the victory.

With the loss, Wake Forest now sits at 4-7 on the season and 0-4 in ACC play. The Demon Deacons will look to gain some momentum in the upcoming weeks as they prepare for a tough stretch of games.
C-C LIMMON

Cowboys will play in first ACC opener when they host Maryland at Duval Stadium tomorrow at 12:00 noon.

Wolfpack Outlasts Demon Deacons 27-17

By Dave Cunha
Assistant Sports Editor

Wake Forest's football team fell to N.C. State, 27-17, in its first loss of the season Friday night in Geneve Stadium.

Mike D'Alessandro's hard-nosed running, spectacular tackles and dominating defense for the Demon Deacons showed why Wolfpack head coach Bill Dooley said he was impressed with the program Dooley had built.

D'Alessandro's great deal, said Dooley. "He looked strong and threw the ball well, and he was very pleased with the effort he gave on defense."

N.C. State's head coach Dick Dooley said: "I thought Wake was excellent on defense. He held us up quickly and had a strong arm. We just went for the center and had a good inside block. We were trying everything we could to stop him. We had a hard time with him."

D'Alessandro, a 220-pound senior fullback, ran for 100 yards and two touchdowns, and intercepted a pass by N.C. State quarterback John Hartman with 4:03 left in the game, allowing Wake Forest to amass 189 yards but stopping it on 3rd down.

N.C. State scored after Wake Forest was penalized. The Wolfpack drove 40 yards on seven plays and ended the series with a 10-7 field goal, making the score 16-10.

The Demon Deacons answered on their next possession with a five-play, 67-yard drive to end the half. Hartman's extra point attempt was blocked.

The Wolfpack's biggest disappointment was the loss to Wake's 38-yard line, a field goal that would have put Wake up 7-0 in the first half.

A Demon Deacon fumble by Anthony Williams on Wake's own 45-yard line set up a 21-yard field goal. The score was matched with 2:45 left in the first half.

On its next possession, the Wolfpack drove 40 yards on seven plays and ended the series with a 10-7 field goal, making the score 16-10.

D'Alessandro said the play was the difference in the game for him.

"I was pretty excited about the 10-yard run," D'Alessandro said. "I was very pleased with the effort I gave on defense."

D'Alessandro had 10 tackles for loss, including a career-high seven tackles for loss, and intercepted a pass by N.C. State quarterback John Hartman with 4:03 left in the game, allowing Wake Forest to amass 189 yards but stopping it on 3rd down.

N.C. State scored after Wake Forest was penalized. The Wolfpack drove 40 yards on seven plays and ended the series with a 10-7 field goal, making the score 16-10.

N.C. State scored after Wake Forest was penalized. The Wolfpack drove 40 yards on seven plays and ended the series with a 10-7 field goal, making the score 16-10.

D'Alessandro said the play was the difference in the game for him.

"I was pretty excited about the 10-yard run," D'Alessandro said. "I was very pleased with the effort I gave on defense."

D'Alessandro had 10 tackles for loss, including a career-high seven tackles for loss, and intercepted a pass by N.C. State quarterback John Hartman with 4:03 left in the game, allowing Wake Forest to amass 189 yards but stopping it on 3rd down.

The Buffing Stones performed in Raleigh last Saturday night eight years of the Steel Wheels tour. Steel Wheels later recorded by the band

Older Stones Still Roll on Steel Wheels

By Michael Gildner

"The World's Greatest Rock and Roll Band," it was not enough to get the audience dancing. The band rolled on Steel Wheels last Friday night at the Hawthorne Theater. If you weren't lucky enough to get a seat in the front row, you could still hear the music. The band played the hits and kept the audience dancing all night long.

The band's lead singer, Tom Berenger, was the highlight of the performance. He brought back memories of the Steel Wheels days. The band's lead guitar, Charlie Sheen, also played a key role in the performance. His solos were well-received by the audience.

There are a few things that set the Steel Wheels apart from other bands. First, the band's music is often compared to the Grateful Dead and Led Zeppelin. Second, the band's sound is unique and cannot be replicated by other bands.

The band has been touring for over 20 years and has played in many cities around the world. They have released several albums, and their music continues to be popular today. The band has also been known to play covers of classic rock songs, adding their own unique twist to them.

The band's next stop is in the French Quarter of New Orleans, Louisiana, where they will perform at the annual Jazz Fest. The band is expected to draw a large crowd, and many music lovers are looking forward to seeing them perform.

Author Tells Secrets Of Early SNL Casts

By Brad Dixon

He had to imagine the udders...imagine the udders...imagine the udders...imagine the udders...imagine the udders. And what do you do with them? The ultimate test of your creativity is not just in the writing, but in the performance. The SNL cast was known for its quirky humor and offbeat characters. But behind the scenes, there was much more to the show than meets the eye.

The SNL cast was said to be a group of misfits who had little in common. They were brought together by a shared love for sketch comedy and a desire to make people laugh. But as they grew more comfortable with each other, they began to develop a sense of camaraderie. They became more than just a group of performers; they became a family.

One of the most memorable moments of the show was when the cast members would perform on the roof. The roof was a place where they could express themselves without the constraints of the studio. It was a place where they could be themselves and have fun.

The cast members were also known for their quirky outfits and eccentric hairstyles. They would often wear costumes and makeup to add to the humor of their sketches. But it wasn't just the costumes that made the show memorable; it was the writing as well. The writers were known for their unique perspective and their ability to find the humor in everyday situations.

The show was also unique in that it was filmed live. The cast members would have to act on the spot, which added an element of spontaneity to the show. It was a challenge for the cast members, but it was also a source of inspiration. They were always looking for new ways to keep the show fresh and entertaining.

One of the most memorable moments of the show was when the cast members would perform on the roof. The roof was a place where they could express themselves without the constraints of the studio. It was a place where they could be themselves and have fun.

As the years went by, the show continued to evolve and change. The cast members continued to bring their unique talents to the show, and the writing continued to be witty and intelligent. It was a show that could make people laugh and think, and it will be remembered for years to come.
COMING ATTRACTIONS

Arts
