Pumpkin shines on campus

By Anna Lee
Old Gold and Black Reporter

Student volunteers transformed the Quad into a Halloween wonderland complete with pumpkins, face paint and the 11th annual Project Pumpkin Oct. 28. More than 800 children from the Winston-Salem community came to campus for an afternoon filled with trick or treating, carved gourds and haunted houses.

University students, most wearing costumes, volunteered their time to escort the children around the Quad. Senior Julie Gibbons, the chairwoman for Project Pumpkin, approximated that 700 university students participated in the event. "So many more essays dressed up this year," Gibbons said. "I think more of the costumes were really enthusiastic and that really made the kids happy!"

Student organizations sponsored booths at the event, including the German community, Alpha Xi Delta sorority and various clubs from the Spanish department, Mortar Board and graduate programs as well. Gibbons, "One exciting thing was that Pi Kappa Alpha fraternity let us use their Facility," Gibbons said. Parked on the sidewalk, the fire truck drew the attention of many children. Their eyes got really big when they walked by. "I said, let's trick or treat here," a member of the Project Pumpkin steering committee said.

The children and university students also enjoyed hearing about the entertainment of several campus performing groups, Corny Conventions. In See Pumpkin, page A5.

Who is alumnus Eddie Timanus?

Answer: The only blind contestant to ever appear on Jeopardy.

By Susannah Rosenblat
Old Gold and Black Reporter

Jereon’s favorite contestant Eddie Timanus is a little known, but well-respected name in the latest Jeopardy sweep. His 16-year history, Timanus had tried out for the show. His 16-year history, Timanus had tried out for the show. His 16-year history, Timanus had tried out for the show. His 16-year history, Timanus had tried out for the show. Mike Bellefeuil, the director of ARAMARK, has ushered in many changes in the way food is served at events.

Student survey reveals discontent

By Sandy Salonen
Old Gold and Black Reporter

The Interfraternity Council presented results of its survey in the administrative offices Oct. 28. According to junior Cory Westendarp, publications director of the IFC, the survey was presented to the administrative staff in an attempt to give a "general overview of what the students feel about on campus." He went on to say that generally, students "feel out of touch with the administration and what’s going on."

The Interfraternity Council is a whole, and especially the administrative mem- bers, were very receptive in the survey results, and in the preliminary ideas Westendarp and Brent Cann, president of IFC, said that they don’t wish the change to the system.

The eventual goal of the system is to create an enjoyable yet safe social environment on campus. With over 100 chapters participating in bids, drinking, Torres-Ramirez, chairwoman of the Student Life Committee, said that there is an "obvious concern on both sides of the fence."

The survey addressed such issues in the campus alcohol and off-campus housing policies, along with many questions dealing with drinking habits and overall satisfaction with the university.

The results of the survey were then analyzed and presented to the Student Life Committee. In the survey, 45% of female students and 60% of male students report ever being to an off-campus party.

Parents sample college during weekend

**By Jim Hopper**
Old Gold Staff Reporter

A steady stream of cars poured in through the university gates Oct. 29 and parents sampled college life at Wake Forest University’s Parents’ Weekend Oct. 31-Nov. 1.

This year’s Parents’ Weekend was one of the most successful ever for families having registered as of Oct. 29. The planned activities of Student Council were both educational and enjoyable for families who attended and the unannounced weather warranted a pleasant atmosphere for the weekender. The weekend’s activities began on the afternoon of Oct. 29 with orientation. Families received a folder including a schedule of Parents’ Weekend events, along with the portfolio, for the weekend, along with maps to help.

Participants had several options for evening entertainment including the women’s soccer game against Louisville, a screening of The Shape of Rugby Action, a concert by the Duke Dynamic and Temporary Repertoire in Benson Food Court and a performance by the band “The Movement” in Alumni Gym. The Student Senate also hosted the Family Symposium sessions covering research, culture and leadership. Attendees had the opportunity to attend favorite classes, study abroad opportunities and explore their educational mission and prepare students for leadership and citizenship through curriculum, conferences and research experiences.

The Parents’ Council and Student Union presented their annual fall Open Houses and Brunches. Students in their Junior year and up participated in Brunches for students in their Sophomore, Freshman and Freshman years.

The football game Oct. 30 was a favorite event for many of the families attending. David Rogers, father of sophomore outside hitter Andrew Rogers, said that the game was the best he’s ever seen the Demon Deacons play. Many parents attended the Baptist Service Oct. 31 and many families had the opportunity to attend favorite classes, study abroad opportunities and explore their educational mission and prepare students for leadership and citizenship through curriculum, conferences and research experiences.

The selection of the top 50 presidents and universities is based on a series of criteria: the number of students who identify with preparing students “in lives of personal and civic responsibility,” “ educating students to lead ethical and civic-minded lives, and are available in the Counseling Center and the Residences information desk. of bad to good at the end, show them the producer I know that they are about to see..."

He is a self-described "fan person," he said, and can work with a job "if there's a laugh or a stoop opportu­

nity. If you take yourself too serious, everyone else will, too," he said. Around this buoyant attitude, Timanus moves for nor­

mality in the face of an impor­

tant. "I think anybody who has any kind of disability is always trying to get people to look past that and see the person," Timanus said. Since he has succeeded, earning his spot as a sportswriter at Old Dominion on his "own terms." "Being down with Timanus, former economics professor Chase Hammond said.

His love of sports was nurtured at an early age as he spent time at the Microwave radio station where his father was a disc jockey. He went on to do commentary at high school basketball games in Reston, Va. Most recently David Levy recalls teasing Timanus, who had a "great head for statistics." I remember asking him why he didn't drop play­

ning football and field hockey games, Timanus said. "I didn't expect this to happen," he said. "It's just a delight­

ful time to be on the college Bowl and you never know what might happen." I can't believe it," said John Morris, Office of Public Relations director. It is going to be a great experience for me and probably other people as well," said Levy. I expect to see things that I have never seen before," said Timanus. "I can't wait to see some­thing that I have never seen before," said Timanus. "I can't wait to see some­thing that I have never seen before," said Timanus. "I can't wait to see some­thing that I have never seen before."
Registration streamlined

With lessons learned from fall's online registration, the Registrar's office has provided upgraded systems and enhanced experience.

By Jessica Beagle

Sports Editor

With the semester already underway, students are starting to think about their class registration process for the fall 2010 semester. Students will be able to log in and select their classes much earlier than in previous years.

Registration for the fall semester is scheduled to begin Wednesday, August 25, at 8 a.m. Hours will be 8 a.m. to 5 p.m. Monday through Friday. The fall registration process is expected to continue through the fall 2010 term. Students are encouraged to register at their earliest convenience.

Calloway creates new system major

A new system with enhanced capabilities and technology skills to improve students' usefulness in job market.

By Lee Ann Quinn

Next fall the Calloway School of Business and Accounting will launch a new program in Management Information Systems. The program will focus on combined business and technology skills.

Students interested in the program would apply for admission to the Wake Forest School for the Management Information Systems program during the spring semester of their sophomore year.

The new MIS program will allow students to combine their business and technical skills and allow them to explore career options in the information technology field.

A strong major plus current trends for students who possess a combination of information technology skills and business savvy and good work ethic.

This trend, coupled with the fact that our nation is recognizing the importance of information technology, makes the MIS program one of the most exciting programs in the College of Business Administration.

"We're excited about starting the new program," Lock adds. "The tagger (this is the program's first) is a faculty hiring risk. Currently, Georgi Miss, an assis-

One Accord, SOUL, Gospel Choir, Trensum-Paymis, Old Gold, and the dance team all performed on a stage up by the Quad.

"Other students voluntarily dressed up in clowns and entertainers, such as the artists and jugglers seen. One addition to Project Pumpkin this year was a storyteller who entertained children in the bookstore. Pumpkin represented 27 community organizations as enrichment programs and other were hand-capped young people. It went on to say that otherwise without these chances to thrice we found on Project Pumpkin.

Radomski recommends that the IFC try to make the survey more appealing. She said it should examine other factors that could influence students to drink.

For example, Radomski said, "The results of the survey need to suggest that it is only the alcohol policy that is responsible for binge drinking," when in fact there are other factors at work. "At a woman's mat to this, national surveys show that 40 percent of college freshmen have already participated in binge drinking in high school, before ever entering college," the committee continued.

In dealing with the university's system on campus, Radomski showed her support for a national surveys show that 60 percent policies. For example to the administration, but instead of being a story of what students feel on campus.

Continued from Page A1
The committee is divided into subcommittees, each of which examines a specific area of the policy. These subcommittees include publicity, decorations, media, field-trips, transportation and agency planning.

Before that afternoon, the committee met with a group of children who stopped trips to the various ages. University students went to the agencies and talked about Halloween, three of which were made by the kids.

According to南瓜, "The policy really does encourage students to drink in their rooms because they are aware of the party as if they are realistic. In fact, when I looked into opening a java City coffee shop with a group of students, the students said that they have a chance to trick or treat. Led by Gibbons, the steering committee has worked on food in an environment that may or may not cause problems, despite a few complications.

Doctor: Gender has effects on health risks, conditions

By Elizabeth Turball
Old Gold and Black Report

The difference between men and women has been a topic of discussion for thousands of years. “We know men and women are different,” Dr. Florence Haseltine, professor of Population Research at the National Institute of Child Health and Human Development, said. “But there is a whole other world of research that has developed that makes men and women different.”

Haseltine has studied several areas of human biology, and she said that while the two sexes are different, there are many similarities in how they function. “There are lots of hormonal influences that influence diseases,” Haseltine said.

Haseltine was one of the first female scientists to study the genetics of breast cancer, and in 1995 she founded the Society for the Advancement of Women’s Health Research, which serves as its first president. She is a member of the Institute of Medicine, has served as the editor of Women’s Health, and is also the author of numerous publications.

For all of the brands we shopped just like in lots of students do, we shop the local competitors and try to buy in bulk. Bellafleur said. "In some stores there are maybe some things that we can't, and other things we may be able to, so it varies greatly."

For example, a double meatball sub at Shorty's costs $3.20. But as Bellafleur pointed out, the double Subs cannot compete with large grocery store chains.

"The Wake Forest student kind of sees the Sunday in the north like a grocery store, so we sell a lot of products that a normal convenience store wouldn't," he said. "The student wants basics, cereals, juices and chips. But it's a little different product than what you would see in a typical grocery store.

In fact, when you compare the prices in the Sunday Shops to those at campus convenience stores, the prices are actually lower. At the Sunday Shop, the milk, Tylenol and Doritos, for example price for 40 cents or less at Local Quality Markets. But food is only one aspect of the purchasing power of the Deacon Card. The card can also be used at the university bookstore, where prices are, for the most part, fixed. So if a student wished to purchase computer and electronic goods, for example, they may be better served to go to Circuit City, where the prices may be a little lower. Although the bookstore itself generally has comparable prices.

Pug dialogue among various nations. At least five nations participated in the negotiations. The main aim was to reach an agreement on the issue of nuclear proliferation. The talks were held in Geneva, Switzerland, and lasted for several weeks.

China's foreign policy endeavors us

China's foreign policy endeavors are aimed at maintaining peace and stability in the region. The country is a leading economic power and has a significant role in international affairs. China's foreign policy is characterized by a focus on multilateralism and dialogue. Beijing aims to promote cooperation with other countries and to strengthen its position as a global economic leader.

Clinton's foreign policy endeavors us

Clinton's foreign policy endeavors were aimed at balancing the interests of the United States with those of its allies. The president sought to maintain a strong relationship with Russia and other former Soviet states, while also engaging with China and other emerging powers. Clinton's foreign policy was characterized by a focus on diplomacy and the use of soft power. The president sought to promote democracy and human rights around the world, and to prevent the spread of nuclear weapons.

He's got the world in his hands

Clinton had a strong sense of his own importance and believed that he could influence events on a global scale. He was known for his public speeches and for the way he used the media to shape public opinion. Clinton's foreign policy was often criticized for being too soft, and for not being strong enough to prevent the spread of terrorism and other threats.

Christianity is not about judging

Christianity is not about judging others based on their actions or beliefs. The Bible teaches that we should love and forgive one another, and that we should not judge others. Instead, we should strive to live according to the teachings of Jesus Christ and to follow his example in our daily lives.

Sexuality is separate from identity

Sexuality and identity are important aspects of who we are, but they are not the same thing. Sexuality refers to our feelings, desires, and behaviors related to sexual attraction, while identity refers to our sense of self and our personal beliefs and values.

Harriers perform well despite key injuries

Women's soccer shutout by UNC

By Jordan Webster

After several months of grueling practices and hard-fought conference matches, this is what they play for. This weekend, the Demon Deacons took on a tough task when they were defeated by the University of North Carolina in Chapel Hill.

The Deacons have come a long way since the start of the season, and their performance in the ACC tournament was impressive. However, they were unable to overcome the talented Tar Heels.

The game was a tough one for the Deacons, as they fell to the Tar Heels by a score of 1-0. Despite their efforts, the Deacons were unable to find the back of the net.

Women's golf wins first tournament of year

Women's golf wins first tournament of year

The Demon Deacons dominated the 2023 ACC Women's Golf Tournament, finishing first overall with a score of -14.

The team's strong performance was highlighted by several individual accomplishments. Freshman Maria Berendt and sophomore Clara Imfeld led the team, finishing at -8 and -7, respectively.

Berendt, who was named the tournament's medalist, said, "It was a really special week. The course was in great condition, and the atmosphere was amazing.

We were able to come together as a team and perform at our best.

"The team's leadership was key," added Imfeld. "Coach Bennett did a great job preparing us for the tournament, and we were able to put it all together on the course.

The Demon Deacons' strong showing in the ACC tournament continues a trend of success for the program. Last year, the team finished second, and they are looking to build on that momentum this season.

"We're looking forward to the upcoming season," said Imfeld. "We have a lot of talented players returning, and we're excited to see what we can do as a team.

Women's soccer shutout by UNC

The Deacons' season came to an end with a tough loss to the Tar Heels. Although the team gave it their all, they were unable to overcome the powerful Tar Heels.

"It was a tough one," said Coach Annie Bennett. "The Tar Heels are a great team, and they deserve the win. But we're excited to regroup and come back stronger next season.

"We have a lot of talented players returning," added Bennett. "We're looking forward to the upcoming season and seeing what we can do as a team.

The Deacons weathered a second-half storm against UNC, but the Heels held on for a 1-0 victory and six straight wins. The game was all but over six minutes into the match when UNC's Christian Cullen scored from a one-handed shot from 14 yards out. It was the only goal of the game, and the Heels held on to secure their 12th win of the season.

By Gabe Eulert

Offensive set pieces, corner kicks, and set pieces were the key to the Demon Deacons' 2-0 win over the Seminoles in Tallahassee. The Deacs scored on both set pieces in the first half, and held off the Seminoles' attack in the second half to secure the victory.

By Amy Ludecke

The Deacons put up a strong fight against Cincinnati last week, but were unable to overcome their poor performance in a defensive battle that was 3-0 after 20 and 30 minutes of play. The Demon Deacons were unable to put the ball in the net against Cincinnati until a goal by Freshman Brian Fassett in the 38th minute set them up for the win.

By Dave Thompson

The Wolfpack currently are second to the Georgia Bulldogs in the ACC standings, therefore the Demon Deacons will need to do well to stay in contention. The Demon Deacons are 4-1-1 in ACC play, while the Georgia Bulldogs are 5-0-1.

By Vanessa St. Germain

After a break from ACC competition, the Demon Deacons volleyball team returned to action with a 3-0 sweep of the Georgia Tech Yellow Jackets. The win was a much-needed confidence booster for the Demon Deacons, who are currently sitting in 5th place in the ACC standings.

By Shawnta Lee

The Deacons were able to overcome their slow start in the second half against UNC, but the Heels were able to hold on for a 1-0 victory. The game was all but over six minutes into the match when UNC's Christian Cullen scored from a one-handed shot from 14 yards out. It was the only goal of the game, and the Deacons were unable to overcome the deficit in the second half.

Football team needs win to keep bowl hopes alive

The football team is looking to stop UNC from earning its first ACC victory of the season in their matchup Nov. 6 in Chapel Hill.

By Sam Blu
Sports Editor

The Demon Deacons put their backs against the wall Oct. 30 when they face a defensive battle to Clemson 23-12. The loss, the Deacs’ fourth in the ACC, narrowed the Deacons’ bowl-game chances to almost nil.

To be eligible for a bowl game, the Deacs must win six games overall. However, to be ensured a bowl game they must finish in the top five in the ACC. Currently they are eighth, with 31st in the nation in total defense.

Their woes can be attributed mainly to their dismal offense, which ranks last in the ACC, averaging 177 yards per game on the ground, second in the ACC’s running game has performed well this year, averaging only 13.5 points per game in the six losses to the Demon Deacons, however, since the Tar Heels are last in the ACC in scoring offense and scoring defense the Heels are giving up 31 points per game and are scoring only 17 points per game to a 14 point margin.

The Tar Heels rushing offense is last in the ACC and the Deacons should take full advantage of this. Senior Morgan Kane is third in the ACC in rushing and is due for a big game after being held to only 80 yards rushing the past two weeks. Unfortunately, the Deacons should dominate the Tar Heels, who are without their field general, Ronald Curry.

Curry was injured at the beginning of the season, and the Heels have averaged only 10 points over six games.

Without Curry, the Heels do not have an offensive threat and the Deacons’ front line should have little difficulty stopping the run and putting pressure on the quarterback. The Deacs’ running game has performed well this year, averaging 177 yards per game on the ground, ranking the team fourth in the ACC and 28th in the nation.

Senior Morgan Kane is third in the ACC in rushing and is due for a big game after being held to only 80 yards rushing the past two weeks. Unfortunately, the Deacons should dominate the Tar Heels, who are without their field general, Ronald Curry.

ACC Field Hockey is on a roll

By Daniel Ogle
Old Gold and Black Reporter

After completing the most successful regular season in school history, the Demon Deacon field hockey team must now do what every successful postseason team does—forget about all that and start over.

The Deacon's second season begins Nov. 5 when they begin play in the ACC Tournament as the second seed. The Deacs will need to remember what helped them achieve that position but must avoid becoming overconfident as a result of their high ranking and successful season.

The Deacs get to test that point through an excellent out of season effort, as well as solid individual play from the likes of junior forward Jenny Everett and senior goalie Meaghan Nitka.

Everett has been an offensive scoring machine, leading the ACC in assists in 15 games, and she is second in total points scored.

"Without a doubt, her ability to finish this year has been extremely instrumental in our success. She's a great finisher, and you've got to have one of those on your team," Everett said. "The message is only going to be stronger with the players who are around her. This one change can be life or death in the field hockey and our offense is coming from the coaching staff, and there are many different things that Everett believes separate this team from their competitors.

"Maryland is a good team, because I believe they are very similar to a national team. They pull talents from all over the world, and they also play with a lot of intensity," Everett said. "If the Deacs are to beat the Terrapins they will need to exploit them defensively. If you want to attack Maryland, you have to attack their backs," Everett said. 

"The Devils are lead by Corey Carsecoli, who is fourth in the ACC in goals against average and fourth in save percentage. As the ACC Field Hockey Tournament comes to a close this weekend, the dreams of four teams come to fruition. With the ACC Tournament as the crowning jewel of the conference, the ACC is perhaps the best conference in America for field hockey,

Without a doubt, her ability to finish this year has been extremely instrumental in our success. She's a great finisher, and you've got to have one of those on your team.

The Demon Deacons return home for their shut out final as they host this year's ACC Championship. The tournament begins Nov. 4 and runs through Nov. 7. The five teams that compete in the ACC Championship will be the top four teams in the ACC with the highest number of wins.

In the ACC, teams will be ranked based on their conference record. The top four teams will advance to the ACC Championship.

The ACC Championship will be held at Kennesaw State. The tournament begins Nov. 4 and runs through Nov. 7.

Senior forward Jenny Everett will be a key factor for the number two seeded Demon Deacons in this weekend's ACC Championship held at Kennesaw State. The tournament begins Nov. 4 and runs through Nov. 7.

"Maryland is a good team, because I believe they are very similar to a national team. They pull talents from all over the world, and they also play with a lot of intensity," Everett said. "If the Deacs are to beat the Terrapins they will need to exploit them defensively. If you want to attack Maryland, you have to attack their backs," Everett said.

"Maryland is extremely gifted team, because they are very similar to a national team. They pull talents from all over the world, and they also play with a lot of intensity," Everett said. "If the Deacs are to beat the Terrapins they will need to exploit them defensively. If you want to attack Maryland, you have to attack their backs," Everett said.

allows, supported personnel around the world that he received.
Payton's nickname was "Hoss," but he was not named after his playing style. Payton's nickname originated from his personality.
Payton made his name for himself early in the NFL. He scored his first NFL MVP award when he ran for 1,672 yards and 16 touchdowns.
In his third season, he earned the record for most rushing yards in a season. He carried the ball 300 times, finishing the season with 2,032 rushing yards, a record that still stands. Payton also holds the record for most 200-yard rushing games with 17 in 1987.

What makes Payton's accomplishments all the more spectacular is the fact that he was not extraordinarily fast, or strong or big. Payton just played football the way he lived his life, with a big heart.

Despite his success and stellar performance in the NFL, Payton never received the attention he deserved. He never asked for it, and he never complained about the numbers.

Payton's nickname was "Hoss," but he was not named after his playing style. Payton's nickname originated from his personality.

Acclaimed guitarist with a free music clinic

By Amma Lee

Ole Gold and Black Reviewer

When thinking of someone being an influential figure, the mind immediately assumes that the scholar is the foremost expert in their field. However, there are numerous gitarrists in the music business who travel the country giving clinics and lessons with talent greater than that of commercially successful musicians. One such guitarist is Duke Flattinhg, a noted electric guitarist and composer.

Du's strengths lie in his unique style, which, indicating the to/talent of the time and also his versatility on the instrument. A list could be compiled detailing his accomplishments and achievements. Du has a unique style that is well known in the industry. Du's music is filled with emotion and passion, captivating the listener with each note. His music often speaks to the heart and soul, touching people in a way that is both inspiring and moving.

One of Du's most notable accomplishments is his ability to connect with his audience. He is known for his up-close and informal approach, which many fans find refreshing. Du's ability to make the audience feel at ease and to engage them in his music is a testament to his talent and personality.

Du's music is deeply rooted in the blues and jazz genres, but he also incorporates elements of rock and roll, country, and other musical styles. His unique style and ability to blend genres make him a popular choice for various music venues and events.

Du is committed to giving back to the community through his music clinic. He offers free clinics at local schools and community centers, teaching young people how to play the guitar and encouraging them to pursue a musical career. Du is an inspiration to aspiring musicians and is a testament to the power of music to bring people together.

Du's music is not only popular with fans, but it is also critically acclaimed. He has received numerous awards and nominations for his music, and his albums continue to be celebrated for their innovative sound and musicality.

Du's music is a reflection of his passion for music and his dedication to sharing it with others. He is a true musical ambassador, and his influence on the music industry is immeasurable.

Collegium Musicum to play early British work

Old Gold and Black Reviewer

Students who enjoy classical music should take note of an upcoming performance by the Collegium Musicum. Featuring a stunning array of sounds and instrumentation, the performance is not to be missed. The event is titled "English Music of the 18th and 19th centuries," and will take place at 8 p.m. on Friday, Nov. 16 in the Student Union Ballroom.

The Collegium Musicum is dedicated to performing and preserving the unique works of performers and compositions from the 18th and 19th centuries. This particular performance will feature a collaboration between the Collegium Musicum Instrumental Ensemble and the Collegium Musicum Vocal Ensemble.

With their recent performances at events and festivals, the Vocal Ensemble has become a staple of the university's musical offerings. This concert will feature a range of works from the period, including songs, cantatas, and instrumental pieces. The orchestra will provide a rich and vibrant backdrop to the vocalists' performances.

The concert will feature works by renowned composers such as George Frideric Handel, during the mid-17th century and the late 18th century. The program will include movements from Handel's Messiah, as well as works by Haydn, Mozart, and Beethoven.

Tickets for the performance are available online and at the box office. Don't miss this opportunity to experience the beauty and splendor of early British music. It's a must-see event for music lovers of all ages.
Vertical Horizon moves toward electric sound with new album

By Savannah Rosenblatt
Old Gold and Black Alumni

Washington-hued, guitar-pop group Vertical Horizon might not be from around here, but they have two wild card entries on Oct. 29 and Nov. 15, seeming to have a homescreening.

The band recorded their 1997 live album "Sugar in the Gourd," and are regulars there, appearing hot and boiling their 12/12 release party there in June. The local club "feels like our home," according to the band.

As well as should. Vertical Horizon, composed of vocalist guitarist Janet Clark, bassist from Horizon, and guitarist/pianist Matt Scannell and drummer Ed Toth, has earned widespread popularity here.

Touting independently of a label's eight years, "Vertigo" (as known by fans) has cultivated a solid fan base. The band recorded their 1997 live album "Everything You Want" in Washington-based guitar pop quartet Vertical Horizon, comprised of guitarist Janet Clark, bassist from Horizon, and guitarist/pianist Matt Scannell and drummer Ed Toth, has earned widespread popularity here.

This sense of longing for a deeper meaning in songs is tactfully handled by the rhythmic title track. "And speaking in metaphors and conveying emotion in the abstract."

"Everything You Want" is a socially conscious album, with a really interesting language.......

This sense of longing for a deeper meaning in songs is tactfully handled by the rhythmic title track. "And speaking in metaphors and conveying emotion in the abstract."

"Everything You Want" is a socially conscious album, with a really interesting language. The power of the band's music is its ability to make the listener feel the cold wind blowing beneath the skin as they move to the rhythm of the words. The listeners are left with a sense of belonging, as the group sings about the power of music and the importance of unity. The lyrics are thought-provoking and poetic, leaving the listener with a sense of awe.

The band's musical style is a fusion of rock and pop, with melodies that are catchy and memorable. The vocals are powerful and the instrumentation is well-balanced. The album is a great representation of the band's musical journey and is sure to be a hit with fans of all ages.

Don't know much about history

Sandy Billingsley, president and director of the Orange County Museum of History, talks about the history of the 15th century and the importance of understanding the past.

"The story of the 15th century is a tale of war and peace," Billingsley says. "It's a time when the European countries were competing for power, and the Ottoman Empire was expanding into Europe." The museum uses exhibits and interactive displays to educate visitors about this important period in history.

"It's a time when science and technology were advancing rapidly," Billingsley adds. "The invention of the printing press by Johannes Gutenberg in 1440 had a profound impact on the spread of knowledge and ideas." The museum features exhibits on the development of the printing press and its influence on society.

"The 15th century was also a time of exploration and discovery," Billingsley notes. "The voyages of Christopher Columbus to the Americas opened up new trade routes and led to the exchange of ideas and cultures." The museum has a display on the Age of Exploration, featuring maps and artifacts from the era.

"The 15th century was a time of great change," Billingsley concludes. "It was a time when the world was becoming smaller, and people were starting to see themselves as part of a larger global community." The museum is dedicated to preserving the history and culture of this important period in world history.
Man, oh man, is this a good time for films.

I wrote a couple of weeks ago about how the entire movie industry seems to conspire against audiences to provide some of the worst films ever seen, well... February. If this is indeed the case, then what we've experienced right now can only be equated to a veritable film renaissance. In the past month, audiences have been treated to a steady stream of thought-provoking works, beginning with American Beauty and Pleasantville, continuing on to Fight Club and The Limeys, and ending in the stunning works of Three Kings and Dead Gorgeous. Any luck, these films will appeal to audiences as well as who, in light of the glut of thinking people's films, must be careful to avoid overlooking a masterful work such as Martin Scorsese's Bringing Out the Dead.

In this film, Patricia Arquette and Nicholas Cage star in Martin Scorsese's latest film, Bringing Out the Dead. Cage gives an outstanding performance as Travis Bickle, who ultimately responds to his surrounding environment with a torrent of violence, Frank Pierce, who apparently respects his surrounding environment by attempting to save lives. The medical care he gives his patients, therefore, not only helps others, but also helps him by providing him a combat against unpredictability of life and his own vulnerability.

Schroeder's script delicately scrutinizes Frank's life and diligently injects insight into the ways in which we all attempt to deal with life and death. Some look toward drugs, sex, violence, or sheer despair and ignorance for the reality of the situation. Frank helps people. In perhaps the greatest genuine heroism, which we all attempt to deal with life and death.

Pierce responds by attempting to save lives. The medical care he gives his patients, therefore, not only helps others, but also helps him by providing him a combat against unpredictability of life and his own vulnerability.

Ultimately, this film succeeds because in the very definition of a well-made picture. This is the type of film that people will always want to happen, as it will still have a chance to catch on with audiences.
