Wednesday visitation proposed

Bettie Wadsworth

The visitation policy being discussed at Wednesday's meeting of the Interfraternity Council would allow for

Wednesday visitation if it is opposed by over 25 percent of the student body. A vote on the policy will happen this week.

The new policy, which was proposed by the Interfraternity Council, would allow for

Wednesday visitation if it is opposed by over 25 percent of the student body. A vote on the policy will happen this week.

The policy lists two options: allowing Wednesday visitation to be voted on by all students, or having a separate vote in each of the Interfraternity Council's dorms. The outcome of the vote will be announced this week.

The Interfraternity Council recommended the policy change as a response to the increasing demand for Wednesday visitation. The council members were unanimous in their support for the new policy, which they believe will improve the social life of the student body.

The policy will be voted on by all students, and the results will be announced next week. The Interfraternity Council will then consider the results and decide whether to implement the new policy.
Graduate students

continue from page one

Graduate students also are employed in the science, mathematics, and social science departments. The quality of their teaching is considered good, although they are not well-prepared for each course. The graduate students are employed under the supervision of professors in their respective fields.

Each department has a graduate advisor who is responsible for guiding graduate students in their research and teaching. The graduate students are responsible for the quality of their work and are evaluated by the department based on their performance.

Worrell House

The Worrell House is a small hotel located in the downtown area of Wake Forest. It is owned and operated by the university and provides affordable accommodations for visitors.

The Worrell House has 50 rooms, each with a private bathroom, air conditioning, and a work desk. The rooms are also equipped with a mini-fridge, microwave, and a complimentary breakfast included with the room rate.

The Worrell House is a popular choice for guests attending conferences, attending a nearby event, or visiting the university. It is convenient to the university campus, and the hotel staff is friendly and helpful.

Rapist's attempt foiled

A 26-year-old man was arrested on charges of attempted rape and kidnapping on May 16th. The man was seen entering a student's dorm room at approximately 3 a.m. The student, a junior studying psychology, was able to escape and call the police.

When police arrived, they found the man still in the dorm room. He was arrested after a brief struggle with the student. The victim was uninjured, but was shaken by the incident.

The Fall Term

The Fall Term at Wake Forest is an important part of the university's academic calendar. It provides students with the opportunity to engage in hands-on learning and experiential education.

The Fall Term includes a variety of programs and activities, such as internships, study abroad opportunities, and research projects. It is a time of growth and development for students, as they prepare themselves for the challenges of the future.

Student of the month

Name: John Smith

Major: Business Administration

Class: Senior

John Smith is a Senior majoring in Business Administration. He is an active member of the Student Government Association and a resident assistant in the dormitory.

John is a role model for his peers and an inspiration to others. His commitment to his studies and his involvement in campus activities have earned him the title of Student of the Month.

Last chance

The administration is reminding students that the last day to register for the Fall Term is October 1st. Students are encouraged to complete their registration process as soon as possible to ensure a smooth transition into the new academic year.
Debators capture title

The WF debate team continued its success this season capturing North Carolina's top four major tournaments and setting a new school record for the season. The team ended the season winning six of its eight competitions, with only two losses. The team's success was attributed to the hard work and dedication of the debaters, who practiced extensively and prepared thoroughly for each competition.

Cheryl Miller

Next year's Art Series will continue to feature some of the country's most talented performers. The series will include a variety of events, including concerts, lectures, and art exhibitions. This year's lineup includes a diverse range of performers, from classical musicians to contemporary artists. The series will be held in the Fine Arts Center, and admission is free to all Wake Forest students.

For Amy Barnett, the biggest challenge of being a faculty daughter is having a professor as her father. "I'm always a bit of a brat," she said while the term 'faculty brat' is the same community feeling that exists on the WF campus since his father moved here in 1962. The family moved here in 1962, and he has not ruled out building his own house in the future.

Gas price continues to rise in Wake Forest and on weekends but last year, the rise was not as sharp. The gasoline tax increase in 1980 is being put forth by the state legislature to close the regularArtist Series budget. The increase will add $220,000 to the library budget, and it was necessary to prevent damage to the library's physical structures.

Amen has lived within the community feeling since he was a fresh man due to the energy crisis. "I'm always a bit of a brat," she said, "having a professor as my father." The family moved here in 1962, and he has not ruled out building his own house in the future. The family has always had a unique feeling of acceptance in Wake Forest.

Education requires questions

PROGNOSIS: Wake in the '80s

Ed Christensen

The welfare of faculty and students in the Wake University of the class of 1980 is contingent in the climate of class by keeping their responsibilities in order.

The class of 1980 will need a school environment in which inquiry and discussion are encouraged. The faculty should be allowed to develop their ideas and reflect on their teaching. The students should be encouraged to ask questions and express their ideas.

Letters to the editor

Action, not guilt, feeds hungry

Punchline

Well, I've always treated this campaign as a joke, and Danny Linnell is a fellow who's even funnier than me. When the whole thing started, I thought for sure there would only be a week or two of it, but then we saw the way the campaign was going. It was like a joke that just wouldn't end. It was like a joke that just wouldn't end. It was like a joke that just wouldn't end.

What is disturbing about the campaign is that it is based on a majority vote of the 24 elected members of the MRC. We are asked to vote on issues that are of vital importance to us, and we are expected to make a decision that will affect our lives for the next four years. This is not a joke. This is serious. We need to take this campaign seriously.

Inertia

We are asking for action, not guilt, to feed the hungry. We want to make a difference, not just sit around and think about it. We want to put our money where our mouth is. We want to take action.

Dear editor,

I am writing to express my concern about the way the campaign is being conducted. It is unrealistic to expect us to make decisions that will affect our lives for the next four years. We need to be more realistic about what we can accomplish.

Sincerely,

A student
Choir captures passion

George Frederick Handel's "Messiah," according to R. J. Hart, was first performed on February 17, 1742. The work displays the full scope of Handel's artistry: a brilliant solo section, a glorious chorus, and a prominent role for the orchestra.

Handel's artistry is on full display in a brief solo segment of the opera, "Messiah," on the 17th. The concert was held at a local church in the afternoon. The performance was well-received by the audience.

According to Hart,_ the concert was held at a local church in the afternoon. The performance was well-received by the audience.

**Sellers perfects nothingness**

Marilyn Douglas (Mayor of the City) and Peter Sellers are featured in the new movie "Being There." Douglas is a rich, influential businessman, while Sellers is a bumbling, naive janitor.

In the popular "Pink Panther" series, Sellers played the bumbling police officer Cletus Canopus who is always out to catch the man who is the real criminal. In this movie, Sellers’s character is a janitor who is used to dealing with the criminals of the city.

The Wake Forest golf team is continuing to compete in tournaments. The team has just returned from a trip to Oklahoma, where they took first place in the Oklahoma City Open held this weekend. The team has been preparing for the NCAA tournament to be held next month, but with a little help from the rain, their plans may be slightly altered.

Tennis team loses two, but improves

The Wake Forest tennis team had a mixed weekend, losing two matches but improving in others. In their match against Virginia Tech on Friday, the team lost 4-3. However, against the University of New Mexico on Sunday, they won 7-0. The team is currently on a mission to prepare for the ACC tournament, which is scheduled for this Wednesday. With a win, they have a good chance of making it to the NCAA tournament.

Deac track team excels

The Wake Forest track team had a strong performance in their meet this past weekend, winning High Point 500, 4x100, 4x400, and 4x800. The team was also represented in the ACC Invitational Championships, where they finished 5th in the men's event. In the ACC Indoor Championships, the team also put up strong performances, with several members qualifying for the NCAA tournament. The Deacs are currently ranked 17th in the nation, with a strong showing in the ACC championship meet.

Sig Eps take meet

The Sig Eps also had a strong performance in their meet this weekend, placing 5th in the NCAA tournament. The team worked hard throughout the season to prepare for this meet, and their efforts paid off. The team is currently ranked 23rd in the nation, with hopes of improving in the future.

The Deacs are using March as a time to prepare for the ACC championship meet, which will be held on March 17th. They are currently ranked 17th in the nation, and will have to work hard to improve in the ACC standings.

Deacs regain confidence

George Weiss

After a devastating 6-1 loss to the Clemson Tigers last Saturday, the Wolfpack baseball team bounced back and defeated the Wake Forest Demon Deacons 8-1 on Saturday.

Wake Forest began the game with a scoreless first inning, but the Deacs struck back in the second with a run, and then added three more in the third inning to take a commanding lead.

The Deacs continued their offensive surge in the fourth inning, scoring four runs on a bases-loaded walk and a single by Matty Harnisch. They added another run in the fifth inning to extend their lead to 7-0.

Wake Forest managed to score a run in the sixth inning, but it was not enough to catch up with the Deacs, who added another run in the seventh inning to put the game out of reach.

Saturday's victory was a significant turnaround for the Deacs, who had lost their previous game to the Tigers. With this win, they regained some of their first three singles losses and are now 12-2 for the season.

The Deacs will play against NC State on Sunday to see if they can maintain their winning streak.

Bull captures first Cal-Snyder Open

Bull captured his first Cal-Snyder Open title by defeating a tough field of competitors.

Bull, who is known for his strong play and consistency, faced a tough challenge in the final round. However, he was able to maintain his focus and put together a solid performance to earn the victory.

Bull's victory was a significant achievement, as the Cal-Snyder Open is considered one of the most prestigious events in the sport. His win will undoubtedly boost his confidence and momentum as he heads into the remainder of the season.
