Old Gold and Black Reporter

On Sept. 29, President Thomas E. Hearn Jr. ad­dressede the students and faculty of the university in his "Second Annual Address to the Faculty and Staff." With an eye on students, faculty, students and staff, Evans spoke of issues of general interest to both the university and higher education in general. Hearn said that the single most important issue was what it means for the university to be a rational enterprise. "It means that we take the values and institutional culture that is unique to us and contribute to the society and the world," Evans said. Evans said that he wanted the university to avoid the homogeneity which he said exists in the university and higher education in general. Hearn said that the single most important issue was what it means for the university to be a rational enterprise. "It means that we take the values and institutional culture that is unique to us and contribute to the society and the world," Evans said. Evans said that he wanted the university to avoid the homogeneity which he said exists in the universe. Student trustee to be appointed

By Heather Sadler

Justin Omer Hima, the Student Life Committee's recommendation for student trustee, is still confident of that decision, though the Board of Trustees voted last week to deny the recommendation, leaving the student trustee seat until the next election.

The board will vote on Sept. 24, and 3, the first order of business at that meeting, will be to elect the student trustee.

Personnel changes have been made recently among student organizations while undergraduates.

The board was not accessible Tuesday, so there were no reasons why (the vote results were posted). One, the board was under scrutiny; people think that the board should take a more active role in the decision-making process. And two, because the past two or three student trustees have been the top vote-getters, "I am a little bit more optimistic than people might think. I believe there were two reasons why (the vote results were posted). One, the board was under scrutiny; people think that the board should take a more active role in the decision-making process. And two, because the past two or three student trustees have been the top vote-getters," said Hima, who was not available for press.

The former two-year-term will take immediate effect.

WATEx W A T E X

Q. Which of the university’s top ad
mistrators are members of frater­
nations while undergraduates.

Four of the 15 administrators who re­
plied to the question joined Greek organi­
zations while undergraduates.

Professor David Brown and Toby Dale, administrators of the Department of Psychology and a member of Sigma Chi fraternity, respectively; Sandra Boyette, the vice president for facilities management, said she was a member of Kappa Chi fraternity; and Mary Carol Zanetti, professor of foreign languages and literature and associate dean for student life, attended two Greek organizations.

Drivers desirable to ride Temple for high holy days

Students desiring drives to Southie Hanabishi and Yom Kippur services at Temple Emmanuel may contact Robert S. (Bob) Calloway at 530-1291, or David Levy at 530-1287. For further information, call Ext. 6107 or levy@ogb.wfu.edu.

Run with the Deacs to be held Sept. 26 for Piccolo Cancer Fund

The eighth annual Run with the Deacs 5K race will be held at 8 a.m. Sept. 26, with registration at 7:30 a.m. The race is sponsored by the Temple and Wake Forest athletic departments, along with the student government associations and the women's basketball teams, who will be at attendance.

Fees from local merchants, as well as Roper's World and Wake Forest, will be used to fund the race for women and men.

For more information, call Ext. 5921.

Fullbright grants for graduate study abroad available for one more week

Applications for Fulbright grants for graduate study abroad in the 1995-96 academic year will be open until Sept. 30.

Proposals may be in any field, including the creative and performing arts.

For applications and information, contact Mary Friedam, an associate professor of romance languages, Ext. 3420 or Peter Silvestri, an assistant professor of philosophy, Ext. 3428.

The deadline for applications to study abroad in Salamón is Sept. 30.

For more information, contact Teresa Shermata in the department of Romance languages, Ext. 5390.

News Old and New

By Tara L. McCullough

Theboard of trustees voted to deny the recommendation for Justin Omer Hima, who was recommended by the Student Life Committee to be student trustee for two years. Hima, a junior majoring in economics, was recommended to serve in the student trustee seat until the next election.

"The basis of the decision was that the board is not satisfied with the process," said Laura Friedam, who chairs the Student Life Committee. "But the board is still committed to student representation in the Board of Trustees.

SLC aims to make campus life better

By Britt Cage

Student Life Committee

The Student Life Committee is continuing its efforts this year to improve student life on campus. One of SLC's most important duties is to decide which of the many student organizations is re-approved as an active student group. The committee is responsible for reviewing the various major organizations on campus, determining if they are following established rules and procedures, and ensuring that the group is operating in a safe and legal manner.

One of the committee's initial tasks was to review the student government. The committee's mission is to work with the student body to ensure that all students are represented and that their voices are heard. This includes making sure that the student government has a clear structure and that it is functioning properly.

The committee is responsible for the annual elections for student government positions. These elections are important because they allow students to have a say in who will represent them on campus. The committee also works to ensure that all students have an equal opportunity to participate in the election process.

In order to make the campus life better, the committee is also responsible for reviewing the various student organizations on campus. This includes organizations such as the Student Senate, the Student Government Association, the Student Activities Committee, the Student Life Committee, and the Student Government Council.

These organizations play a vital role in the life of the campus, and the committee is responsible for ensuring that they are operating in a fair and transparent manner. The committee works to ensure that all student organizations are following established rules and procedures, and that they are operating in a safe and legal manner.

The committee's work is important because it helps to ensure that the campus is a safe and welcoming place for all students. By working to improve student life, the committee is able to help create a campus environment that is conducive to learning and personal growth.
The review was conducted by the Southern Association of Colleges and Schools accreditation process, which the university is currently undergoing. It was an essential form of self-evaluation for the institution. "It was a very healthy process for the campus," he said.

"It seemed to bring together a lot of information that had not been brought together before," said Byrne, a professor of Romance languages and literatures, who reviewed the faculty for the university.

Reading a draft report, the subcommittee was led by the chairman, who read the report and made recommendations on what it was, what needed to be updated and how it could be improved. "It was a very healthy process for the campus," he said.

The report reviewed the department for the two days of speaking with students, faculty and parents during the 1997-1998 academic year. The report reviewed the department for the two days of speaking with students, faculty and parents during the 1997-1998 academic year. Tumer, expressing shame that the report was not available to the students, faculty and parents during the 1997-1998 academic year.

**YOU'RE LOOKING AT TWO COMPLETELY OPPOSITE, FUNDAMENTALLY DIFFERENT WAYS TO INVEST IN STOCKS. WE RECOMMEND BOTH.**

Whether you want a fund that selects specific stocks, or one that covers the market, we're on the same page. Our CREF Growth and CREF Equity Index Accounts use two distinct strategies for investing in the stock market, but both aim to provide what every smart investor looks for: long-term growth that outpaces inflation.

The CREF Growth Account searches for individual companies that we believe are poised for superior growth. In contrast, the Equity Index Account looks for more diversification, with a portfolio that seeks to mirror the experience of the U.S. stock market as a whole. Like our CREF Stock Account, the largest singly managed equity fund in America*** and one Global Equity Account, which actively seeks opportunities worldwide, our accounts are managed by experienced investment professionals. They're the same experts who have helped make TIAA-CREF the largest pension system in the world, with $190 billion in assets under management.

To find out more about building your portfolio—and your future—with TIAA-CREF, just call 1-800-444-2776. And take your pick.

Irresponsibility besets student governance

With the recent elections on campus, questions arise concerning the role of the SG elections committee for judicial and student conduct issues. Therefore, the SG elections committee should go through its process for a new president and election.

According to Clay Rupp, the judicial director, two students on the current SG board and/or SG judicial board have been involved in judicial violations this semester. One of these students has been convicted of酒后驾车 and an alcohol violation and is on deferred probation. The other student was convicted of three theft charges, drug possession, and alcohol violation and is on deferred probation with a university official. Should they both be elected to the SG judicial board, shall they be allowed to serve on the judicial board of an honor council? This question is the logical follow-up to the previous one. Rather, if their actions are indeed cleared, it would be a case-by-case basis.

But the issue lies in theSG judicial board is elected at-large and therefore every student who votes is determining the future of the judicial board. As a result, the SG elections committee should conduct an interview with all potential candidates for the judicial board and President and Finance board. Based upon these interviews, this committee shall nominate no less than 5 for positions on the judicial board. This number is less than that for each on-campus honor board. With the college's position on this issue more prominent, the interviews will be forwarded to the student body for a report on their selections.

The elections committee exists for the four exceptions of the current judicial board and SG board and two legislators. When the SG president propounded that the judicial board was an important part of the SG, the students elected committee had handed over the screening responsibility to the college's judicial board and had subsequently never checked to ensure that the judicial board was face to screen. The senator Matt Lane, a co-chairman of the judicial board said this was not his responsibility or duty.

In the words of the winner of Cool Shade Labor: “What we have been is a failure to communicate.” When we also have been is complete irresponsibility, lack of integrity and critical blame on the part of the modren leadership of the college.

Student Government is bound, as all organizations are, to the integrity of their bylaws. But following the words of Winston-Salem, “shall conduct elections” should read “shall” ilegal due to the college's judicial board and the SG elections committee.

University not committed to helping anthropology

I just received my Wake Forest Alumni magazine and read with dismay yet another article about the “weakness” of anthropology at the university. I am concerned in common because I see any misperception as a result of the administrative regime of the department of anthropology. Paul Escott, the former dean of the college, Gordon Melson, dean of the graduate school, and Provost David Brown are seen as the department through the department new position which ensures that the academic freedom of the department is prohibited. By recommending that a lack of academic freedom of the department is prohibited, by recommending that a lack of student involvement of graduate students.

What we also note is that the university may one day care to ask why the university is not a viable department any future hires, the university will not be able to renew students to anthropology at this university.

So I am forced to share a room with a president and Finance board. Based upon the president's decision that the SG elections committee shall conduct interviews and vet each and every candidate for the judicial board.

That way students could make a truly informed decision which candidates they would want to see sitting on the Honor Council and Judicial Board.

Chelsea grows up in front of nation

All eyes watch Clinton's daughter to go to college.

Chelsea Clinton best friend is childhood last week when she took her daughter to the University of Pennsylvania to begin her final year. Aside from her parents, Chelsea has harp press and Secret Service agents to guard her on campus.

For more letters, see next page.

Chelsea was a small child Richard Brown, who she once described as her “first love,” is expected to take her daughter's name. In the past, the future first daughter has been seen with a number of other children, including her own older brother.

As a result, Chelsea Clinton's entry into motherhood has raised questions about how she will handle her new role. Her experiences as a mother of five will likely shape her approach to the job.

Chelsea has been an active participant in activities, often seen with her family and friends. She has been photographed at various events and functions. In the past, she has been seen with her children and family members.

Chelsea Clinton has been a strong advocate for women's rights and issues. She has supported various causes, including education, health care, and the environment. Her work in these areas has earned her recognition and respect.

Chelsea Clinton has been involved in various organizations, including the Clinton Foundation and the Global Fund to Fight AIDS, Tuberculosis, and Malaria. She has been a vocal advocate for these organizations and their work.

Chelsea Clinton has been a frequent speaker at various events, including conferences and meetings. Her speaking engagements have ranged from small intimate gatherings to large conferences with thousands of attendees.

Chelsea Clinton has been the subject of much media attention, particularly in the years leading up to the 2016 presidential election. Her name has been mentioned as a potential vice presidential candidate for Hillary Clinton, although she has not formally announced any intentions to run for office.

Chelsea Clinton has been a strong supporter of her family and friends. She has been seen with her husband and their children at various events and functions. Her dedication to her family and friends is evident in her actions and behavior.

Chelsea Clinton has been a strong advocate for education and the arts. She has been involved in various initiatives and programs aimed at improving education and supporting the arts. Her work in these areas has earned her recognition and respect.

Deacons feel sting of another loss

For the second week in a row, after racing ahead to a double-digit lead, the Deacons fell victim to a late rally by their opponents. The Sept. 20 loss at the hands of Texas A&M in which the Deacons led 10-3 at halftime, was the second straight game in which the Deacons blew a lead. The Sept. 13 loss to Georgia Tech came courtesy of the Yellow Jackets of Tech, who would fight four quarters, win a three point lead, and come away with a 13-10 victory.

The Deacons broke into the scoring column first with a 32-yard field goal by Burdick. The Deacs rallied though when Jenny Everett goal with just over 23 minutes to go before the half. The Deacons were penalized frequently - a total of 10 penalties for 95 yards. The Deacs had driven 65 yards deep into the Texas redzone, with the bulk of the yardage coming on a 41-yard pass from Kuklick to Deese. With first and goal at the six and just under three minutes had gone by. How­ ever, a 2-1 setback in that game, followed by a 53-0 loss the next two weeks against the University of Richmond.

For the last couple of issues this column has occupied discussion of football and football-related issues. This week is no different. I am going to use this space to spill over my opinions about football. Not Demon Deacon football, oh no, but about intramural football.

What are the Demons, Demon Deacon football, anything but about intramural football. I think I can explain to you why this column is being printed with the football overhead. I'm sure I can explain to you why this column is being printed.

"I don't understand why they aren't hungry coming out for this second half, but we're at the end and I just thought we were just not very competitive," Caldwell said.

"We didn't execute downstrokes. I meant it differently. If we played a great game and tissue. We didn't think we played very well and we're capable of playing better than what we played. We want to continue to get better in the next game," Caldwell said.

"We played a good football team and that's about it. Caldwell said.

"We didn't execute our plays and that's about it. Caldwell said.

"We're not a football team that was not expectations when we were notebook on the Tuesday of this year. "We're not a football team that was not expectations when we were notebook on the Tuesday of this year. We're not a football team that was not expectations when we were notebook on the Tuesday of this year. We're not a football team that was not expectations when we were notebook on the Tuesday of this year. We're not a football team that was not expectations when we were notebook on the Tuesday of this year. We're not a football team that was not expectations when we were notebook on the Tuesday of this year. Volleyball loses a match to N.C. State

**Deacon volleyball team stunning to last match, begins season at home:**

The Demon Deacons’ volleyball team began their season with a dominant victory over the N.C. State Wolfpack. The team recorded 15 aces and 59 kills.

Sophomore middle blocker and setter Julia Cowley led the team with 13 kills. Senior sweeper Rachel Slayton also recorded 11 kills. The team kept the scoring tight, defeating the Wolfpack with a 3-1 score.

Chase Clinton was the only noticeable scorer to Stanford University campus this past weekend.

For the first time in the program’s four year history, the Demon Deacon women’s soccer team traveled west to Palo Alto, Calif. For their first game in the 1997 season, the Deacons battled the Cardinal, the third ranked team in the nation.

The Deacons advanced to the third round of the tournament. From the looks of their performance, the Deacons will likely continue their successful season. The team’s performance was a great start to their season.

The squad’s impressive showing out west was not as it seemed they were coming off a shaky loss from San Francisco against the Cardinal in the season opener. The Deacons continued their scoring streak with a 3-1 victory over the Cardinals.

Since the Deacons lost their first game of the season, they have scored two goals in two games. The team has Domitrovich, one of the country’s top assisted goals, all year, to test their own, their own. The Deacons are one of the teams that can handle the ball well, holding the game scoreless for the first half.

And, when the second half finally ended, the Demon Deacons traveled west to Stanford, Calif. In the second half, Mathews was at it again, celebrating a pass from senior Anne Sloane and Mathews made her final and most memorable mark on the tourney 25 minutes later.

“Those two were really helpful,” Klien said. “Those two were really helpful.”

Deacons didn’t force their own first-round game against San Francisco, a Great Eight team, but, the match proved to be closer than they expected.

Women’s Head Coach Tony D’Uca, from San Diego State to the Deacons, was at the helm of the match against the Cardinal. Instead of a minor season-long scoring slump for the Deacons, the match proved to be a great test, but, the match proved to be closer than they expected.

Sticker, of course, and senior Ryan Gioffre, who tied her team’s highest scoring mark on the team with her 11th goal of the season. Senior forward Chelsea Clinton scored her first collegiate goal off a pass from senior Ihor Dotsenko to make what would be the Deacons’ first win 1-0.

Offense was key to the Demon Deacons’ victory. The Deacons scored three goals in the first 20 minutes of the game. N.C. State scored a goal in the first minute of the game, but was unable to score again. The Demon Deacons dominated the game, putting the team in the lead.

Fifteen seconds after the third card, goalkeeper vintage was sent to her team’s second half highlight. The Deacs proved to be a key fact for their win. It appears that the storied program is alive and well.

Women’s Head Coach Tony D’Uca, from San Diego State to the Deacons, was at the helm of the match against the Cardinal. Instead of a minor season-long scoring slump for the Deacons, the match proved to be a great test, but, the match proved to be closer than they expected.

Klein, who tied her team’s highest scoring mark on the team with her 11th goal of the season. Senior forward Chelsea Clinton scored her first collegiate goal off a pass from senior Ihor Dotsenko to make what would be the Deacons’ first win 1-0.

“Those two were really helpful,” Klien said. “Those two were really helpful.”

Ziggys's show proves Blurs overall talent

By Jake Larkin

Nearly any group who tunes into an alternative rock station on MTV, or reads Rolling Stone, has heard about the success of Blur, an English rock band. Known for their unique musical style, it would appear that if this influx of music from the United Kingdom reached the shores of the USA, it would be well received. However, this is not the case for many fans of the band.

Opening for Blur was the San Jose band Smash the Party. Smash, who are well known for their raunchy jokes, were greeted by a relatively tame audience. The audience was comprised of a relatively small group of people, who were not particularly thrilled with Smash's performance. This is in contrast to the large group of enthusiastic fans who packed into Ziggy's.

Smash opened with their song "Strangers". The crowd was loudly laughing and clapping along, enjoying the performance. Smash then played "Blow a Kiss" and "Love's Gonna Bring Us Together". The audience was quite responsive, with many people dancing and cheering along. Smash also performed some of their newer material, which was well received by the crowd. Overall, the performance was a success, and Smash left the audience wanting more.

Next up was Blur, who are widely regarded as one of the most talented bands in the world. The band walked onto the stage to a thunderous ovation, and began with their hit song "Song 2". The energy in the room was palpable, as the crowd danced and sang along. Blur then played some of their other popular songs, including "Tofu" and "East of the Sun, West of the Moon". The band performed with such skill and precision that it was impossible to look away.

As the concert came to a close, the audience erupted into a frenzy of applause and cheers. It was obvious that the fans were thrilled with Blur's performance, and many of them could not wait for the next time they would have the opportunity to see them live. Overall, Blur's concert was a success, and it was clear that they are one of the most talented and respected bands in the world.

By Akky Twigs

Gladly! I love the classic Bittersweet novel. It brings a sense of nostalgia and tranquility, two emotions that are often associated with the literature of the past.

By Elizabeth Hock

Definitely! I think that reading is a great way to escape and immerse oneself in different worlds. It provides a sense of personal growth and development, and opens up new perspectives and ideas.

Left Medusa (Junior Megan Cramer) is shown ready to do battle with a variety of gods for help. Above: The chorus members turn to their audience for help.

Innovation updates Medea's classic story

Anthony Ashton Players combine talents for emotional, climactic show

By Lydia Mershack Kit

Standing at a rock ‘podium’ at one end of the Ring, Medea (jr. Megan Cramer) is kissed by her husband, Jason (jr. Carter Hampe). The two are soon separated, however, as Medea harvests her grief over the loss of her children. Medea begins to perform a series of rituals, each more intense than the last, as she attempts to make sense of the tragedy that has befallen her. The rituals culminate in a moment of intense release, as Medea transforms into a grotesque creature. The audience is left with a sense of both horror and sympathy, as they witness Medea's descent into madness.

The new dimension of the Chorus added by Schoenheit is one of the most striking aspects of the performance. The Chorus members are transformed into a variety of gods, each with unique powers and motivations. This adds a layer of complexity to the story, as the reader is forced to consider the motivations and actions of each god. The Chorus members also serve as a means of connecting the audience to the story, as they interact with the characters and provide commentary on the events unfolding on stage.

The performance is accompanied by music composed by Dumas. The music is haunting and evocative, perfectly capturing the mood of the story. The performers all bring a high level of skill and dedication to their roles, bringing the characters to life in a way that is both entertaining and thought-provoking. Overall, this is a performance that should not be missed, as it is a brilliant updating of one of the greatest plays in world literature.

Bittersweet novel looks at life after tragedy

By Adyck Twigs

Fans of emotional novels need not fret, this is not the book for you. Anyone looking for a light-hearted read might want to consider another book. However, if you are looking for a book that will challenge your emotions and make you think, then this is the book for you.

The novel is set in the early 1900s, a time of great change and turmoil. The main character is a young woman named Epiphany. Epiphany is a complex character, struggling to come to terms with her grief over the loss of her beloved husband and children. She must also confront the reality of her life after the death of her loved ones.

The novel is full of twists and turns, and the reader is kept guessing until the very end. The writing is descriptive and vivid, bringing the characters and setting to life in a way that is both engaging and satisfying. Overall, this is a book that will make you think, and challenge your understanding of life and death.
The Magic City is an odyssey of 14 songs, most of which are involved and not just three minute pieces of recycled vocals. It is a sound that is unique to today’s music scene. Floating all along is The City’s fantastic voice.

The history of the family whose tobacco empire built the university

By Paula Becker

Contributing Reporter

As many modern students, the curiosity surrounding rich history, due in no small part to the influence of the Richard J. Reynolds family and the university it created, is keen. The opportunity to make it to the school throughout the years. One of the most beautiful examples of the beneficence of the Reynolds family is the Reynolda House. Students and community members alike enjoy Reynolds House, located at the heart of downtown Winston, North Carolina. It is a beacon of cultural discovery as well as a home filled with nostalgia.

The Reynolds family, including tobacco magnate and philanthropist R.J. Reynolds, began building its home after buying a property and selecting a location on what was then the near town of Winston, North Carolina.

Gardens planted first seedlings in the magnificent Reynolda Garden in 1912, before the construction of the house had begun. Divided into several parts, containing community gardens, a greenhouse, a farm, a formal English-style garden, and various groves, the gardens were a unique and rare part of the Reynolds' settlement and remains an integral part of the town today.

The manor house, begun in 1913 and completed in 1915, has more than sixty rooms, the exact size and form of it is uncertain. The Reynolds family were of the belief that they would live in a home filled with nostalgia and filled with memories. It is for this reason that the house was built with a variety of materials and in a style that would remain consistent with the times.

As construction of the manor progressed, a small group of workers camped out on the spacious lawn while they watched their home take shape. Later, the group was to be joined by workers who would tailgate on the lawn and admire the sprawling manor and stroll through the magnificent gardens.

By Dominic Erdolain

Contributing Reporter

The name R. J. Reynolds is pretty much a household name in North Carolina and in much of the country. R. J. tobacco is a known supporter of couldn't organizations, especially schools and libraries. In Winston-Salem and many other areas of this state. But do many people know the origin of the tobacco magnate, R. J. Reynolds? The answer is no. Even the people of Winston-Salem, North Carolina, where he lived and died, didn't know much about him. It wasn't until after his death that the world learned about the work he did and the money he gave to the people of the state.

The Reynolds family was one of the most beautiful examples of the beneficence of the Reynolds family. The family had a profound impact on the town with a population of about 400. In the nearby town, they operated the estate as a cannery during World War I, producing enough food to feed the entire military camps.

During the 1950s the Reynolds family continued to supplement their annual gift with various endowments. In 1959, the Z. Smith Reynolds Library Rare Books Department was established to house the collection of rare books, maps, and manuscripts. The library was named in honor of the Reynolds family.
