Packard To Survey Modern Life In U.S.

Vance Packard, a well-known writer and observer in the field of consumer behavior, will visit campus during May as part of his nation-wide survey of modern life in the United States. Packard is the author of several books, including "The Status Seekers," "The Hidden Persuaders," and "The Pyramid Child.

The survey will be conducted by Packard, who will be assisted by a team of researchers. The goal of the survey is to understand the complexities of modern life and to identify trends in consumer behavior.

Sigman Chi's OP Query Leads Frats

Sigman Chi fraternity was recently placed on probation by the national office due to poor academic performance. The fraternity had a 2.5 average GPA over the past year, which is below the national average of 2.7. The probation will last for one year, during which time the fraternity must improve its academic performance.

Go'ette Links Man, Reality

B. J. Blackall, a member of the psychology department, recently gave a talk on the relationship between human behavior and scientific methodology. He discussed the importance of understanding the scientific method in order to properly analyze human behavior.

Tate: Papers Distorted Remarks On Negroes

W. A. Tate, a professor of history, has written a paper on the distortion of historical events related to African Americans. Tate argues that there is a need for more accurate representations of African American history in textbooks and other educational materials.

Rules' Purposes Evaluated

Dean's Starling Give Their Impressions

Dean's Starling, a prominent figure in the College community, recently gave a talk on the purposes of the student rules and regulations. He emphasized the importance of maintaining a safe and respectful environment for all students.

Elections Committee Okays Plan For Closed Primaries

The Elections Committee has approved the plan for a closed primary election for the College's board of trustees. This will ensure that only students who are registered voters will be able to participate in the election.

Council Considers Trustee Proposal

The College Council will discuss a proposal for the creation of a new position on the board of trustees. This position would be filled by an individual who is not a member of the College faculty or administration.

CU Amendments OK'd In Student Body Vote

The Student Body has approved amendments to the College's constitution and Bylaws. These amendments will allow for the election of more student representatives to the board of trustees.

New Scheme To Be Used This Spring

The Student Council has approved a new scheme for the distribution of funds to student organizations. This scheme will ensure that more funds are available for student activities.

Deans, Starling Give Their Impressions

William A. Williams, a prominent figure in the College community, recently gave a talk on the purposes of the student rules and regulations. He emphasized the importance of maintaining a safe and respectful environment for all students.

Rule to A's

Gates, a well-known figure in the College community, recently gave a talk on the importance of maintaining a safe and respectful environment for all students.

Number 11
Rust Says Science, Theology Cooperate

Dr. Eric C. Rust, associate professor of Christian philosophy and Christian apologist at Wakefield, Episcopal Theological Seminary, Lebanon, Ky., explained to students and faculty that science and theology can be reconciled.

Rust visited Wake Forest as part of a tour of the southern states and brought up the question of God's existence in this scientific age. He termed man's reasoning must be for God through the ages. From the time of the ancient philosophers, when God was worshipped as a part of man and man took the place of God to fill in the gaps of his knowledge, gaps in his revelation of God to him, he said.

What is the alternative? Rust said man must become subject to his conscience, that of another man is not enough and man has an inherent knowledge of self-awareness. In being aware of himself, man is enabled to know his fellow men.

Even if this is an absolute statement, one man can only give God the credit to which he deserves without adding anything to his own.

Rust concluded by saying that God is the creator and the spirit can only be found in God and everywhere, since God has the means to the revelation of man.

Harpschidtsets Performance Here

Sylva Harkins, internationally recognized as the first lady of the harpsichord, will present a recital tonight in the final presentation of the Wake Forest Chamber Music Society's current season.

The concert will be at 8:00 in the auditorium of the Wake Forest School of Music.

How Do You Study In A Foreign Country?

Students Who’ve Done It Say It’s ‘Think the Language’

By LUTZ RINISLAND

At the present time there are relatively few foreigners among Wake Forest students, and those few are from very few countries, but that may not be the case for the future, as the university has embarked upon a program to bring the foreign student on campus for the first time.

Marianne Harrelson, write about her experiences while studying in England as a student at Wake Forest. She learned to speak English and to get along in this language is an important part of her curriculum.

I entered the German high school at the age of 16. The first foreign language required was English. I was required to study French. The classes were taught about five hours a week. For several years I struggled with grammar and basic vocabulary, still lacking the ability to converse beyond the most elementary of phrases.

After five years my parents almost completely abandoned the effort to teach me in English. It is not clear how to understand and read it. In 1937 and 1938 I practiced in English and German. To this day I am able to speak English fluently, at least, but I cannot bring to my lips a word of German. I can understand some English but it is very difficult to speak it.

I really couldn’t be too proud of my knowledge of English when I graduated in 1940. Of course, we learned the languages in the classical manner. The French classes were divided into two groups: the first taught the language and the second taught the literature.

There was a writer who took me to an English class in London and told me that the English language was spoken there.

In 1937 and 1938 I practiced in English and German. To this day I am able to speak English fluently, at least, but I cannot bring to my lips a word of German. I can understand some English but it is very difficult to speak it.

The German language is very much like English, but it is spoken in a different way.

**Will Students Benefit?**

The Student Legislature is considering yet another proposal that would determine the fate of Wake Forest. This time, the Board of Trustees has approved a proposal that they believe will benefit the students. The proposal is to increase the student fee for the upcoming academic year.

The Student Association of Wake Forest University (SAWFU) has expressed concerns about the increase. They argue that the fee increase will disproportionately affect students who are already facing financial difficulties.

The Board of Trustees, on the other hand, believes that the increase is necessary to support the university's financial needs. They argue that the increase is a reasonable and fair way to ensure that the university can continue to provide high-quality education.

The proposal is currently under consideration by the Student Senate. They are expected to vote on the proposal in the coming weeks.

**Primary News Little**

Who Is The GOP's Best?

BY ALBERT HUNNY

Last Thursday, the Republican Party of North Carolina held its annual spring meeting in the Coliseum, their choice for the North Carolina presidential primary. It was with a sense of awe that the meeting was held, as the candidates were expected to make their final push for votes.

The primary is set to take place on Tuesday, and the candidates are expected to make their final push for votes. They will be vying for the support of the party faithful, who will decide who will represent the GOP in the general election.

The candidates include Donald Trump, Marco Rubio, Ted Cruz, and Ben Carson. Each candidate has their own unique strengths and weaknesses, and the race is expected to be a close one.

As the candidates campaign, they will be了吧ing for the support of the party faithful. The primary is set to take place on Tuesday, and the candidates are expected to make their final push for votes. They will be vying for the support of the party faithful, who will decide who will represent the GOP in the general election.

**Deans Gives Views On Rules**

(Continued from page 1)

Deans are new under study by rules enforcement. Rules have been relaxed in the past to encourage new students. They have been relaxed so that the deans can be more lenient in enforcing rules.

The deans believe that the new rules are necessary to maintain discipline in the school. They argue that the old rules were too strict and that they prevented students from learning.

The new rules are designed to be more flexible and to allow students to learn from their mistakes. They are also designed to be more lenient in enforcing rules.

**Warmth Of ‘Fair Lady’ Saves Show**

**By JIM SHERZER**

The United States and the Soviet Union are both expected to participate in next year’s West Coast fair. This is a significant development, as the fair has traditionally been a showcase for new ideas and technologies.

The fair is expected to be a major event, with thousands of people expected to attend. It is a great opportunity for businesses to showcase their products and for the public to learn about new ideas.

N. C. Gubernatorial Hopeful Endorses Speaker Ban Bill

Alerting the controversial speaker ban bill has passed both the 1965 General Assembly and is expected to reach the Senate floor in the coming days, the Democratic Party is expected to make a decision on its next move. The Speaker, a key figure in the legislation, has been vocal in his support of the bill, arguing that it is necessary to maintain order and prevent disruptive behavior in the legislative process. Democratic leaders, however, have expressed reservations about the bill's impact on free speech and the ability of legislators to perform their duties effectively. The decision on how to proceed is likely to be a significant test of the party's commitment to principle over political expediency.

Lab Tryouts Set

A baseball team is in town and will hold tryouts for four to five open positions this week. The tryouts will be held in the baseball field at the highest level of the league.

Junior Lead With 115

John Smolich, 399 Named To Dean’s List

The list includes students who have been named to the Dean's List for the fall semester. The names are sorted alphabetically by last name and include the following categories: Freshman, Sophomore, Junior, and Senior. The list is followed by a table showing the number of students in each category.

Elections Plan Is Set

The student council is preparing for elections, which will be held on the designated date. The process will include nominating committees, debates, and a final vote. The student council is responsible for ensuring fair and transparent elections, and the results will determine the leadership for the upcoming year.

5 Attend Focus Conference

The focus conference will bring together students, faculty, and community members to discuss important issues and engage in meaningful dialogue. The event is expected to attract a diverse range of participants, and the organizers are looking forward to a productive and engaging day.

Food Preferences

The table below lists the preferences for food. The data is organized in a format that allows for easy comparison and analysis. The table includes the following categories: Item, Percentage, and Preferences. The data is presented in a clear and concise manner, making it easy to understand the preferences of the participants.
Last week the Register's Office released the Fall 1963 fraternity averages. The average grades in a fraternity are not necessarily the same as the All-Men's Average. The All-Men's Average is the average grade of all students enrolled at the University, as a whole, regardless of fraternity membership. Therefore, the fraternity averages alone do not tell the whole story.

The question becomes: is this the only way to measure the performance of a fraternity? In order to answer this question, we must first consider the purpose of a fraternity. The primary purpose of a fraternity is to provide a social atmosphere for its members. Grade averages cannot be used as an accurate measure of fraternity performance because they do not take into account the social aspect of fraternity life.

The All-Men's Average is not necessarily higher than the fraternity average. In fact, the All-Men's Average may be lower than the fraternity average in some cases. This is because fraternities have a specific clientele that may not be representative of the entire student body.

There are other factors that contribute to the success of a fraternity. These factors include the following:

1. The number of members in the fraternity
2. The quality of the members
3. The fraternity's involvement in campus activities
4. The fraternity's performance in Greek Week activities

In conclusion, the fraternity average is not a measure of the fraternity's performance. The All-Men's Average is a better indicator of the overall performance of the student body. Therefore, grade averages alone should not be used to determine the success of a fraternity.

The Register's Office has released the following list of fraternity course averages for Fall 1963:

**Fraternity Course Averages**

<table>
<thead>
<tr>
<th>Fraternity</th>
<th>Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alpha Xi Delta</td>
<td>3.0</td>
</tr>
<tr>
<td>Chi Omega</td>
<td>3.2</td>
</tr>
<tr>
<td>Gamma Sigma</td>
<td>3.1</td>
</tr>
<tr>
<td>Lambda Chi Alpha</td>
<td>3.3</td>
</tr>
</tbody>
</table>

*Note: These averages are based on the grades of members who were eligible to participate in Greek Week activities.*

The Register's Office is working on releasing the fraternity averages for Spring 1964. These averages will provide a more accurate measure of fraternity performance and will allow for a more detailed analysis of fraternity performance.

The Register's Office is committed to providing accurate and informative data on fraternity performance. We encourage all students to use this data to make informed decisions about their involvement in fraternities.
Golfers Eye National Title

By KEITH HUTCHERSON

The ACC tournament held last week at Wake Forest was especially interesting to me as a student who has been closely watching the developments in the ACC. The tournament was held at Wake Forest, which has been a hotbed of golf activity for many years.

The tournament was won by Herb Totten of Duke, who shot a 274 for the weekend. Totten was followed closely by Bill Bonner of Carolina, who shot a 275. American Student, a team from the University of South Carolina, won the team title with a score of 555.

The ACC tournament is one of the biggest events of the year for golfers, and it draws some of the best players from all over the country. The ACC is known for its competitive spirit, and the tournament is always a great place to see some of the best golfers in action.

OG&B Selection

By BOB LIPPER

The selection process for the All-State team is a rigorous one. Only the best players are chosen, and the criteria for selection are very strict.

This year, the selection process was especially difficult. The list of eligible players was long, and the quality of players was exceptional. After much deliberation, the selection committee came up with the following list of players:

1. John Smith
2. Alice Johnson
3. Bob Williams
4. Jane Doe
5. Mark Brown

These players were chosen based on their skills, their performance in the regular season, and their potential for future success. The All-State team is a showcase of the best golfers in the state, and it is always a pleasure to see such talented players in action.

FOR YOUR CONSIDERATION

For those who are interested in golf, there are many opportunities to get involved in the sport. Whether you are a beginner or an experienced player, there is something for everyone. If you are looking for a new challenge, consider joining a local golf club or taking up the sport as a hobby. There are many resources available to help you improve your game, and the satisfaction of playing golf is well worth the effort. So, if you are a fan of golf, be sure to check out the selection process for the All-State team and explore the opportunities that are available to you.
Hurlers Are Freshmen's Strong Point

This year's freshmen baseball will be a little too young for the lineup. Four freshmen, including shortstop, catcher, and infielders, will make up the starting lineup. The freshmen have shown great promise and are expected to make a strong contribution to the team.

Cavaliers Will Be Deacons First Foe

Wake Forest coach Bill Bocock does not know what to expect when his Deacons travel to Lexington to take on the Virginia Cavaliers in the regular-season opener for both squads. The Deacons surprised Davidson 85-60 last season in the teams' only meeting.

Leighton Confident Netmen Will Do Well

Leighton College will be one of the biggest teams in the region. The team is looking forward to the season and expects to do well in the conference.
