The recent announcement that a coed–
single-sex residence halls, BBBSnook, Redworth Hall and Taylor House, will be coed next year came as a surprise to many students. The announcement came about after a coed–
single-sex residence halls, BBBSnook, Redworth Hall and Taylor House, will be coed next year came as a surprise to many students. The announcement came about after a national survey of students was conducted, indicating that a majority of students preferred coed residence halls.

Carson said that the decision of the housing process filled out by students every year during the fall has been deleted. The department asked for these evaluations every year during the fall and spring to accommodate all students participating in the lottery. The process is expected to continue in the fall.

According to Carson, several campus trends have emerged from this evaluation process over the past few years. The most important of these has been a request for more coed housing on South Campus, while another has been a request for more spaces for prospective students.

We have asked the department to respond to a number of issues raised in the program review and we will not make any decisions until we receive their reports.

SG conducts internal audit

By Emily Davis

Students Government will be undertaking an internal audit after an anonymous letter accuses it of misspending funds. The letter was sent to Ken Zick, the vice president for student affairs, and noted that the department has been given an opportunity to respond and we will not make any decisions until we receive their reports.

"As an auditor, I'm not in a position to be in a student's shoes," the majority of the faculty (anthropology) has, with reluctance, decided to suspend the admission of new students. Among the requests for additional resources is a new faculty member. The review committee is the possibility of further changes in the future, the majority of the department's self-study has been completed.

"I've thought of the options... that'd be the most drastic," Zick said. According to Carson, several campus trends have emerged from this evaluation process over the past few years. The most important of these has been a request for more coed housing on South Campus, while another has been a request for more spaces for prospective students.

Longtime religion professor to leave the university

By Brian Brockett

Ralph Woolf, Emory professor of religion and a longtime member of the faculty, will leave the university at the end of the semester to take a position at Vanderbilt University in Birmingham, Ala.

Woolf said his reasons for leaving the university are positive. "I have been given an opportunity to work in an environment in which the church and its members are understood to be liberating, liberating and encouraging, rather than constraining, and therefore to work in a place that can honor diversity and true pluralism because there is a community of which to measure all things," he said.

That means that by understanding what ultimately counts in the world is the world that has been changed through the Jesus and Jesus Christ you are open to all the possibilities of truth and community. It's an opportunity that is whole and welcoming all... because you know how to discern their times and their trials on one hand and to the final analysis to hope for their redemption. To work in a place that is very exciting and very freeing," Woolf said. "I have some 3,000 undergraduates and a total of 4,600 students. Wood said it is closely affiliated with the university and with the university's policy of increasing the percentage of coed housing.

**Columnist speaks on political issues**

By Eleni Finozzi

---

**BRIEFLY**

**Serve as student representative**

Applications are available for positions as President’s Aides. Aides will receive $2,500 cumulative GPA and be a member of the rising senior class in two terms. IMPORTANT: Applications are due on April 25, 2001. Selection is based on participation in university activities, leadership, academic performance, and campus involvement. Applications are due today.

**Students featured on television**

Wake Forest students who studied in Latin and Spanish in Spain last semester are a part of a television program that will be aired on PBS. The students will be shown at 8 p.m. Saturday on the USA Network. The broadcast is part of a larger project called “The Coming Century,” focusing on students studying in Spain.

**Rotary scholarships available**

Applications are now being accepted for the Rotary Arbuthnot Scholarship. Complete applications and supporting materials are due today. See Director of Financial Aid, Room 410, for more information.

**Field school spaces open**

Spaces are still available for the 1997 field school in Santorable, Italy. A meeting for interested students will be held at 4 p.m. today in NC 110 with Ms. Furrow of the Anthropology department.

**Free screening offered**

A free evening screening is sponsored by the University Counseling Center and will be held at 7 p.m. today in the Davidson Room of the Department of Archives.

**Museum exhibits bookend**

“Over and Under, Around and Through,” a book on the history of the museum, will be on view at the museum. A reception will follow. The exhibit opens until May 23 and is part of the museum’s celebration of the Year of the Arts.

**Summer grants to be awarded**

First time students will be awarded through the Summer Grant Program. The program will benefit students who complete internships in non-profit professional careers.

**Travel with City of Joy Scholars**

Applications for the City of Joy Scholars Program are now available in the Volunteer Service Center, Office 317. Twenty-two students are now participating. For more information, contact junior Todd Liu at Ext. 3902.

**Spring break in Venice**

Students interested in spring break in 1998 in Cusco, the university’s home in Vietnam, should check out the Venice study abroad program offered by the Department of History. The program will be open in 2001 as possible. For more information, contact junior Todd Liu at Ext. 3902.

**Presidential Aides**

The only solution is public campaign financing, Ivins said. Despite the brilliance of some of the subjects, Ivins also praised the entire program as having been a failure. “We need to have more fun—yes, my friends, more fun,” she said.

Despite the heaviness of burden of some of the subjects, Ivins also stressed the necessity of having fun in life. “We need to have more fun,” Ivins said.

**SG committees outline possible new proposals**

By Tim McGraw

---

Student Government Council members met for the second time this week to begin planning for the future. Now that the Judiciary Committee has drafted a bill on the issue of affirmative action repeal, Connerly’s proposal has gained traction in the university as well as a possible plus/minus grading system.

The committee is also planning three forums on varying issues in which students may participate. The first will be held Monday in Benson 317. The second forum will be held Tuesday in Benson 317 and the third forum will be held Wednesday in Benson 317.

Thomas leads committee in campus review

By CHARLES STARK

Thomas said the deans who are leading the work of the faculty to determine what the curriculum should be for the future are of great concern to the university president. "We're doing an extensive self-study process, and we're asking the faculty to consider what we should be doing and what we should be preparing students for in terms of the future," he said.

The self-study committee, which consists of members of the dean's faculty, is working to develop a curriculum that will meet the needs of students and be responsive to the changing demands of society. "We're trying to make sure that our curriculum is relevant to the needs of our students and meets the demands of the job market," said the dean.

An example of a gender-related issue within the department is the enrollment of female students in the graduate program. "We have had very few female students in the program, and we're trying to increase the number," said the dean.

Another challenge facing the department is the selection of department chairs. "We're working on developing a process for selecting department chairs that will ensure that we have the best possible candidates," said the dean.

Dorms

From Page A1

Furthermore, Carson said that the actual demand for single-sex housing is less than the 200 beds that the university has available. "We have a lot of empty rooms," she said. "We're trying to figure out what to do with them, but we're not really sure."
WASHINGTON — President Bill Clinton announced on Thursday that he will send U.S. envoy Dennis Ross to mediate an ongoing conflict between Israeli Prime Minister Benjamin Netanyahu and Palestinian Prime Minister Yasir Arafat. Palestinian protesters and Israeli troops clashed in Ramallah in Palestinian-controlled East Jerusalem. Twenty-five Palestinians were treated at a local hospital for injuries sustained in the clash.

Negotiations in the peace process have stalled over the settlement construction. Ross also mediated during last year’s outbreak of violence that claimed 450 lives.

LIMA, Peru — The standoff between leftist rebels and government forces at the Japanese ambassador’s residence in Lima, continues for the 100th day. Members of the Tupac Amaro Indians have occupied the residence since December 5 to demand that the rebel leader, Pedro Ruíz, be released from prison.

The rebels have been offered asylum in Cuba and the Dominican Republic, but the rebels to demand that the government has agreed to allow them to travel to these countries.

WASHINGTON — A panel of researchers announced that it will send 146 injections of a new treatment for Hepatitis C over the settlement construction. Ross also mediated during last year’s outbreak of violence that claimed 450 lives.

Hepatitis C is transmitted primarily through blood to blood contact or sexual intercourse. The panel has recommended that this treatment be expanded to 146 injections over a year, which is projected to kill the virus in five percent of patients.

Virtual university established

Students will earn degrees over 13 western states

By Mike D'Alfonso

SALT LAKE CITY — A virtual university called Western Governors University is debuting here today to attract some students believe those virtual programs will diminish the traditional college experience.

"I enjoy the interaction between students and teachers," said Tim Steward, a junior majoring in biology. "With a traditional college, you don't have that."

But students may be missing more.

"Professors can determine which teaching media to use, such as video, cues, exams and multimedia," said Steward. "But it's hard to have an academic discussion when you have to type your comments and then wait for a reply, said University of Utah senior Kelli Davis.

"I'd like to have a conversation with a computer," said Davis. "All the ones I've used so far are modeled after existing schools. A virtual classroom will simulate the professor's in-class teaching style, but students don't always have

Students without access to computers, monitors or notebooks will be able to go to a center and use the equipment they need. The credibility a degree a virtual university would have is under debate. Livingston said the Western Governors University will be harder to establish than they did not already have.

Western Governors University, which is modeled after existing schools. A virtual classroom will simulate the professor's in-class teaching style, but students don't always have

The university will open in mid-July. The school's first graduates will earn bachelor's degrees in business administration, computer science, mathematics, psychology, political science, social science, criminal justice and general studies.

"This is not going to be the end of traditional higher education," said Dr. Jeff Livingston, vice president for academic development at the university, which is modeled after existing schools. A virtual classroom will simulate the professor's in-class teaching style, but students don't always have

Mindfulness the key to happiness

A part of a small family did cause great distress in the spring, and many of their close friends were concerned. Many of them were worried about the well-being of the family. In order to address the concerns, I proposed a plan to work together to create a safe environment for the family.

According to Hanh, mindfulness is the foundation of a happy life. If you believe this, then you must ask yourself the question, “What creates ‘mindfulness’?”

According to Hanh, “mindfulness is the foundation of a happy life,” and if you believe this, then you must ask yourself the question, “What creates ‘mindfulness’?”

Joanna Flawa

Childhood lifestyle degenerates from twenty years past

Remember in high school, when you were looking forward to a night with the fishes, and you were drooling out the door to attend a basketball game in the city when your mother said, “Take your sisters with you?” Remember how your mother would say that — instead of suggesting that you go out with the gang? This is how it was for kids. They were told that the only thing they could do was to take steps to protect themselves. Today, if you were to ask my mother, “Why did the risk she never come back?” she would say that she was not taking the risk she might never come back.

I was in tears. The incident that befell the young children of today (boys too, but especially girls), is absolutely heartbreaking. I am convinced that if the little girl had known how to manage her money, beam her trust in the future, and be prudent in her spending, she would have been protected.

I never had a condom in school when I was old enough to understand what I was doing, and I never was afraid to venture outside my home at night — or even daylights — in fear of drug dealers, street thugs and other hardened criminals.

Tomika Anderson

Community activities account the media of finding on Jordan because she was thin and white. I believe we are taking the right steps to protect the children.

Joanna Flawa is the director of the renowned University Center.

Travel yields fresh perspective

Having never experienced international travel before, I was somewhat concerned about my subject matter and was compelled to make an attempt. I was especially looking at the Worrall House in London and as a part of the overseas program we were encouraged to travel on the weekends. Though I had the opportunity to travel to many different locations in Europe during my stay at the Worrall House, I chose to go on a tour of Scotland.

During my travels in Scotland, I was able to travel throughout the country and visit many different places. I visited many different pubs, restaurants, and hotels, jumping onto my plans to return there next weekend. But, now looking back on the weekend, it was anything but ordinary.

I left on the Worrall House Thursday night and headed to Glasgow. As the train moved, I thought of friends in places with whom I had become acquainted during my time at the University of Florida. I cannot say that I ever met anyone from Scotland.

I reaffirmed how little I knew about the world until now. This experience of meeting new people and being exposed to new cultures helped me realize how minor my world was.

The next day I traveled by bus to the Isle of Skye, a popular destination for many tourists. We visited many different locations in Skye, including the lighthouse at Rubh, the old town of Kyleakin, and the small village of Portree.

Since I was on a mission trip, and they were to do that, you'd be taking the risk she might never return. I have found that this is how it was for kids. They were told that the only thing they could do was to take steps to protect themselves.

To summarize, by practicing "mindfulness" and determining how we interact with each other, perhaps we can then become more connected with one another. By being present and enjoying the present moment, "the only moment there is," we can be more mindful of the people around us.

Final thoughts and insights are gathered from Thich Nhat Hanh's book, "Mindfulness, Peace and Love," as he explains the importance of transforming and learning (even in difficult situations) and the benefits of mindfulness as a way to transform our lives.

Mary Anne Anderson, University Center.
How much should you spend for her engagement ring?

$1,099.50 or $699/mo.

$299.50 or $139/mo.

Some people suggest spending two months’ salary. Our suggestion, spend what you can afford.

We have a wide selection of beautiful styles, from wedding bands to solitaires and more. Come in and apply for your own Window Jeweler card and receive a live gift with your approved application.

She’ll thank you for it for the rest of your lives.

Deacons suffer rough week, drop four out of five

By Zach Evenson

While the Wake Forest Invitational visited Radnor Kent State nosed a fall against North Carolina State in the ACC, and the Deacons performed exceptionally well on the order. In the tournament, the Deacons brought home the title with a score of 15.2. The team performance included a career-high 56.7 from November 30th, 2003.

The Deacons, who took part in the tournament, performed exceptionally well on the order. In the tournament, the Deacons brought home the title with a score of 15.2. The team performance included a career-high 56.7 from November 30th, 2003.

Women’s tennis splits against a pair of in-state rivals

The Demon Deacons’ women’s tennis squad continued their recent success with a pair of one-sided victories this past weekend. Wake Forest improved their ACC record to 2-0 with a pair of wins against No. 52 Georgia and No. 48 N.C. State.

The Deacons were on the road for both matches. The first, against Georgia, was held Monday in Athens, Georgia.

Head Coach Richard STOCKTON

“There was no question about the results of this weekend’s matches. Our team is playing very well and competing at a high level.”

Burn Debris Disaster Free

Smoky is counting on you to follow the rules for safety burning debris.
1. Check local laws on burning.
2. Don't burn on dry windy days.
3. Clear a 30-foot circle around debris before lighting fire.
4. Keep shovel, rake and water nearby.
5. Don't leave fire unattended by an adult, even for a minute.
6. Consider alternatives to burning: composting, recycling, or hauling to a landfill.

REMEMBER, ONLY YOU CAN PREVENT FOREST FIRES.
For most students, the administrators who work in Reynolds Hall are little more than a name or a face. We hardly know what their jobs exactly are, much less what their interests, talents, and likes and dislikes are. Surveys were sent out to a sampling of administrators, and compiled here are some of their most intriguing responses, quoted directly. As you will see, our administrators are by no means boring. Take so moment to get to know them.

John P. Anderson
Vice president of finance and administration

Favorite television show or book as a child: My favorite book was The Jungle Book by Rudyard Kipling. I even liked the movie they made around it.

Most influential historical figure: Thomas Jefferson and Abraham Lincoln. William Davidow (my father) used to say this to me when I was growing up.

Most influential historical figure: Albert Schweitzer. I have always been influenced by his words and what he did for the rest of the world.

Favorite television show or book as a child: T.H. White's The Once and Future King. The descriptions of how animals taught the young Arthur lessons of life fascinated me.

Symposium focuses on “Arts in the Next Century”

Two symposiums were held Friday. In the morning, there was a discussion of "The Arts and Their Politics at the End of the Twentieth Century." President Thomas K. Hearn gave the welcome, and then the panel began with ideas on the subject of the public's role in the arts. The panel was composed of Bard College President Leonard B. Abramson, American Theatre editor Jan O'Quinn and Susan Latouche-Talbot, the director of the Smithsonian Center for Contemporary Art. The addresses and comments touched on the lack of legitimacy of art and commentary from the audience.

The last discussion dealt with new directions in art, Artist Center Kunst and Open Images Gallery/Opus. Dr. Richard Davis, an assistant professor of fine arts at Washington State University, comprised the panel.

The discussion was of the new and underappreciated arts getting prominence and success today. "I think it was a good opportunity for the art students to find out what is going on currently in the art world—we don't always get that in the classroom," said junior Julie Davis, who attended the symposium.

The second afternoon discussion hosted Susan Gregg from the St. Louis Repertory Theatre. "I think it was a good opportunity for the students to find out what is going on currently in the art world—we don't always get that in the classroom," said recent graduate by the way, who attended the symposium.

The second afternoon discussion hosted Susan Gregg from the St. Louis Repertory Theatre. "I think it was a good opportunity for the students to find out what is going on currently in the art world—we don't always get that in the classroom," said junior Julie Davis, who attended the symposium.

More events are planned for Saturday, including a discussion on "The Arts and Black Arts" and a three-day symposium sponsored by the Southeastern Center for Contemporary Art. The symposiums came the highlight of the weekend. Port Ritz Dove, Poet Laureate of the United States, read some of her work to a sold-out audience. Then, the audience was asked if this was the most popular portion of the event.

Two more events on Saturday afternoon included a discussion on "The Arts and Black Arts," and a final panel discussion on "Building the Art." The final panel discussion was held by Kaye Robinson and Art History Professor Lawrence Wheeler and Marty Markofsky of the Southeastern Center for Contemporary Art. These symposiums were followed by a wine and cheese affair for a full three days of culture and conversation.

Let's Face It

The Bosstones are back with more heavy ska

The Mighty Mighty Bosstones are back. With its latest release, Let's Face It, the Boston's well dressed, plaid-wearing phenomenon continues their winning tradition. Let's Face It is the finest offering yet from the eight gentlemen who make up the Bosstones. In many ways, this is the record the Bosstones have long awaited.

This release is the finest offering yet from the eight gentlemen who make up the Bosstones. In many ways, this is the record the Bosstones have long awaited. Let's Face It kicks off with the listener-friendly "Nazi Brigade," which features some of the worst that the band's lead singer Dicky Barrett has to offer. This song, along with the other five tracks on the CD, features the inspired metaphors of Kevin "Bunny" McTavish, as well as the machismo of James "Skinner" Morris. This is the Bosstones' most aggressive record to date. The band has taken the stance that the album is largely responsible for the fame and notoriety of Guthrie's music. As a final note, the Bosstones will bring their fun live show to the Newport Folk Festival this weekend. With its latest release, Let's Face It is the Bosstones' finest work to date. Let's Face It is the Bosstones' finest work to date. Let's Face It

Acclaimed poet Ritz Dove highlighted the weekend's symposium events. This included panel discussions and several art presentations including many community artists.

Johnathon expands on folk traditions in Woodsongs

Combination of adaptations, original songs and original songs gives album a refreshing sound

Johnathon is a folksinger. His latest release, WoodSongs: A Folksinger's Book, is a collection of original songs, adaptations of traditional songs and stories of other people's work. In the four songs to WoodSongs, Johnathon explores how to incorporate and include the music of the past into his own work. By these standards, Johnathon is led to a folksinger and a songwriter. At best, he does not sing deeply from the past, but actually interprets and combines elements of traditional music and his own music. As WoodSongs is different from what one might expect.

It is clear, it contains breathtaking, dynamic arrangements and powerful vocals that continue to grow and move forward. Johnathon, however, does an admirable job combining the various instruments to create a very rich and full sound.

WoodSongs: A Folksinger's Book

You won't find Michael Johnathon performing at Zippo's this summer as he has other engagements to listen to. Johnathon is a dedicated performer, singer and guitar player, and he is about to release a new album. The album includes songs, new songs, and old favorites. Not only his own songs, but Johnathon has also published a book of songs, commentary, and recipes.

Michael Johnathon uses traditional folk instruments such as the banjo, guitar and mandolin to create new sounds. The album includes duets, new songs, and old favorites. Not only his own songs, but Johnathon has also published a book of songs, commentary, and recipes.

L7 shows varying range of talent on latest album

By MATT HARRINGTON

L7 bassist Jennifer Finch returned to college, leaving behind her rock band. This trip began more abruptly than any other and the mountains I had never intended to scale again. We didn't tell my mom afterwards about the height of twenty feet. The monolith lingered through various eras, but only one of its doors was finally removed. The cities' living things were desolate of winter. The car started the next morning, unexpectedly. The monolith's existence, however, is L7's best album to date. Go back to drinking. The pace of the song is quick, but the vocals are loud. This is a seasonal type of thing: the moonstone’s atmosphere, resonant noises by the dirt, dusty, warm air, preparing to step into the woods for a couple of days. There were a few snorts underneath. Talbot’s theme song is substantially different. The track was starting to take shape – they ought to have been as old as it was the other night they were walking.
