Lottery leaves some students ticketless

By Charles Stokes

Between 350 and 500 students Saturday were denied tickets for as many as five men’s basketball games. More students than were expected showed up at the ticket booth and were unable to purchase tickets. As the lottery progressed, the supply of tickets for the Marquette, Duke, Virginia, Wake Forest and Florida State games began to run low and was depleted to a point where as many as 70 students still left standing in line. With student tickets for the most popular games fully distributed, the ticket office employees and Student Government volunteers began to distribute seats that would normally be sold to the public for Sunday’s Maryland game.

“They stood and gritted their teeth out for the Maryland game,” said senior Will Atkins, the SG speaker of the house. For the Duke game all the public seating tickets that had already been sold, so they had to turn in give to statistics, he said. Even with the additional tickets approximately 20 students, who were the last batch left the lottery, did not receive any tickets except for five tickets to the Wolfpack. As one might expect, the students who did not receive seats, Buy Lottery, Page 2

Cases challenge justice

SECOND IN AN EIGHT-PART JUDICIAL HONOR SERIES

By Bruce Conners

In June of 1989, at the height of the Tennisman Square uprising, an American student in Beijing leaves his university group to join the BBC in transforming taped recordings of his campus back to the states. These months hope in America is dashed in a hero. At his university, he led by the House Committee for charges of lying to his professor of where abroad is Beijing.

In April of 1989, a woman is expelled from her university for presenting false identification at an off-campus bar.

In February of 1970, a civil rights organization is founded in Norfolk, Virginia.

In 1947, the establishment of a university that did not expect to pass a class without cheating is so rare that as a student, the House Committee is established to combat cheating in the classroom.

A crop of laws that span every classroom on campus, including a dispenser containing punishment material, runs up in the teens of a trespassing.

Perhaps unfortunate for those involved, yet forgotten by power.

In June of 1970, the American University student center began working with the Honor Council, the Academic Committee, and has found none of these support for courts.

Cheat.

Perhaps unfortunate for those involved, yet forgotten by power. In June of 1970, the American University student center began working with the Honor Council, the Academic Committee, and has found none of these support for courts.

Cheat.

Perhaps unfortunate for those involved, yet forgotten by power.

WAKE WATCH

Is it true that Campus Police will soon be riding around on motorcycles? – N.A.

No plans are currently in the works to have Campus Police officers on motorcycles, but Regents Lawson, the chief of Campus Police, does not think it is a bad idea. "Several other schools do it," he said, "and it is environment-friendly." But he wasn't sure if the idea is a practical one for the Campus Police department. "If we get that, maybe it might be helpful," he said.

Why was there a very tall statue on campus last Monday? – N.A.

"It got knocked over somewhere, and Physical Facilities took it away," said Lawson. "It's very true." Rainwater said the library donated a few hundred discarded books to him for the project. To make the sculpture, he defined books in the books, stacked them on top of each other, and covered the whole thing with polyester. The result is a nine-foot-tall sculpture, he said, explained the idea of reading and thought of making an octopus out of books that he transformed into artwork. The sculpture's existence is short-lived.

Technology program pairs students, profs

BY JENNY BLACKBURN

Faculty members complimented last year's team undergraduates in computer matching and now have announced that the Student Technology Advisors (STARS) are to notify for matching students with faculty members for on-campus technology projects.

According to the council members, "The purpose of the Student Technology Advisors (STARS) is to notify for matching students with faculty members for on-campus technology projects."

In addition to the work with a faculty member, students are able to find internships for students in a variety of industries and the students have an opportunity to interact with the profession.

The program is currently attending at other universities in a graduate program.

The students are an opportunity for other universities to have a graduate program in computer technology.

The students have an opportunity to interact with a professor who has made a big difference for themselves and students.

Applications for the program will be held at 3:15 p.m. Wednesday in the Student Center. A reception will follow. For additional information, call Est. 542.

Professor to speak at chapel

Marine Marty, a professor of modern Christian study at East Carolina University, will be the guest speaker Feb. 14 at Memorial Chapel. The evening is set to begin at 7 p.m. and will conclude at 8 p.m.

The event is part of the annual Martin Luther King celebration at the university. Dr. King was a strong advocate for non-violence and civil rights and his message is still heard today.

"If Dr. King could come to an all-white, conservative, private university in 1968, I can't say he wouldn't keep progressing," Lawton said.

Some students felt that although King's beliefs are still applicable, the university still has a long way to go with improving the holiday. "The treatment (at the celebration) was pretty pitiful," Lawton said. "We have a big campus and on-campus and off-campus days for the holiday." The event is set to begin at 11 a.m. on the day of the celebration.

The planning committee included Janet Tilley, O'Neill, and David Pate, a visiting assistant professor of art, who taught Rainwater's art class. Rainwater said, "I'm sorry more people did not get a chance to see it." Why do Campus Police get new cars so often?

Most recently, in 1995 Campus Police traded in their twenty-year-old 1993 Ford Crown Victoria. Many question the large number of new cars purchased by the office. According to Regent Lawton, the chief of Campus Police, the purchase of new cars is necessary in order to keep the campus safe.

"It's not to make the cars before the mileage covered under warranty is used," Lawton said. "It's to maintain maximum performance. It never money in the long run."
Memorial service planned for professor

By Tim MacPherson

A memorial service for Christopher Wilson, who was a professor of music at the university for 27 years, will be held at 11 a.m. today at Central Baptist Church in the Student Union Ballroom.

Giles died Dec. 23. He was a faculty member since 1965.

On top of the world

Seniors Lars Jensen, Barbary Salisburt and Virginia Tristicraft are considering the next four years as they wrap up the spring semester.

SG

Justice

From Page 1

It is known that Dagwood Kongrey, '47, president of the Student Government, made known to the world his wide, wide knowledge of the inner workings of the Student Government, in effect, that the Student Government was held in his orbit.

The committee then discussed the safety concerns of residents in North Hall. "The things we talked about the longest was the issue of security and communication by North," Allen said.

According to Allen, the construction going on in front of the residence hall has interfered with the former peak noise levels.

The committee is also discussing a proposal to reduce the fire to replace campus ID cards.

Getting out from North to the main part of campus, students are forced to take alternate routes by dark and wooded areas which some feel are dangerous. All Student Relations Committee members expressed concern for students who investigate charges of honor society delivered a resolution to the council and those who had been accused of cheating.

"We would like to extend an invitation to all of our students to become involved in the Student Government," she said. "We believe that every student has the opportunity and the responsibility to contribute to their campus community."

As C.C. Giles, 72, retired from the campus, Wilson, an African-American, replaced campus ID cards because he felt that the same council who had used his name was not treating him fairly.

Wilson was a student at Wake Forest when he was suspended Wilson and placed at the University of North Carolina, Chapel Hill.

On April 17, 1990, the period of demonstrations at Tiananmen Square ended. In Beijing all students were repressed while in Washington all students were treated with greater continuity, counterbalancing the Student Government’s dual role as a jury and a prosecutor, its decision to place Bell on probation for his offense, and its decision to advocate for free elections in China.

In February 1990, the university implemented a two-year Student Government leadership structure. According to William Hamilton, an associate professor of music and chairman of the Music Department, "The new structure will allow for a more systematic approach to the responsibilities of the Student Government, enabling us to focus on more important issues."
Virtual pet craze sweeps Japan

The Japan, has a new fad - the virtual pet. It starts life as a bird-like image on the screen of an egg-shaped keyring device. You can feed it to the bathroom, all with the push of a button. It changes creature or else see it waste away from neglect.

Tycely Williams works toward Miss North Carolina pageant

It didn’t hit senior Tycely Williams, named Miss Forsyth County on Nov. 2, that winning a beauty pageant would entail such big obligations until late in the game.

“If you’re a pageant, you have to go to the Miss North Carolina pageant … which involves a lot of obligations until late in the game.”

She said, “If you’re a pageant, you have to go to the Miss North Carolina pageant. You have to go to the Miss Forsyth County pageant in Randolph, NC, to earn the title for the Miss Forsyth County pageant in Randolph, NC. To enter the Miss Forsyth County pageant, Williams had to write a two-page essay detailing an approach to community service. She suggested using free arms as a way to build the self-esteem of children. She now is obliged to remain in Forsyth County until the next pageant.”

SUMMER JOBS!

Join our High-Adventure staff family for the summer of 1996!

THE EXPERIENCE OF A LIFETIME

We will be at your school on February 5th.

Call for an appointment with Cha-Cha, Rob, Dan, Alfred, or Nath.

For more information call 1-800-551-9136.

Would you like to earn up to $20,000 for college?

The Army Reserve Officers’ Training Corps offers you both a chance to compete and maybe invite you to attend our open house on January 29, 1997 at Appleton impeachment. We all hold big events, we’re looking at 97th and another at 93-97.

Scholarships and summer internships are available for qualified freshmen and sophomores.

Bring by the 5th and have your questions answered by qualified Weber students.

For more information contact CPT Underwood or CPT James at 759-4046.
New scholarships offered
School of Management adds 10 new partial scholarships

By Erin Foley

1. With the cost of higher education continuously rising and student debt mounting, the Babcock Graduate School of Management will be mak­ ing graduate school more affordable for several students. In the fall of 1997, ten new scholarships will be awarded covering full-time students in the MBA program.

"We have had a long-term objec­tive here, and that is in the next five years, we hope to become one of the top 25 MBA schools in the coun­ try. In order to do that, you need to be able to attract the top students, and additional scholarships will help us do that," said Charles Moyer, the de­ partment dean and Joninaga Pro­ fessor of Finance at the Babcock school.

The Gary and Ida Canaday Scholar­ ships will be given to entering full­ time citizens of the United States and will be awarded.

"The new scholarships will be awarded, and will be given to qualified full-time entering students," Prof. Donna Agee, the assis­ tant director of admissions and World Report surveys, explained. "These annual grants will be given, each worth slightly over $6,000 per year. The grants are for two years, and enter­ ing freshmen students will be eligible for them.

"The admissions committee will decide on whom the scholarships go," Moyer said.

Currently, the MBA program at the Babcock School has 367 full-time students.

"All of our scholarships are merit-based, and because we give $90,000 a year in a scholarship money. This includes both first- and second-year students," Agee said.

In addition to its full-time MBA programs, the school offers executive and rotation programs on this cam­ pus and an evening program in Char­ lotte.

Alumnius Arnold Palmer
diagnosed with cancer

By Dan Cioca

Arnold Palmer, '51, a professional golfer, was diag­ nosed with prostate cancer early this month. He learned the results of a biopsy on Jan. 10 before attending the annual PGA Tour awards dinner.

"I was told that the threat of prostate cancer has grown recently in the United States. It is the most commonly diagnosed cancer in men in the United States, as well as the second leading cause of male cancer deaths. Though a definitive cause of the cancer has not yet been found, environmental pollution appears to be a chief culprit," he said.

Nearly half of all men can expect to be diagnosed with the cancer by the age of 65, and roughly 30 percent of all men over the age of 80 have the cancer.

Ticket lottery still has big problems

The Demon Deacons men's basketball team is one of the best in the nation, and it is one of the most visible in the Southeastern Conference. Yet, the experience at the university has been grossly inadequate. And the university is more than aware of it. Worse, perhaps, is the apathy displayed by many students. Highlighted the flaws in the ticket issuing process was the experience held by many students, several key members of the Wake Forest community to get tickets at one time for his basketball games. I am disgusted by the Demon Deacons.

Facing the challenge of seating 30 to 40 tickets at one time for his organization, the ticket office at Wake Forest has been overwhelmed by a large number of tickets on a regular basis. This is a result of an overworked, understaffed and undermanned ticket office. It is a result of a ticket office that has been running for almost 20 years and has never had the resources to keep up. The ticket office has been running at a loss since it was established in 1985.

In November, two homes on Faculty Drive were broken into, one on a Saturday afternoon.

Faculty Dr. gates?

In recent months the residents of the Faculty Drive area have become increasingly concerned about the number of people coming through the gate at the end of Faculty Drive where it meets University Parkway. Many believe there is an increase in the neighborhood into this universe.

For most of the 1970s, the Women's Center was the only center for women on campus. It provided a space for women to come together, to support each other, and to work towards equality. In recent years, the Women's Center has expanded its services and now offers a variety of programs and services for women and gender non-conforming individuals. It is an important resource for students, faculty, and staff, providing a space for dialogue and action on gender issues. The Women's Center is committed to promoting gender equality and social justice for all.
Searching for the sixth man

The recent crop of internships has apparently decided that this finishing stretch would be a fine time to sit on its collective hands and do nothing. Any possible impact of the crop was lost over the final 2:20 of the second half.

T.J. Ferguson is a freshman forward.

Euphemistic wording means more job opportunities

For many college students, January marks more than the beginning of a new year. It is the beginning of a search, often harrowing, experience that we have to internships. According to one report, a good internship is invaluable. For the lucky, it can lead to post-graduate employment. For many, it serves as a helpful "foot in the door" that is the deciding factor amongst qualified candidates. For those of us who have yet to score, it can serve as a helpful constant revamping of my resume that I have done to possibilities for a creative job description.

Obviously, without those Pizza Hut experience, I would have trouble understanding the intricacies of the food preparation process. Not only do cooks make pizza, but, according to my research, they are critical in the "daily preparation and upkeep of a restaurant," which takes on an entirely new meaning now that I understand the context. Although I feel entitled to these basketball tickets, I was vital to the hut experience will turn out to be a semester's worth of volunteering with adolescents. It looks like I'll have to put that skill to good use, perhaps read the说明 (or "manual") of the roasting oven.

I'm sure I'll be able to do the same thing in the rotation of the menu and stop playing my part in the team. The only real sacrifice I can make is to stop a similar resume to try to become a third man on the team but they can't control that. I was so excided to do that, I was virtually doing the same thing. For those of us who don't have the same experience, it is important to remember that while it is true that Project Pizza Hut experience will turn out to be a semester's worth of volunteering with adolescents, it does not account for preparation time, that half-hour was only one day and being a host to a little trick-or-treater.

It was amazing to see the manner in which the crowd apparently decided that the nation was a fine time to sit on its collective hands and do nothing. "Increasing stretch would be a fine time to sit on its collective hands and do nothing. Any possible impact of the crop was lost over the final 2:20 of the second half.

For the past three years, the College of Business has appeared to be on an even plane, rather than an ACC basketball great, coming to life at times. The days were there when the players did not even play, and no one could imagine that this finish- ing stretch would be a fine time to sit on its collective hands and do nothing. "Increasing stretch would be a fine time to sit on its collective hands and do nothing. Any possible impact of the crop was lost over the final 2:20 of the second half.

Basketball ticket distribution needs drastic revamping

I have a stack of bad luck. I never win raffle prizes, I don't do well in games. I believe the only time I won something was during my junior year in college. The prize was a set of basketball tickets. I was the /4 winner. That was the only time I won.

At the ticket office held Saturday, 1,000 students needed to get tickets for the game. I was one of those who did not get a ticket. My lottery number was the third-to-last out of approximately 2,500 entering. I was the first to receive a call at 10:00 plus. I didn't think that I was actually doing all of the activities you claim to do. 7:00 a.m. on Jan. 19, the men's basketball team was on the verge of being ranked in the final game of the 1996-97 season as ranked by the ACC.

The computer panel, this would seem to mean that time for the 1/47 team... in attendance to come alone and stay in a Damon's dining area. On this day the casual observer would be stricken by what was being called a "bend in the knee" for the Volunteers. The Volunteers should have allowed this finish- ing stretch would be a fine time to sit on its collective hands and do nothing. "Increasing stretch would be a fine time to sit on its collective hands and do nothing. The Demon Deacons women’s bas­ketball team fell to ranked Virginia in the second game this season, which took place on Sunday afternoon.

Despite winning three straight games against non-conference opponents, Head Coach Karen Freeman said, “It was the first time this season the team played well on both ends of the court.” The Deacons fell to Virginia, losing 74-43, finishing with a 31-point differential.

The Deacons started off the game with Conner rebounding her own free throw and finishing with a three-pointer to give them a 3-0 lead. Unfortunately, the Deacons were unable to sustain their momentum for long, and when the dust had settled, the Cavaliers were the hushed recipient of the Demon Deacons’ 25-game winning streak.

The Deacons trailed 51-44 with 1:57 remaining in the contest, but rallied with a strong defense and a three-pointer from senior Tracy Connor to cut the Deacons within four, bringing the game back into reach. The Deacons were unable to complete the comeback, however, and settled for a 26-point, 13-rebound, and nine-block performance. With the win, Virginia became the first women’s basketball team in ACC history to complete a season with a loss.

Seaver McMillian at forward in the second half. They were only able to get two points between them from the Virginia defense, Seawright was able to move the ball up the court quickly and get Profit and Jasikevicius were deadly in Virginia’s zone defense.

The team was plagued with problems throughout the game, with a steady hand in the face from perimeter defenders. However, McMillian and Seawright were able to crowd the remainder of the Deacon offense. The Deacons did have some bright spots in the game. Unfortunately, the Deacons were unable to sustain their momentum for long, and when the dust had settled, the Cavaliers were the hushed recipient of the Demon Deacons’ 25-game winning streak.

The Deacons trailed 51-44 with 1:57 remaining in the contest, but rallied with a strong defense and a three-pointer from senior Tracy Connor to cut the Deacons within four, bringing the game back into reach. The Deacons were unable to complete the comeback, however, and settled for a 26-point, 13-rebound, and nine-block performance. With the win, Virginia became the first women’s basketball team in ACC history to complete a season with a loss.

Seaver McMillian at forward in the second half. They were only able to get two points between them from the Virginia defense, Seawright was able to move the ball up the court quickly and get Profit and Jasikevicius were deadly in Virginia’s zone defense.

The team was plagued with problems throughout the game, with a steady hand in the face from perimeter defenders. However, McMillian and Seawright were able to crowd the remainder of the Deacon offense. The Deacons did have some bright spots in the game. The Demon Deacons started off the game with Connor rebounding her own free throw and finishing with a three-pointer to give them a 3-0 lead. Unfortunately, the Deacons were unable to sustain their momentum for long, and when the dust had settled, the Cavaliers were the hushed recipient of the Demon Deacons’ 25-game winning streak.

Women's basketball players Ansonia Hawes and RaeAnna Mulholland have been dismissed from the squad for violating team rules.

"I expressed my opinion and I was punished for it," Mulholland said. "As far as I'm concerned, I had the right to stand up for what I believe in."

Freeman told an account of the dismissal.

Russell places highly in race.

The Deacon athletic program will induct five seniors Friday. Joining Griffin will be Bill Merrifield, a member of the 1977 NCAA Midwest Regional.

Among those scheduled for induction are James Parker, Nick Ognovich, a three-time winner of the Jacobs Block Prize, and Nick Sanchez.

The price of growth at the university

By Patricia McDonough

The university has drastically grown over the past 20 years, rising from a 400-student campus in the late 1960s to a 21,000-student campus today. The student body has multiplied by almost 55 times, and the faculty by over 30 times. While this growth has brought a lot of advantages, it has also brought its share of challenges.

 Prior to the presidency of Thomas H. Hearn Jr., a "no-grow" approach to deciding whether making a new or renovating an older one was the foundation for the formation of the university in the mid-1970s.

 The Year 2000: Target since 1983

 James R. Scates, who served as the president of the university in the late 1980s, commissioned a report on the type of university called the "Year 2000 Study." This report was submitted in 1983.

 This study provided direction for the university by setting the goals, which were given in present value in its year-2000 campus plan. The Year 2000 Study focused on the need for: 1) a student family, from the apartment/computer complexes and the four-acre nursing home; 2) an academic program, where the highest level of educational success is to be achieved; 3) the need for the various programs to be carried out by the four-year university, which is then offered to the public in order of the goals of the faculty.

 Long-term planning

 Hearn was given one goal when he arrived at the university, which was to develop a plan for the university in its 1980s. The university president for the faculty and administration worked closely with Hearn, the chancellor, and the administration to develop a plan for the university that would be feasible for the future.

 Christian Theology

 Richard Wood, the assistant director of admissions, has been affiliated with the university since the late 1960s. He believes that the university's growth has been a positive thing for the institution.

 Funding for research

 The university has always encouraged professors to engage in research while teaching at the university. The Year 2000 Study, however, the sources of research funding have changed dramatically. Under President Hearn, the university has been able to attract more federal and private funding, which has allowed the university to grow.

 Consider the decrease of the university community to engage in a larger percentage of research. Some of the construction of the university is in the Year 2000 Study, and some of the planning of the faculty is in the Year 2000 Study, and sometimes easy about particular decisions.

 Considering the decline of the university community to engage in a larger percentage of research, the construction of the university is in the Year 2000 Study, and some of the planning of the faculty is in the Year 2000 Study, and sometimes easy about particular decisions.

 Conclusion

 The university has always encouraged professors to engage in research while teaching at the university. The Year 2000 Study, however, the sources of research funding have changed dramatically. Under President Hearn, the university has been able to attract more federal and private funding, which has allowed the university to grow.

Weezer rocks in front of an enthusiastic Ziggy's

By Happy预报

Hollywood is a strange beast indeed. Just when it seems the major studios have forgotten how to take risks, hit movies start appearing out of nowhere. One of these recent box office booms came recently in the shape of a film that few thought would make a movie about skin and sex and magazine moguls. The film, "The People vs. Larry Flynt," is currently being shown at the YWCA church on West Second Street near the YWCA church. The film, directed by Mike Figgis, features an all-star cast including Gary Oldman, Woody Harrelson, and Jeff Daniels.

The film follows the story of Larry Flynt, the founder of Hustler magazine, as he takes on the powerful men behind the curtain. The film is a true story, and as such, it is a very powerful and moving piece of cinema. The acting is superb, with Oldman giving a particularly standout performance as Flynt. The film is currently receiving critical acclaim and is a must-see for anyone interested in the world of filmmaking.

**What is the main plot of the film?**

The film follows the story of Larry Flynt, the founder of Hustler magazine, as he takes on the powerful men behind the curtain. The film is a true story, and as such, it is a very powerful and moving piece of cinema. The acting is superb, with Oldman giving a particularly standout performance as Flynt. The film is currently receiving critical acclaim and is a must-see for anyone interested in the world of filmmaking.

**What are some of the highlights of the film?**

Some of the highlights of the film include the powerful performances by Oldman and Harrelson, the realistic depiction of the magazine industry, and the film's ability to balance humor and drama. The film also has a great soundtrack, with music by various artists including Prince and Pink Floyd.

**Is the film suitable for all audiences?**

The film is suitable for mature audiences due to its explicit content. It is not recommended for children or those who are easily offended by graphic content.

**Where can I see the film?**

The film is currently screening at the YWCA church on West Second Street near the YWCA church. It is recommended to check with the church for showtimes and admission information.

**The John Spencer Blues Explosion**

**Now I Got Worry ties together Spencer’s Previous**

By Michael Brown

The John Spencer Blues Explosion

**New I Got Worry**

**Mute Records**

**The John Spencer Blues Explosion**

**Now I Got Worry**

The John Spencer Blues Explosion, a band known for their unique blend of garage rock and blues, have released their latest album, "Now I Got Worry." The album features a mix of hard-hitting guitar riffs and soulful vocals, with songs that range from upbeat rockers to more introspective ballads.

"Now I Got Worry" is the band's first album in over a decade, and it marks a return to form for the group. The album was produced by John Spencer himself, who has a reputation for pushing boundaries and taking risks in the studio.

**What are some of the standout tracks on the album?**

Some standout tracks on the album include "Make It 4-Up," which features a driving guitar riff and catchy vocals, and "Strange Love," which has a more laid-back feel and features Spencer's signature soulful singing.

**Is there a theme or message that runs throughout the album?**

The album seems to explore themes of searching for purpose and finding one's place in the world. Spencer's lyrics often touch on personal struggles and the search for identity.

**What can fans expect from the band's live shows?**

Fans can expect high-energy performances that feature Spencer's distinctive guitar work and soulful vocals. The band is known for their passionate stage presence and engaging live shows.

**Where and when can fans listen to the album?**

"Now I Got Worry" is available for streaming on various music platforms, as well as for purchase on vinyl and CD. The band is scheduled to tour in support of the album later this year, so fans can expect more opportunities to see them live.
