The Wake Forest Student for April, which will be our last issue of the year, has been completed under the able direction of William D. Moore. The Wake Forest Student was started in the interest of the students for the purpose of providing an organ for all of Wake Forest College to express their ideas and opinions and to discuss the current events of the day. In the past, the Wake Forest Student has been the main organ of the college and has served as a means of communication between the students and the faculty. It has been a valuable resource for the students and has helped to shape the character of the college.

More than 60 percent of the mechanical power used by American industry is applied through electric motors. But the electrification of home and office equipment has hardly begun. Electric power not only saves dollars; it conserves human energy for better purposes and raises standards of living. Colleges and universities, too, may well consider how electricity can lessen the burden of industry and of farm and home life.

These moderns demand Camels

MODERN smokers are the most critical ever known, and Camel is their favorite. Why? Camel is the cigarette that will add all the flavor into the night as you care to go.
