OKD Selects Eight Men To Membership

Leadership Fraternity Names Seven Seniors to Stewardship Council

By CHARLES BASHAM

Right men were named to mem-
bership in Century C. Mason, Phi,
Phi, Alpha Xi, and Sigma Phi Mu. The
Clemson Herald, in a special edition,
during the Wednesday evening, ap-
plied the name of M. H. K. H. and
the name of the Sigma Phi Mu press,
name of the Sigma Phi Mu press,
a thing to be undertaken.

New members are Mark Derl, Har-
ry, Sigma Phi Mu, and Robert L. Fis-
ner, Sigma Phi Mu. The members of
senior at the Sigma Phi Mu press,
the Sigma Phi Mu press, has been
offered to the Sigma Phi Mu press,
the Sigma Phi Mu press, and has
taken place of the Sigma Phi Mu press,

Ervin Hears Most Docket Here Tuesday

Wake Supreme Court Favors Appellant In Most Court

SACRAMENTO. Calif. (AP) — The Supreme Court of the United States will hear arguments in a civil suit involving the constitutionality of the United States assault weapon ban on Tuesday.

The court has agreed to hear arguments in the case, which was filed by the National Rifle Association and the National Memoɣtal Association.

The case, United States v. McFarland, was filed by the plaintiffs, who argue that the ban violates the Second Amendment's guarantee of the right to bear arms.

The federal government, represented by the Justice Department, argues that the ban is necessary to protect public safety.

The case will be heard by a panel of seven justices, including Chief Justice John Roberts and Associate Justices Samuel Alito, Elena Kagan, Neil Gorsuch, Brett Kavanaugh, and Amy Coney Barrett.

The court will hear oral arguments on Tuesday at 10 a.m. Pacific Time. The case is expected to last for about two hours.

Proponents of the ban argue that it is necessary to prevent gun violence and keep schools and other public places safe.

Opponents of the ban contend that it infringes on individuals' rights to bear arms and violates the Second Amendment.

The court's decision in this case will likely have significant implications for gun control policies across the country.
The 580 Spot

By BERTI HOLLAND

To help start the week off right, the WOF radio program \("Out and About\"") was scheduled for every Monday night. Here is their schedule for December.

MONDAY - December 1

11:00 pm: \("Our First Christmas\"") presented by the Wake Forest College Orchestra, directed by Dr. November Y. Meador, will be broadcast. The program will include selections from the Christmas repertoire.

TUESDAY - December 2

11:00 pm: \("Proudly Serving Our Country\"") will be broadcast. This is a special program dedicated to our military personnel. The program will feature patriotic music and interviews with active service members.

WEDNESDAY - December 3

11:00 pm: \("Christmas in Paradise\"") will be broadcast. This program will feature music and stories from the tropics, celebrating the spirit of the holidays in a warm and sunny climate.

THURSDAY - December 4

11:00 pm: \("Join Forces for Christmas\"") will be broadcast. This program will feature music and stories from countries around the world, celebrating the universal spirit of the holidays.

FRIDAY - December 5

11:00 pm: \("Christmas in the City\"") will be broadcast. This program will feature music and stories from cities around the world, celebrating the spirit of the holidays in a bustling urban setting.

SATURDAY - December 6

11:00 pm: \("Christmas in the Mountains\"") will be broadcast. This program will feature music and stories from mountainous regions, celebrating the spirit of the holidays in a serene and picturesque setting.

SUNDAY - December 7

11:00 pm: \("Christmas in the Woods\"") will be broadcast. This program will feature music and stories from forested areas, celebrating the spirit of the holidays in a peaceful and natural setting.

This week's programs are sure to provide a wonderful array of music and stories, celebrating the spirit of the holidays in a variety of settings. Don't miss out on this special holiday programming!
Mysterious Clock Seen In Wait

BY THOM MILLER

If you talk to a Wake Forest student who is trying to make his way through school on scholarship, a glance at the clock on his father's wall might have been the last thing he expected to see. But, for the last two weeks, that face has been the object of intense investigation and speculation.

The clock, which is a large, dark-colored, ornate piece of furniture, stands on the wall of the Student Center. It is said to have been purchased by one of the alumni in the early days of the college, and it has remained a focal point of the building ever since.

Several people have noticed something strange about the clock. They have reported that the hands move at an unusually rapid rate, and that the numbers on the face do not correspond to any known time.

The clock has been the subject of much discussion, and some students have even organized a search party to try to find out what is going on. Others have simply given up and continued on with their daily lives, content to let the mystery remain.

In any case, the clock will remain an enigma until someone can figure out what is going on. Until then, it will continue to be a source of wonder and curiosity for all who pass by.

Halloween Has Sacred Origin

If Pope Boniface IV could be blamed for the "hallowing aggrandizement" of All Hallows' Eve, the Christian feast of All Saints, it would probably not be that he ever brought a medal to such a basis, but in Scotland. According to tradition, the Scots are said to have celebrated All Hallows' Eve in a manner so festive and merry that the Pope ordered the feast to be suppressed. However, the custom of decorating the houses of the deceased with garlands and lights on All Hallows' Eve was still observed in Scotland.

"Zodia and the Moonshine" are the two best-known examples of Scotland's dedication to Halloween. In "Zodia and the Moonshine," the moon is personified as a woman who is often represented as a sorceress. "Moonshine" is a term used to describe the light of the moon, which is often associated with witchcraft and magic.

---

Festive Traditions

Halloween has been celebrated in various forms throughout history. Today, Halloween is marked by dressing up in costumes, trick-or-treating, and the exchange of Halloween cards. In Scotland, the tradition of decorating the houses of the deceased with garlands and lights on All Hallows' Eve is still observed. In England, the tradition of dressing up in costumes and going door-to-door to receive treats is still celebrated. In the United States, Halloween is marked by the exchange of Halloween cards and dressing up in costumes. This tradition is believed to have originated in Scotland.

---

Social Issues

Halloween is a time when communities come together to celebrate the traditions of the past. In recent years, there has been a growing concern about the commercialization of Halloween and the associated rise in violence and vandalism. In some areas, there have been efforts to address these issues by implementing safer and more inclusive Halloween activities, such as neighborhood block parties and parades.

---

Conclusion

Halloween is a time when communities come together to celebrate the traditions of the past. While there have been concerns about the commercialization of Halloween and the associated rise in violence and vandalism, there have been efforts to address these issues by implementing safer and more inclusive Halloween activities. Ultimately, Halloween is a time for families and communities to come together and enjoy the festivities of the season.
Wake Forest Has Slim Chance Of Winning Conference Crown

WAKE FOREST, N.C. — The Deacons’ mighty tough season was coming to a close tonight as one of the South Atlantic Conference’s pre-season favorites, the Big Eight, came to the Coliseum for the final game of the conference season.

The Deacons, who are currently in last place in the conference, have had a tough season despite the fact that they were one of the pre-season favorites. The team’s most recent game was against the University of Richmond, and it was a close one, with the Deacons winning 19-13.

The game was played in front of a sell-out crowd at the Coliseum, and it was a tense one, with both teams playing their hearts out. The Deacons, led by quarterback Larry Spencer, were able to hold off the Richmond Spiders for a hard-fought win.

Spencer, who is one of the conference’s top quarterbacks, had a great game, completing 16 of 30 passes for 243 yards and two touchdowns. He also rushed for 116 yards and a touchdown.

The Deacons now are definitely in the mix for the conference title, and they will have to play well in their last two games to have a chance of winning the conference.

The team’s next game is against Virginia Tech, and then they will play against Wake Forest in the final game of the season.

The Deacons need to win both games to have a chance of winning the conference. If they lose both games, they will be out of the running for the title.

However, if they win both games, they will be in the driver’s seat for the conference championship. They will need to win both games by a large margin to have a chance of winning the conference.

The Deacons have played well in their last few games, and they will need to continue to play well to have a chance of winning the conference.

The Deacons’ defense has been one of the best in the conference, and they will need to continue to play well if they want to have a chance of winning the conference.

The Deacons’ offense has been inconsistent, and they will need to find a way to score more points if they want to have a chance of winning the conference.

The Deacons’ schedule is tough, but they have a chance of winning the conference if they play well in their last two games.

The Deacons will need to win both games to have a chance of winning the conference. If they lose both games, they will be out of the running for the title.

The team will need to play well in their last two games to have a chance of winning the conference. They will need to score more points and play better defense to have a chance of winning the conference.

The Deacons have a tough schedule, but they have a chance of winning the conference if they play well in their last two games.

**Pikas And Ka's Pace Intramural Gridders**

The Pi Kay Alpha grid team and the Kappa Alpha Club are currently leading several contests in the intramural football league. While the team is strong enough to win the game as a pass from Norman, Kappa Alpha is at least a second place team in the league. The Pikas, with Bill Smith, have been midway there in the season, and the Kappas are currently second, with the Pikas ranked a bit higher in the standings.

Kappa Alpha grid team back to win the game on a pass. But the Pikas scored the final points of the game, to give them victory by a 13 to 8 score.

**Kissell Leads Deacon Passers; Scarton Scores Parading**

Quarterback Ed Kissell and halfback Guido Scarton are the current leaders in the Deacon passing and scoring departments. Kissell, according to the latest figures released today by the Wake Forest College Statistics Bureau, has thrown 40 passes, 8 of which were completed, for a total of 35 points. Bill Miller has scored three touchowns and Ed Botte has thrown three passes.

Individual scoring records show that Ralph Brown, Jim Ellis, and (Thru Sept) Ralph has scored the most points, with a total of 35 points. Bill Miller has scored three touchdowns and Ed Botte has thrown three passes. This was due to Coach Barrow's ability to make your appearance of any skill or talent in any facet of play.

**Better Bowl Classic**

To Be Played Again

The Better Bowl Classic, which opened in August and was played in the Cotton Bowl Classic, continues to be a popular event.

**Continuous From Page Six**

In 1939 the Better Bowl Classic in Chicago was a success, with 78,000 in attendance and 124 points scored.

**Kissell, Johnson's famous leader, has also scored 35 points, six of which came on six-inch point plays. Kissell has thrown 44 passes and the completed 34 of them, for a total of 40 points. Botte has thrown four touchdowns.

**Deacon**

Dedicated to playing against the opposition, they have been scheduled for the Wake Forest Athletic department which he represents in the school's athletic program. He is a member of the Alpha Sigma Chi fraternity, which he represents in the intramural football league. He is a member of the Alpha Sigma Chi fraternity, which he represents in the intramural football league.

Spanish Teachers Assembly
On Campus For State Meeting

Professor M. E. Delgado
President At American Conference

The North Carolina Chapter of American Teachers of Spanish and Portuguese was held in Winston-Salem and was attended by representatives from fifteen chapters throughout the United States.

Lawrence O. Johnson, president, reported on the recent meetings and then turned to the present meeting, which had the ratification of the by-laws as its first order of business.

The next order of business was the election of officers for the coming year, and the following were elected:

President: Marjorie Johnson; First Vice-President: Betty Isbel; Second Vice-President: Jerri Dean; Treasurer: Mrs. L. W. Pullen; Secretary: Mrs. H. E. Delgado.

The organization is the first of its kind formed in the state of North Carolina and is the result of the work of Miss Lois Johnson.

The meeting adjourned at 12:00 o'clock by the president.
