policy says most grades should be C

Deacons Down No. 2 Carolina, first win in Dean Dome

By Chris Graham

Deacons' big night includes sweep of Carolinas

The Deacons downed No. 2 Carolina, 76-74, last night at the Dean E. Smith Center, giving Wake Forest its first win in the Smith Center in the 10-year history of the ACC regular season tournament.

The Deacons' players were elated after the win, with a few saying they had been waiting for it all season. The Deacons have lost two games to the Tar Heels this season, and the win was important for Wake Forest.

Wake Forest was led by guard Lewis Taylor with 21 points, followed by center Eric Williams with 18 points and forward David Williams with 16 points.

North Carolina was led by guard Bobby Jones with 19 points and forward Tim Duncan with 15 points.

The Deacons' win was their first in the Smith Center in the ACC regular season tournament, and the team is now 1-2 in the tournament.

The Deacons took the lead early in the game and never relinquished it, finishing with a 76-74 win.

University to hire new treasurer, post vacant for more than a year

By Joe Daniels

The Board of Trustees has appointed a new treasurer for Wake Forest University.

The new treasurer, Dr. Joe Daniels, has been with Wake Forest University for 20 years and served as interim treasurer for the past year.

Daniels will be responsible for managing the university's financial resources and overseeing its fiscal operations.

The appointment follows the departure of the previous treasurer, Dr.kart Steve Barnwell, who was the university's treasurer for 16 years.

The search for a new treasurer began last year, with the university receiving over 700 applications from around the country.

The search committee, which included members of the Board of Trustees, the university's finance committee, and external experts, interviewed nearly 30 candidates.

Daniels said he is excited to take on the role and is looking forward to working with the administration and faculty to ensure the university's financial stability.

The appointment of Daniels was praised by the Board of Trustees, with many expressing confidence in his ability to lead the university into the future.
**Cow Bingo dumplng on Davis**

A Cow Bingo event on Davis Plaza will serve as a fundraiser for Project Reunion Research March 17, from 11 a.m. to 1 p.m. and will include music, a prize giveaway, dancing, and lots of fun! This year’s bingo will feature a new prize package that includes tickets to see a Broadway show, dinner and a hotel stay, a trip to Disney World, and much more! Tickets are on sale for $5 at the Student Center and the Student Union. This event is put on by Kappa Delta Rho, a student organization that provides scholarships for students. The proceeds from this event will go towards the goal of raising funds for Project Reunion Research.

**North Carolina area in the 18th and 19th century**

The North Carolina area was a vital part of the American Revolution and played a significant role in shaping the country. In the 18th and 19th century, it experienced rapid growth and development, both economically and socially. The area was home to many important figures who made significant contributions to the nation’s history. Today, the North Carolina area is a popular tourist destination, attracting millions of visitors each year with its beautiful landscapes, rich history, and diverse culture.

**Freshmen should contact Paul Orser, an assistant**

in the Bahamas May Rotarians. Call at 205-522-2200 for more information.

**Archaeological applications**

The department of anthropology accepts applications for a one-semester position as an assistant director of the Archaeological Stabilization Project, Athens, GA. The position will be available September 1, 1996. The deadline for applications is March 1, 1996. For more information, contact Dr. Jane Beckman at (706) 292-6566 or by email at Jbeckman@uga.edu.

**Legislature debates computer mandate**

The proposal for new laws to ensure computer access for students and faculty was debated in the North Carolina House of Representatives. The mandate would require all state colleges and universities to provide computer access to all students and faculty by the fall of 1997. The mandate was introduced by Representative John Smith, who argued that computer access is essential for academic success and economic competitiveness in today’s job market. The mandate would also require the establishment of a state computer network to connect all campuses.

**Veteran journalist named commencement speaker**

Tina Armony spent last summer studying in Japan with the University of North Carolina, where she learned about the culture and customs of the country. This year’s commencement speaker will be the University of North Carolina’s Tina Armony, who will address the graduating class on the importance of global understanding and cooperation. Armony is a veteran journalist with extensive experience covering international news, and she has reported from around the world, including Japan, China, and India.

**Pro Humanitate utilizes sizable volunteer response to begin house**

Rainy weather did not daunt the spirits of Project Reunion Research when they kicked off their 2016 fundraising campaign on March 17. Despite the challenges posed by the weather, the group was able to raise $20,000 in just a few hours. This volunteer response was key to the success of the campaign, as volunteers helped to spread the word and collect donations.

**Business**

The speaker for Spring Commencement will be Judy Woodford, CNN’s prime author and editor-in-chief. She is a renowned journalist and author, with a career spanning over 30 years. Woodford graduated from the University of North Carolina at Chapel Hill, where she received her Bachelor of Arts degree in journalism. She has been at CNN for over 20 years and is currently the executive vice president of news. She is a testament to the power of education and the dedication of our students. Woodford’s message will focus on the importance of education and the role of journalists in society.

The university is seeking to end racial disharmonies with the limited amount of money available and to encourage student-faculty cooperation by implementing the Teach-er-Scholar Fellowship Program. The program was proposed by the Pro- gram Planning Committee in their "Plan for the Class of 2000." The goal is to have a fair number of students, like those in the PSC, said the Teacher-Scholar FELLOWSHIP Program will prepare students to have achieved success during their Freshman a nd sophomore years in both work and on a social level. According to the program, the goal of the new mer- it-based scholarships is twofold. First, "while improving opportunities for prospective and admitted students, we will encourage them to continue their education," said the PSC report. Second, the Teacher-Scholar Program requires the creation of 150 scholas- ships, each granting a $2,000 stipend. Currently, the university offers only a meager amount of scholarships for students who are not given substantial in- coming funds, according to Thomas McKinnon, dean of the Faculty of Arts and Sciences. There, 1,500 schola- ships are available in competition for the 1,000 Freshman schola- ships. McKinnon said the Teacher-Scholar Program will attract 1,000 Freshman schola- ships. McKinnon added, "We are looking forward to the next year to see if the Teacher-Scholar Program will work as we expected."

Theresa Bell worked at the Policy Group on Race Education, Awareness and Response table as part of SafeBreak Wednesday afternoon.

Debaters anticipate top ranking

Brovero and Hughes expect to be named top team in nation

By JENNIFER FOSSER
News/Observer

Thursday will mark the first official day of the new season of debate, and Dusty Hughes and Karen Hughes are looking forward. The NCCU debate team, ranked 11th nationally, has earned the right to compete for the national title. Hughes and the team have been working hard all summer, and Hughes says they are looking forward to the new season. The team is ranked 11th in the country and has been working hard all summer to prepare for the upcoming season.

Some closings cut civilian jobs

WASHINGTON, D.C. — The Detroit News reported that 2,000 layoffs were expected at General Motors. The layoffs are expected to affect 2,000 workers at the company's plants in Michigan and Ohio. The layoffs are expected to affect about 600 workers at the company's plants in Michigan and Ohio. The layoffs are part of the company's efforts to reduce costs and improve efficiency. At those plants, about 600 workers are expected to lose their jobs.

Birth control pill study

Healthy, sexually active women, between the ages of 18-50, are needed to participate in a birth control pill research study. The study is a double-blind, placebo-controlled study. Participants must be available for five clinic visits. If qualified, participants will receive free experimental birth control pills, physical and gynecological exams and financial compensation up to $100.00.

DO YOU OR SOMEONE YOU
KNOW HAVE SOME OR ALL OF
THE FOLLOWING SYMPTOMS?
• Fever
• Muscle aches
• Headache
• Joint pain
If so, you may be eligible to participate in a research study evaluating the effectiveness of an investigational pain-relieving treatment in treating the flu. The study involves two visits and patients will be compensated up to $75.00 for their participation.

For more information please call Piedmont Research Associates at 910-768-8062 for more information.

Men rung through room

The man was arrested Sunday night by the Lake Bucket police in the Laker Bucket dance hall Feb. 21 at 11:45 p.m. The man, who was wearing a black jacket and black pants, was stopped by a security guard and asked to produce identification. When asked for his name, the man refused to cooperate and was arrested for obstructing justice.

Tennis racquet

A tennis racquet valued at $200 was taken from a tennis player at the tennis court Feb. 25. The racquet was taken from a locker in the men's locker room.

Student ID

A student's ID was taken from a kitchen area in Reynolds Gym Feb. 25. The ID was taken from a kitchen area in Reynolds Gym Feb. 25. The ID was subsequently referred to Harold Holmes, the director of student services.

Student lounge

A university-owned microwave worth $775, had been missing since Feb. 18 and was found two weeks later in the student lounge.

Don't be a chicken. Try it!

Not only do we have over 100 fresh toppings, we also have pecan pie, over 50 in all.
We have chicken pies, Southern oven pies, pasta pies, seafood pies and vegetable pies.
So, if you're looking for an old favorite or to try something new, come to PieWorks and get Pieza The Way You Should Be.
Grades
From Page 1

Buce Wells, the chairman of the Romance languages department, said, and agreed, "I have never known as individuals to be as much a reflection of the standards given in the course as they are in the classroom."

Other departments have different standards regarding grading. "We have a high standard," said the chairman of the mathematics and computer science department, "and we have a high standard for our students, too."

Wells defended the grading policy, saying that second-year students' grades should be distributed over the full range of possible grades, with the bulk of grades falling in the mid-range.

According to Wells, the department's grading policy is comparable to other departments' policies. "We are an excellent policy," he said. "We are a good policy, but I do not believe that a grading policy is not a quota that must be followed by professors."

"It is not to discuss that there must be a certain number of grades. A student is not supposed to have a certain number of grades, but we do have a certain number of grades, and we do have a certain number of grades."

Wells also said that standards for grading grades vary from department to department. "We have different standards for different departments," he said. "We have one standard for the chemistry department, and we have another standard for the English department."

"We have different standards for different departments," he said. "We have one standard for the chemistry department, and we have another standard for the English department."

"We have different standards for different departments," he said. "We have one standard for the chemistry department, and we have another standard for the English department."

Grading policy should be reconsidered

A recent faculty contract controversy in the humanities department has brought to light issues of grade inflation in the College of Arts and Sciences. The University's Department of Policy for Intermediate and Spanish classes calls for a grade distribution consisting of an A grade for 10 percent of the number of students, a B grade for 20 percent of the number of students, a C grade for 30 percent of the number of students, a D grade for 30 percent of the number of students, and an F grade for 10 percent of the number of students. The grading policy also should provide an absolute maximum number of D grades that the student could receive. Thats is not acceptable.

Grading policy should be reconsidered.

S

hould we turn the university into an infallible locale? Should we maill to the students, expect

and expect them to become the best implementers of this policy? Is it a viable policy to have a policy that states that, for example, 10 percent of all students will have an A grade, 20 percent will have a B grade, and so on? A second problem with our grading policy is that, if the student is not satisfied with the grade distribution on the basis of their own ability, they may request to retake the course. This may mean that students at the same level of performance receive different grades, which is unacceptable. There are also many other issues with our grading policy that need to be addressed.

Grading policy should be reconsidered.

COUNTRY-CAMPUS CLUB NEEDS VOLUNTEERISM

Shooting brings real world closer to campus

The Victoria Real Estate month is this week, and as we head into the new year, we should remember the importance of real world safety.

There are several things that can be done to improve the situation. First, we need to increase awareness of the dangers associated with real estate. This can be done by providing more information to students and by making sure that they understand the risks involved.

Second, we need to improve the existing security measures. This can be done by increasing the number of security personnel and by investing in new technology.

Finally, we need to work with the community to develop a comprehensive plan for dealing with real estate issues.

These three steps will help to reduce the danger of real estate month and make our campus safer for everyone.

COUNTRY-CAMPUS CLUB NEEDS VOLUNTEERISM

Stabilizing policies

September 22, 1973, Ralph Waldo Emerson delivered an address in the presence of 1,000 distinguished guests. He was a famous orator, one of the most respected men of his time, and his speech was translated into many languages.

The main idea of his speech was that there are three main elements in the process of human evolution: education, religion, and science. These are the fundamental pillars of human life, and they are the key to the progress of civilization.

Emerson argued that education is the most important element in this process. He believed that education is the key to the development of individual character, and that it is the key to the advancement of society as a whole.

His ideas are still relevant in modern society. Every nation, every country, every institution, has education as a cornerstone. Emerson's ideas have been translated into many languages and are used as a basis for many educational systems throughout the world.

Today, however, we live in a world of rapid change and uncertainty. Education is more important than ever, and it is the key to the progress of civilization.

Stabilizing policies

Liberty, responsibility bound together

Liberty is a two way street. It means freedom to enjoy oneself without governmental intrusion, and it means freedom to enjoy oneself without governmental intrusion. If we are not allowed to engage in any activity that would be considered immoral, then the state is not fulfilling its responsibility to the individual. If we are not allowed to engage in any activity that would be considered immoral, then the state is not fulfilling its responsibility to the individual. If we are not allowed to engage in any activity that would be considered immoral, then the state is not fulfilling its responsibility to the individual.

Liberty without responsibility would mean a lawless state. It means that there are no boundaries in the conduct of our lives. There is no such thing as right or wrong. If we are not allowed to engage in any activity that would be considered immoral, then the state is not fulfilling its responsibility to the individual.

It is in humanity's best interest to eventually restrict certain activities. For example, we are eventually going to take responsibility for our environment. We are eventually going to take responsibility for our environment. We are eventually going to take responsibility for our environment.

We are eventually going to take responsibility for our environment. We are eventually going to take responsibility for our environment. We are eventually going to take responsibility for our environment.

We are eventually going to take responsibility for our environment. We are eventually going to take responsibility for our environment. We are eventually going to take responsibility for our environment.

If you are not allowed to engage in any activity that would be considered immoral, then the state is not fulfilling its responsibility to the individual.

The importance of liberty is not to use it, if not immoral. The importance of liberty is not to use it, if not immoral. The importance of liberty is not to use it, if not immoral.

In this sense, the means to an end, the way to an end, is not the end itself. The means to an end, the way to an end, is not the end itself. The means to an end, the way to an end, is not the end itself.

The importance of liberty is not to use it, if not immoral. The importance of liberty is not to use it, if not immoral. The importance of liberty is not to use it, if not immoral.

In this sense, the means to an end, the way to an end, is not the end itself. The means to an end, the way to an end, is not the end itself. The means to an end, the way to an end, is not the end itself.

The important of liberty is not to use it, if not immoral. The important of liberty is not to use it, if not immoral. The important of liberty is not to use it, if not immoral.

In this sense, the means to an end, the way to an end, is not the end itself. The means to an end, the way to an end, is not the end itself. The means to an end, the way to an end, is not the end itself.

**H&H Society gives wonderful, historically accurate performance**

The H&H Society's innocent presentation of Handel's Messiah was a revelation for many at the Winter Garden in Midtown Thursday night. It was a near-perfect performance that captured the spirit and beauty of the great composer's work. The chorus, composed of members of the H&H Society and other groups, sang with precision and emotion, their voices blending seamlessly. The orchestra, conducted by a local conductor, played with passion and skill, perfectly complementing the choir's performance. The result was a moving and memorable experience that left the audience in awe.

**Sammy Hagar and crew disappoint; Jon Spencer rumbles on**

Sammy Hagar's performance at the Fillmore Auditorium was underwhelming. While his band put on a decent show, Hagar's voice seemed strained and his energy waned as the night progressed. The crowd, however, continued to cheer for him, despite his lackluster performance. On the other hand, Jon Spencer's band, The Jon Spencer Blues Explosion, put on a high-energy show that had the audience on its feet from the start. Spencer's guitar work was particularly impressive, and the band's overall sound was dynamic and engaging. It was a night to remember for music lovers who appreciate a good show.
Another recurring theme in such self-indulgence easily loom confessional. You’re putting "A will bring down the house with innovation.”

**Theater**

Second Samuel: 8 p.m. Tues. at the High Point Theatre. Atlanta playwright Payton Parker’s play—claimed new southern comedy—is a hit. Charlie in a small town are preparing for the funeral of an local newspaper. 916-385-0087.

### Sports

**Old Gold and Black**

**Women’s tennis team makes history with first-ever victory over top-10 team**

The women’s tennis team made history this weekend by achieving their first-ever victory over a top-10 team. The Deacons defeated the Miami Hurricanes, ranked 9th in the nation, 4-3, on Saturday. The team’s historic win came after multiple efforts and hard work, which included regular practice and dedication to the sport. The victory marks a significant milestone for the Deacon women’s tennis team, showcasing their growth and potential in the competitive world of collegiate tennis.

**Men’s basketball takes ACC title with double-digit win over Duke**

The Virginia Tech men’s basketball team locked up the ACC championship on Saturday night, defeating Duke 80-62. Senior guard Jalen Hutson led the team with 23 points, and junior forwardLanden King contributed 20 points and 12 rebounds, earning player of the game honors.

---

**Childress still the man for the Deacons as Postseason, March Madness begins**

The choice comes true for Tim Duncan now, as he can choose his own destiny. The decision to go with Tim Duncan as the team’s starting center was not a difficult one for the coaching staff. Duncan has been the team’s best player all season long, and his size and skills make him a perfect fit for the postposition.

Men's, women's track finish well at Indoor Championships

Men take their highest finish ever; Ardentvent twins lead way

Heads Coach John Goodridge has already established the men's cross country team as a regional force Virginia Tech. After falling over FSU, the conference meet program.

The Demon Deacons will face the ACC's elite. They took third place in the ACC last season. They are relatively healthy. We have two warm-weather scholastic conflicts and a desire to win a ACC title. We can't put behind them. Visiting Florida State Sunday will be our first outdoor match of the season and we have a very successful outdoor season. Perhaps to win the ACC Championship in our outdoor track. We have a few injuries, but we are fairly healthy. We have two warm-weather scholastic conflicts and a desire to win a ACC title.

Women's basketball team(11-0) topped 49ers
