Fondation Proves $1 Million for University Center

Committee Plans Library Annex

By SCOTT FRAZER

 Provost Edgar W. Wilson has announced the formation of the new Library Annex Committee, which will study the feasibility of expanding the library. Wilson said of the committee, "They will look at things such as how much more stack space and how much more room reading areas will need. We're hoping for graduate, students, professors, and mentors will also be on the committee."

The library annex has not yet been approved. The purpose of this committee is to determine what the needs of the library are and to assess plans to fulfill those needs.

Funding for the project will be considered after the committee makes its recommendations in the next six to eight months. A student representative will be appointed to the committee, to serve as a liaison to the student body.

Reverend Dr. Donald, who said the committee will be very important to the administration, said: "We are particularly interested in how students perceive their study needs."

Freshmen Face Criminal Charges for Campus Vandalism

Three Wake Forest freshmen are facing charges of possession of marijuana and vandalism for an incident that occurred in the Student Union on Feb. 15.

David E. Beinart, Thomas A. Miller and Robert W. Miller were charged by the Wake Forest Police Department with possession of marijuana and vandalism. According to the charges, the three students were found with marijuana on campus. Beinart and Miller were also charged with vandalism for allegedly throwing a beer bottle at the student union.

The incident occurred around 3 a.m. on Feb. 15, when the police were called to the student union. According to the police report, the students were found with a beer bottle and a beer can. The beer bottle was broken and thrown at the student union. The beer can was also broken and thrown at the student union.

Wake Forest Surpasses United Way Objective

$10,000 Over

By BOB MARTIN

Old Gold and Black Report

A seminar committee consisting of the Southern Association (true merit) and the United Way (true merit) of Wake Forest meets the criteria for reaccreditation.

Associate Provost Laura C. Ford said that the seminar committee was formed to look into the possibility of investigating reaccreditation and that this is not something that is done quickly. The seminar committee will look at the United Way and determine if the United Way is a good organization for the United Way.

By JIM BRACKETT

Wake Forest Surpasses United Way Objective

$10,000 Over

Reported to be the second time that Wake Forest has exceeded the United Way's goal, this year's campaign surpassed the $35,000 goal.

The 1986 Wake Forest University United Way campaign was kicked off on Nov. 17 to answer charges of "malicious injury to the futures of the three men." Officer Randy Hobson responded to the call at 2:49 P.M. on Nov. 17 to answer charges of "malicious injury to the futures of the three men." Faculty Gets Recruitment, Retirement Grant

By TOM LEGAN

Old Gold and Black Reporter

Faculty members discussed possible uses of a $300,000 grant for faculty retirement and recruitment at a meeting of the Wake Forest Chapter of the American Association of University Professors on Monday.

In fall 1985, White Forest received the grant from the Charles Dana Foundation to fund five faculty positions in order to stabilize the average age of the faculty. Associate Provost Laura C. Ford, Director of Personnel James L. Peltz, and Associate Provost of Business and Administration A. P. Denison were present at the meeting and all of the committee appointed to study the uses of the Dana Foundation. White said that Wake Forest was in need of four early retirement programs but the university could not set up such a program in the past. Therefore, White said that faculty members hired as a result of this program would not be laid off because of a lack of funds. Many Wake Forest faculty were hired in the 1980s and had not yet taught 20 years. White Forest moved to its Student-Walken campus and said that the faculty members could benefit from the program.

Now you can get the competitive edge when it comes to your writing. With a Macintosh® personal computer, you’ll have entered your notes into the clearest, most letter perfect papers you have ever turned out. And turned in on time.

What’s more, there’s a Macintosh Support Kit filled with valuable resources and companion software to help you keep your Macintosh running long after you’ve graduated.

Let us show you how to get through college and beyond. Stop in and see us for more information.
Use of Rented Videos
In Dorms Breaks Law

By MAURY BOTTON
Old Gold and Black Reporter

The use of rented videos in residence hall lounges may be a thing of the past at Wake Forest University.

In a memorandum to house council presidents, Donald E. Gregory, director of the office of residence life and housing, stated that a 1976 federal copyright law prohibits the renting of videos for public use without a public viewing license. Those who have no such license at the present time, sharing video to large groups of dorm residents constitute criminal violation of the law.

Gregory would also make it illegal for fraternity or sorority to rent videos either for their own or for social events.

Gregory said that while the real problem lies in distinguishing "public" from "private" viewing audiences, renting videos from a licensed dealer and showing them in such a public area as a residence hall makes the school liable for prosecution under the copyright law.

Gregory recently learned of the problem from a letter given by Dorothy Bernholz, the students' attorney for UNC, at a recent North Carolina Housing Officers Conference. Bernholz stated that the law assigns a minimum of $5,000 for a civil violation. Although Wake Forest has not yet had an official for breaking the copyright law, Gregory said that the school needs to take preventive measures.

Gregory said that the residence halls might obtain a public viewing license from the copyright law. Gregory said that the school needs to take preventive measures.

Complacency Among Faculty Contemplative

Dr. Julian S. F. South, a professor of English, writes that Wake Forest University is home to many intelligent and sophisticated people, but he wonders about the faculty members' true commitment to the institution. He asks: "What are we doing to change what is going wrong?"

Dr. South says that the faculty members can be classified into three groups:

1. Those who support the administration and whose motto seems to be "for the sake of the students, for the sake of the university, for the sake of Wake Forest University!"
2. Those who try to put solutions into practice but are not granted the freedom to do so.
3. Those who are actively involved in trying to change things but are not always taken seriously by the administration.

Dr. South suggests thatWake Forest faculty members should be proactive in addressing the problems that they see in the university and that they should not just sit back and wait for change to happen. He also urges the faculty to work together to create a more collaborative and supportive environment.

Dr. South concludes with the statement: "If we want to change, we must change ourselves. We must be willing to take risks and to be innovative in our approach to education."
We're wasting your money at Wake Forest. Theensible fact is, however, that you're wasting your money at Wake Forest; higher learning. You see, I picked up the late edition of the Hub, the student newspaper, and it was a real eye-opener. I've never felt so academically enlightened in my life.

In short, you should consider whether your college experience has been worth your time. Is it providing you with the educational opportunities that you need to succeed in life? Or is it simply a place to waste your time and money?

Fortunately, you still have time to make a change. I urge you to seriously consider your options and make a decision that is right for you.

Thank you for listening.
The third level will include the major pass-through area, according to John P. Anderson, the vice president for university relations.

Another important feature of this floor is a locker room for non-resident students in which they can store books and other items they need for a campus tour. Anderson said the passageway will provide a place for students who do not live in the residence halls.

This floor will also include a nutitional area for students who have a special diet for medical reasons, Anderson added.

The next authorized capital campaign for the Bowman Graduate School of Management will be entirely devoted to recreational purposes, Anderson said. Joyner also said that the Multiversity will be free of the present weight on the Magnolia Court, Anderson said. The rest of the floor is designated for entertainment, which will include a passageway designed for students who need a place to have a large audience.

The proposed building will be constructed in the modified Georgian style with columns and capital along the roof."
WAKE Radio Works on Prospects

By SANDRA MULLENBECK

WAKE Radio made its mark on the Big Apple last weekend, as station manager Bob Roberts and music director Denise Sullivan attended the College Music Journal’s Nine Music Summit held at the Roosevelt House.

While WAKE’s representatives had the opportunity to speak with representatives from other college radio stations across the country, the meeting also provided an opportunity for WAKE to shine as it coped with recent hardships.

"It was encouraging to speak with the staff of other stations to earn our seats so that we can keep the momentum with publicity and promotion," Roberts said.

The program will include works by Copland, Bach, Mozart and Ravel. Featured artists will include the Grassroots Arts Bill. The program will be broadcast on the Airwaves for the Arts Council, N.C. Black "Reporter..."

The theater season continues at Wake Forest with the 60-30 second event in the Arts Series. "The music," as the Right Profile, the Naked Ramblers, includes Gilbert and Sullivan, and includes "honesty, the beautiful Lydia Languish, but under a false pronounce..."

"The program is the most sought-after distinction which consists of various programs from all periods of music, especially baroque music." - Kevin Moore, oboe. The program will be presented by the Arts Council, N.C. Black "Reporter..."

"We're trying to move forward with new ideas and new arrangements," and the French Connection.

The French Connection is on WAKE 530 AM by TOM HANCOCK. For one and a half weeks, as station manager Bob Roberts and music director Denise Sullivan attended the College Music Journal’s Nine Music Summit held at the Roosevelt House.

Little Wins Moot Court Decision

By W.N. TOOLE
Old and Gold Reporter

A former Black Panther and Writer-Salons alterna-

tive, Larry Little, successfully defended a strategic affirmative action plan to win the 20th Annual St. Mary's Moot Court Competition held last Friday in the Law School Gymnasium.

Little, a second year law student, used the analogy of a street walking contest to convey the plan of Federal and state arguement that a plan and goal would have to be met if it did not satisfy the rights of a white male.

The fictitious city in the case was the more qualified black male to present a case of a white man in order to avoid discrimination to the black male. Little said the moot court jacket, "He (the white male) has not been offered desert. We just have to wait a little longer."

Faculty

Page from 2

In the program for thirty or until the black man comes first. Each reci-

pient receives approximately $28,000 annually, about half of the total from Wake Forest and the other half from social security. The program would also entail medical and dental needs.

The program of the residences for the students who supported the resolution initiates a process which would involve consulting student and administrative officers in order to attain a realistic picture of the actual needs.

Want a Job?

From Page 2

Topping the write of this year's case, said

that the United States Supreme Court has not yet ad-

imated the issue of reverse discrimination in promo-

tion practices definitively, though similar cases are pending.

Stacy Cowdy, a third-year law student, was run-

er-up in the competition. Other awards were an-

nounced on our Robert Stewor for Best Brief and

Peter Tennis for Best Oral. The Best Oralist was
determined this year in the competition.

The Best Oralist award was created this year in

honor of James C. Bower, attorney at law, who died in an automobile accident just before he was to argue in the quarterfinals of the 1986 National

Cup Competition.

The Court gives law students an opportunity to research and argue significant legal questions before judges and court justices. The competition is organized by law students.

Competitive Teams Continue Losing Ways

The Wake Forest football team dropped into fourth ACC place after losing to Georgia Tech, 22-14, on Saturday, losing its second consecutive game, for the first time in 19 years.

Bob Clouse, head coach of the Blue Devils, had hoped coming into the game that the Wake Forest team would be the best of his four years at the college. The rebuilding process of the past three seasons began to pay dividends.

However, this has far been a disappointing one for the Blue Devil program. The Deacons have managed two wins, 5-3 with three games remaining.

The Deacons offense is led by quarterback Mark Wise, who has thrown 123 passes out of 213 attempts for a total of 1556 yards. He has thrown for nine touchdowns and five interceptions.

Wise and his teammates have experienced a few injuries, but are positive about the team's future.

Karen Dunn led the Deacons by scoring 18 points in the game and Dunn's performance was critical in helping the team advance to the ACC championship game.

The ACC was exemplified when he carried for 514 yards in a record of 3-5 with three wins and a record of 19-22 overall. The Duke offense is led by quarterback Jack Miller, who has completed 304 passes out of 479 attempts for a total of 3816 yards. He has thrown for 32 touchdowns and 20 interceptions.

The ACC's offense did not have one of its better games, but the defense was effective against the Duke offense. Wise already has scored two touchdowns and has an interception.

The Deacons are coming off a disappointing 26-20 loss to the Clemson Tigers as Van Buren restored a new Clemson record for an opponent running yardage. Wise is planning on attending the ACC championship game and the ACC title game early and scored first.

The Deacons Captains received the honor because of the great work done by their co-captains, Steve Haffner and Dunn, despite the attempt of this Radford blocker, put the team in the ACC championship game with times of 19:15 each.
The Wake Forest soccer team opened its home schedule for the season with a 2-1 victory over Asheville in the Varsity Match on Friday afternoon. The Paladins were led by senior goalkeeper Mark Beaudin and scored both goals of the game.

Happy Healthy Richies Leads Deacon Runners

By COLLEEN KOONZ
Old Gold and Black Reporter

This season has been one of great improvement and dedication for the Wake Forest volleyball squad, especially for the cross country team. After Wake Forest lost last weekend, the squad finished second in the ACC Championships in Clemson by placing three runners in the Top 5. The highest finisher for the Deacons was Jennifer Kraner who finished 4th. It was a year ago when Wake Forest was 19th at the ACC Championships. "The teams were more focused," said Coach Wendelboe. "I feel we have a more difficult schedule this year." The momentum N.C. State captured near the end of the first half continued into the second half. They rallied when it was a wing forward crossed the Wake Forest front line and downdrafted the ball, good enough for a free shot try. Wake Forest attempted to turn the tide of the game around when they were penalized a penalty kick. Huggins, in the fall, there was a lot more experience gained in advertising and marketing. Volleyball Team Goes 3-0 On Week

By SHAWN FARLEY
Old Gold and Black Reporter

The Wake Forest volleyball team went on to record its second straight un-scheduled win last weekend, this time over University of North Carolina-Greensboro to improve to 16-12 on the season. Wendelboe's team downed the Greensboro team 15-7, 17-15, 7-15, and 15-12.

The Deacons' outside hitter Jennifer Kraner and Forest scored 24 and 25 kills, respectively. It happened once or twice a week, depending on the player's.getBlocker

The Wake Forest volleyball team has stayed in the ACC Championship race to the end with a win against the Wolfpack. J.J. Huggins, playing with a brace on his knee after a recent surgery, played the block through the uprights and gave his team a 3-0 lead. N.C. State went on to score a penalty kick of their own, tying the score at 3-3. That score stood until Huggins converted another kick for a 3-4 Wake Forest lead.

Flagler’s Four Touchdowns Spark Tigers

Staff Report

Terrence Flagler ran 83 yards up the left sideline on Clemente’s 9th-grade play from scrimmage last Saturday, and that was an indica­ tion of things to come in the game between Wake Forest and Flagler. Both teams scored 20-20 before a football-hungry crowd at the stadium.

After a huddle, the two teams come back with a 20-yard punt and Field goal on each end. However, Terrence Flagler proved to be a threat to the Tigers, as he scored a total of four touchdowns. His fourth touchdown occurred when he scored on a 6-yard pass from the eight-yard line, making the score 28-6.

Rives

my goals by placing in the top ten. I was really happy with the second place finish of the team.

Rives felt that the team is a "close-knit group" and that they inspire each other in training.

"Of the team, the chemistry is there," Rives said. "There is no animosity in it, it is all of us working together, it is not a struggle for me.

"I am really glad that Karen [Dunn] is back."

Rives added, "We help and inspire each other. We push each other in a good way - there is no negative."  

In one week, Wake Forest will compete in the District III meet at Perkiomenville, a place where Rives finished first in last year's race. She is very optimistic about the meet, especially since it will be held on the same course as last year's District III meet at Perkiomenville.

Rives is looking forward to the upcoming race. "I love to run at Perkiomenville," Rives said. "We have a good chance of winning in the 1500m and 3000m."  

Rives

"I hate Wake Forest because they attack with a little longer distance than the morning practice," he said. He had a difficult time adjusting to college athletics and academics, he said, but his high school training helped.

Rives added, "The football program allowed him to watch many things during a day. Football takes up a lot of your time, and you have to adjust. You need to make time for academics."

"I helped me not be a lazy student, ready to play, although I have to sit in the classroom," he said.

Rives said he was able to work on extra 20-30 pounds onto his body and improve his speed.

As secretary of Sigma Chi fraternity, Rives has very little time for himself during the season. He is involved with Sigma Chi intramurals and is a self-proclaimed "rat." He loves basketball, as well as golf and softball.

Although his time is limited, he still manages to accommodate many things during a day. "Football takes up a lot of your time, and you have to adjust. You need to make time for academics," Rives said. A normal week consists of practice, a team meeting, and a tennis meeting, and he is a member of tennis.

Hockey

In addition to being heir to his family business, Rives also has a passion for tennis. He has been a tennis player since he was a child and is now a member of the Sigma Chi intramurals.

Although the team's schedule is intense, Rives manages to fit in many of his interests. He loves basketball, as well as golf and softball.

in the Daily News

Several members of the Wake Forest Equestrian Club placed well in the club's first interscholastic show of the season.

Catherine Chapman, a sophomore and president of the club, placed fifth in both intermediate and intermediate-longitudinal equitations over fences and on the flat.

Another sophomore, Katherine Poch, collected third place honors in the Intermediate Equitations over fences.

Runners

"Despite our stellar addition [of the top ten] I think we can all except that we could have finished one place higher in both the 5000m and 3000m."

Goodridge said, "We simply did not race to our ability."

Marlis Evans, a senior, was really happy with her performance, and said, "I ran really well today."

"It was a very good day," Evans said. "I am really positive about the team."

"I was really positive about the team," Evans said. "I am really glad that Karen [Dunn] is back."
