Sig Nu placed on probation

Screamin' Demons close to its capacity

The first football game of the year was not only the debut of the athletic team but also of more than a thousand student fans that comprise Screamin Demons athletic booster club.

The organization is no longer accepting membership for the current season, but will hold a sign up session later in the semester for students interested in participating in the football season.

125 students enrolled for the football season, a number noticeably greater than the 980 enrolled during the spring rush of 2005. The event was advertised on campus, in local newspapers, in the local radio stations, and on the internet. The organization is now on probation by the National Interfraternity Council.

According to Harold Holmes, associate vice president and dean of student services, this problem stems from internal advertising, lack of communication, and the way the organization is run.

Sig Nu is permitted to sponsor non-alcoholic beverages. However, Sig Nu is not permitted to contact other fraternities directly.

Sig Nu fraternity is currently serving seven weeks of probation due to two spring pledge-related violations.

Winston-Salem \[image\] is a new home of the Gordie Foundation, an organization that works to prevent alcohol-related events, and it's been really heartwarming, the response that people have been coming up to me or calling me. It's been really supportive. A lot of them have been coming up to me or calling me.

It was a beautiful day that Tuesday morning. With over 40 million people who watched the disaster on television, the event in the Triad. As a result of the tragedy, universities have been forced to roll back in their heads ... No one really checked on him afterward ... No one really checked on him afterward. We didn't want to leave her alone, so we stopped with the north tower and saw whenever they came. They made it 27 floors when they mountain until eight glasses of diesel were filled. "Gordie was on the couch because we knew he had bad hip pain. He didn't know how bad it was," D'Agostino said. "But when we saw this huge scene, we were puking-up out of windows." D'Agostino said.

"We operated as one unit," D'Agostino said. "We went to the fourth floor on stairwell B when we heard the explosion. We had to leave her alone, so we stopped with the north tower and saw whenever they came. They made it 27 floors when they mountain until eight glasses of diesel were filled. "Gordie was on the couch because we knew he had bad hip pain. He didn't know how bad it was," D'Agostino said. "But when we saw this huge scene, we were puking-up out of windows." D'Agostino said.

According to Holmes, Sigma Nu has been designated an "at-risk" organization due to the various violations it has committed.

"As an at-risk organization, Sigma Nu will have to follow a number of guidelines," Holmes said. "We will team up with Residence Life and Housing to try to reach out to our sister institutions in New Orleans." Hacht said.

Continued from Page A1

Green beverages in attendance and transportation was provided by the fraternity.

One young man was dangerously intoxicated and another young man showed signs of alcohol poisoning, according to the investigation. The investigation did not show any evidence that came to the attention of the university," Holmes said.

Although the availability of on-campus admissions was limited, Residence Life had the ability to provide space for 12 of the students. The university then took the steps to determine the number of students that could be accepted, which was done by surveying the open spaces in every class.

The admissions office responded well to over 100 inquiries, and, from those inquiries, 14 students were invited to join for the fall semester.

By Sept. 2, the Dean's office had contacted each student individually to determine if they would enroll on Sept. 6.

The remaining two students found accommodation by Sept. 6, the deadline set by the university.

"We are just delighted to help these students. I have been very proud of the way that the Wake Forest community has welcomed them," Holmes said.

Hacht also expressed his deepest gratitude for the effort everyone has put forth to welcome these students into the Wake Forest community.

"I am deeply grateful for the tremendous spirit of cooperation that Wake Forest University, Residence Life, Life, Student Affairs, the professional and graduate schools, and many others have shown in this effort that is growing larger day by day," Ellis said.

The university also began collecting donations of goods this week, including non-perishable food, bottled water, paper products.

The items will be given to the Salvation Army, which will then distribute them in the affected regions.

"I have spoken to the leadership and I don't think this is a good group that made some bad decisions. Unfortunately, there are some consequences," Senior Brandon Tyler, president of Sigma Nu, said.

"The bridge leading from Ocean Springs, Miss. to Biloxi, Miss. has been completely destroyed by the hurricane. The west end of the bridge is at the entrance of the New Orleans East section of the city. "This is a long-term recovery project," Gisondi said.

"I am concerned that our team will not be able to allow members to come from the University of North Carolina, Chapel Hill," Tyler said.

"We're doing … all that is possible now, and we need more help," she said.

"Victims will continue to require assistance with the homeless and for clothing during months. "This is a long-term recovery project," Gisondi said.

"As long as people are in shelters, president and dean of student services and chair, "It has been a very difficult time," she said. "We have to plan for the future."

New programs allow students to register for classes with ease

By Joe Norton
Old Gold & Black Reporter

Registration for freshmen and first-year students is being touted by university officials as the best ever, largely due to the newly implemented registration software called Banner.

Although the Banner software was tested for the first time last semester for upperclassmen registration, this was the first semester it was used for first-year students is being touted as a big improvement.

The Banner software upgraded the registration process significantly.

"Banner offers more services to the student. It is a much better system overall. I certainly think it is a much better way of registration," said Dot Sugden, university registrar.

One of the most noticeable upgrades is the redesigned registration interface, accessed through the Virtual Campus link on WIN.

With the new interface, students have the ability to do quick searches by class name on the time it deems, the instructor, and the title of the course.

The more specific search options are especially noticeable when looking for classes or courses by a particular professor.

"I thought Virtual Campus was really easy to use," registration coordinator Jeanette Rork said.

Sugden said she believes the intuitive nature of the new interface made registering and searching for classes much easier.

"Other upgrades that were not as noticeable, but significantly improved the registration process, included the software’s capacity and speed.

"When you logged into the old system, you sometimes got an error message saying there were too many people in the system. Students handling many messages that said come back later," Jay Dominick, an assistant vice president of Information Systems and chief information officer said.

"We smoothed the registration process, made it a little faster, and increased the capacity of the machine," he said. "We could handle a lot more students in a much shorter period of time than what we could do in the past. It’s at least 10 times faster than the old system. Students took less time for class improvements.

"It was really simple to register. I had never registered for classes like this before. For a first experience, it was good," freshman Carrie Moore said.

"I thought Virtual Campus was really easy to use. I registered in just five minutes. It wasn’t confusing at all," freshman Jameal Addison said.

"The most helpful thing was being able to just put in the CRN numbers instead of going through the whole class search system. Then, if you needed to find a class to fill in a certain time slot, you could still look that up yourself," Addison added.

"We have been working on the system for about two years. We spent two years trying to get the rules right, getting the data out of the old system, testing it, configuring it, making sure it fit what we expected it to do," Dominick said.

"It took the registrars’ office about a year of monthly work to get the system ready, he said. "We are really glad it worked as well as it did. We were on pins and needles, quite frankly."

"It was the best registration we have ever had," he remarked.

"We really want the students to be pleased with it," Sugden said.

"We can say things are great from our side, but the important thing is for them to be great from the students’ side."

Sugden encourages students with any suggestions to come to the Registrar’s Office or e-mail them at registrar@wfu.edu.

Research points to higher pain correlating to anxiety

When it comes to controlling pain, positive thinking can be as powerful as a shot of morphine due to a brain imaging research at Wake Forest University Baptist Medical Center.

Lowering participants’ expectations about pain levels can significantly reduce pain levels, but actually received either a lower or higher temperature.

When participants experiencing moderate pain were given the instruction to reduce pain levels, their ratings of pain intensity were lowered almost to the levels expected for participants dealing with pain.

All 10 subjects had diminished pain levels after a timed intervention of 10 minutes.

"Complications relating to cancer treatment caused by increased anxiety levels of pain-related brain regions," said RobertCoghill, Ph.D., the senior author of the study and a neuroscientist at Wake Forest University School of Medicine, which is a member of the Davis-Besseer Medical Group.

"It was the best registration we have ever had,“ said...

President wants students to know his goals for the year

I would like to take this opportunity to appear in the left-hand front at the beginning of the course and to outline some of the issues discussed and in order to be addressed to assure

Reggie Mathis

University’s relief efforts deserve praise

While many students have expressed concern that it has been difficult to find resources, the least the university can do is call a small number of students into its classes and workshops. During this crisis, students should not assume that only the working class is hit. In fact, the least the university can do is to go into Sunday and purchase a non-portable food item and donate that food to the poor. This is a step to help the effective donation. It is also to truly see the opportunities to assist in the efforts. Students have many complained throughout the education. The Red Cross is an program that is considered by many people who are affected by the storm and by donating blood, it is possible to save a life.

Pro Humanitatis is a community program that is the first of its kind in the university, and now is a time to embeds this motto. We have members of our community who have been directly impacted by these events, and it is imperative that everyone pitches in to the relief efforts to help the community. The worst may be red to a devastating situation.

Christine Tamer

AlcoholSpeak needed for gas-broader appeal

Many of these students have yet to realize the impact of this sort can be prevented by taking the proper precautions. This campus has been a major source of concern in the past few years, a trend that is expected to continue. All students who received alcohol violations should be required to participate in a drug and alcohol education session. These are new, free programs that will focus on the dangers of alcohol.

The planners of the event, by placing these students in a position to event will enable students to truly see the problem, and possibly solve it.

The terrible memories of alcoholSpeak continue to haunt many students, and the university, aiding students to truly see the opportunities to assist in the efforts. Students have many complained throughout the education. The Red Cross is an organization that is considered by many people who are affected by the storm and by donating blood, it is possible to save a life.

Pro Humanitatis is a community program that is the first of its kind in the university, and now is a time to embeds this motto. We have members of our community who have been directly impacted by these events, and it is imperative that everyone pitches in to the relief efforts to help the community. The worst may be red to a devastating situation.

Christine Tamer is a sophomore.
**Poor response to Katrina**

**Government failed to see the disaster that hurricane brought.**

The events of Hurricane Katrina in 2005 were the result of an unfortunate misstep. It would be difficult to not be struck by the choice to protect the coastal wetlands instead of creating a makeshift shelter in New Orleans, which would eventually be abandoned. Even the New Orleans convention center, which could have been used as a shelter, was subsequently drained as part of the evacuation order.

Although money was allocated to prepare for a hurricane, it was never used. The situation was foreseen, but it was not prepared for. The government failed to hold out hope. The tragedy and violence in New Orleans were exacerbated by the poor response to the disaster. It was a national embarrassment, and the government was held accountable. The government's response was widely criticized, and it was seen as a failure.

**University emboldens Pro Humanitarian slogan**

The university needs to be commended for addressing the challenges faced by the students in the wake of Hurricane Katrina. The administration, organizations, and volunteers came together to help and remember victims of Katrina.

The answer to all these questions is that collectively, we must act quickly and decisively to prevent such a disaster from ever happening again. We must think outside the box and be ready to help, not just to respond to disasters, but to prevent them from happening in the first place.

**It's a start...**

**Why should I grow a mullet?**

The answer to all these questions is that we must act quickly and decisively to prevent such a disaster from ever happening again. We must think outside the box and be ready to help, not just to respond to disasters, but to prevent them from happening in the first place.

**But what is important now is that we collectively not only re-engage on what we have been doing, but we do it with a renewed sense of purpose.**

We must think outside the box and be ready to help, not just to respond to disasters, but to prevent them from happening in the first place.
The soccer team out-shot San Diego 19-5, as well as fifth-ranked Santa Clara 11-9. The Deacons executed the exact same maneuver, and when Wake Forest got another penalty corner, the Hoosiers netted their second goal off of a save to protect her shutout. 

Nick Babladelis

The Deacons' defense thwarted Santa Clara's nine shots, five corner kicks and a dangerous free kick in the first overtime. The Deacons back line was fierce and on countless occasions, defenders locked out scoring opportunities with hard tackles, headers and aggressive play on 30-20 balls. The back four were solid, Head Coach Tonya du Losq told Wake Forest Media Relations. "They played very well together, and individually they did exactly what we wanted them to do. They worked very well as a unit. They had a little bit of an extra bite, and they did a great job. After facing off against the Broncos, we were able to get our first win that's been a long time coming and we needed a lot of it this year."

By Caitlin O'Grady
Assistant Sports Editor

In their first game of the season, and their third game against a Big Ten opponent, the Deacons field hockey team defeated Indiana 4-2, Sept. 4 at Koskinen Stadium. The win marks Head Coach Jen Avril's 196th career victory.

Wake Forest now holds a record of 23-5 against Big Ten opponents and has a non-conference winning streak of 55 games. The loss came as Indiana's first of the season. The Hoosiers have defeated both New Mexico and Southern Methodist University this season. They were previously unranked in the poll. The now 10th-ranked women's soccer team tied fifth-ranked Santa Clara 0-0 and trounced San Diego 3-0, as well as fifth-ranked Santa Clara 11-9.

The Deacons' defense thwarted Santa Clara's nine shots, five corner kicks and a dangerous free kick in the first overtime. The team scored the Deacs' third goal of the game, with neither managing to score in 110 minutes of play, including two overtime periods. With 8:47 left in the second half, Santa Clara pushed deep into Wake Forest territory, but Doe made a diving save on a crossing pass into the box. In the final minutes of the match, senior midfielder Melanie Schneider launched a shot from 10 yards out that the Santa Clara goalkeeper Julie Ryder deflected. Freshman midfielder Amanda Lebo rebounded the shot, but Ryder managed to make another diving save to protect her shutout. It was a tough game that just prepares us for the competitive ACC season.

The teams were locked in a tie throughout the entirety of the game, with neither managing to score in 110 minutes of play, including two overtime periods. With 8:47 left in the second half, Santa Clara pushed deep into Wake Forest territory, but Doe made a diving save on a crossing pass into the box. In the final minutes of the match, senior midfielder Melanie Schneider launched a shot from 10 yards out that the Santa Clara goalkeeper Julie Ryder deflected. Freshman midfielder Amanda Lebo rebounded the shot, but Ryder managed to make another diving save to protect her shutout. It was a tough game that just prepares us for the competitive ACC season.

THE SKINNY:
It came as no surprise when Remy chose to play soccer at one of North Carolina’s top schools. She had two sisters who played soccer at Duke and one who played at North Carolina. Since her freshman year she has made an impact. She earned All-Freshman honors, leading the team with six goals and five assists. In her sophomore year she averaged 2.74 shots on goal and managed seven goals. She was one of only two players to start in every game.

Also in her sophomore year, Remy scored four goals and had four assists for No. 3 ranked UVA, earning her ACC Player of the Week and Soccer America Elite Team of the Week honors.

For the Amateur
If you want to make some extra money the Campus Recreation office is looking for sports officials. No experience is necessary for these positions and training will be provided for officials. Even more opportunities are flexible.

For more information go by Reynolds 204A, call 758-4192 or peelete@wfu.edu.

Student, athlete and model Taylor Ray because it is shorter than Remy. It came as no surprise when Remy chose to play soccer, but a week performance dropped her back into a tie with 11 other players in the last two seasons. She led the team in goals and assists as a freshman on her way to being named to the All-ACC Freshmen Team. She has improved on her skills while at Wake Forest and has already been named the ACC Player of the Week, honored with a selection to the Wake Forest ACC/WCC Tournament Team, and was also named Offensive MVP of the tournament. Contributing reporter Graham Hall recently sat down with Elizabeth Remy to ask soccer.

Junior forward Elizabeth Remy has been one of the most prolific scorers for the women’s soccer team over the last two seasons. She led the team in goals and assists as a freshman on her way to being named to the All-ACC Freshmen Team. She has improved on her skills while at Wake Forest and has already been named the ACC Player of the Week, honored with a selection to the Wake Forest ACC/WCC Tournament Team, and was also named Offensive MVP of the tournament. Contributing reporter Graham Hall recently sat down with Elizabeth Remy to ask soccer.

Old Gold & Black: You have already earned a good amount of accolades this season culminating this past weekend with being named MVP of the Wake Forest ACC/WCC Tournament. What has been your reaction to so much recent recognition?

Elizabeth Remy: I try not to focus on it because it isn’t what really matters in the big scheme, which is the team and our performance.

OGR: You, along with senior Sarah Kozey, have been the best scorers on the team over the past two plus seasons. To what do you attribute this success?

ER: I have been fortunate to be surrounded by so many great players during this time. Practicing and playing with Sarah has really allowed me to get to new heights and to learn from her.

OGR: Winning the Wake Forest ACC/WCC Tournament at home must have been special, but now what are your goals for the season?

ER: I have struggled in the past with going into and playing every game like it is the biggest game of the season. I want to give my all in every game and work my hardest in practice and on the field.

OGR: With only two seniors on the team and so many sophomores and freshmen, do you feel any pressure to prove yourselves?

ER: I have not been pressed to be a leader. I try to lead through example though and hopefully people can see that I play my hardest every game.

OGR: While this is a young team with some highly recruited freshmen, there are also some highly acclaimed veterans on the team. With such a mix of players, is this the most talented team you have played on and do you feel pressure for your starting spot?

ER: I really think that this is the most talented team I have played on. I feel the most confident on this team and we have a lot of great athletes, all of whom really want to play and give it their all. I also do feel pressure for my starting spot. There are eight possible forwards on the team and any one of the younger players could sub me out of any game.

OGR: What is your team nickname and how did you get it?

ER: It is the Wizards because it is shorter than Elizabeth. I have also been called Ray because it is shorter than Remy.
The men's volleyball team broke their season open Sept. 2-3 with a loss in the Courtyard by Marriott Classic. There the team dropped to 14th-ranked Louisville Sept. 2. Redshirt freshman back Kevin Patterson initially appeared to be in position to intercept the jump ball in the end zone, but Vanderbilt receiver Marlon White wrestled the ball away from Patterson for the score and a 10-6 lead.

After Patterson immediately answered with a field goal of their own, the Demon Deacons drove down to the Commodore two-yard line. After quarterback Kevin Grobe refused, however, came more Deacon mistakes. After a Vanderbilt punt, Wake Forest moved the ball 77 yards to the Commodore five-yard line on the back of eight consecutive Andrews carries.

Maurer, however, fumbled on the next play, giving the football to Vanderbilt at their own four-yard line. At a point in the game where a defensive three-and-out was crucial for the Demon Deacons, the defense allowed the Commodore offense to march 39 yards down the field for a touchdown to give Vanderbilt a 17-6 advantage.

The Deacons answered on their next possession with a heavy dose of Andrews’ rushing and timely passing to the Commodore lead to 17-13 with three seconds remaining in the third quarter.

With the crowd getting back into the game, Deacon offensive coordinator Josh Gattis intercepted an errant Cutter pass at the Vanderbilt 20 to seemingly set up the Deacon offense for a scoring drive.

Another mistake – this time a personal-foul penalty – forced Wake Forest to punt instead of getting any points off the turnover. The Demon Deacons took a short lived 20-17 lead on a Mackin quarterback sneak in the fourth quarter, but after a Vanderbilt punt, the Deacons failed to run out the clock.

A rare 20-yard Packerman punt gave the Commodores good field position with 3:02 left in the game. Cutter marched Vanderbilt down the field for a score, putting the Commodores on top to stay.

The Demon Deacon offense made things interesting in their final drive, but with the Mack sack came the loss of all Wake Forest’s momentum.

A desperation throw on fourth-and-18 bounced off the hands of senior receiver Chris Davis nearly into the hands of diving senior wide receiver Cory Randolph, but the converted quarterback, cuttting his hands under the ball.

All was not lost for Grobe, however. "You probably can’t play as soft as we did," Grobe said. “But I’m very excited about some of the young guys that played tonight that will only get better.”

Grobe leads his team into Lincoln, Neb. Sept. 10 for a 6:30 kickoff against the Nebraska Cornhuskers in a nationally televised game on TBS.
Senior Karithi Kilemi is another international student enrolled in the top-college Kilemi lived in Kenya, Africa, for 13 years before moving to Boeing, Germany, where he attended high school.

The small percentage of international students did notice a Kilemi said. "I don't think there were many opportunities for someone like me to interact with others.

After attending a high school for international students, he was excited to study at a university including Tanzania, Uganda, and Japan. Regardless of the facilities of the university, he was taught elementary skills for comparison since I was used to hanging out with so many different people," Kilemi said.

However, Kilemi admitted that it took him two years to adjust to the new culture of the university. "I was very surprised in Germany because I was with other international students. There were no biases and everyone was willing to talk and make friends.

There is a lot of value and knowledge to be gained from living in different countries, Kilemi said. "I learned that there are opportunities everywhere in the world, contrary to what I believed.

Kilemi is a 19-year-old a car as a gift," she said. "People are really friendly, even though they don't mean it sometimes. I can talk to anyone without looking weird. That was a big different. There was a lot of racial tension in the state that made people feel safe."

"I wanted to continue track and be able to study education," Bremler said. "I wanted to be in a totally different country until she enrolled in an American university. Bremler lived in Sweden for 19 years before transferring to Wake Forest University.

Bremler's experience in America as a foreigner and international student has influenced the way she interacts with others. "Now that I've had the experience of living in a country that's not my own, I can’t imagine anyone saying something without meaning it," she said. While Bremler is fluent in English, she said she is still learning about the nuances of the language and its slang.

Bremler said that people in America are more open than those in Sweden. "People are really friendly, even though they don't mean it sometimes. I can talk to anyone without looking weird. That wouldn't happen back home," she said.

"The attitudes are more modest versus (America)," Bremler said. "I think people are more modest in Sweden. They don't feel like they have to be the most popular in Sweden. "Parents don't buy their 18-year-old a car as a gift," she said.

Fashion and style should not be confused

By Will Rodwell

Constituting Collaborator

Gentlemen of the university, welcome to the wonderful world of style! I'll be your guru in this adventure, leading you on a quest to transform yourselves into better people – complete with amazing styles!

My hope is that students who don't have much experience in the area of style use this advice on clothes and grooming to improve their self image and increase their confidence in themselves and their own personal look – confidence that will virtually erode from them as they stroll along the Quad being admired by passer bys.

Don't get me wrong, I'm not trying to change who you are, guys. I'm trying to bring out the best in you that is already there. It's just that you're probably not aware of it. It's supposed to reflect who you are, not what everyone else wants you to be. All of this being said, there is one important point that you must understand in order to begin the journey down the road of enlightenment to style Nirvana. You must learn the fundamental difference between fashion and style.

Wear clothes those who would clothe themselves in garments purchased in the name of fickle fashion.

See these poor souls wandering aimlessly around, like zombies dressed head to toe in the very latter lines of Abercrombie and American Eagle. They have no taste, are mindless, wear clothes that are not even made correctly, guys. Everyone will notice how fake you look and assume that you have a personality to match. Being stylish, on the other hand, means that you know how to improve your look wisely.

Not only do you know what fits your body shape, compliments your skin tone and frames your face, you know how to mix and match colors and various cuts of clothing to express who you are or the way you feel on a particular day. You feel comfortable with the clothes that you already possess to compose a fresh look, adding narration and exciting items every now and again to spice things up.

Stylish play with their look and the things that they own! What can be better than that?

Now, with these ideas firmly established in your brain, I will leave you with a couple of basic color rules by which most people abide in the world of style.

The following are the three truly heinous combinations that make the wearer look just plain ridiculous - black and navy, different shades of black (usually due to washing) and the cost is $27. For more information call 336-786-2696.

ON THE BURNER

Leader of the Pack - The Ellie Greenwich Musical

When: Sept. 18 - Sept. 25
Where: Arts Council Theatre

Cost: Free

Blind Boys of Alabama

When: 6:00 p.m. Sept. 25
Where: Stevens Center on 4th St.
Cost: $30/334/285

Exploring one's fears when strings are attached

I knew that this moment would be inevitable, just not that it would happen so soon into my stint as a ‘She Said.

My friends always joking that I’m the ‘book learning and put it to good use by heading out to B&B Booksellers at 9:30 a.m. Sept. 10 at Historic Bethabara Park. This event will feature authors, illustrators and chefs showcasing a variety of topics and genres. Readings, book signings, discussions, chef demonstrations and hands-on workshops will take place in the park. Come out to enjoy the music stage and tasty food vendors. The event is free and for more information go to bookmarksbookfestival.org.

In a matter of two weeks, I’ve turned thirty. Now before you stop reading with self-satisfied smirks, thinking, “she must be a ‘Tri-Delt,” listen up.

I’m a nervous wreck. I feel like the infamous Carrie Bradshaw herself once said, “I’m sure that the point will come again when I want to look up like a man, with no strings attached, I just don’t think that I can right now.”

The university often feels dangerously like the bubble we all know it to be.

And sometimes, admitting your true feelings can seem about as impossible as avoiding strep throat after Pledge Night.

Well, I had sushi again tonight (literally, I went to Suka) and I’m bragging up for the writing because, as much as I wouldn’t like to admit it, my feelings are delicate too.

And the worst part is – he isn’t even my ex, and I recognised myself in him. I wouldn’t forget about him – that wasn’t worth hoping for the unsustainable.

People just “don’t date here,” they always say. (“That’s it, but it sure is easy to hide behind the myth.”)

I thought I could fight it, really I did. I tried doing body shots. I called up a friend. I bought a “band with benefits.”

What the heck, I put on a leather mini and giggled and headed down to out to that dudie theme party, ready and willing to jump right into some Sawamura’s look ways.

But truthfully, I’ve been doing a lot of thinking lately. I’ve spent my first three years of college going to crazy parties and being the crazy girl - the one who was always up for dancing on the table or getting handcrafted to the random hot guy who was having a 21st birthday, and waking up alone, usually - I’m not that crazy

the night before.

Don’t get me wrong, I wasn’t the one picking at the end of the night or walking-shaming it from the fraternity hall, but just one of the many girls who was out there looking for love in all the wrong places... and deep down knowing that I wasn’t going to find it at a fast party.

I’ve never been pegged as the “shy type, although most of the time I’m feeling pretty awkward as I smile my way up to an attractive guy at a party, using lines like “where can I get one of those hot red solo cups?” to make a move.

(Okay, I admit it, I’ve never used that one before … feel free to test it out and let me know how it goes for you.)

Everyone’s been there. If you haven’t, you’re a lucky biatch and deserve to die. Hell, I had such a crush on the hot capella boy from my English class last semester that I couldn’t even speak to him.

And then here’s the catch – I CAN talk to this guy. In fact, I do – on a scarletly regular basis for a “non-related” friend. And I have what definitely be called a “stupid grin” on my face when the phone rings.

So here is, the relationship columnist who doesn’t know how or she should make the next move for fear of screwing it up.

And I’m a girl, so I’ll continue to over-analyse the situation.

So I think that, instead of trying to make all the moves, I’ll take a week and wait it out, maybe have some sushi and nuit over.

After all, isn’t he supposed to make the next move?

Subtle Suggestions for the Stylistically-Challenged

Gentlemen of the university, welcome to the wonderful world of style! I’ll be your guru in this adventure, leading you on a quest to transform yourselves into better people – complete with amazing styles!

My hope is that students who don’t have much experience in the area of style use this advice on clothes and grooming to improve their self image and increase their confidence in themselves and their own personal look – confidence that will virtually erode from them as they stroll along the Quad being admired by passer bys.

Don’t get me wrong, I’m not trying to change who you are, guys. I’m trying to bring out the best in you that is already there. It’s just that you’re probably not aware of it. It’s supposed to reflect who you are, not what everyone else wants you to be. All of this being said, there is one important point that you must understand in order to begin the journey down the road of enlightenment to style Nirvana. You must learn the fundamental difference between fashion and style.

Wear clothes those who would clothe themselves in garments purchased in the name of fickle fashion.

See these poor souls wandering aimlessly around, like zombies dressed head to toe in the very latter lines of Abercrombie and American Eagle. They have no taste, are mindless, wear clothes that are not even made correctly, guys. Everyone will notice how fake you look and assume that you have a personality to match.

Being stylish, on the other hand, means that you know how to improve your look wisely.

Not only do you know what fits your body shape, compliments your skin tone and frames your face, you know how to mix and match colors and various cuts of clothing to express who you are or the way you feel on a particular day.

Now, with these ideas firmly established in your brain, I will leave you with a couple of basic color rules by which most people abide in the world of style.

The following are the three truly heinous combinations that make the wearer look just plain ridiculous - black and navy, different shades of black (usually due to washing) and black and brown.

Never ever wear these colors in the same outfit. Period.

Keep these rules in mind when you dress yourselves, guys, and you will be on your way to style expertise!
Nawab’s serves spicy dishes

By Amanda Smith
Contributing Reviewer

Whether you are a longtime fan of Indian cuisine or are just in the mood for something different, I recommend a visit to Nawab’s.

Though I am less than an expert on Indian food, I always enjoy my experience in Nawab’s dining room. It is surprisingly formal, with white linens, fresh flowers and candles on each table.

This western elegance is juxtaposed with Indian wall art and Hindu statuaries to create Nawab’s unique atmosphere. Generally, there are very few other diners, so it is quiet as well.

It is a great place to take your significant other if you are feeling adventurous, but I would not recommend going with a group of fraternity brothers.

Those who are not very familiar with Indian food, myself included, may find the menu to be slightly intimidating because of the unusual names, but I have always found the staff to be extremely eager to recommend dishes.

Restaurant Review

Nawab’s 129 S. Stratford Rd. Winston-Salem, N.C. 27106

(336) 723-3943

Hours: Mon.- Sat. 12 a.m.- 2:30 p.m. 5 p.m.- 10 p.m.

Serving: Indian cuisine

Dress: casual

Price Range: $5 (out of $5

Atmosphere: eclectic, art welcoming

Rating: ★★★★☆

Serves spicy dishes eager to recommend dishes. Always found the staff to be extremely knowledgeable. Because of the unusual names, but I have always enjoyed my experience in Nawab’s dining room. It is surprisingly formal, with white linens, fresh flowers, and candles on each table.

There are also descriptions underneath each item, which are helpful.

The menu includes an impressive selection of chicken, lamb, and goat, plus a large selection of vegetarian and vegan entrees.

I must admit that I have never been brave enough to try the goat, but the lamb and chicken dishes have been excellent. I particularly enjoy the chicken korma, which I order it, at least it’s quite good, and definitely impossible ideas and bring them to life.

By allowing a respected producer to help him with this album, West opened a door that allowed him to outdo the granddaddy “Jesus Walks” of GQ’s Dopest fam.

As far as the album itself goes, West sounds sharp—much more so than on his first album.

His beats are also evidence of the focus and determination he put into this album. He is as witty and self-centered as always, but with the success of this album, perhaps it is warranted.

Kanye West, along with his supporting cast of artists including Jay-Z, Brandy, the Game, Paul Wall, Common and Cam’ron, repack the kind of struggles that can be found in everyday life. In “Hey, Mama,” for example, West pays reverence to his mother while hooking into the vocals.

In this song, West tackles the issue of child support abuse, and in doing so, he goes to great lengths to showcase his wit and ability to entertain.

It is difficult for me to find just one song to call my favorite. One of my favorite moments, however, comes on the track “We Major,” in which West brings Jamie Foxx back into his life. Together they discuss political matters and the lyrics are laced through the use of everyday life. Sometimes I feel like I can’t put anything out unless I can talk about it afterward. I would say to West, “Go ahead, keep talking your s***.”

Still, I would say to West, “Go ahead, keep talking your s***.”

About halfway through, the beat fades, to which West asks, “Can I talk to you?” Well, for an artist who boldly states, “I ain’t putting nothing but my s*** again?” Well, for an artist who

West create.

In my opinion, it is a beautiful record that is not only

Wednesday, September 14,
from 12p.m. to 4p.m., at Benson 401

Make an easy transition from school to work at Vanguard, a company that invests heavily in talent from all majors. If you’re still in school, investigate our paid summer College to Corporate Internship Program, which could lead to full-time employment. If you’re graduating and want a series of in-depth rotations through a division of the company, consider our specialty programs in management, finance, information technology, or client relations. Or take on a rewarding, team-oriented Associate position in Client Relations, Processing, or Finance.

To apply for positions in Valley Forge, PA, just outside Philadelphia, Scottsdale, AZ, or Charlotte, NC, visit

Vanguard is an Equal Opportunity Employer.
Labels have a habit of sticking

By Kyle Erickson
Old Gold & Black Columnist

If you read my last column you wouldn’t have noticed that it was entitled “That terrible column.”

The words were printed right there next to a picture of my face.

I want my readership to know that I think the same thing when I read this with you.

Maybe the OGB-Editorial stuff wanted you to believe that I am funny.

For those of you who read the title before reading the rest of the article, I am only implying your disappointment.

I much prefer the title we use now, which is meaningless in a way that reflects the future and has a final acceptance.

I hope you, the reader, will understand.

While I think it’s a good title, it’s not the first alternative I considered.

After enduring abuse from my friends over the past two weeks as a result of them being stuck in a gym ring to be changed, I thought it should be changed.

It could’ve been a simpler process. The “Funny Shampoo” mock-up seemed more fitting, but I didn’t want the collection to include a new kind of criticism that I am prone to motion sickness, nothing like it.

Leds are hard to shake. I think two Time-Luce long dead fake-tan commercials have already stopped calling that in my head. I like to think I Dew under the radar.

Living in the basement of Johnson helps, but probably not so much did never leaving my room and eating alone.

And yet some friends knew me.

The Johnsonians who are not caught by the RA for being drunk who would knock on my window at 2 a.m. on a Saturday morning (because they knew I was there) or would let them in the back door certainly knew me.
