In his 12 years at the station, he had been focusing on the university’s new capital campaign, is currently handling the beginning of the campaign. If the university turns to private donors, corporate contributions and the help of the alumni association, the university expects a large percentage of the contributions from businesses and individuals in Forsyth County," said James Bullock, an associate professor of politics and a member of the faculty committee. "The campus is really a top priority." Marketing and promoting the campaign, Bullock also said that more than 75 percent of the total intake in the last year came from student donations.

SG devises a plan for seniors to exchange their laptops at reduced prices

By Sandy Salstrom
Gold and Black Reporter

In addition to his administrative and leadership roles, Zick still finds plenty of time to devote directly to students. "I like to hike with various student groups, whether to Hanging Rock or to Macon Mountain. I like to participate in as much as I can just in attending student events," Zick said. "I enjoy the invitations from various student organizations. They are really a top priority.

According to Zick, he receives up to 100 e-mails per day concerning student events. "There is too much to do in a day," Zick said. "I can’t attend every event, yes, but there are so, many different issues and problems for students." Zick said that he sets aside his deadlines for the academic week to work with students. 

"I have talked a lot about focusing on details — evidence in a collection of details as well as big picture view. And that’s something we’ve done very well at getting and very good at modeling for other people," Johnson said.

"We have a career trajectory," Johnson said. "Employees like me think that it was a pursuit that we didn’t expect my career to end in this situation just about the same way." Paul Brown, former WFDD programming director, would handle the situation just about the same way.

"I certainly did not expect my career to end with the station to end with this controversy. But given what happened, I think that I would handle the situation just about the same way," Brown said.

As the first class of the Undergraduate Plan program to graduate with their ThinkPad computers, the Student Government has been working last spring to incorporate student opinions regarding the computers. As part of the Undergraduate Plan, every student entering the university is given an IBM ThinkPad computer to use at the university and keep upon graduation.

As part of the Undergraduate Plan, every student entering the university is given an IBM ThinkPad computer to use at the university and keep upon graduation. The Chance of 5000 makes it a good choice for your computer.

Some seniors are certain about what will happen to their software and whether they will be able to trade in their current computers for a new model.

Student Government president senior Kathleen Jones said that the plans they keep will include several options from which seniors can choose. As the plans stand now, seniors will be able to keep their current computers and all the software except for Maple, Drawango, Web page program, and software. These three programs are designed to be donated because of problems with the licensing of the software. Previously, the university had planned to re­move other software also.

SG has proposed several different options that are being consid­ered by the Student Government, assistant vice president.

Seniors, under the proposal, will have the option of exchanging their current computers and purchasing a new one if they are interested. If students choose to purchase new computers, they will have two models from which to choose. The university will have to be careful because of problems with the de­signing of the software. Previously, the university had planned to re­move other software also.

Meningitis cases hit 50 percent

By Lauree McSwain

Old Gold and Black Reporter

According to Student Health Services, the university has successfully eradicated meningitis, the potentially lethal illness that struck junior Ann Marie Collins about a month ago.

"Approximately 3,000 cases of meningococcal disease occur each year in the United States, and 10 to 13 percent of patients die without receiving medical treatment even in the U.S. Of those who survive, an additional 10 percent have severe after-effects of the disease, including residual hearing loss, meningitis, and loss of limbs," the Center for Disease Control recently reported.

After her stay at the Wake Forest University Medical Center beginning Oct. 6, Collins returned to school and according to her roommate, "I was able to go back within a week or so," senior Keith McFadden said.

McFadden was among those who know about the meningitis case because she had been through it in the mid-August of this year. McFadden said she and her roommate, a second-year nursing student, had been in the hospital from Aug. 20 until Aug. 26.

"I was the first one to be admitted to the hospital," McFadden said. "It was a very challenging situation. Due to the type of meningococcal disease she had, she was unable to have her blood drawn and was treated empirically with antibiotics."

The centers for disease control recently reported that meningitis, a bacterial infection, kills about 1 in 10 patients who are affected and places an additional 10 percent have severe after-effects of the disease, including residual hearing loss, meningitis, and loss of limbs.

McFadden said that she and her roommate were both in the hospital for about a week and a half during this time and that they were both still unable to return to school during that time.

McFadden and Collins were both advised that they should receive a vaccine against meningococcal disease. This vaccine is currently available to students who are at increased risk of meningococcal disease.

"I know that the vaccine is an extremely effective way to protect against meningitis," McFadden said.

According to the Centers for Disease Control and the Benson University Center for Health Services, "No further cases have since come to the attention of Student Health, and the meningitis case is currently considered a single event and will not impact the health of students in general."
Register for support include an addition to ulty endowment. The trustees and Accountancy. The deavors that are still in need of the front of the campaign is under way now. Future en-Another long-term measure at the front of the campaign is finan­cily enforcement. The trustees said that they intend to allocate money to retain and return fa­ulty that are doctrine to work with an institution like this university.

The decisions concerning the campaign are handled by a 12-mem­ber, undergraduate faculty headed by W. Wilson, the entire fac­ulty.
Homecoming recognizes alumni achievement

In Byer McDonald
Old Gold and Black Editor

With autumn approaching, ex- citement spread throughout the university as students com- monly meet with old classmates and reminisce about days gone by. Missy McNally, the director of community rela- tions, said, "Homecoming is a time that we encourage alumni to come back to the university to enjoy the campus and to reac- quaint themselves with old classmates."

The event is a popular one for old friends to have a purpose to get back to college, followed by the induction by the university's old cam- pus. Jennings, an honor student who escaped the poverty, crime and violence of his kid from his school in a decade who obtained an undergraduate degree in a receiving a degree in his field.

The lecture was held Oct. 26 in Pugh Auditorium and was sponsored by the university's Multicultural Affairs, and the American Institute of Agronomy. Suskind, the senior national advisor for the Wall Street Journal, gave the public lecture on Thursday, "The arc of the moral universe is long, but it always curves toward justice." Suskind pointed out the importance of the media in providing the voice of the people. "As the world looks like through you, what kind of best programs be also responsible for advancement. But the same prin­
ciples should apply within the university as well."

The University of North Carolina at Greensboro is a major research institution with a strong focus on undergraduate education. It has a history of producing leaders in various fields, including business, medicine, and the arts. The university is known for its commitment to community service and its efforts to make higher education accessible to all students. The university's mission is to provide a high-quality education that prepares students for success in their chosen fields and for life-long learning. The university is frequently ranked among the best institutions in the country, and its alumni are making significant contributions in various fields. The university is located in Greensboro, North Carolina, and is one of the largest universities in the state. It has a diverse student body, with students from all over the world. The university offers a wide range of undergraduate and graduate programs, including business, engineering, education, and health sciences. The university is also known for its research and innovation, with a strong focus on interdisciplinary collaboration.
AAUP seeks to protect benefits of professors

By Lisa Bogepam Old Gold and Black Reporter

With concerns over academic freedom, tenure possibilities and lack of childcare facing faculty members, many wonder who looks out for the university's faculty. The American Association of University Professors has been filling that void since the 1960s.

The AAUP serves as a watchdog for its members, making sure the university is following the rules and holding the administration accountable for any wrongs done. The AAUP is also a source for information about what happens in faculty meetings and where salaries are handled. It is a fantastic organization for those who want to get involved with their professors and support them. The AAUP is a source that provides a platform for those who are interested in faculty involvement.

The AAUP serves as a resource for faculty, making sure that the university is following the rules and holding the administration accountable for any wrongs done. The AAUP is also a source for information about what happens in faculty meetings and where salaries are handled. It is a fantastic organization for those who want to get involved with their professors and support them. The AAUP is a source that provides a platform for those who are interested in faculty involvement.

However, the AAUP is not without its drawbacks. The organization is not as accessible to everyone, and it can be difficult to get involved with. It is also not always the most effective in getting things done. But overall, the AAUP is a valuable resource for faculty members who want to get involved with their professors and support them. The AAUP is a source that provides a platform for those who are interested in faculty involvement.

Celebrating AACS

by Dan Henry

The AAUP has one important value: it provides the faculty with an independent voice of its own so they can advocate for their interests. It is a self-governing organization free from outside influence. The AAUP serves as a resource for faculty members who want to get involved with their professors and support them. The AAUP is a source that provides a platform for those who are interested in faculty involvement.

The AAUP has been a source of controversy over the years. In the 1960s, the AAUP led a successful campaign to protect academic freedom. In the 1990s, the AAUP played a key role in the debate over the first amendment. In the 2000s, the AAUP has been involved in the debate over the role of religion in public schools.

The AAUP has been a valuable resource for faculty members who want to get involved with their professors and support them. The AAUP is a source that provides a platform for those who are interested in faculty involvement.

The fall sports season usually means football, basketball, volleyball, and soccer, all taking place on the campus throughout the fall.

As this university, this tradition usually holds true as we have football, volleyball, and soccer to look forward to. However, this year the football team has a winning record and is currently 4-0. So why all the attention, you ask? Well, football has been known to attract the attention of the public.

Men’s and women’s soccer and field hockey are dominating the competition this fall.

The field hockey team has a winning record midway through its season. The women’s soccer team, currently 14-2, is ranked third in this weekend’s National Soccer Coaches Association poll.

And the men’s soccer team, despite a loss to Maryland last week, is still 11th in the country according to this week’s NCAA poll.

As fans, we must remember that this season, the next few weeks will continue to do the same and keep our fans. Without their sacrifice, nothing will continue to do the same for the next few weeks.

Kentucky Stadium hosts the ACC Tournament, while Wake Forest Stadium hosts the ACC Soccer Tournament.

It is still has a good opportunity for a post season's ACC game. SUPPORT THEM! Two big conference games are competitive at the highest level in the nation, they are not just for the team but for the rest of their respective sports, the next few weeks, why don’t we argue enough for that answer.

Having a true home-field advantage – that is why the students set the tune. This atmosphere really makes a positive difference not just for the team but the rest of the campus. You have a small, but dedicated student body, and that makes all that much sweeter.

Your team needs and deserves your editorials and support, they sacrifice greatly for the season. They believe in God, or get more of a kick out of the game. Their world is like a piece of heaven on earth.

Of course, not just for the team but for the rest of their respective sports, the next few weeks, why don’t we argue enough for that answer.

Even unpopular wars have heroes.

In early October, reports brew the discredited U.S. documents emerging of a noble, if filthy and agonizing, war. While we should feel bitter shame in Kosovo, we must emphatically walk through the doors of history and the citizen who had never before found myself so involved in these countries - with politics to extinguish the flame of American's potential. We must continue to be involved, to participate in the political process and this country's potential, and, once engaged, to savor the fruits of our labor.

President Clinton's decision to intervene in the civil war in Somalia was a complex, difficult, and ambiguous decision. No one can say for certain that Clinton's leaders, including his administration, fully understood the dangers of ground combat on foreign land. At the same time, it was clear that a humanitarian crisis was unfolding, and the United Nations was unable to provide a solution. The decision was made in the middle of a busy political season, and the administration was focused on the upcoming midterm elections. However, the decision was made in response to a humanitarian crisis and was justified on moral grounds.

After the conflict in Kosovo, there were calls for accountability and a review of the decision-making process. Some argued that the decision was made too quickly, without sufficient analysis of the situation on the ground. Others argued that the decision was made too late, after the conflict had already begun. Regardless of the arguments, the decision was made in response to a humanitarian crisis and was justified on moral grounds.
Baseball's purity highlights a lifetime of passion. Despite its problems, history keeps it alive.

When one remembers what has passed, they typically recall a silver shovel, or clean image, rescued from the multitude that are perhaps not as noticeable, but are the image to that of a baseball field. It is not that it is old, but no one knows.

with that faint dwelling memory that I watched the World Series this past weekend with a heavy eye. Well, not a heavy weeping eye, but a sad yet joyous observation of my beloved childhood pastime.

With the Yankees apparently on their way to another championship, it brought to my attention the way baseball seems to recapitulate everything, these days, during the musty, throwback days of autumn.

We are 12 and 14 years old. The young fans metamorphosed into the ARAMARK institutional society a formality. For example, there were the first two games of the National League Championship Series played, and they dwindled to a formality. They grew to expect the security. The excitement was hit close to home.

It is said the young fans metamorphosed into the ARAMARK institutional society a formality. For example, there were the first two games of the National League Championship Series played, and they dwindled to a formality. They grew to expect the security. The excitement was hit close to home.

What is it that determines the opportunities and price, not the price of living, but the price of living when it's obvious to us that we are entitled to receive bonuses. It's painful to watch, even for a self admitted non-purist when it comes to baseball.

Junior Citrus has the same boring cliches - the crack of the bat, the crackle of the stove, the crackle of the Browns to once we saw them play. We are 12 and 14 years old, and nothing else really matters.

**Men's soccer earns its highest national ranking**

By Sean Raa

A 4-1-0 record in the first six games of the season has theDemon Deacon men's soccer team validated their No. 15 ranking by making its debut at No. 14 in the country, according to the latest College Soccer News National Rankings, released Monday.

"This is a good win for us, a very important game at this stage of the season," head coach Bobby Green said.

"Our team was focused and played well throughout the game. We were able to create several scoring opportunities and were able to capitalize on those opportunities." 

The Deacons took possession of the ball early in the first half and were able to create a number of good opportunities. However, the team was unable to convert those opportunities into goals, and the game remained scoreless through the first 45 minutes.

In the second half, the Deacons continued to pressure the opposition and were able to break through with a goal in the 56th minute. The goal was scored by senior midfielder Erin Regan from a pass by freshman Andy Kiesel.

The Deacons were able to build on their lead and scored three more goals in the second half, extending their lead to 4-0. The fourth goal was scored by senior forward Kalle Siira, who finished a pass from sophomore Andy Rosenbund.

The fourth quarter provided 54 yards of passing offense for the Deacons, which led to a 1-0 victory over the Terps. The Deacons did score two minutes into the second quarter of the game against the Terps, and the Terps were unable to recover.

"This is a big game for us," senior forward Reggie Tadi said. "We were able to get off to a good start and build on it. We're happy to be in this position and will continue to work hard to maintain it." 

The Deacons are now 1-0-0 in conference and 11-4-0 on the season, and they remain in the top two spots in the ACC standings.

**Football team trounces UAB 47-3**

By Sam Lantz

The Demon Deacons suffered a divisive victory over UAB, winning the game 47-3. The Deacons outscored the Blazers 26-0 in the first half and 21-3 in the second half.

"We were able to control the game from the start," head coach Bobby Green said.

"Our defense did a great job of limiting their opportunities, and our offense was able to take advantage of those opportunities and score a number of goals. We're happy to come away with the victory." 

The Deacons dominated the game from the beginning, scoring two touchdowns in the first quarter and another in the second quarter. The Deacons also forced two turnovers and limited the Blazers to just 39 yards of offense.

"Our defense did a great job of limiting their opportunities, and our offense was able to take advantage of those opportunities and score a number of goals," head coach Bobby Green said.

"We were able to control the game from the start, and we're happy to come away with the victory." 

The Deacons will travel to Chapel Hill next week to play the Tar Heels. The Tar Heels are currently ranked No. 4 in the country and will be a tough challenge for the Demon Deacons.

"We have a lot of respect for the Tar Heels," senior forward Reggie Tadi said. "They're a tough team, and we'll have to play well to come away with the victory." 

The Deacons are 4-1-0 overall and 1-0-0 in ACC play. They are currently ranked No. 14 in the country.

Deacons to battle Clemson in crucial ACC matchup

By Sean Roll
Sports Editor

The Deacons hope for a bowl game this season will not come to pass. This week, the focus turns to Clemson.

The Deacons are currently second in the ACC, but a win over Clemson could propel them to fifth, where they are currently. A loss would drop them from third in the ACC.

"This game is the most important of the year and the challenge that Clemson presents is the biggest our team has faced," said head coach Jerry Caldwell. "We have a great defense and to blitz." Caldwell is aware of the significance of this game.

The Deacons' biggest obstacle to overcome will be the Clemson passing attack which has been picking teams apart this season. The Deacons' secondary played very well last week against Alabama-Birmingham and stopped their passing attack.

"We're trying to get better and they present a real puzzle that is the Deacon's bowl game," said Caldwell. "We have a great defense and to blitz." Caldwell is aware of the significance of this game.

The biggest play the Deacs gave up was a 50-yard pass for a touchdown. Duncan already had one interception this season, but a win over Clemson could propel them to fifth in the ACC.

Will the Deacs be able to stop Clemson, or will they continue to play the road to the postseason? The Deacons will find out on Friday, November 6, 1999.

The Deacons' secondary will be relied upon heavily against the Tigers. If the Deacs can stop Clemson's passing game, they should be able to stop Clemson.

The Deacons secondary posters a wealth of speed and ability and they displayed this against Alabama-Birmingham.

The secondary is the first piece of the puzzle that is the Deacon's bowl game hopes and the puzzle is complete.

The Deacons should be able to attack the Clemson secondary, which will be forced to cover the Deacs one-on-one. Senior Jamie Davis has thrown in one-on-one coverage this season as have sophomores Ben Williams and Jordan Moreland.

Clemson is also first in the ACC in pass attempts. The Deacons offensive line will need to hit the Clemson defensive line hard and often to tire them out. The Deacons defense has a strong pass rush of its own, capable of forcing the Tigers to run the ball. The Deacons are second in the ACC and 23rd nationally in sacks. The Deacon offensive line will need to hit the Clemson defensive line hard and often to tire them out. Volleyball overcomes deficits against Duke, Md.

By Vanessa S. Gerald
Old Gold and Black Reporter

The Demon Deacons women's volleyball team improved its ACC record to 7-4 as they swept by the Maryland Terrapins and Duke Blue Devils in matches.

In College Park, the Deacons were able to outscore Maryland in eight of the nine games, the Deacs look to focus on their hitting percentage back to where it was earlier in the season, "we anticipate a lot of success in our remaining ACC matches," Harmsworth said.

In the second game, the Terrapins once again led the Deacons en route to their 3-2 win. As a whole, the team registered 76 kills against our hitting percentage back to where it was earlier in the season," Harmsworth stated.

Anthony Aston players tackle tough subject

By Ernie Hatfield
Old Gold and Black Reviewer

Starting this evening, the Anthony Aston Players proudly present "Du," a somewhat controversial production that deals with the sensitive social issues of rape and abortion. The play's author, Jane Martin, does not take sides on any of these issues and leaves the audience to walk away questioning their own beliefs. Neither is senior Peden Fitzhugh as Du, a member of Operation Re­

traction between Keely and Du is the main idiosyncrasy of human relationships. Having the audience surrounding the stage also made the production technically difficult, Blevins said.

Also, participating in a production con­

taining such profound issues has de­

manded a great deal of effort and develop­

ment of personal skills on the part of the cast and crew, resulting in an intimate, tight­

ed ensemble that is truly fascinating to watch. Du, member of Operation Re­

traction, is a departure from a lot of the theater that is done but this play challenges the audience." Blevins said.

"Though the play deals with abortion and religion in a given context, the relation­

ship between Keely and Du is not the main focus. Not meant as a political statement, the play is about the complexities and implications of human relationships. Emotion and anticipation have been stirring for the cast members and crew, resulting in an intimate, tight-­

ed ensemble that is truly fascinating to watch. Du, member of Operation Re­

traction, is a departure from a lot of the theater that is done but this play challenges the audience." Blevins said.

ed ensemble that is truly fascinating to watch.

The show will be a departure from normal orchestral concerts. In the spirit of Halloween, the band members, as well as the con­

ductor, will be costumed. In addition to the dress code, the concert itself promises to be un-orthodox.

"It's essentially a competition," Hagy said. "You can play more tricks on who... me or me...

"The concerts will begin at the stroke of midnight, in the dark, with the orch­

estra playing their rendition of Beethoven's 'Fur Elise' on the piano. The concerts will take place on Oct. 30 and 31 and are being conducted by university orchestra di­

rector David Hagy. As in previous years, the perfor­

mance coincide with the university theater's production of "Du," member of Operation Re­

traction. Preparing for the play has been hard work for the cast, having to do research to better suit themselves to their roles.
**Fight Club** beats up gimmicks, is knocked out by themes

By Brent McCorkle

Old Gold and Black Reviewer

Let’s see if I can make this analogy clear. Good films are like jellybeans. Each has different flavors. Drama are orange. Comedy is cherry. Sci-Fi is grape. Fight Club is the black jellybean at the bottom of the bag. It’s not sweet. It doesn’t fit in with the others. Some will love it, while others will hate it. But for me, I haven’t quite figured it up my mind.

Fight Club is from the twisted mind of David Fincher, director of such blockbusters as **Seven** and **Alien**. Rarely, if ever, has the film industry created a more unique and defined director. This film contains nearly every shot and contributes heavily to the performances of its lead players. David Fincher seems to have a distinct insight into human behavior and can use science in their creations.

One thing all actors who have worked with Fincher have expressed is his ability to know exactly what he wants and his ability to get the performances he needs. For Fight Club, Fincher has hired a young urbanite played by Edward Norton to follow his buddy’s wife, Helena Bonham Carter. In this manner, Fight Club teeters precariously on the brink of exploitation. That leaves some of the audience to believe that it has such a true representation of any type of value. These blood keep flowing, face keep being waged and the film itself continues mesmerizing viewers until they too become as envious of the Bloodied Fighters. I’m not a fan of these films, but in the absence of any type of Twisted, or justifications for this material, the Violence is simply overwhelming. Oliver Stone’s obsessed film. Natural Born Killers, provides the dark and cinematic composition. This film contains an extraordianry amount of very harsh, very graphic violence and for this reason have been rated for all people six today.

However, the films use content in a natural context in order to comment on the way modern media glutifies violence and journalism those who control these acts. Fight Club, in contrast, examines no such message, or any true identifiable theme for this matter. In the first and best scene, as Norton provides voice over commentaries detailing these moments, disaffection and emotions, it appears the film will take a path similar to American Beauty. As the movie character decides to act on his feelings of meaninglessness. Whereas Kevin Spacey’s character uses his social life to display his interests, and indulging in potting and indulging in his laziness (providing the real weak link in American Beauty), Norton fights. As the character supposed to display the way in which societal norms are creating physiological pain to feel something, right? Honestly, Norton’s character does become happier, or more satisfied or fulfilled. Violence continues, decreases and creates with every new film.

Ultimately, this movie fails because of its inability to produce a theme. Unlike previous efforts such as **Natural Born Killers**, Fight Club does nothing to develop the audience to believe that it has something to say. There is nothing commendable or interesting, and commercialism, but Norton draws this message in a sea of violence and references to expand on these ideas. If society is truly lithe, as the film wants us to believe, then how do we combat it? We’ve gotten up to existential passions, how does fighting allow us to act? Fight Club is too busy trying to shock us to thoughtfully examine the very premises it relies on. The cinematographer is in this case. lemonade.

In this manner, Fight Club is a way the way the audience can help fight against modern society is so detached from reality. The annual event that leaves the audience to believe that it has no value. In this manner, Fight Club is a way my audiences for audiences to see and make judgments about, I don’t personally recommend it because, finally, it is an unfocused mess.

‘Arcadia’ challenges actors, ready for first performance

By Suzanne Rosemblatt

Old Gold and Black

Lumping landscaping, chase theory, sex and history together may be no sequitur for anyone else, but for playwright Tom Stoppard, it’s genius. These are some of the major themes in Stoppard’s 1993 play, “Arcadia.”

The cast has been grappling with the dense work of Stoppard, the renowned co-screenwriter of “Shakespeare in Love,” Don Wolfe, a professor and the chairman of theatre, directs doubles, with assistant director Cindy Gendrich and acting coach Brook Davis.

The play takes place in two separate time periods and involves the characters trying to piece together events that occurred in 1805. Seven scenes alternate between the 18th and 19th centuries, on a set of a large interior room that stays constant throughout the play.

“Arcadia” is like a mystery; there’s a dramatic irony because the audience knows what happened and the character’s don’t, though nothing ever gets resolved until the very end,” said freshman Cary Donaldson, who plays Septimus Hodge.

In order to prepare for their roles, actors have had to undertake some outside research.

“We’ve required them to be speaking in an English accent every time they’re in the building; that’s been really fun for them, I think,” Davis said.

Donaldson shared Davis’ optimistic tone on the upcoming production. “Everybody in the play has his or her own idea about the show,” Donaldson said.

Other principal actors include sophomore Amber Willey as Thomasina Coverly, freshmen Jonathan Horvath as Bernard Nightingale, junior Natalie Cordone as Hannah Jarvis, senior Tara

Freshman Cary Donaldson and sophomore Amber Willey are the focus of a 1960s story in Arcadia. The play starts Nov. 5.

Tatyana as Lady Croom and senior Bill Diggle as Valentine Costa.

The second Mainstage production of the year will be performed at 8 p.m. Nov. 5, 6 and 11 and again at 2 p.m. Nov. 6. Tickets can be purchased in the box office, or by calling Ext. 5051.
