For a long time we believed and the news stories were the best part of the news. This belief has been borne out by the fact that we have been a part of that independent group called "The News." For five years now, we feel that we have remained true to the concept behind "The News," that of being a free and independent newspaper. And we are proud of that, and we are proud of ourselves. We are proud of the fact that we have been able to publish a newspaper that is read by people all over the world. We are proud of the fact that we have been able to publish a newspaper that is read by people who are interested in the news. We are proud of the fact that we have been able to publish a newspaper that is read by people who are interested in the news because they believe that the news is important.
