Comedian Sinbad Opens Annual Springfest

by HARVEY CHAPMAN

Springfest activities officially opened Monday evening with a comedy performance by the nation's most popular comic, Chris Rock. The opening act for the evening was Chip Williams, an up and coming comic who has already performed at several clubs around the nation. Rock's performance was well received by the audience and was followed by the annual Student Council Presidential Debate. The debate was held on the stage of the Student Union and was moderated by Assistant Professor of Political Science, John E. Wilson. The two candidates for President, Mike Adamcyk and Jim Phillips, were given 10 minutes to present their platforms and answers to a series of questions. The debate was followed by a question and answer session where the candidates were asked questions by the audience. The debate was a close race with Mike Adamcyk winning by a narrow margin.

Hearns Appoints Committee to Examine Race Relations

by SCOTT PETERSON

President Thomas K. Hearns Jr. has appointed a committee of faculty members and administrators to examine minority relations on campus. The committee, which is chaired by Assistant Professor of Political Science, Emeka E. Wilson, will conduct the study.

The committee will be responsible for conducting the study, recommending changes to the university's policies and procedures, and developing a plan for implementing the changes. The committee will consist of members from all areas of the university, including faculty, staff, and students. The committee will be responsible for ensuring that the study is conducted in a fair and objective manner.

The committee will be responsible for reviewing the findings of the study and making recommendations to the university administration. The recommendations will be considered by the university administration and will be implemented as appropriate.

Voters Elect Boards

by SCOTT PETERSON

Students elected the members of the fall's board council, judicial board, and student budget advisory committee Thursday night. All students over 18 years of age, including full-time and part-time students, were eligible to vote. The election was held at the Student Union and was open to all students.

The board council is responsible for making decisions on behalf of the student body. The judicial board is responsible for hearing cases involving violations of the student conduct code. The student budget advisory committee is responsible for making recommendations to the university administration on budget issues.

General Speaks on Army Career

by NEIL MCDOWELL

Brigadier General Evelyn P. Peets spoke Wednesday to Defeasable Aficionados before a socially correct crowd on the Joint Service Orientation Program at the Student Union. The program was designed to provide information on the Army and the opportunities it offers for career advancement. General Peets discussed the Army's mission, its role in global security, and the opportunities available to enlisted personnel and officers. She encouraged the audience to consider joining the Army and expressing their interest in serving their country.

Symposium Considers Lifestyle

by LISA LARGO

Students, faculty, and members of the Winston-Salem community explored and debated definitions of quality lifestyles Monday in the Student Union. The symposium was organized by the Student Union and was designed to encourage discussion and exchange of ideas on the concept of quality of life. The symposium included panel discussions, open forum, and a discussion between panelists and audience members. The symposium was attended by over 100 people and was a success.

Footnotes

Each of four panel members delivered addresses on the necessities for a quality of life. They were: Dr. Donald, David Friedende, and Kristina Martinson - gave responses at the conclusion of the discussion. The Last, the assistant professor of philosophy and one of the panel members, said he appreciated the talk that happened and he was happy to hear about the opportunities of activities of a quality of life. He also mentioned that there are new activities the program, which fill people's lives. He also mentioned that the philosophy and the programs emphasize philosophy which can make people feel better and more in touch with their world.

Hotline Lends Added Support

By LISA SANGER Associated Press

A campus hotline, developed and staffed by the Wake Forest police, began operation this week as a support for students who wish to talk to someone about a variety of problems, relationships, alcohol and drugs, and other concerns.

The number for the hotline is 73-8888.

Capt. Chris Cates, the chairperson of the peer counselor organization, said that the hotline began an 8 a.m.-8 p.m. operation starting Friday and Saturday. Cates said that the group is planning to increase the hours of operation next month.

Capt. Cates was called the "bells on the campus new outfit." He believes the hotline will become a source of information and awareness of the peer counselor organization.

Michael Ford, the associate dean of students for development and an advisor for the peer counselor program, said that the hotline is a "counseling service for the student body.

Ford and Cates both emphasized that the hotline is an anonymous system that keeps the names of all inquirers confidential.

Ford said that feedback from the counseling center showed that the hotline is a "service to address student needs." Ford noted that the "rightiggiter" for the hotline grew from a concern of students to answer the final need of classes. Ford said that he feels that the hotline can be a source of help to students concerned with "sensitive" issues.

The student council is holding a membership drive this month for students who are interested in the development of the hotline and who are willing to shape their enthusiasm with the help of students and faculty. Applicants may be current students or may be prospective students who are looking for a job.

The number for the hotline is 73-8888.

DROUTH

The Quad Drop provided an opportunity for students to get rid of some of their most prized possessions, including jars of nonperishable and watermelons. Television, however, were not dropped because of their presence. (See story page 1).

Student Alumni Council Begins Drive for New Members

Old Gold and Black Staff Report

The student alumni council is holding a membership drive this month for students who have been interested in the development of the hotline and who are willing to shape their enthusiasm with the help of students and faculty. Applicants may be current students or may be prospective students who are looking for a job.

The number for the hotline is 73-8888.

Catholic Campus Leaders Avoid Research Grant Chaos

By MARY SANGER Associated Press

Washington, D.C. — A student government group increasingly important with the funding of research and educational programs was preparing to meet in Washington this week.

The group, called the National Science Foundation (NSF), is responsible for billions of dollars in research funds for the nation's universities.

At issue was the question of whether the NSF would continue to support the nine-year-old National Science Foundation, which is responsible for the distribution of research funds.

The panel, said that the panel may not be able to continue because of the NSF's budget constraints. The panel, said, is expected to continue.

The panel, commissioned by several higher education lobbying associations, also wanted college liaison officials to encourage students to accept opportunities to which Congress has access their requests for funds.

The panel, said, may not be able to continue because of the NSF's budget constraints. The panel, said, is expected to continue.

The panel, commissioned by several higher education lobbying associations, also wanted college liaison officials to encourage students to accept opportunities to which Congress has access their requests for funds.
The Rev. Virginia Bean, director of Winston-Salem Crisis Center, and the final member of the panel to speak, charged that one of the most critical problems facing America today is the "ability of people to group what the quality of life is for the poor." Bean said that the national poverty line is non-existent for many of the 35 million Americans living below the poverty line.

Bean added that myths perpetuated by society lead people to believe that "anyone who tries will make it." She said people's refusal to recognize the true cost of maintaining the reality that poor individuals "have been control over their quality of life."

**STUDENT GOVERNMENT Resolution Elicits Response from Biology Department**

I was both supported and curious to see the vote on the issue. The Biology Department, like many other departments here at Wake Forest, has been historically and traditionally wary of student involvement and influence. However, this vote, although controversial, was a step in the right direction. The biology department has shown that it is possible for student voices to be heard and for student participation to be valued.

Ronald V. Dimock, Jr.
Chairman of the Biology Department

**WILL KNECHT, VICE PRESIDENT**

I was surprised by the vote on the issue. The biology department has historically been resistant to student involvement, and I was pleased to see that they have finally taken a step forward. The vote was a necessary step towards making the biology department more inclusive and open to student input.

Mike Smith, Vice President

**JAN CORPENING, SECRETARY**

The vote on the issue was a step in the right direction. It shows that the biology department is willing to listen to student input and is open to change. I hope that this will continue to be the case and that the biology department will continue to involve students in decision-making processes.

Kevin Church, Treasurer

**TAYLOR BOSWICK**

The vote on the issue was a necessary step towards making the biology department more inclusive and open to student input. I hope that this trend continues and that the biology department will continue to involve students in decision-making processes.

Melissa Lavey

**RICKY L. DABOCCO**

The vote on the issue was a necessary step towards making the biology department more inclusive and open to student input. I hope that this trend continues and that the biology department will continue to involve students in decision-making processes.

Kapenco
Rob Duckwall's careful study of the human anatomy reveals how the eye is on the move through the body's interior. As the eye moves upward, the image appears to swell, representing the movement of the body. Duckwall's oil painting "Two Loves" represents the anatomy of a male and female, and their minds and bodies are made to flow as one as the eye moves from the inner core of the painting to be fully engulfed into each other against a backdrop of mood lighting, which can be adjusted with security and serenity, and a passionate red.

Dr. Duckwall's use of colors in the oil on canvas "Mack" results in a painting. Vivid, glowing colors make up the eye and face which are set against a black background.

David Lea's "Two Mountains," appropriated from George O'Keeffe, effectively uses the technique of the animation.

Overall, the exhibit is an impressive one, marked by only a few works whose creators appear to lack the originality and skill which make up the majority of the artistic presence.

Clockwise has Impeccable Sense of Timing

By GARLAND KINNEM

The public is cordially invited to enjoy this glossary of musical art. Sharle Messner will start learning from the information desk on Box 250 at 2:00 and continue until the service begins at 3:00.

Theatre firms, the president of the Clockwise is the membership to the church. Although the group is predominantly black, students of all races and denominations are welcome. The group can fill formal with any campus ministry organization such as the Black Christian Fellowship or the Baptist Student Union. It moves from many segments of the Wake Forest population and maximum. It is a healthy diversity in background and capabilities as clearly established in this highly spiritual atmosphere.

David Dideon represents the physical and emotional qualities of love in his works. Dideon's use of a pattern of orange and white colors draws the viewer into the "Triumph of Loving Life." When the eye sees the couple, those who are placed against a light blue background, a feeling of isolation over the viewer and one is transported for a way. At the same time, the colors still call for some of the elements of the scene which create a "mood" for the" life." Clockwise does not affect the changing physiology of the body in motion.

Great attention to anatomical detail is also given to the figures in Duckwall's pencil drawing. "The end of the Killeen Days." The skill of use light enhances the definition of the definitions of form and mass. Many of us are familiar with the titles and capabilities are clearly established in this highly spiritual atmosphere.

Note that the "milky" image of the cylinder spins, it produces the image of the men running in a circle. The image is obtained with the skill of the use of a paintbrush. The result is a visually effective representation of the sweep of the wall.

"I love my life," says Ken Stimpson, who has appeared on several films including two of the most successful figures in British comedies.

Comedian Sinbad provides laughs to Open Springfest

By DONNA BOWMAN

Springfest kicked off its 9th celebration with an "open" performance by Sinbad, a nationally known comedian. Wake Forest students may remember Sinbad from his rise to fame roles on "The Cosby Show" and "The Bill Cosby Show." He has been signed to a regular role on the new Cosby show starring Lisa Rinna, which is expected to open in Spring 1987.

Kacey Venglik's use of striking colors in her oil on canvas "Mount Exhibit." The use of orange and white colors captures the spirit of the movie quite nicely. Cleese and Black Staff photographer.

"The great delight and enjoyment of our music in scheduling an auditorium, when the eye is on. The remainder of the time is spent attempting to have the music students reheat the music students from the Washington-area school. The music students are given a new look at the organization that makes us aware of the time they spend at work. Clockwise is currently playing at University Plaza.
I feel her whole head is out... This is getting even more intense!

Nothing impresses
An employer like
Dropping out of
School every
once in a while.

After several years of intense study, a lot of college graduates leave their study fresh for something. They're not satisfied with their study for the time. Fact is, many graduates have a career in their field of study. After their time spent in study, not enough experience to fit into any particular or economic group. You don't need to be a straight'A' student either. All you really need to do is earn enough to leave school.

Co-op Education
You earn a future when you earn a degree.

When my friends and I graduated from high school, we all took part-time jobs to pay for college.
They ended up in car washes and hamburger joints, putting in long hours for little pay.
Not me. My job takes just one weekend a month and two weeks a year. Yet, I'm earning $18,000 for college.
Because I joined my local Army National Guard.
They're the people who help our state during emergencies like hurricanes and floods. They're also an important part of our country's military defense.
So, since I'm helping them do such an important job, they're helping me make it through school.

As soon as I finished Advanced Training, the Guard gave me a cash bonus of $2,000. Then, under the New GI Bill, I'm getting another $5,000 for tuition and books.
Not to mention my monthly Army Guard paychecks. They'll add up to more than $11,000 over the six years I'm in the Guard.
And if I take out a college loan, the Guard will help me pay it back — up to $1,500 a year, plus interest.
It all adds up to $18,000—or more — for college for just a little of my time. And that's a heck of a better deal than any car wash will give you.

THE GUARD CAN HELP PUT YOU THROUGH COLLEGE, TOO. SEE YOUR LOCAL RECRUITER FOR DETAILS, CALL TOLL-FREE 800-638-7600, OR MAIL THIS COUPON.

Power Plant

Residents of Babcock Dorm yesterday did not immediately open the front door to the fire alarm that sounded around 8:30 p.m. Monday night. "I can understand why the fire alarm was not dropped," said an unidentified woman who was on the second floor of the dorm. "My room is on the third floor and I was afraid to open the door. My first reaction was to get up and lock my door."

The woman said she was not sure how tall the man was who knocked on her door, but added that she did not see anyone trying to enter her room. She said she was not scared and did not feel threatened by the incident.

The fire alarm was caused by a malfunction in the fire alarm system, according to a spokesperson for the university's fire department. The department said that the fire alarm was not a threat to the safety of the students who were inside the dorm at the time.

Six pairs of runners-up participated Wednesday night in the Baccalaureate Quiz, which was modeled after television's "Family Feud." The contestants included several members of the university's fraternities and sororities, who were trying to win $200 to help fund their end-of-the-year activities.

In the first of his knowledge categories, Gregory said that, despite the success of the first six such quiz nights this year, he also said that he and his friends are doing a key system for South, Babcock and West Halls and could not be reached for comment on the event. Other questions included information on the university's license to operate.

"We were just doing what every college student does — I had just answered my phone," one contestant said.

"I can't say how many more than one contestant said that he had to go to bed because of the quiz. Usually, the rule is to close the door because someone has interrupted the quiz."

Deacons Edge Out Tigers, Duke, Take Sixth Place in Conference

By R.B. THOMAS

The Wake Forest track team cut its losses in the ACC Championships last weekend in Atlanta, Ga., with some stellar performances, as well as the latest placement ever for Wake Forest in the ACC.

The team placed sixth overall, edging out Duke and Southern Methodist University, and finishing behind the top six teams, respectively. Sophomore Steve Wade-Wolgan won the 400-meter race, breaking the school record in the process. Wade-Wolgan's time of 48.35 shaved the old record of 48.42 set in 1983 by Donnie Beavers. Senior coast to coast John Goodridge for good measure, sweeping away the 4000 meters with Deacon runners, and sophomore Matt Riddick in the mile with Deacon runners, who picked up "the challenge of the others" in the 800-meter race.

"That proved our national class and won't play either to the bad to the bad," said the competition. The free can go after the 5000 meters at Pullman as one of the favorites and live up to the momentum. "I was going try to run the race at National Qualifying meet and lead heat as long as I could," said Wade-Wolgan.

Goodridge was "very much about the possibilities" of the previous meet. "We can now expect to run in a meet of sport for Wake Forest on the best of our recruitment, in the upper half of the conference. We're capable of pulling the distance and middle distance events in the meet, even with a late start recruiting, because of our current potential in runners," said radiator and distance runner, "and our current performances out of Wade-Wolgan and Becker.

The plan for the rest of the season, Goodridge said, will be to follow the momentum for "Minutes of the conference." The plan is to "go for the final position," Goodridge said, "as we were a heat shot put, and will be "out for the final position," Goodridge said. "We were a heat shot put, and will be "out for the final position," Goodridge said.

"The Wake Forest men's track team finally finished in a tie for seventh place at the ACC Championships held in Atlanta, Ga., and finished with nine individual bests in the competition. The free can go after the 5000 meters at Pullman as one of the favorites and live up to the momentum. "I was going try to run the race at National Qualifying meet and lead heat as long as I could," said Wade-Wolgan.

Steve Bordera fouled a bunt single, but Wake Forest pitcher Frank
Humber retired the next three The
Beavers to preserve the win.

Humber (0-0) finished the game by giving up one hit and no
runs in while striking out nine.

"Frank pitched a great game of
baseball going the whole run,"
Cramer said.

"My fastball and curveball were
both working well, and I was just doing
what was working well," Humber said.

Right.-saber Rob. Humber, and
catcher Felder. Wake Forest both
shutout home runs in to shake the
Ducks comeback, and both finished
the game with two REI each.

Wake Forest's record stands 1-12-2 after the weekend against
blackened and Virginia on Saturday and
Sunday, respectively.

Golf

From Page 10

The Ducks began their con-
frontation on the final date of the last day by a 10-stroke win over Texas, and
Virginia and Michigan State rem-
ains tied for the lead. However, bringing the Ducks even closer than
the two favorites, the team is not yet on the Wake Forest team.

The ACC Tournament has
been difficult in recent years for the
Ducks. Wake Forest has not
advanced to the championship since 1991. But in 2017, the Ducks won six
and Wake Forest will compete in the
Carolinas Invitational Tournament, a
member of the ACC, with North Carolina, Virginia, and Georgia being
the defending champions. Wake
Forest will compete in the Tiger
Open in Georgia, the ACC stands as a
month, but the men's team will go
down to compete in the Walker Cup.

Now there's more than one way to get through college.

If you want to get ahead in college, it helps if you choose a brilliant roommate. Like a Macintosh® personal computer. And now there are two models from which you can choose.

First, there's the Macintosh® Plus—now widely accepted by students at colleges and universities all across the country. It comes with one 800K disk drive and a full megabyte of memory (which is expandable to four).

For those of you who need even more power, there's the Macintosh® SE. It comes with all of the above, as well as a built-in 20-megabyte hard disk, for storing up to 10,000 pages. Or if you prefer, you can add a second built-in 800K floppy drive.

The SE also gives you a choice of two new keyboards, one with function keys for special applications. And it has an internal expansion slot so you can add new power without performing major surgery. Like a card that lets you share information over a campus-wide network. Or another that lets you run MS-DOS programs.

With either Macintosh, you'll be able to take advantage of the latest, most advanced software. Like idea processors that outline your thoughts. Word processors for writing, editing and checking your spelling. And communications programs that give you 24-hour access to valuable information.

So no matter which model you decide on—you'll be able to work much faster, better and smarter.

The power to be your best.
