Many New Faculty Members Have Old Ties with Wake Forest

New Faculty
Fourth in a Series

By: Laura Collins

As the university grows, so do its ties to the place that has long been a home to many Wake Forest students.

A member of the National Panhellenic Council will visit Wake Forest next week to discuss the importance of joining sororities.

National Panhellenic Council Representative to Visit Wake Forest Next Week To Meet with Each Society
By: Miss McKeen

A member of the National Panhellenic Council will visit Wake Forest next week to discuss the importance of joining sororities. The representative, who will meet with each society in the S.O.P.H., will discuss the benefits of sorority membership and answer any questions students may have.

The representative will visit Wake Forest on Oct. 5 to meet with each society. She will discuss the importance of sorority membership and answer any questions students may have.

Societies to Discuss Possibility Of Joining National Sororities

At the meeting on Oct. 5, the representative will discuss the benefits of sorority membership and answer any questions students may have.

Asian Studies Programs Expand Course Offerings

By JONATHAN YANG

Five months after the retirement of its founder and director, Richard F. Bilhuber, the Asian Studies Program at Wake Forest University will expand its offerings significantly this fall. The new program director, Alan C. Kueck, has designed a number of courses that will allow students to pursue a minor in Asian studies.

The current program, which is limited to two courses, will soon be expanded to four courses. The new courses will include: "Introduction to Modern Japan," "Introduction to Chinese," "Introduction to Southeast Asia," and "Introduction to South Asia." The four courses will be offered in the fall of this year, as well as in the spring of next year.

The new program director, Alan C. Kueck, has designed a number of courses that will allow students to pursue a minor in Asian studies. These courses will be offered in the fall of this year, as well as in the spring of next year.

The new program will provide a range of courses in modern and ancient Asian history, literature, languages, and cultures. The courses will be taught by a team of world-class scholars who are experts in their fields. The program will also offer a minor in Asian studies, which will allow students to deepen their knowledge of the region.

The program will be housed in the Department of Asian Studies, which is located in the Wake Forest University building. The department is equipped with state-of-the-art facilities, including a research lab, a library, and a conference room.

The program will also offer opportunities for students to study abroad in East Asia, Southeast Asia, and South Asia. The program offers a number of scholarships to support students who wish to study abroad.

The program is free of charge and open to students of all backgrounds. The program is open to all students of all backgrounds and is not limited to Asian Americans. The program will provide a range of courses in modern and ancient Asian history, literature, languages, and cultures. The courses will be taught by a team of world-class scholars who are experts in their fields. The program will also offer a minor in Asian studies, which will allow students to deepen their knowledge of the region.

SAA Recreates 1960 Sit-In with Building Bash

By Forest Vacans

SAA recreates the sit-in that occurred at a Woolworth’s in downtown Winston-Salem, 35 years ago, in an attempt to educate students about racism on campus and try to break down stereotypes.

"The exhibit, a wooden lunch counter, grill and backdrop for their stationary re-enactment of the event, was a student effort," said Williamson. A 35-year-old man has been arrested in connection with breaking into a car and stealing a laptop computer.

Benson From Page 1

Who said Benson taught him for 47 years and gave him the opportunity to attend Wake Forest.

In a letter to the News & Record, the former professor of mathematics and computer science said his retirement was due to "a desire to pursue new and different opportunities in the field of mathematics and computer science."

Calhoun is largely responsible for the addition of the Percus Humanities

Center, including the Percus Library.

Benson's many years of dedicated service to the University are greatly appreciated by the students and faculty.

A portrait of Clinch L. Benson Sr., who was credited by his colleagues, both Wake Forest graduates, the University community remembered with a ribbon-cutting ceremony on the day of the event.

Approximately 15 students gave him the gift of a lifetime to whiskey.

In addition to his $1 million gift, Benson has given several other gifts, including a $1 million gift to the Wake Forest Foundation. William B. Wilkins, the founder of the foundation, said he planned to make the gift in two installments of $50,000 each.

The Wake Forest Foundation and the Carnegie Foundation gave $100,000 each, with a total of $12,000,000, to the University, said the rest of the money was donated by the Benson family.

The ceremony was attended by a diverse crowd of students, faculty, and alumni.

SAA contacted other students from both Wake Forest and SAA.

Bowman Gray Receives $500,000 Brenner Grant

The Brenner Foundation has awarded the Bowman Gray Hospital Medical Center a $500,000 grant to establish a new pediatric intensive care unit and related equipment. The fund, which will be known as the Bowman Children's Hospital Endowment, was announced jointly by the Brenner, president of the Foundation; Richard Harney, executive vice president for health affairs of Wake Forest; and executive vice president of the Bowman Gray School of Medicine; and Lee B. Pressler Jr., president of North Carolina Baptist Hospital.

Harold River, speaking for the Foundation, said, "We are pleased to continue our commitment and make this gift in effort to provide excellence in pediatric healthcare and all that it entails." The renovation will provide space for preeminent of the new pediatric intensive care unit which will be known as the Bowman Children's Hospital, said the president.

The Brenner Children's Hospital was established in 1986 through a grant from the Brenner Foundation, which funded the construction of the Children's Center at the Children's Hospital. The Center is a world-class facility that provides comprehensive care for children with cancer and related diseases.

The Brenner Children's Hospital is expected to have 12 pediatric intensive care beds and related equipment. The facility will be connected to the Children's Center, which is expected to open in the spring of 1991. The Children's Center will provide comprehensive care for children with cancer and related diseases.

The Brenner Foundation is a private, non-profit organization that supports the Bowman Gray Hospital Medical Center and its affiliated institutions. The Foundation is committed to providing the finest healthcare possible for all children, regardless of their ability to pay.

The Student Newspaper of Wake Forest University in 1966

**EDITORIALS**

**The National Scene**

A few years of attendance at Wake Forest have taught me that politics is the issue of the day. Perhaps it should go without saying that we as students should track the events and issues taking place on this campus. Whether it is the issue of pork barrel politics or the matter of college presidents, there are always interests and considerations that students need to be aware of. Thus, it is important for us to understand the context in which these events are taking place.

**Don’t Forget to Vote**

To the leaves falling, the sky in height, the joy in the joy that is life for you and me, the politics of the campus and the politics of the United States do not come to mind. Yet, in this election, there is a need for us to think about the issues and the candidates running for office.

**Why? Why? Why?**

Sunday’s dedication brought two newsmakers and, undoubtedly, passionate public speakers to the Wake Forest stage. It was a great event for us students to witness.

**Pure Fiction**

The student column "Animal Rights" by John S. Davis discusses the issue of animal rights and their implications on the future. The column argues that it is important for us to consider the ethical implications of our actions on animals.

**Fantasyland**

Beaumont Vance’s article "Classifying the People: The Right to Own, the Right to Sell, the Right to Kill" raises important questions about the rights of individuals and the responsibilities of society.

**LETTERS TO THE EDITOR**

**His Father’s Words for the Census Bureau**

**Antar” is a Large Price To Pay**

Par Tetly presented a worthy case in his article “Treating That Place: Richard Tanfill-Moore” for the importance of mental health awareness and the importance of seeking help when needed. He argues that sometimes, there is a stigma associated with seeking help for mental health issues, but it is crucial to recognize that help is available.

**Jeff Chapman, Student Columnist**

For some, the idea that humans are more intelligent than animals is simply a matter of opinion. However, the author of "What’s next? Pee Wee Herman in the ’90s" argues that perhaps this belief is not entirely baseless. He suggests that perhaps there is something to be learned from observing the behavior of animals and using this knowledge to inform our own behavior.

**Andrew Ludeman**
Campus Clean-Up Not Just for Alumns

I would like to comment on something I felt was a misperception of the students and the administration toward the recent campus clean-up. It is my understanding that the idea of “cleaning up” was one of the last mandates of the former University president, who, according to our sources, was very well known for his sternness toward the students. It is my understanding that he was not pleased with the condition of the campus, particularly the dormitories and the bathrooms. He felt that they were not clean and that the students were not taking care of the facilities. He felt that the students were not respecting the property of the university and that they were not following the rules and regulations of the institution. He believed that the students were not contributing to the community and that they were not doing their part to make the campus a better place to live.

Furthermore, I believe that the students are not aware of the importance of maintaining a clean and healthy environment. They are not aware of the potential health hazards that can arise from a dirty environment. They are not aware of the impact that a clean environment has on their mental and physical health. They are not aware of the impact that a clean environment has on the natural world. They are not aware of the impact that a clean environment has on the university’s reputation.

In conclusion, I believe that a clean environment is not just for alumns, but for everyone who lives on the campus. It is not just a matter of appearance, but a matter of health, safety, and respect. It is not just a matter of responsibility, but a matter of obligation.

Mike Duke

Unethical Treatment

As a people for the Ethical Treatment of Animals, we have received disturbing reports of unethical treatment of animals at various laboratories throughout the country. We feel that the administration of the university should take immediate action to investigate these reports and to ensure that the animals are treated humanely.

The reports that we have received indicate that the animals are being treated in a manner that is inconsistent with the principles of animal welfare. The animals are being subjected to conditions that are not conducive to their physical and mental well-being. They are being subjected to pain, distress, and suffering. They are being subjected to conditions that are not in accordance with the principles of animal welfare.

We urge the administration of the university to take immediate action to investigate these reports and to ensure that the animals are treated humanely. We urge the administration to ensure that the principles of animal welfare are upheld. We urge the administration to ensure that the animals are treated with the same care and respect that is afforded to humans.

In conclusion, we believe that the administration of the university should take immediate action to ensure that the animals are treated humanely. We believe that the administration should ensure that the principles of animal welfare are upheld.

Michael Williams

BSA Eases College Transition

By a black female at a predominantly white university, it is all too easy for students to lose sight of their identity and their cultural heritage. It is all too easy for students to feel isolated and disconnected from their community. It is all too easy for students to feel like they are alone.

In this particular case, I believe that the administration of the university should take immediate action to ensure that the student feels included and connected to the community. I believe that the administration should provide resources and support to help the student navigate the transition to a predominantly white university. I believe that the administration should provide opportunities for the student to connect with others who share their cultural heritage.

In conclusion, I believe that the administration of the university should take immediate action to ensure that the student feels included and connected to the community. I believe that the administration should provide resources and support to help the student navigate the transition to a predominantly white university.

Let the PARTIES Begin...

Students Work for Both Sides of N.C. Senatorial Campaign

By David Britt
Campus Coordinator, N.C. Democrats Party

“The student involvement in this campaign so far has been about five times what it normally is... It’s really surprising.”

David Britt, the campus coordinator of the Democratic Party in North Carolina, said he was pleased with the energy the students have shown so far. “We expect to have more students involved in the coming weeks and months,” he said.

Issues Spark Interest in Senate Race

Abortion, the environment, education and foreign funding of the arts — the explosion of issues has sparked student activism. College Democrats, the political arm of the campus, have been forced to deal with these issues. The party has been criticized for their apathy toward political issues, but Britt said that students have gone from being politically passive to politically conscious.

But a newly formed group, a free Soviet Union, has won the support of many students. The group has been hard at work, and the students have been very active. "We have more students interested in the campaign," said Britt.

Large Numbers Register to Vote

The registration drives sponsored by student groups across the state this year have registered large numbers of students. "We expect to register 15,000 to 20,000 students this year," said Corrigan. "We are working to involve as many students as possible.

The groups also attend rallies, fundraisers and speeches, political rallies — these still evoke images of the prevailing attitude of activism on college campuses in the late 1960s. Although the media campaign has been wrought with negative ads, students are thinking about the issues involved.

"Issues that are really important to students," said Corrigan. "We are working to involve as many students as possible.

The candidates are fighting on the partisan level, but their personalities are really the only ones who can make a difference," said Corrigan.

Clemson Tigers
The Tigers hope to achieve all for Atlantic Coast Conference

Georgia Tech
The Yellowjackets are high on the ACC's top five.

Clemson, N.C. State Win Important Conference Matchups to Stay in ACC Race

North Carolina Tar Heels
North Carolina needed a dominating loss when Wolfpack laid down another 38-27 loss.

Virginia Cavaliers
Virginia must be victorious in the top five

Last year we made over 14,000 students Wall Street Tycoons in the...
Sophomore George Coghill has many things working in his favor as he prepares for the big Atlantic Coast Conference games this season. He was a starter in the defensive unit in only his second year starting at Wake Forest.

He competed in the triple jump at the 1990 ACC Track and Field Championships and finished fifth. He has split time at both tailback and fullback this season.

Coghill was a member of another prestigious team this past spring. He's a high-level student-athlete in quite an accomplished group at Wake Forest.

Coghill gives much of the credit for his success in the classroom to his mom, who always repeated the importance of good grades to him.

In particular, Coghill said he credited one incident earlier in his life which had a profound effect on his outlook towards education. "If you were in the eighth grade, you had to have a 2.0 GPA to play basketball, and I always loved basketball," he said. "It really hurt me, and ever since then I've realized the importance of good grades.

One of the main reasons Coghill chose Wake Forest was because of the learning environment. I could have gone to UNC and Maryland and been in lecture classes with hundreds of students, but I would rather be in classes of 25 or 30 students where it's much easier to learn," he said.

Coghill is a sociology major and has a particular interest in deviant behavior. He also loves detective shows.

"It has taught me about the psychology of people," he said. "You have to be tough to play professionally in any type of game situations, regardless of sport. It's fourth on the wall with 10 tackles through the first four games this season. He had made 19 unassisted stops, one of those for a loss, and had five assisted on eight tackles.

Coghill has also shown a flair for the big play with one fumble recovery and a team-leading two interceptions. He says the highlight of his Demon Deacon career so far was beating North Carolina 17-16.

"Everybody wants to beat Carolina," Coghill said. "We've won pumped up for them than any other team.

Coghill feels the team is too ready for today's showdown against the Tar Heels in Groves Stadium. "We have confidence and enthusiasm this year, unlike the past year when we just sat a few key plays away from being competitive," he said.

Coghill also feels that a more vocal crowd could really help the team.

"It's great to be in front of the fans," he said. "You can feel their excitement in the stands.

But football is only one of many areas in which Coghill excels. As a student-athlete, he has the most experience at the position.

"He parted Jonathan Hall, but Burnett will start at flanker, Joey Jauch will start at free safety, and B.J. Runyon will start at strong safety," said Coach Bill Dooley.

"So we had to replace three-time All-ACC selection Jonathan Hall, but Burnett is a solid experienced player," Dooley said.

Sophomore sophomore corner back George Coghill returns a picked intercept 72 yards for a touchdown against Army last week.

The Demon Deacon football team and Head Coach Bill Dooley begin the most important portion of their season tomorrow as they play the North Carolina Tar Heels in Groves Stadium. Kickoff is set for 1 p.m.

Saturday's game will be the 64th in a series of 46 between the Demon Deacons and Tar Heels. The Demon Deacons hold a 27-25-2 record against North Carolina.

Saturday's game will be the 27th in the series to be played in Groves Stadium. In 1983, the Demon Deacons won the last game in Groves Stadium 15-7.

North Carolina returns 14 starters on offense. Junior quarterback Donnie Maxwell (6-0, 225) is the most experienced quarterback and will start at tailback. The Demon Deacons lead the series 29-25-5.

"It's the most balanced team we've faced so far," Dooley said. "They return 14 starters.

One other area that will be important against the Tar Heels is the defensive unit in only his second year starting at Wake Forest.
Women's Golf Team Wins Yale Tournament

UNC

The team finished with a score of 624, 64 strokes ahead of their closest competitor. Not only did the team capture the title, but four of the five members scored in the top 50 of all the golfers.

Sedeno Leads Men's Tennis Team at Duke

By Tony Karr

The men's tennis team began its fall season at the University of North Carolina Greensboro September 26-30. The tournament was a regional event featuring such teams as North Carolina, Duke, N.C. State, Virginia, Maryland, Virginia Commonwealth, Temple and Campbell. Wake Forest sent eight players to compete against three doubles and singles, with Jimmy Sage, Seth Medoff and Tyler Bell all advancing to the second round. Sage played into the third round, while Medoff and Bell alternated between first and second place in the second round.

In the first round Sage defeated Stephen Hahn of N.C. State 6-4, 6-1. In the second round he drew a player from Wake Forest. Medoff played four singles players and two doubles teams into the second round. The second round teams in singles were the doubles winners and singles runners-up from the first round.

Sedeno, ranked 16th in the nation, posted the best results in Flight A singles, advancing to the quarterfinals.

In the first round he defeated Stephen Hahn of N.C. State 6-4, 6-1. He lost his second round match to Merci Turner of Virginia Tech 6-4, 6-2. In the follow-up match he was defeated by Michael Leonardi of Duke 6-4, 6-1. Participant Jane Austin, playing in Flight B doubles, found herself in the consolation matches in Virginia Tech, winning against Partner Daniel Hoke of Virginia Tech 6-1, 6-3. In the consolation final, she beat Partner Michael Hoke of Wake Forest 6-2, 6-4.

In the second round, Sedeno and Austin defeated 16th-seeded Merci Turner of Virginia Tech in a straight-sets match 6-1, 6-2, and were beaten by Partner Michael Hoke of N.C. State 6-7, 7-0 in the consolation.

In Flight A doubles, the freshmen team of Austin and Turner lost to Austin Hoke from N.C. State 6-7, 7-0.

Women's Tennis Team Places Three in Finals
At Lady Gammecock Fall Tennis Team Classic

By Paul Maxwell

Wake Forest's women's tennis team traveled to the Lady Gammecock Fall Women's Team Classic at South Carolina last weekend and competed against seven teams in a double elimination tournament. Among the participa-
tors were Alabama, Coast Guard, Davidson, Duke, Old Dominion, Virginia, and Wake Forest. Two players in singles and one doubles team advanced to the finals, only to be called off due to rain. The Women's Head Coach Lew Gerrard said, "The girls played extremely well. At this stage of the year, I'm very pleased with the performance of the players who played." Freshman Cathie Miron, playing in Flight A singles, was three matches to advance to the finals before falling to Susan Dale of Duke 6-4, 6-4.

Before falling to the finals, the best three flights of Duke 6-4, 6-4, Alabama, and N.C. State 6-4, 6-4, and数字 Burgos of Colon 6-5, 6-3, 6-3. The number one doubles team also advanced to the finals but fell to Susan Dale of Duke 6-4, 6-4.

"Our young team is doing extremely well, and I'm proud of the performance of the players," Gerrard said.

In Flight A doubles, the team of Menin and Barker advanced to the finals by winning over South Carolina 6-3, 6-4, and were defeated in the consolation final by a team from Tulsa 6-4, 6-2.

"Our team is doing extremely well, and I'm proud of the performance of the players," Gerrard said.

In Flight B doubles, the team of Wake Forest defeated South Carolina 6-4, 6-4.

"Our team is doing extremely well, and I'm proud of the performance of the players," Gerrard said.

The Demon Deacons' next match will be at the University of North Carolina at Chapel Hill 6-4, 6-4, after which they defeated Amy Hine of Charleston 6-4, 6-3, and Nick Thomson of University of North Carolina 6-4, 6-4.

"Our team is doing extremely well, and I'm proud of the performance of the players," Gerrard said.

In Flight A singles, Sedeno lost to worshipful Bryan Jones of Wake Forest 6-4, 6-4. In the consolation final he was defeated by Michael Leonardi of Duke 6-4, 6-1. Participant Jane Austin, playing in Flight B doubles, found herself in the consolation matches in Virginia Tech, winning against Partner Daniel Hoke of Virginia Tech 6-1, 6-2. In the consolation final, she beat Partner Michael Hoke of Wake Forest 6-2, 6-4.

In the second round, Sedeno and Austin defeated 16th-seeded Merci Turner of Virginia Tech in a straight-sets match 6-1, 6-2, and were beaten by Partner Michael Hoke of N.C. State 6-7, 7-0 in the consolation.

In Flight A doubles, the freshmen team of Austin and Turner lost to Austin Hoke from N.C. State 6-7, 7-0.

You asked for a computer that's real college material.

We heard you.

The ideal computer for college needs certain things. Like a mouse, to make it easy to use. Preloaded software, that’ll let you create impressive papers with graphics and spreadsheets. And great tools, like a notepad, calendar and cardfile. It should also be expandable, so it can grow with your needs.

The IBM Personal System/2® has all this at a special student price.* And if you buy before December 31, 1990, IBM Model 8530-U31

- 1 Mb memory
- IBM Mouse
- 80286 processor
- 3.5-inch diskette drive (1.44 Mb)
- 30 Mb fixed drive
- 8513 color display
- Microsoft Windows
- 3.5 Mb fixed drive
- ZSoft SoftType
- 30Mb fixed drive

Software is loaded and ready to go!

Only $1799

you’ll receive a TWA® Certificate entitling you to a round-trip ticket for $149**/$249.** Plus a free TWA Getaway® Student Discount Card application. You'll also get a great low price on the PRODIGY service.

The PS/2® is perfect for college because you told us just what you needed. And, no one knows what it takes to be real college material better than you.

Where the bubbles burst and the wind blows the dust

By David Evans

Wade is a big casino that wants to change, not to disappear. But it's a long process and not without cost.

The size of the casino's expansion and how long it will take, is what the question may be. Wade finally announced a new plan that will lead to an updated facility. Their mission is to make sure the casino is a place that can remain competitive. Wade's plan includes a new 20,000 square foot entertainment complex, as well as improvements to the existing facilities.

The expansion will include more space for gaming, dining and entertainment. The new facility will have a glass atrium and a glass-walled dining area. There will also be a new entertainment center with an outdoor amphitheater, a new lobby and a new fitness center. The casino will also have new technology, such as touch-screen slot machines and video poker. The new facility will also include new restaurants that will offer more diverse options.

The expansion is expected to cost $30 million and will take about a year to complete. The new facility is expected to start generating revenue in the second quarter of 2019. The new facility will also include new technology, such as touch-screen slot machines and video poker. The new facility will also include new restaurants that will offer more diverse options.
