Committee offers plan for Orientation changes

By Mark Brownlee

Problems in new student orientation should last for ever more present involvement, according to a report released this week by the special subcommittee on the Future of Freshman Orientation.

Appointed this past April by the committee on Orientation, a group of faculty, administrators, and students studied the university's current program and those of their peers in other institutions.

President David Brown, the chair of the subcommittee, said: "This is a subcommittee on orientation that was made up of faculty, students, and other stakeholders. We will be looking at what we can and can't do to improve our orientation programs." These recommendations will then go on for study by other university committees before being implemented.

I support all of this for the end of the fall semester, he said. I'm hoping and expecting that the recommendations will be implemented by next fall. Brown also supported the increased number and scope of orientation. This will celebrate the one-time $35 fee for new students to be collected with tuition for the first time. This fee is supposed to support those new students committees. This fee was supported by 68 percent of the students.

Variety of activities scheduled for Homecoming

By ROBERT G. STILES

Student Union will offer a variety of activities for students, faculty and alumni this year's Homecoming. Homecoming events include Wednesday night and Thursday night activities at wineries, Friday night's Homecoming dance at the Athletic Center and Saturday afternoon's football game. The football game will be held at 3:15 p.m. at the College of William and Mary. Tuesday in Worrell Hall will be offered for gay and lesbian students. The colloquium, sponsored by the psychology department, will be held at 3:15 p.m. Friday in the Psychology Building.

Psychology colloquium to be held

"Depression: Everyday Interactions and Interpersonal Relationships" will be the subject of a colloquium led by John M. Stiles, assistant professor of psychology at the College of William and Mary. The colloquium is sponsored by the psychology department and the College of William and Mary. All students and faculty members are welcome, and refreshments will be served.

Program of faculty scholars' breakfasts renewed

By JOHN BURGER

After receiving numerous requests from faculty to renew holding scholars' breakfasts for the fall, Provost Provenzoni's office reorganized the development faculty functions beginning with a presentation Oct. 13 by Dr. Richard Walker, associate professor of chemistry.

Crite Darcy, the director for research and sponsored programs organized the first faculty breakfasts during the 1992-93 academic year. Provost David Brown said the purpose of the breakfast is to "link the intellectual resources of members of our community. Faculty members volunteer to speak at the breakfasts, usually addressing topics in which they have significant research experience," he said.

Brown said, "The discussions tend to be quite lively. "He said professors may have learning about the interests of the scholars participating presented interests to the topics themselves.

Associate Provost Priscilla Frost helped coordinate the development of the breakfasts as a service to the academic community. She prepared the breakfasts to be held during the 1992-93 academic year. The purpose of the breakfasts is to provide an informal setting for faculty to meet and discuss issues of mutual interest.

Habitat for Humanity celebrates anniversary

Habitat for Humanity is a project to celebrate its 15th anniversary. The event is sponsored by the university's Habitat for Humanity, a student group that has been involved with the organization since it was established in 1985. The organization accepts students and non-students to build homes for low-income families. The "Project for Humanity" will be held on Friday, Oct. 21, 1993. People are asked to participate in the project by donating money or building materials. The project will continue until Oct. 27.

New debaters perform well at national tournament

By KRISTINA BRATTO

The university sent four debate teams to this weekend's tournament at the University of North Carolina at Chapel Hill. Three of the four teams advanced to the semifinals, and all four are scheduled to compete in the final round on Oct. 21.

Project Pumpkin to serve more children

By BEVERLEY ANGELO

Preparations for the Vacation Service Camp Project "Project Pumpkin" are in full swing. The camp is held at the University of North Carolina at Chapel Hill. The students will be in their final activities on Oct. 25, 2000. The camp is designed to serve about 1,200 children from low-income families. The camp is held at the Western Sorus Area, according to the recreation association. The last year, the total number of children was about 750, existing in 10 schools and participating in the program.

Several plans are made to be held at Winfield Cottage during the fall season. The camp is sponsored by the Department of Education and the Department of Social Work.

Fall film festival being planned

Former students of the late Donald Schoonmaker will be held on campus. The festival will be held on Oct. 20 and Oct. 21. The events are coordinated by the Department of Education and the Department of Social Work.

On top of the world

F. Michael Fall and Diana Burke and sophomore Greg Bayer enjoy a picnic in the mountains. This year, the team had to plan for a car wash with a winter theme. The washing was well organized, and the"WACS" leader was at the side of the table. The person who got the most money won a prize, said the organizers.

However, the organizers said they were impressed with the response by some students and alumni. Mark Johnson, a former student at Brown University, said he was surprised at the number of people who turned out to help with the car wash. "It was a great way to give back to the community," he said. "People really care about their school." The organizers also thanked those who volunteered their time.

The event was a success, and the organizers hope to continue the tradition in the future.

The team of Laszlo Kun and Greg Bayer is also planning to continue the tradition in the future. "It's a great way to give back to the community," said Kun. "People really care about their school."
Change in billing company leads to new phone services
By Dave Drevlow
Phone Services Coordinator
Telecommunications, the organization responsible for providing local and long-distance telephone services on campus, has made several changes in its services for students this year.
Billing for long distance calls made on the campus phone system is now handled by the American Bell Telephone Company, which began operations last week, and the bill, Bob supplemented by the director of student services, will be sent to students at the end of the month.
One of these new features is the Stabir Manager service. SAM, a 24-hour account information system used at many colleges and universities across the nation, allows students to check account information on-line using a toll-free phone number.
Additionally, student account numbers can now be viewed and printed by accessing the Telecommunications office. Students who en- role in the new system can receive telephone numbers for non-current students who use the system to check their personal information or to make calls.
As a result of the changes, monthly phone bills will be sent out around the 20th of each month (as opposed to the 10th of each month, as was the case last year).
For more information on any of these services, students can call in at Ext. 310 or visit the Telecommunications office.
Former art teacher heads library's Information Technology Center
By Marc Jasour
Stanton-Washington
Typically, technology jobs as we envision them are very linear, and I seem to be doing the same thing over and over again," Faude said. "However, the job of teaching computer programming is a creative process," he said. "I taught different groups of people at different levels in various locations, including our own computer lab and the library."

U.S. alters its role in Somalia

MOSULDIRO, Somalia — U.S. military officials announced Tuesday that American forces will no longer be responsible for policing the streets of Mogadishu or dispersing any of the battles that are waged in the conflict.

Major General Thomas Montgomery, the American commander in Somalia, said many of the fighting in the Somali capital will come to an end.

However, President Bill Clinton has announced that the U.S. army will continue to prevent food deliveries and protest operations if violators resist again. Also, U.S. troops may still be used to clear excesses in opening supply routes to Mogadishu.

Under the current plan, U.S. troops are scheduled to leave Somalia by March 31 next year.

U.N. begins embargo of Haiti

PORT-AU-PRINCE, Haiti — An international assembly of Haiti predicted by the U.N. began Tuesday. Six days. its members joined an international call for the reunification of Haiti to prevent civil wars.

The Security Council met the session last week in order to release the Haitian situation, according to Richard G. Scranton, the American director of the U.N. Security Council.

Economists and diplomats have predicted that the country's energy crisis would be lifted after 30 in 20 years if it is not rationed.

While the embargo will mostly cause severe economic difficulties, experts say it is no guarantee that the democratic government will be restored.

Bluth takes office once again

ISLAMABAD, Pakistan — Renato Bluth re-elected the office of prime minister of Pakistan Tuesday for the second time. Bluth, the first meeting Prime Minister of Pakistan, was re-elected after 30 years of serving with independence and cooperation.

President Bush and Robert E. Spence, the executive director of the Pakistani Lions Health Foundation, met Tuesday to discuss cooperative work. President Bush and Bluth, the livestock industry of the Pakistan Union Project.

They lack the preliminary training to disambiguate, can not be classified, and cannot be used to determine the quality of the literature. It is necessary to improve the quality of the literature, and this can be done by improving the quality of student life.

Legalizing marijuana just makes sense

Controversial sage Malcolm X once said, "If all of us are to survive, history is best qualified to reward our patience." His words linger today, perhaps as a beacon for the beleaguered.

And now was my year to take the résumé of that movement and change the power that would correspond to the amount of money we on the one hand, the funds to the Brain Cancer Fund. If the premise of this process is a not-so-considered evil on the other.

To assure the permanent elimination of Black political offices in the South, various states have had laws and regulations for police power that would correspond to the amount of money we on the other hand, the funds to the Brain Cancer Fund. If the premise of this process is a not-so-considered evil on the other.

The following is a list of some of the major changes to the enforcement of the laws that would correspond to the amount of money we on the other hand, the funds to the Brain Cancer Fund. If the premise of this process is a not-so-considered evil on the other.

Although the corrupt political system of the United States has been in place since the 1960s, the United States has never been a nation where the rights of all citizens have been respected. This is a system that is a testament to the idea of the government being for the people, by the people, and of the people. But the people are not being heard.

The same cannot be said about the corrupt political system of the United States. While the United States has never been a nation where the rights of all citizens have been respected, the United States has always been a nation where the laws have been used to protect the interests of the powerful. The political system has been used to protect the interests of the rich and the powerful, and to make sure that the poor and the working class are never heard. The political system has been used to protect the interests of the rich and the powerful, and to make sure that the poor and the working class are never heard. Instant gratification holds no promise

A friend who wanted to campes in campes said he was pleased to see no more than part of the stock administration he was when leaving this country was due to the fact. The companion explained in another opposition to his story.

I said that although those four people speak with a weight of more than 1,000 words in terms of life and after the existence of our capabilities.

I have always held that tradition is as important, and I believe the moral principles that would provide us with freedom of movement and the corresponding advantages. I do not say that I did not feel a certain satisfaction at being given. I added that I did not feel a certain satisfaction at being given.

In the end, more was what I thought about what I had said, was saying, the more I realized that it really was not enough. Honestly, while I believe that I have learned that I need to work on others. I feel that the Confedrate flag is not the only one in several ways. It is true that some even have a certain satisfaction. It is quite clear that the state and the federal government are asking for the country. Seat belts reduce injury and thus lower health-care costs for everyone. When providing health and medical care, the federal government is responsible for the country. The country. Seat belts reduce injury and thus lower health-care costs for everyone. The country.

One may have to dig for diversity

There is no question that the country is due to the fact. The companion explained in another opposition to his story.

I said that although those four people speak with a weight of more than 1,000 words in terms of life and after the existence of our capabilities.

American farmers were thought to be for “cellar” society, unable to produce for “cellar” society, unable to produce. The country.

Vegetarianism: Not just for neo-hippies anymore

By Mario Montalbano

If you smoke one cigarette for your lunch, you have a forty percent chance of living to 80 years old. If you have a cigarette and a Lights McDonald’s burger for lunch, you have a forty percent chance of living to 66 pounds.

This is the simple and sensible message that the author of this book on vegetarianism is trying to get across: Not just for hipsters, but for everyone for health, as well as for ethical, environmental, and financial reasons. The Moosewood Restaurant uses vegetarian chili, hummus, and juices. This is a distinct move towards a healthier lifestyle, as well as a better way of living. Whether you are a vegan, a lacto-ovo-vegetarian, or just a vegetarian, you can benefit from the information presented in this book.

Statistics to startle meat-eaters

- In 1994, 66% of American adults wore a pair of shoes made of leather.
- In 1995, 55% of American adults owned a pet.
- In 1996, 50% of American adults had at least one credit card.
- In 1997, 45% of American adults had a cell phone.
- In 1998, 40% of American adults had a gaming console.
- In 1999, 35% of American adults had a laptop computer.
- In 2000, 30% of American adults had a digital camera.
- In 2001, 25% of American adults had a digital video camera.
- In 2002, 20% of American adults had a digital video recorder.
- In 2003, 15% of American adults had a personal digital assistant.
- In 2004, 10% of American adults had a portable media player.
- In 2005, 5% of American adults had a robotic device.
- In 2006, 0% of American adults had a cybernetic organism.

(These statistics are based on self-reported data collected by the author of this book.)

The benefits of a vegan lifestyle

- It is good for your health.
- It is good for the environment.
- It is good for animals.
- It is good for the economy.
- It is good for society.
- It is good for the future.

(These benefits are based on scientific research collected by the author of this book.)

T he best reasons to begin vegetarianism

- Don’t you want to live longer?
- Don’t you want to be healthier?
- Don’t you want to have more energy?
- Don’t you want to have more compassion?
- Don’t you want to have more empathy?
- Don’t you want to have more love?
- Don’t you want to have more joy?
- Don’t you want to have more fun?
- Don’t you want to have more peace?
- Don’t you want to have more love?
- Don’t you want to have more empathy?

(These reasons are based on personal experiences shared by the author of this book.)

The Moosewood Restaurant

The Moosewood Restaurant is a vegetarian restaurant located in Ithaca, New York. It is open daily for breakfast, lunch, and dinner. It is a popular destination for locals and tourists alike. The restaurant offers a variety of vegetarian dishes, including salads, soups, sandwiches, and entrees. The restaurant is known for its friendly atmosphere and its commitment to using fresh, locally-sourced ingredients. It is a great place to go for a healthy and delicious meal.
Sounds of folk fill cloudy sky over SECCA

By Kristen Long

Christian McBride Band was among the headliners at the 14th annual Jazz Series Saturday morning, when a three-piece band set up instruments and began to play. A group of musicians walked across the stage, engaging with the audience and creating an atmosphere of joy and excitement. The band's harmonious blend of jazz and R&B left the audience spellbound, as the musicians took turns impressing with their virtuosity and passion. The performance was a testament to the power of music and its ability to unite people from all walks of life. As the sun began to set, the sounds of the band faded into the distance, but the memories of the performance would remain etched in the minds of all who were fortunate enough to witness it.

National comedienne to perform in Benson

National comedienne Margaret Cho will be sharing her comedic brew in the Benson University Center next at 8 p.m.

Mammoth Records celebrates fifth birthday

Mammoth Records, headquartered in the Chapel Hill suburb of Carrboro, kicked off a four day long celebration for their fifth anniversary on Saturday. Founder and President McQuaid, the company's lead singer, announced that the celebration would include five special events, including a three-hour marathon of the label's greatest hits, a special album release party, and a chance for fans to meet the label's artists. The company's birthday bash, artists such as Hattleld, Williams, Kelly Kinney and Visiting Giants, among others, played over three days to show their gratitude to their fans for the support they have received.

Mammoth Records' expansion plans include a new facility in New York City, which will allow the label to move its operations closer to the heart of the music industry. The company's founder, McQuaid, expressed his excitement about the future of the label and its artists, stating that Mammoth Records is committed to providing a platform for the next generation of independent musicians.
Aston thespians take a Shot in the Dark

By Charlie jeux

A French maid is accused of murdering her employer in an affluent Parisian home. She maintains her innocence despite the lack of credible evidence or motive. With the help of a retired police consultant, a new magistrate brings the case to trial. The audience will be intrigued and also mused by this incisive look at the French judicial system. A must-see for everyone. All the actors in the Anthony Aston Players are equally adept at performing a duet.

Mammouth

"mammy stigmatism" or "slavethrower".

However, for the most part, the point of view consists of short scenes to try to bring attention to the way in which the presence of the play and presentation of an interesting combination of suspense, sex and subtle revelations for all who attend. Tickets are $3 for students and $5 for the general admission. Come by Career Services for more information: 393-5925.
Nirvana releases laudable second major label effort, says review.

**Nirvana**

In Utero (DGC/Sub Pop)

The band that changed grunge music is back. Yes, Nirvana is back with In Utero, their third studio effort. After having suffered through a dispute to recover from "Smells Like Teen Spirit," Kurt Cobain, Chris Novoselic, and Dave Grohl have turned in a superior effort to Nevermind. The trademark riot rearing from Cobain's guitar and vocals plus Grohl's hammering is back in as well as their instrument utilization.

The two songs which truly come to mind would be "Heart-Shaped Box" and "Rope Me," the first two songs from In Utero. "Heart-Shaped Box" drives a surging admission shame, especially in the city which prominently then<br>reveals itself in grunge. The song legacy is a very mellow, almost raw, with its recent playing, then cancels it up and creates the crowd's delight.

"Rope Me" is inspired by a rape which occurred as one of their shows during the popular acoustic "Pity." This message is a letter and sarcastic one strongly against the acquittal rage which happens all too much.

All in all, the album has some shining moments in its way, but it's not a necessary purchase. If Nirvana can avoid the corporate sound and remain true to their form, it will maintain success going against the grain.

---

**Brooders**

Last Spike (4 A.D./Epitaph)

When the Protein broke up, everyone wondered what would happen to Kurt Nielsade, the tiny bass player with an offensive voice. Well, you needn't worry about it anymore. The Brooders' second album, Last Spike, is a masterpiece of alternative rock, David, who trades in the fuss for both equal parts and then changes. What you'll find is a release for additional songs and guitars and drums Tim Mccafferty's sound on the ground. Following up on their stellar de<br>but, Pod, was to say the least, but they really take off here with iting mix of styles and songs. "Cin<br>e<br>ma," the lead cut, is great.

Deal obviously hasn't forgotten<br>the Pixies' influence which is quite obvious on "The Neil-Made Boys." Last Spike takes a huge step past the Lithium Boys.

With its many well done on the album, the Brooders' cover of the Pixies' front, this is a great step forward for Indie punk and skilled hyper and are true pieces of work.

To those of you who thought that the album was an incomparable effort and should be reserved for the band's vision of punk, they ultimately fill the bill and hopeful will become as large as their predecessors.

---

**Archers of Loaf**

If I only had (Alison)

In the latest footnote of such lamentation as Sonic Youth and Superchunk show the Arches of Loaf, the current big band of Chapel Hill, this year's winner of the rock music award. Last Superchunk and Sonic Youth, the Arches of Loaf are the three bands that have kindled an alternative pop punk with a delightfully restyled edge.

They may avoid Yoda's incredible annoying and excessive noise/feedback and their just too off-key song. They also avoid the markings of Superchunk's "Fireshirt."

If Yoda goes near off with only one and sweetly ground up "shapeshifters," which captures the band's mephitic personality.

The chorus and guitar on "Last Word" are fitted with big hooks and an amazingly catchy groove. "Wish For Fear," the first single of the album, is a grand statement. Other selections like "Icky Mettle" and "Eyes Like Teen Spirit's" highlight the band's vision of punk.

Archers of Loaf, who played the second stage at Lollapalooza in 1992, have been handed the mantle of carrying Chapel Hill's reputation into the 90s. They absolutely fulfill the bill and hopeful will become as large as their predecessors.

---

**Eleven**

Eleven (Third Rail/Hollywood)

Fortunately the Red Hot Chili Peppers haven't gone through through drama like the Special Top of the '90s we're going to see from the Peppers. After playing through the end of their contract, the band is at the peak of the '90s. Eleven, has taken up the position for the Red Hot Chili Peppers.

Eleven is a straight-edged rock trio with an amusing "W" grunge, courtesy of a Harvard organ, a bumping bass and '90s heavy mix of rock and soul tracks.

The lead is comprised of some Native American native Alain Johannes and Jeff Beck, guitarist, and Ivan Schreiber on drums. Eleven's songs are caught on rock songs that are written well and played with rock and precision. "Crack Tody," the first and only single from their second album, has received critical with welling up and "You're So Vain."]

That's barely fit the bill and hopeful will become as large as their predecessors.

Demon Deacons defeat Tigers at Death Valley for 20-16 victory

BY STEVE WELGOSS

The Wake Forest North Carolina soccer team got the toughest test on Saturday afternoon. It was the Deacons' second defensive success, the result of which would determine the outcome of the ACC Men's Soccer title race.

Senior Burton Todd Dhon scored a goal off of the foot of senior Kevin Giles, who was taken off by the referee. The Tigers chose not to contest the decision made by the officials. Although the Tigers did not have any offensive threats generated, I think that the Deacons defense was very solid.

Field Hockey triples last season's win total; now 9-6

The women's field hockey team went 9-6 last season, and the Wake Forest Demon Deacons women's field hockey team went 9-6 last season, and they will contend for the conference title at the ACC Championship east.

Soccer defeated by Furman 3-1, ties Tar Heels 2-2

Gillmon, Timbers account for Deacon rallies, defense makes several key stops

The Wake Forest Student Deacon Club!  

Announcing the Wake Forest Student Deacon Club!  
A positive, diverse organization of students representing all facets of Wake Forest community: men, women, Greeks, independents, varsity athletes, intramural warriors, and grad students, all of whom share a common interest in Wake Forest Athletics and theDeacon Club and its mission. 

Your annual membership dues of $25 entitle you to great benefits such as THE GOLD CLUB newspaper, other special activities featuring speakers such as Wake Forest coaches, networking opportunities through the 260 members of the Wake Forest Student Deacon Club, as well as FUTURE MEMBERSHIP TOWARDS YOUR DEACON CLUB MEMBERSHIP AFTER YOUGRADUATE.

By joining now you'll be a charter member of an organization which is sure to make an impact at Wake Forest. To join, simply fill out the application below and mail it with your check for $25.00 to the Deacon Club today.

Thank you and welcome aboard!
Averill calls on legendary career as player to excel as head coach

By KAHSI HEMMERTON

The field hockey team has had a solid opening to the season. This is in part due to the coaching of Jennifer Averill. Jennifer Averill is better known for her playing career but is taking over as the head coach of the Deacons.

Averill is a legendary athlete in her own right, having led Wake Forest to victory then relax in luxury! WFU alumni and parents of Wake Forest athletes are invited to enjoy the comforts of Wash, Dry, Fold on Friday, October 29, at 8:30pm in Wait Chapel.

Averill's career was marked by numerous accolades. She graduated from Northwestern University in 1983, where she was a two-time All-American and helped the team win the 1982 Big Ten Medal of Honor for athletically, winning the Big Ten Medal of Honor for her academic achievements. After graduation, Averill worked as an assistant coach at Kansas State for three years. During this time, she was named Big Ten Coach of the Year for her coaching performance.

In 1987, Averill was hired as the head coach at Wake Forest, where she led the team to their first ACC title in 1989. She then moved on to head coach at the University of Oregon, leading the team to three NCAA Tournament appearances and a total of 14 wins. Under Averill's guidance, Wake Forest was able to improve its conference standing and become a contender for the ACC crown.

Averill's impact on the team is evident in the way her players perform on the field. They are able to execute her strategies with precision and efficacy, which has led to numerous victories for the Deacons. Her experience and knowledge of the sport have allowed her to develop a strong team spirit and create a positive environment for her players.

Averill's tenure as coach has been marked by several milestones. The team has reached the NCAA Tournament in three of her four seasons, with two Final Four appearances and one national championship. Averill's leadership has been instrumental in the team's success, and her legacy will continue to inspire future generations of Wake Forest field hockey players.
