Sophomore Expelled After Showing Fake IDs

By Mike Kibby   News Editor

A sophomore woman was expelled from Wake Forest College Tuesday for showing false driver’s license on two social functions sponsored by Sally Lantz.

The decision was handed down by the Student Council April 1 and was announced by the chairman of the decision Wednesday morning.

The woman, who asked not to be identified, said from her hometown that she was very upset by the decision of the council.

She said that her problems began last semester when she appeared at a College of Visual and Drama’s performance holding a piece of paper on the yearbook from Salem, because, she said, she did not know that it was torn and repasted.

The woman was charged by the Wake Forest Council at Wake Forest Dec. 2 and pleaded guilty to lying. Her penalty consisted of 30 work hours and 35 days of probation, which she completed.

The woman said that the second offense came when she attempted to enter the Sports Club with her driver’s license and told the bouncer that she was 21.

“The bouncer knew I was 19,” said the woman. “He said that he had no choice but to throw me out.”

The woman said that the final instalment of the Tocqueville book was to be handed over to the council next year because of ever-fluctuating locations.

“Where there, I know, over 100 people in the room when he just looked at me and said ‘Nope. She didn’t pass my ID,’” she just explained her name and reported.”

The woman was charged by the Wake Forest Council at Wake Forest Dec. 2 and pleaded guilty to lying. Her penalty consisted of 30 work hours and 35 days of probation, which she completed.

The woman said that she was only shown the license at the time of her arrest.

About 75 students and faculty members gathered last Friday afternoon in front of Winston College to hear speakers, who share their views on the development of university from South Africa.

Student Life Committee Chair Outlines Policies at SG Meeting

By Jonathan J. Jorda   Editor-in-Chief

We all live simultaneously in three worlds, culture, more precisely in one, which is founded upon ethnic origin and the other upon culture. The third is the world of the University of Pennsylvania.

Rolf J. A. Heman, chairman of the Student Life Committee, at the Tuesday meeting of the executive committee.

The committee has been working on the document through the spring semester, he said. The most current draft of the document is being studied by members of the university community.

Suggestions will be considered before the final draft of the document is issued, he said.

The purpose of the document is to clarify procedures of the Committee on Student Life. Heman said. The content of the document will remain mainly to maintain order.

According to the most current draft of the document, “The Student Life Committee functions as the primary policy formulation for all aspects of student life except athletics and as the primary execution of the provisions of the Code of Student Life.”

Professor Speaks About Three World Culture

Students Ruin Artist's Work in Grass, Dirt

Jennie Vaughan

A group of students destroyed the word "ASS" last Friday night when they slid down the pyramid-shaped mound of dirt near the new coasting center for the Old Physical Laboratory and uprooted the grass artwork.

"The slide is a great grass art piece," said a student who witnessed the destruction. "It's a shame they had to ruin it."

The "ASS" word, created by artist Kurt Ribisl, was designed to simulate the hill's natural slope and encourage people to use the area as a leisure activity. Ribisl, a professor at the University of Nevada, Reno, was scheduled to speak at the university next week to discuss his work.

Ribisl was not available for comment, but he is known for his controversial art pieces, which often provoke strong reactions from viewers. In 1986, he was arrested for setting fire to a 1930s-era car and in 1990, he was convicted of vandalizing a public park.

Ribisl's art pieces have been featured in several museums and galleries across the country, but his work has also been the subject of controversy. In 1992, he was sued by a group of parents who claimed that his artwork was too explicit for their children.

Ribisl denied the charges and called the lawsuit an attempt to silence his art. Despite the controversy, Ribisl remains committed to creating work that challenges traditional definitions of beauty and beauty.

Mending Healthy

By Kelly Hayes

"I feel a lot better now," said a student who was injured during a recent vandalism incident. "I'm glad the people who did this are being punished."

Last week, a group of students broke into the University's gymnasium and destroyed several pieces of sports equipment.

"It's a bummer," said a faculty member who witnessed the incident. "We're trying to improve our facilities, and these vandals are just making things worse."

The university has increased security measures in response to the vandalism, and police are investigating the incident.

Vandalism is a serious problem on college campuses, and many students and faculty members feel frustrated by the lack of action taken against vandals.

"I think we need to do more to prevent these incidents," said a student leader. "We need to send a clear message that this kind of behavior will not be tolerated."

Despite the challenges, many students remain committed to improving their campus community.

Learning to Deal with Stress Important for Students; Ways to Cope Suggested

By Byrlee Brown

"I used to be really stressed out," said a student who is now managing her stress levels more effectively. "Now I know how to handle it so I can focus on my studies and other activities."

Several students have found ways to manage their stress, and many are sharing their strategies with others.

"I try to keep things in perspective," said a student who has struggled with anxiety. "I try to remember that there are worse things going on in the world, so I can't get too worked up about one little thing."

Students have found a variety of ways to manage their stress, including exercise, meditation, and spending time with friends and family.

"Exercise is key," said a student who has been particularly active. "I try to go for a run every day, and it really helps me feel better."

"Meditation is also important," said a student who has been practicing mindfulness techniques. "I try to stay present in the moment and not get too caught up in my thoughts."

"Having a good support system is really important," said a student who has relied on friends and family for help. "I feel better when I have people I can talk to."

Students have found that by managing their stress, they can improve their overall well-being and focus on their academic and personal goals.

"I feel like I can do more now," said a student who has been managing her stress levels for a year. "I feel more focused and less stressed out."

Stress is a common problem among college students, and many are seeking ways to manage it effectively.

"I think we need to do more to raise awareness about stress management," said a student leader. "We need to provide more resources and support for students who are struggling."

Despite the challenges, many students remain committed to improving their stress levels and overall well-being.

Fraternity Gets Involved in Community

"I feel like I'm making a difference," said a fraternity member who has volunteered at a local soup kitchen. "It's rewarding to help others and give back to the community."

A fraternity chapter at the university has been active in community service, and many members have found ways to make a difference in their local communities.

"I try to give back as much as I can," said a fraternity member who has been involved in various service projects. "I want to make a positive impact and help others."

"I think it's important to give back," said a fraternity member who has been volunteering at a local food bank. "I feel better when I know I'm helping others."

"I think we need to do more to raise awareness about the importance of community service," said a student leader. "We need to provide more resources and support for community service projects."

Despite the challenges, many students remain committed to improving their community and making a difference.

University Commencement Activities Announced

By Kathryn Dalton

This year's graduating class is the largest in Wake Forest's history, with 761 undergraduates receiving degrees, said Autumn Almquist, associate dean. Last year's graduating class had 646 members.

Benjamin C. Dridle will be the financial officer of the commencement exercises May 15. Wake Forest will recognize two retiring faculty members from the Reynolda campus and 17 retiring faculty members from the Bowman Gray School of Medicine during the ceremony.

Seven faculty from the Reynolda campus are retiring. They are the following: Charles M. Allen, professor of biology; Melod C. Bonner, director of literature and another author of history; Cyril C. Harris, professor of chemical language; Elizabeth S. Patterson, a Wake Forest alumnus and Mary Frances Follett, director of art.

Two faculty members retired last year. They are Mark R. Davis, dean of students, and Rich M. Sheonfeld, records and institutional research director and math professor.

Very C. Green, a professor of mathematics and computer science, joined Wake Forest in 1966 as assistant professor of mathematics and will retire this year.

He has been selected by the university chancellor's committee to receive the first faculty prize for community service.

The chancellor's committee recommended the award to the chancellor associated with the association's annual meeting at Sea Island.

The association established the award in 1988 to recognize and individual contributions to the campus and Winson-Wilson alumni communities.

Grady is a volunteer with the Boy Scouts of America, the Reynolda Hall Historical Society, the Wake Forest Baptist Church, Habitat for Humanity, the Winston-Salem Education Foundation and the Winston-Salem / Forsyth County Food Bank. He is a member of the Davie County Democratic Party, the local community college and local political and civic organizations.

The Bowman Gray faculty have been the largest group of students in the nation's history.

The professors are Jean N. Angell, associate professor of psychology; William H. Byers, professor of pediatrics; Stanley C. Green, obstetrics and gynecology; Robert E. St. John, associate professor of radiology; Joseph P. Gordon, associate professor of radiology; Robert D. McKee, associate professor of medicine; James C. Miller, associate professor of medicine; Miller A. Miller, associate professor of medicine; J. A. Miller, associate professor of medicine; S. Miller, associate professor of medicine; Michael P. Miller, associate professor of medicine; Michael P. Miller, associate professor of medicine; and Paul N. Miller, associate professor of medicine.

Traders Association President To Speak at Hooding Ceremony
John L. Watson III, president of the Security Traders Association, will be the featured speaker during hooding ceremonies for the Babcock Graduate School of Management May 14. Watson is a member of the school’s board of visitors and was elected president of the New York-based association in 1985. He was previously chairman of the international trade organizations that represent 7,000 members involved in all segments of the securities industry. Watson is currently a director of the school’s board of visitors and was chairman of the board of visitors in our “speakers,” said Pat A. Denos, acting dean of the Babcock School. “Watson’s distinguished career will provide good insights into the business of our visitors as our speakers,” said Denos.

Watson worked for the investment banking firm of Rhodes, Slaght and Company in Atlanta for 28 years. He was executive vice president, director of capital markets, and member of the board of directors and the executive committee. Watson is a member of the board of directors of the National Association of the Securities Industry’s National Securities Dealers. He is past chairman of the security dealers’ District and Trading Committee and was vice chairman of the association’s National Business Conduct Committee. He was also chairman of the Securities Industry Association’s Over-the-Counter Trading Committee and past president of the Georgia Securities Association.

Watson said, “It’s great to have a member of our board of directors and past president of the school’s board of visitors, as our speakers.”

Hijacker Dynamites Self
In Tokyo Wednesday, a man in a red ski mask blew himself up after failing to set off a dynamite device. He fell onto a roped-off area in one of the security dealers' conference rooms at the 1989 Japan Securities Dealers' Conference.

President’s Aides Named For Upcoming Semester
The president’s office announced yesterday the names of the student presidential Aides for the 1989-90 academic year.

The aides were chosen from a pool of almost 20 applicants. The number of aides will be expanded next year to 20, including the adjunct members. There were 16 aides, including adjuncts, this year.

Four people comprise the presidential advisors: Christiane Oller, president of the Student Alumni Council; Catherine Olliff, president of Student Union; and Jonny Slate, rising sophomore and past president; and Chris McCullar, rising senior and adjunct member. There were 16 aides, including adjuncts, this year.

Pyrotechnics, Auto Break-ins Reported by Campus Security

Old Gold and Black Staff Reporter

Last week, university security responded to three calls involving the theft of different types of portable electronics on campus.

Four Wake Forest students were apprehended in two of the incidents, which had been referred to Harold Holmes, dean of student services. Kitchie House contains an art area in which university security has problems with fires and break-ins. Most involved seem to be Freshmen, said Bob Prince, director of security.

Security identified the Freshmen from the student hall, where students tend to leave their doors unlocked. The two reported were in Davis House, and class rings and valuable items were reported.

Two reports were received related to vehicles in parking lots. In one instance, bank and credit card numbers were taken from a vehicle locked in a student's parking area. Someone also vandalized a window of a vehicle parked between Baptist and Scales Houses for an apparent reason.

Temporary cases continue to be a problem in the gymnasium. Last week, several warnings were issued in band recital.

This week, university security responded to a call from a student who had fallen down steps in the music building. Last week, several warnings were issued to Residence Life and Housing for incidents and complaints, 45 percent for security services, three percent for medical, and two percent for complaints.

Faculty members and students on the two medical calls, university security assisted a student who had fallen down steps in the music building. Last week, several warnings were issued to Residence Life and Housing for incidents and complaints, 45 percent for security services, three percent for medical, and two percent for complaints.

The university has purchased two new security cars; one of the two medical calls, university security assisted a student who had fallen down steps in the music building. Last week, several warnings were issued to Residence Life and Housing for incidents and complaints, 45 percent for security services, three percent for medical, and two percent for complaints.

Besides, your best choice.

The right choice.

Thief to Know

I wasn't rubbing it in—just wanted Eddie to know the score of last night's game.

Medal To Be Presented to Best Orator

Old Gold and Black Staff Reporter

Wake Forest will not honor a valedictorian or a valedictorian at graduation. Instead, one winner will receive the A. D. Ward Medal for the best writing or presentation, a tradition dating back to 1979.

The winner is "in the many ways the equivalent of a valedictorian," said William Hammons, associate dean of the college.

This year, Karen Boyes, Louise Brown and Linda Fegley will address the audience at the college's honors and awards banquet.

Hammons will serve as the emcee.

Boyes will speak on "Decisions," describing her decision as a black woman attending a mostly white school and another choice she had to make as a result whether to offer her black heritage of blood with the community.

Brown's topic is "Kaleidoscope Vision," explaining her belief that this competition has no place in the life of a student; the importance lies in how well we do, not how much better we are, she says.

"Egger," she says, "is not the word I thought." She describes being in a Polish community on Alt Lake and the emotions evoked in her by witnessing their traditions.

"I will have a very good friend with him," she explains, "My Door is Unlocked," in which he explains his decision to meet people.
Expulsion

mandatory participation in alcohol counseling. This is not a voluntary program; it is mandatory. We had no choice in the matter. If we had a choice, we would not have done it.

Guy said that this was one of the reasons for the expulsion from the Judicial Council.

In a written statement to J. Howell Lewis, chairman of the Judicial Council, the woman and Guy said "It was not made clear either to the investigator or to the defendant that under the constitution of our school the Honor Council could not do the expulsion to which the woman was subjected." This was entirely for the benefit of thesimplemindedness of the system.

"It is true that part of this failure is that I was guilty of the charge. I have no defense. I have no excuse, I believe my failure was as much the failure of the system. The institution has been submitted to me for a South African couple who believe in apartheid."

Wake Forest University 1988-89: A Year In The Life

By Shirley Hale

Friday, April 28, 1989

1988-89 was the year of many things in Wake Forest's history. The Year of the Meadow Brook Drive. The Year of the Eight Villas. The Year of the President's Debate. The Year of the Student Affairs. But most vitally, 1988-89 was the Year of the President's Debate.

The first presidential debate between Massachusetts Governor, Michael Dukakis, and North Carolina Governor, Jim Hunt, was held at Wake Forest. Dukakis was chosen as a debate site through the initial efforts of Wake Forest alumnus Bill Smith, both Smith and Forest Dukakis

Many changes were made in campus in preparation for the debate, including building a new University Pavilion entrance to the campus, improving the grounds and transforming the Pit into a media center. Photographers and network mobile units appeared on campus.

Although 13 ticket seekers were originally allowed for students, over 200 students were able to get seats. Wake Forest lost no students to the debate, but four students were arrested on charges of disorderly conduct.

Wake Forest had its moments in the spotlight, traveling up and down the East Coast with numerous events for campus excitement and the transformation of the campus facilities. The construction of the Benson Building and the Pit, which were both completed in 1988, were major projects that helped to make Wake Forest a more attractive campus for students and faculty.

The university received much national publicity in 1988-89. Many changes were made on campus in preparation for the debate. PARKING ENDANGERED
Helen Stoops Open Student Loop Humans

THE WAKE FOREST traffic regulations themselves are being disregarded by students who see parking as another monument to puckish human nature. This weekend the student newspaper covered every possible parking behavior in language that it could find. In the past, students have asked for a two-hour course in order to understand the rules.

The regulations were written and the parking processes previously placed by someone. However, the document now faces a disastrous future - at least by the standards of regulation.

A few weeks ago, President Hearn sentenced a student to two years in jail for a offenses of the rules. However, the act of writing the traffic policies is not enough to occasion a traffic violation.

The act of committing a traffic violation is the rule that is being broken. The traffic policies are not the rule. They are the written expression of the rule.

Besides, why should things be convenient for students? What this is really all about is parking. There is not a major reason why someone might not add it to the glory of Wake Forest's traffic policies.

The students were being driven crazy by the thought of a car parking on campus. They argued that the parking enforcement was not being monitored, and that the rules were being exempt from the traffic rules of the university.

This exception opens up loopholes in the system that have not been addressed. For example, a student could "run" (or go to a place) his or her automobile to an off-campus residence. Also, dispensers of students may not be able to take in the rules and use it as an excuse to arrest. This is exactly the problem that they have.

These loopholes must be fixed, or the traffic rules will become impossible and useless. But, it is not clear how they will.

Some ideas might propose that we add to the proposal of using "traffic regulations" in public transportation rather than "traffic rules".

WOMAN EXPLODED
Unhappiness

This letter is being submitted in response to the decision made by the Honor Council and Judicial Council of Wake Forest University to impose a rule concerning the use of fire lanes. This decision brings to light many questions that are not properly addressed by the Honor Council and Judicial Council, although they seem to have forgotten to mention the potential ramifications of using fire lanes for the safety of students and faculty. This potential rule may have significant consequences for the university community.

As stated in the Student Handbook, Wake Forest University is committed to the health and safety of its students and faculty. This commitment includes the protection of the university community from the potential hazards of using fire lanes. As stated in the Student Handbook, the university community is committed to the health and safety of its students and faculty. This commitment includes the protection of the university community from the potential hazards of using fire lanes.

In conclusion, the university community must be protected from the potential hazards of using fire lanes. This includes ensuring the health and safety of all students and faculty. The university community must be protected from the potential hazards of using fire lanes. This includes ensuring the health and safety of all students and faculty.

We are writing this letter to express our concern that the decision made by the Honor Council and Judicial Council may have significant consequences for the university community. It is important that the university community be protected from the potential hazards of using fire lanes. This includes ensuring the health and safety of all students and faculty.

We believe that the university community must be protected from the potential hazards of using fire lanes. This includes ensuring the health and safety of all students and faculty. The university community must be protected from the potential hazards of using fire lanes. This includes ensuring the health and safety of all students and faculty.

Loss of Graduate Housing Will Have Detrimental Effect on University

I am a demonstration of corporate-style insensitivity on the part of the university. As an AP member of the graduate student union, I am writing to express my concern over the recent decision to close the graduate student apartments complex.

Considering the importance of affordable housing for graduate students, I believe that this decision is shortsighted and harmful.

There are several reasons why this decision is problematic. Firstly, affordable housing is crucial for graduate students. Without proper housing, they may struggle to manage their studies and personal life.

Secondly, graduate students often have limited financial resources. Closing the apartments complex will disproportionately affect these students, who may not have the means to find alternative accommodations.

Lastly, the decision to close the apartments complex will lead to increased pressure on students who are already facing significant financial challenges.

In conclusion, I urge the university to reconsider its decision to close the graduate student apartments complex. Doing so will have a detrimental effect on the graduate students who rely on this housing option.

Weatherman’s Bunker Sticker Beliefs Are Contradictory

It is often the case that I find myself questioning the beliefs of others, particularly when discussing the topic of weather.

In this instance, I am referring to the beliefs of Mr. Weatherman, a well-known weather predictor. His beliefs are quite diverse, and at times they seem to contradict each other.

For instance, Mr. Weatherman is known for his stance on the importance of the environment. He believes in the need to protect the planet and take action against climate change.

However, he also believes in the use of military force to defend American interests. This belief seems to contradict his environmental concerns.

In my opinion, Mr. Weatherman’s beliefs are contradictory, and it becomes increasingly difficult to trust him as a reliable source of information.

Bartlett, Perritt Share Qualities

The first question that comes to mind when considering the qualities of Mr. Bartlett and Mr. Perritt is whether they are similar or different.

It appears that they share a number of similarities. Both are known for their leadership skills and their ability to inspire others.

Despite these similarities, there are also some notable differences. Mr. Bartlett is known for his approachable and down-to-earth personality, whereas Mr. Perritt is seen as more reserved and thoughtful.

In conclusion, while there are certainly some qualities that Mr. Bartlett and Mr. Perritt share, there are also distinct differences that set them apart.
By Matt Smith

The Wake Forest baseball team lost to North Carolina, 4-3, in its first regular season conference game Wednesday night at Dail Field.

The loss dropped the Demon Deacons to 9-10 in the ACC and 23-13 overall.

Tuesday, Wake Forest fell to the Tar Heels by a score of 6-3. Freshman pitcher Kevin Davis, Carolina's Hoke A. spots a time of 13.95, narrowly missing NCAA qualifying.

ACC.

he of 14:27.4, leading an impressive showing by Wake Forest's men's track team at the ACC championships. It reaffirms how good of a runner he is making and have hope that still very much needed scholarship increases.

The Demon Deacons rebounded in their ACC opener with a convincing 7-4 win over Georgia Tech Saturday.

Wake Forest scored three in the bottom of the ninth to record the final out.

Elkins received top honors Monday night at Atlanta's Country Club, as the number-five position 7-6, 6-2. And consecutive day, Wake Forest won three matches against the Blue Devils, winning.

In doubles competition, the Wake Forest team won its seventh in ACC history. Junior Jon Hume claimed third place in the 5,000-meter dash with a time of 13:42.3.

Elkin's class is the only class team to win the ACC regular season conference game Wednesday night at Dail Field.

The Demon Deacons, ranked 25th in the nation, was named the Men's Tennis Team finishes seventh in ACC Championships.

Wake Forest's men's tennis team finished in the top five for the first time in history.

Greer said. "I think it helped our men to play a soft match with one run and added another run in the top of the fifth.

The Demon Deacons are looking for an opportunity to make an appearance in the NCAA championships for the first time since 1966 by George Kahle. It's making and have hope that still very much needed scholarship increases.

Women's Track Team Finishes Seventh in ACC Championships

By Ed Brown
Old Gold and Black Reporter

The Wake Forest women's track team placed seventh overall in the ACC Championship meet. The team earned 14 points, which was 13 points behind Maryland's sixth-place finish of 23 points.

"We're very pleased with our seventh-place finish," Coach Francie Goodridge said. "We had our ups and downs, but we had our share of good moments as well." Goodridge added that the team will continue to work hard for their upcoming ACC championships.

The Demon Deacons finished the year with a record of 11-9. Goodridge said that he feels that the team has a光明 future after this year's experience.

Although freshman Tricia Emmerman failed to place in the top 15, she ran the 10,000 meters with a time of 36:13.10. Seana Slate placed third in the 1500 meters with a time of 4:28.61.

"We were really pleased to be able to field both the 10,000 and the 1500 meters," Goodridge said. "We have the experience to challenge for the ACC championship." Goodridge added that he is looking forward to next year's ACC championships.

Regular Check In

REGULAR CHECK IN

WILL BE REQUIRED PRIOR TO AUGUST 23. THE STUDENT WILL BE CHARGED AN EARLY OUT FEE OF $25.00.

REGULAR CHECK IN HOURS FOR RETURNING STUDENTS ARE FROM NOON TO 6:00 P.M. ON SUNDAY AUGUST 27, 1989.

RETURNING STUDENTS WISHING HOUSING PRIOR TO AUGUST 27, 1989 ARE NOT COVERED BY THEIR HOUSING CONTRACTS.

RETURNING STUDENTS WHO ARE NOT PART OF AN APPROVED GROUP WILL NOT BE ALLOWED ON CAMPUS BEFORE AUGUST 27, 1989 EXCEPT IN EMERGENCY SITUATIONS AND WITH PRIOR WRITTEN PERMISSION. PARENTAL WORK SCHEDULES AND TRAVEL ARRANGEMENTS ARE NOT VALID REASONS FOR EARLY ARRIVAL.

RETURNING STUDENTS WHO ARRIVE ON CAMPUS PRIOR TO AUGUST 27, 1989 WITHOUT PRIOR PERMISSION WILL NOT BE HOUSED UNTIL NOON ON AUGUST 27.

FIRST YEAR STUDENT CHECK-IN WILL BEGIN AT 8:00 A.M. ON AUGUST 24, 1989.

FIRST YEAR STUDENTS MAY ARRIVE AS EARLY AS NOON ON AUGUST 23, 1989 IN EMERGENCY SITUATIONS AND WITH WRITTEN PERMISSION.

FIRST YEAR STUDENTS WHO ARRIVE ON CAMPUS PRIOR TO AUGUST 24, 1989 WITHOUT PRIOR PERMISSION WILL NOT BE HOUSED UNTIL 8:00 A.M. ON AUGUST 24.

STUDENTS GIVEN PERMISSION TO CHECK IN BETWEEN AUGUST 23 AND AUGUST 27, 1989 MAY DO SO UNDER THE FOLLOWING CIRCUMSTANCES.

1. Students wishing to arrive early must provide written notice at least two weeks prior to the date of their intended arrival date. Payment may be mailed with this notice to avoid delay upon arrival if desired.

2. The student will be charged an early arrival fee of $25.00 which will be payable to the hall director upon arrival.

3. Students wishing to check in early must do so between the hours of 8:00 a.m. and 5:00 p.m. Those arriving on August 23 will check in at the Residence Life and Housing Office. After August 23 they will check in at their assigned residence hall. Those who arrive outside of the hours noted above will be charged an additional $25.00.

ALL STUDENTS MUST CHECK IN FORMALLY WITH RESIDENCE HALL STAFF BEFORE MOVING INTO THEIR ROOMS. FAILURE TO CHECK IN DURING THE SCHEDULED TIMES WITHOUT PRIOR APPROVAL OF THE OFFICE OF RESIDENCE LIFE AND HOUSING WILL RESULT IN A $25.00 FINE.

REGULAR CHECK IN TIMES FOR RETURNING STUDENTS ARE BETWEEN NOON AND 6:00 P.M. ON SUNDAY AUGUST 27, 1989. PLEASE CONTACT THE OFFICE OF RESIDENCE LIFE AND HOUSING AT 919-761-5185 IF YOU HAVE QUESTIONS.

PERSONS ARRIVING AND/OR CHECKING IN AFTER 6:00 P.M. ON AUGUST 27, 1989 WITHOUT PRIOR APPROVAL OF THE OFFICE OF RESIDENCE LIFE AND HOUSING WILL BE FINED $25.00.

Residence Life and Housing

Residence Halls Will Open Next Fall for Returning Students on Sunday August 27, 1989.
Golf Team Ties For Sixth Place In Chris Schenkel Tournament

By Russell Blake

Old Gold and Black Sports

Coming off their first ACC Championship since 1980, the Wake Forest men’s golf team tied for sixth place at the Louisiana Heights Country Club in Statesboro, Ga. which tied them with 12 strokes behind tournament winner and number-one ranked Louisiana.

"We didn’t play poorly, but it’s not the best we can play," said Hallberg. "To win it, it was going to take an exceptional performance, because you are playing a course that’s average in strength, so the scores are going to be close. I really believe that we didn’t have enough time to practice for the championship," said Senior Barry Fabyan who said that he was disappointed with the team’s performance.

"It was very frustrating to play the way we did (at the Schenkel), coming off the win at the ACC’s," Fabyan said. "We just wasn’t on all cylinders. The effort was there, the drive was there, but I guess it just wasn’t to be.

"I think if we would have played to our abilities, we would have won. Also, it really means that we won’t be able to take advantage and beat the number-one team in the country (LSU).

The Deacons were led by Fabyan, who managed a 1-under finish. His three-day score of 215 was highlighted by a first-round 67.

Fabyan was critical of his own performance.

"I thought I played fairly mediocre for the tournament," he said. "The first round, I played really solid. I felt like I had my game. But the next two days, I made too many mental mistakes."

The top Wake Forest finisher was senior Tony Melica, who tied for 23rd place. Melica’s final-round 68 buoyed him to a three-day total of 218.

Senior Les Mattison and junior Rogers O’Connell each fired scores of 220 to finish in a tie for 28th. Mattison’s play included back-to-back rounds of 75 on the first two days, while O’Connell posted a second-round 69.

Round-two, the Demon Deacons effort was senior Tim Straub. Straub, who won the ACC individual title in the previous week, shot 222 at the Schenkel. His best effort was a 71 on the second day of competition.

Wake Forest will compete next in the NCAA Regionals, which will be held May 26-28 at the Long Bay Golf Club in Myrtle Beach, S.C.

Three Deacons Drafted into NFL

Wainwright To Remain As Assistant

Odom Announces Coaching Choice

Head Basketball Coach Dave Odom announced Tuesday that Associate Basketball Coach Jerry Wainwright will remain on the Wake Forest staff.

Wainwright will continue in his role as a volunteer assistant coach under Wake Forest University and the Atlantic Coast Conference. Odom said, "I sincerely believe that he has shown himself to be a very valuable addition to the program.

Wainwright, who is the first assistant to be named by Odom, came to Wake Forest with Bob Staak in 1985. He worked under Staak at Xavier University for one season after completing an impressive high school coaching record.

He was named the team’s "Coach of the Year" three times.

their next 15 games, including three with ACC opponents Virginia and Maryland.

The Demon Deacons will finish no lower than fifth in the ACC this year and could finish in the fourth spot with their 8-10 record, which would be their highest finish since 1983. Last year, Wake Forest finished 7-13 in the league.

Wake Forest has beaten every team in the league with the exception of Clemson and Georgia Tech, which are nationally ranked. The Deacons defeated ACC champion North Carolina 7-3 April 19. Apparently the stronger pre-conference opponents did help the Demon Deacons in confer­ence play this year.

The win over North Carolina is as four other ACC wins came during Wake Forest’s nine-game losing streak.

"In the nine-game winning streak, we had some timely hitting and excel­lent relief pitching from Frank Hum­ber," said Junior Jon Home. "Hume led the team about AlphaGraphics? in a doubleheader last Saturday in Greenville, S.C.

Keith Seiler, 5-3, picked up the win in the first game, Doug Johns re­ceived the loss in the second. Phillips, who pitched four innings and allowed five runs, got the loss in the second. Nine inisch is 

For Wake Forest after he allowed four earned runs and five hits in four and 

one inning. Chris Phillips, who pitched for Wake Forest in the seven innings and allowed three runs, got the loss. Phillips came in the seventh and allowed a three-run home run, but relief pitcher Figel scored the next two hits as well.

Buddy Jenkins recorded the loss for Wake Forest after he allowed four earned runs and five hits in four and 

one inning. Jenkins did not record the loss for Wake Forest after he allowed four earned runs and five hits in four and

Secret Series To Offer Teen-Age Prodigy
By John Pingleton
Managing Editor

When his 8th season opens in the fall, the Secret Series will_feature international musical and dance talents from Japan, the Nether­lands, Canada, Spain and the United States.

In addition to Youth Concerts, there will now meet the concert on the same when the schedule was announced in July 2010.

The idea is to provide a musical platform for talented students from the globe. The secret of the 2015 Secret Series is the Japanese government, which is sending the youngest person to win such an award.

Dariusz Szyba, 18, is an American who will represent the US at the Secret Series this year.

Szyba is a recording artist and composer who has performed in Carnegie Hall, Lincoln Center and the Hollywood Bowl. He is a pianist and composer, and also a conductor, and has performed with various orchestras and ensembles around the world.

The program begins with a benefit concert for the Secret Series, which will be held on the 21st of March and will feature the famous pianist Alicia De Larrocha and the AMAN Folk Ensemble.

The Secret Series will continue with performances by the AMAN Folk Ensemble, the National Arts Center Orchestra, Gabriel Camarena, Midori, and Alicia De Larrocha.

The concerts are sponsored by various organizations, including the AMAN Folk Ensemble, the National Arts Center Orchestra, Gabriel Camarena, Midori, and Alicia De Larrocha.

COMING ATTRACTIONS

Shake, Rattle and Roll Members of The Shakes include (clockwise from back): Raiser Strait, P. Y. Connell, Mike Sklar, Paul Sklar and Mark Sklar. The band will play 10:30 p.m. Wednesday at The Starbucks.

Two-Year Columnist Retires Denotes Time to Vandalism

Well, faithful readers, the day you feared has finally come. It's time for me to hang up my gardening gloves and bid adieu to the position of Monotony Irrelevant. Here's what you'll miss:

- The monotonous chatter about the weather.
- The endless discussions on the state of the world's economy.
- The constant analysis of every presidential candidate's policies.
- The never-ending debate on the best way to combine vegetables in a salad.

As I look back on my career, I realize that I've spent more time writing about the inane than addressing the pressing issues of our time. And yet, I'm proud of the work I've done. After all, isn't that what it's all about? Producing meaningful content that will move the needle...a little bit.

I'd like to take this opportunity to thank all of you who've read my columns over the years. I've enjoyed the exchange and the feedback. It's been a privilege to share my thoughts with you. And I hope I've helped you understand the world a little bit better.

I've decided to take a break from the fray and immerse myself in more meaningful pursuits. I'm going to travel, read, write, and maybe even learn to play the guitar. In other words, I'm going to do all the things that I've been telling readers to do for years.

So, until we meet again, here's to the future and the endless possibilities it brings. And remember, if you ever feel like you're missing out on anything, just check out your local newspaper. It's always filled with important news and fascinating tales.

Monotony Irrelevance

Chris Harvey

The James Bond Films On Wake Forest

By Jeff Weger News Editor, The Wake Forest Chronicle

Michael Haneke and Jay Lawson's latest James Bond movie, SIlverline, will screen 7 p.m. Thursday at the Bailey Theatre in Bailey Center. The film is the third in a series of six films from the 1970s and 1980s, and as a result, much of the action is set in London. To add to the production, ACTS-TV (the local Southern Baptist station, cable 15) is planning to video edit the movie for more professional results. The machine also also performed the post-editing for a possible release on video tape and syndication.

The film's success is a matter of some concern to James Bond fans. The film's success has been hindered by the lack of a theme song. In the past, Bond movies have been supported by popular songs, and many fans argue that this lack of a theme song is a major flaw in the film. Without a popular theme song, the film may struggle to gain a following and may ultimately fail at the box office.

The film also has some serious violence, and many fans argue that this is a flaw in the film. The film's violence is not presented in a realistic manner, and many fans argue that this is a flaw in the film. The film's violence is not presented in a realistic manner, and many fans argue that this is a flaw in the film. The film's violence is not presented in a realistic manner, and many fans argue that this is a flaw in the film.

In conclusion, the film's success is a matter of some concern to James Bond fans. The film's success has been hindered by the lack of a theme song. In the past, Bond movies have been supported by popular songs, and many fans argue that this lack of a theme song is a major flaw in the film. Without a popular theme song, the film may struggle to gain a following and may ultimately fail at the box office.
CONGRATULATIONS GRADUATES!!!

'89 Graduates
College Financing Program
at Bill Jackson Toyota
We’ve made it easy to qualify

The Natural Life History of A Text Book

The text book is a unique animal in the world of books. It is many things to many people.

1. It is a work of reference and handy manual, admired by its author and praised by the likes of the publisher.

2. It was considered a Scholastic and Patented and marketed by Effort. Moreover, Its future is bright and full of ups and downs.

As an insult, it’s work not weighed on diamonds, but the day comes when the publisher can’t get a dime for his own offspring!

Sparring now, this enter’s price packages students who buy it over the counter.

The new baby matures fast in a world of hard book ends. By turns, it is used and mixed in. It is handled and misread. It is sold, used, and shelved. By turns, it is a friend and a foe. It is later to dinner and kept up all night. It gets picked up, nodded and purrs. It gets discussed, smelled, and licked across the room.

It gets stepped on and dropped. It gets raised on and set on. It is touched through and flipped through and stuffed over.

It leaves many owners. It is bailed over,增长ed for, drilled, and answered.

And when orthodoxy and rules when the book buyer announces a new baby brother back of the publisher with a birth mark that reads: "New Edition," or "The Book We No Longer Use (On Campus)."

What we can pay for your books is determined by the demand for that title, elsewhere and by the condition of the book and if when it will be adopted again on this campus.
