Good boy!

ARLEN G. HARRIS
WINSTON-SALEM, NORTH CAROLINA

October 4, 1967

Dear Mr. Burroughs:

A nice young man came by the house the other night and fixed a semi-permanent arrangement so that my color set could receive Channel 8 without any interference. This arrangement is a vast improvement over the similar arrangement made sometime earlier but without the clothespin clamp. This seems to be working fine. I still feel, however, that it is necessary for 100% reception to have a permanent filter which I understand is now available at Bocock-Stroud.

I do appreciate the effort in sending your student by to try to help improve my poor reception on Channel 8. He was polite and well dressed and made a nice impression for Wake Forest.

Thank you for your concern.

Sincerely,

Arlen Harris
