Messrs. John M. Brewer & Co.

Dear Sirs

I drop a line to say
that I found in sending the articles wrong that they could
not go in the freight train as the cars were stored. I then went
down my self and paid the freight on them (50^{cts}) and have
them sent in the Baggage Car, and hope that you received
them safely. I could not see you afterwards to advise you and
therefore drop you this time. I have charged you with the 50^{cts}
p. for freight. Please remember to send my bags back.

Yours truly

BALTIMORE, PHILADELPHIA, NEW YORK, BOSTON, and all places in NORTH and SOUTH CAROLINA.

O. V. SMITH, Agent, Seaboard and Roanoke Railroad Co.

E. G. GHIO, Master of Transportation, Seaboard and Roanoke Rail Road Co.

R. L. POOR, Agent, Baltimore Steam Packet Co.

Portsmouth, Va.

Portsmouth, Va.

Foot of Union Dock, Baltimore.

Baltimore Steam Packet Co.

FOOT OF UNION DOCK,

BALTIMORE.

R. L. POOR, Gen'l Agent.

N. B. All Packages will be forwarded and delivered as marked.

This Line will not be responsible for loss, damage or delay, occurring through wrong delivery of goods, UNLESS MARKS CORRESPOND WITH THIS BILL OF LADING.

Marks and Numbers:

ATTENTION OF SHIPPERS

Is called to the Act of Congress of 1851.

"Any person or persons shipping Oil of Vitriol, Unslacked Lime, Inflammable Matches, or Gunpowder, in a Ship or Vessel taking cargo for divers persons on Freight, without delivering at the time of shipment, a note in writing, expressing the nature or character of such Merchandise, to the Master, Mate or Officer, or person in charge of the Ship or Vessel, shall forfeit to the United States, ONE THOUSAND DOLLARS."

The above named articles will not be received unless packages are so marked as to show nature of contents.

DELIVERY and RATES

Guaranteed only from Baltimore to

1st Class, 96 cts. per 100 lbs.

Shipped, in apparent good order, by

J. M. Brewer & Co.
J. M. Brewer & Co.
J. M. Brewer & Co.

marked and numbered as per margin, and to be delivered in like order, loss or damage as hereinafter excepted, unto

J. M. Brewer & Co.

and upon the following conditions:

Neither the said Companies constituting the Through Line, nor any of them, will be responsible for perishable property, or for loss or damage, delay or detention arising from the act of God, public enemies, mob, riot, insurrection, pirates, robbers, thieves, restraint of rulers, princes, or people, civil or military authority, sweating, leakage, breakage, stowage, contact with other goods, the effects of heat or cold, dampness, dirt, wet, vermin, explosion, fire, or any other cause whatever, unless the same be proved to have occurred from the fraud or gross negligence of the company or companies, their agents or servants. And in no case will the BALTIMORE STEAM PACKET COMPANY be responsible for loss or damage, delay or detention arising from storms, ice, collision, jettison, shipwreck, stranding, accident to boilers or machinery, or any accidents of the bays, rivers, or of steam navigation of whatever nature or kind, unless a special receipt be taken therefor, and a charge of per cent. on the value of the article or articles be paid to said Company prior to the shipment of the same, for insurance against the above named risks, between Baltimore and Norfolk, or Portsmouth. And neither the said Companies constituting this line nor any of them will be liable for any loss or damage unless the claim be made in writing within 24 hours after the delivery of the article or articles, and the amount of such loss or damage must be adjusted in the presence of an officer of the line before the same be removed from the Company's warehouse or station at destination. And it is further stipulated and agreed, whereby any legal liability may be incurred by the terms of this Contract, the Company or Companies of the line incurring such liability shall have the benefit of any insurance which may have been effected upon, or on account of said property; and it is further agreed, that the amount of loss or damage so accruing, shall be computed with reference to the value of said property at the place and time of shipment, under this Bill of Lading. The steamers of the BALTIMORE STEAM PACKET COMPANY, and of any other Company or Companies of this line, are at liberty to touch at any port or ports, to tow and assist vessels in all situations, and to sail with or without pilots.

IN WITNESS WHEREOF, the Agent hath affirmed to Bills of Lading, all of this tenor and date, one of which being accomplished, the other to stand void.

Woodson

Agent for the Companies.

N. B.—All claims for loss or damage to freight, or for overcharge under this Bill of Lading, will be promptly investigated and settled for, upon application to JAS. MCCARRICK, Trace Agent, Portsmouth, Va. Consignors from, or Consignees at Baltimore may have claims examined by application to

R. L. POOR, General Agent,

Mr John M. Brown & Co

Gents

Yours of the 27th to hand
We shipped you on the 28th 10 Gallons oysters
we would have filled your order on its
arrival, but the weather was so cold it was
impossible to get the oysters opened. Hope
to be able to fill orders promptly after this
week, as the ice is leaving the river

OFFICE OF

L. W. Herring.

FARRIOR & HERRING,

Manufacturers of

CANDIES,

And Wholesale Dealers in Fancy Groceries, Fruits, Nuts, Cigars, Canned Goods,

ENGLISH AND AMERICAN PICKLES, &C., &C.,

No. 7 South Liberty Street.

Baltimore, *Nov 1st* 1872

My dear Sir

We have your favor of 23rd ulto enclosing \$3.50 in settlement of bill of 22nd Oct. & am
is to your credit with thanks. Your
letter was recd on the 4th, we intended
shipping your order today, but find
it impossible to ^{do} so except at an
enormous dray age, all the horses
are affected with the horse malady
and as it is raining to day very heavy
one out, as the weather is very unfavor-
able to those that are convalescent
we will try to get your goods off tomorrow
if possible.

Yours Truly

Farrior & Herring

Parion & Hermin.

MARKET REVIEW.

TEAS

Are very quiet, some few transactions in first hands, with the likelihood of a much more active trade, at higher figures, in a very few weeks.

COFFEES.

West India and South American Coffees are higher, with an increasing demand from both domestic and European buyers. Holders are firm and will not offer, and it is probable that the market will advance considerably.

SUGARS.

The raw material is dull, but held firmly. Refiners will not manufacture in the present state of the market, and goods must ere long go higher.

MOLASSES.

Choice Porto Rico is scarce. New Orleans, with larger shipments coming on the market, must go lower, although choice will be scarce and command good prices.

SYRUPS

Are held firmly, with an increasing demand.

RICE

Is steadily held, with a light trade, at good prices for both domestic and foreign qualities.

FLOUR.

An active market, with an upward tendency.

FRUITS.

In foreign there is an active demand from consumers, at prices as low as they are likely to be. There is not much trade in domestic, at prices in favor of the buyer.

FISH.

There is not much demand, but prices continue firm.

LARD

Is firmer.

BUTTER.

Choice qualities are scarce and firm. Ordinary grades unchanged.

CHEESE.

Undesirable goods are abundant and cheap. Choice goods bring good prices and are unchanged.

COTTON.

There has been only a moderate demand for Cotton on the spot, and prices have declined, the market closing with a downward tendency.

NOTICE.

We receive and sell on commission Butter, Cheese, Dried Fruits, Flour Cotton, and all kinds of produce, EXCEPT EGGS from the West and South during warm weather, and GAME and POULTRY, which latter we request our customers not to consign to us

SHADE 23.

SHADE 13.

SHADE 26.

The above are a few samples made by us; are not varnished, neither does varnish of any kind enter into its composition. It is the paint itself.

THIS PAINT IS PREPARED FOR IMMEDIATE APPLICATION,
REQUIRING NO MIXING.

AND IS SOLD BY THE GALLON ONLY,
IN PACKAGES TO SUIT, from 1 to 40 GALLONS.

One Gallon covers 200 Square Feet, TWO COATS.

Send for full and descriptive Sample Card, containing 30 beautiful tints and colors, (together with recommends from all sections of the country,) and Price List, to the

Averill Chemical Paint Company,
32 Burling Slip, NEW YORK.

ARE YOU GOING TO PAINT?

SELECT THE BEST.

The Averill Chemical Paint

IS OF THE

PUREST WHITE AND ANY DESIRED SHADE OR COLOR.

It Costs less, and will wear twice as long as the Best White Lead.

READY FOR IMMEDIATE USE—REQUIRES NO THINNING
AND SOLD ONLY BY THE GALLON.

A PAINT that will remain in perfect solution, MIXED READY FOR USE, and that can be purchased either in Pure White, Buffs, Drabs, Slate, French Greys or Brown, which will prove more DURABLE and far HANDSOMER than any other, besides costing less, and that can be applied by anyone who can move a brush, must meet with unprecedented success.

Such is the fact concerning the

AYERILL CHEMICAL PAINT,

and the *Press* throughout the country have so endorsed it. Read what they say:

N. Y. Independent: From personal use of the Averill Chemical Paint, we are well acquainted with its merits, and do not hesitate to express our cordial approval of it, and recommend it to the favorable notice of every householder in the land.

Christian Union: This company supply a long felt want. Farmers, and in fact everybody, can be their own painter, if necessary. Owners of hundreds of elegant residences, who are testifying to its merits, are a sufficient guarantee of its worth.

N. Y. Observer: The Averill Chemical Paint is no humbug. From our own experience we have no hesitation in recommending it as a paint that will stand.

The Methodist: It only requires general publicity to have its adoption and use become universal.

Liberal Christian: Some three years ago we applied the best "strictly pure" white lead to outside work, and at the same time some of the Averill Chemical Paint: to-day the white lead requires re-painting, while the Averill looks as white and glossy as when first applied.

Examiner and Chronicle: These paints are now becoming exceedingly popular, and we refer our readers, who may be in pursuit of a meritorious article, to the Averill Chemical Paint.

American Agriculturist: We have used it on inside and outside work: it spreads easily, has a good body, and a very beautiful appearance: and we recommend those who are going to paint to use it.

N. Y. Tribune: We would call the attention of persons about to paint their houses, barns, etc., to the Averill Chemical Paint. It is all ready for use, and of many beautiful shades. The numerous testimonials from persons of high respectability, many of whom are personally known to us, urge us to recommend it.

Moore's Rural New Yorker: This paint has been strongly recommended by our correspondents and other disinterested parties. Any amateur can use it without difficulty.

The Cultivator and Country Gentleman: We have found the Averill Chemical Paint to adhere better to all surfaces than any other paint. We have given these paints a full trial, and they possess all the merits claimed for them.

[Redacted] This meritorious article, wherever it has been properly tested, has gained the heartiest expressions of approval.

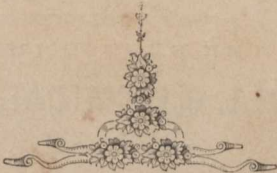

Christian At Work: Its applicability for all purposes, and its durability is so well attested, that we unhesitatingly recommend our readers to give it a trial.

Recommends from all sections of the country, comprising the owners of many of the finest villas and residences in the land, can be obtained with FULL SAMPLE CARD and PRICE LIST, free of charge, by addressing

AYERILL CHEMICAL PAINT CO.,

NO. 32 BURLING SLIP, NEW YORK.

P. S.—The superiority of this Paint has already brought numerous worthless imitations in the market, under the names of "Enamel," "Mixed" and "Chemical Paints." We caution the public against them.

ARE YOU GOING TO
PAINT?

THEN READ THE WITHIN

Are You Going to Paint?

THE BEST IS THE

AVERILL CHEMICAL PAINT,

BECAUSE

1ST. It has been thoroughly tested by chemists, and over 150,000 owners of residences throughout the United States for the last six years, and pronounced by them to be the most *durable* paint known.

2D. For beauty and retention of color it stands far ahead of any other. Buildings have been painted with it in part, and partly with the best of other paints, both in the interior and on the sea coast, and in no case has it been excelled for beauty or permanency of color.

3D. It is economical, and its cost is no more than the best lead and oil, and being far more *durable* (it wearing about twice as long as the best of any other,) and *beautiful*, warrants the assertion that for a period of twenty years it will save the consumer fully 50 per cent.

4TH. *It is in liquid form and all ready for use.* Purest White, or any desired shade, can be obtained without subjecting the buyer to the annoyance of purchasing oil, pigments, coloring matter, dryer, &c. It is easily spread, flows freely from the brush, clings firmly to every substance it may be applied upon. For wood, brick, iron, or for any painting purpose where durability, beauty and preservative properties are requisite, it stands unrivalled. Though composed of the most indestructible materials known to science, an analysis of the AVERILL CHEMICAL PAINT shows it to be (unlike lead and most of the other paints) free from poison. It will not blacken or discolor by the action of the sulphurous gases so prevalent on our marshy rivers and coasts.

We would call your attention to the following

EXTRACTS FROM OUR LETTERS.

—o—

P. T. BARNUM, Esq., writes: I am fully convinced that the Averill Chemical is the best Paint made; having had it applied by the side of various brands of Lead, and in every case it has held its color the best, and has worn the longest. I would advise every one in pursuit of a handsome and durable Paint to use the Averill Chemical.

MARTIN WIRES, of Underhill Centre, Vt., writes: I painted one side and end of my house with Averill Chemical Paint, and the other side and end with best Lead and Oil. I found the same cost of Averill Chemical Paint spread over more surface and has a much better gloss, and while the Lead is growing rough, the Averill Paint remains smooth and hard.

The Hon. JAS. S. NEGLEY, Pittsburgh, Pa., writes: I have no hesitation in recommending the Averill Chemical Paint to those who regard economy and durability. The colors are rich and variable; altogether, I find it the cheapest and best.

LEVI SHAW, Trustee of the Society of Shakers, Mount Lebanon, N. Y. writes: We have used a thousand gallons of your Paint and are much pleased with it. We have used heretofore the best brands of American Lead, none of which would give us perfect satisfaction; the most of it would chalk off after being on two years. Thus, after three years experience, we do not find to be the case with the Averill Chemical, indeed, it appears just as well as when first put on.

R. L. MOTT, Esq., Columbus, Ga., says: The Averill Chemical Paint I have had applied on my entire premises. Its equal I have never seen. Its beauty is admired by all who see it.

JOHN W. BICKEL, Pottsville, Pa., writes: The Averill Chemical Paint put on my house gives excellent satisfaction. My house is very much exposed, yet the Paint looks as well as when first applied.

PETER HENDERSON, Seedsman and Florist, New York, writes: It is now a year and a half ago since I painted my residence with the Averill Chemical Paint, and, compared with painting that I had done with the best White Lead and Oil at the same time, I find that the Chemical Paint retains its color and gloss far superior to the lead and oil. In future I will use no other.

J. V. NICHOLS, Architect and Civil Engineer, Orange, N. J., writes: Over two years ago I had my house painted with the Averill Paint, and from close observation, think it superior to the best English White Lead—covers better, retains its gloss, and does not crack or chalk off—in fact, becomes firmer with age. I think it cheaper because of these qualities, allowing first cost the same. From my experience the colors stand better than any other Paint in use.

J. C. POLK, Abingdon, Hartford Co., Md., writes: In the Spring of '70 I used your Chemical Paint on my house which is of stone-stuccoed. It had been built *thirty years and never painted*; two coats of your Paint were applied. It has stood the hot Summer of '70, and the very cold winters of '70 and '71, and to-day it is as glossy and perfect as the day it was put on. It has neither blistered, chalked or peeled off, and in fact, is in all respects the best paint I ever used or saw used.

GENTS:—In November I painted my house, 194 Walnut Avenue, Boston Highlands, outside and inside with Averill Chemical Paint. Thus far it pleases me very much indeed; and, compared with other houses painted at the same time with lead, is very noticable for its freshness and polish. I can only say that I should use it were I to build again, and have no hesitation in advising my friends to use it. Yours very truly,

H. E. SIMMONDS, Treas. Am. Tract Society.

SAMUEL L. CONDE, Esq., Attorney at Law, Ganastota, N. Y., writes: I cannot praise your Paint too highly. That put on my house two years ago looks as glossy and bright as when first applied. Two houses on the lots adjoining mine were newly painted last Fall with the best White Lead (by professional painters who have heretofore cried down your paint as a humbug); but now, after only one winter's exposure, they find to their chagrin that the Lead paint which they put on has faded and is rapidly chalking off. Facts like these are convincing people of the decided superiority of the Averill Paint over all others.

S. B. HOWELL, Painted Post, N. Y., writes: My house, which was old and worn, was painted with the Averill Chemical Paint over two years ago, and has not *started* the least; the best White Lead will fail sooner than this.

GILBERT & BROS., of Honeoye Falls, N. Y., say they painted a green oak railing last winter, two coats, with the Averill Chemical Paint, and that the painter was obliged to scrape off *the ice* before applying the second coat, and it is a perfect job to-day.

CHAS. HALLETT, Esq., Riverhead, L. I., writes: I was prejudiced against your Averill Chemical Paint until I had put it to actual test by the side of the best of other paints, when I found it was all claimed for. It is the handsomest paint ever used in this section, and by far the most durable. Please send me, etc.

Gen'l G. R. SMITH, Sedalia, Mo., writes: My residence, built of brick, painted, two coats, with the Averill Chemical Paint. It is much handsomer than three coats of Lead and Oil. I consider it far superior to any paint I ever saw.

L. M. BOWNE, Esq., Glen Cove, L. I., says: The Averill Chemical Paint I used two years ago; it is as nice to-day as when first applied. The green which was used on my greenhouse is magnificent.

F. F. THOMPSON, Prest. National Currency Bank, N. Y., writes: Please forward me, etc. I have used the last lot and am pleased with the saving of muss in mixing, etc. My men say it requires less rubbing than ordinary paint, and they can paint further and easier than with ordinary paint.

ELI S. SHORTER, Attorney at Law, Eufala, Ala., writes: A. C. P. Co. Gentlemen; I am highly pleased with all the Paints I got from you. Several parties here, seeing my house, have applied for your address. I shall cheerfully recommend your Paints to all our citizens.

Science pays a tribute to the Averill Chemical Paint.

Prof. CHARLES F. CHANDLER, a Chemist of world-wide reputation (who has analyzed the Averill Chemical Paint), says:

In painting with paints used prior to the invention of D. R. Averill, pigments had to be purchased, coloring matter, oil, thinning agents, dryers—and varnish also, if gloss was desired—which made it very inconvenient and expensive; but with the Averill Chemical Paint an intimate mixture or emulsion is produced, and paint ready for application in small or large quantities can be purchased and used as occasion may require. I consider it a useful, permanent liquid paint, and the invention one of great value.

Prof. BENJAMIN SILLIMAN, a Chemist regarded as authority in scientific matters, (after making a thorough analysis and test of the Averill Chemical Paint), says:

Its ingredients are metallic oxides, gelatinous silica, etc., combined scientifically and in such a manner as will produce a liquid oleaginous paint, that from its nature must prove very elastic, as well as handsome and durable; and the invention of the Averill Chemical Paint I consider one of the most valuable and scientific known.

Prof. J. LANG CASSELS, one of the most thorough and scientific Chemists of the West (after analyzing and testing the "Averill Chemical,") asserts:

That up to the time of the invention of D. R. Averill, such durable ingredients, so scientifically combined, were not to be found in painting materials, and being conversant with their nature, I am prepared to say that the Averill Chemical Paint must give a hard durable surface, that it will prove more elastic and not discolor like ordinary lead paints and being permanently liquid and ready for use leads me to pronounce it one of the most valuable discoveries ever made in this direction.

Prof. L. LANSZWEERT, of San Francisco, Cal., by far the ablest Chemist west of the Rocky Mountains, says:

Samples of Averill's Chemical Paint have been boiled, heated, frozen and pickled in alkalis and acids, and fumigated with foul gases. It has been boiled and then immediately placed on ice, so as to freeze whatever water might have been absorbed, and it has also been heated and then plunged into ice water, but without any sign of cracking or softening, superficially or otherwise. No other paint could stand these tests. I am confident of its ultimately superseding the use of all other paints for external or internal application, either on stone, wood or metals.

TO ALL

Who may be in pursuit of a good article of Paint, we unhesitatingly say use only the "AVERILL CHEMICAL PAINT."

Sample Card of Colors, with Rule for ascertaining the amount of Paint your building would require, together with Price List, furnished free by

SEELEY & STEVENS,

32 Burling Slip,

NEW YORK.

CAUTION.

It is a well known fact that when the Averill Chemical Paint was first put upon the market, it was the only paint of the kind that could be found. Its merits were so great, however, that twelve months had scarcely elapsed before counterfeits began to appear, until they are numbered by scores. Thefts so plain as are these are fully provided for in the United States Patent Laws, and when the suits begun by the Averill Chemical Paint Company—and now in process of trial—shall have been decided, we shall hold all manufacturers and purchasers of Liquid Paint, in violation of our Patents, to a strict account.
