

Ryan,

SUGGESTION: Lots of hard-core sports fans watch WAKE TV's "Sportsline". Could you talk to Drew about promoting the rec center on the show?

STUDENT GOVERNMENT

Legislature

1998-1999

A Tradition of Leadership

Student Government
Wake Forest University

Student Government exists to represent and voice the needs, concerns, and opinions of all undergraduate students and to formulate policies for the self-governance and the betterment of the entire student body. In addition, Student Government acts as the primary link between different student groups as well as between the students, the faculty, and the administration.

The structure of Student Government is modeled after the United States federal system, consisting of executive, legislative, and judicial branches. This strong framework creates a system in which the executive branch provides vision, planning, and initiative; the legislative branch directly represents the students and their interests; and the judicial branch enforces our standards of honor and personal conduct.

The executive branch consists of the Executive Officers (President, Vice President / Speaker of the House, Secretary, and Treasurer), an Executive Auxiliary Position (Chief of Staff), and numerous Executive Committees (Cabinet, Elections Committee, Student Budget Advisory Committee, Committee on Committees, and Executive Advisory Committees). The function of this branch is to initiate and oversee the operations Student Government.

The legislative branch is the centerpiece of Student Government. Consisting of the seventy-five-member Legislature and six standing committees (Academic, Appropriations and Charter, Campus Life, Judiciary, Physical Planning, and Public Relations), this branch serves as the primary policy making body of the undergraduate Wake Forest community. Directly responsible for representing the students, the Legislature is also the primary forum for debate and discussion of campus issues.

The judicial branch is the third branch of Student Government. This branch is comprised of the Honor and Ethics Council, the Board of Investigators and Advisors, and the Judicial Co-Chairs. The purpose of this branch is to preserve and maintain the integrity of the Honor Code, to provide a fair determination of whether a student has violated a college rule, and to assess penalties where appropriate.

Student Government
OFFICE OF THE VICE PRESIDENT

September 27, 1998

Dear Legislator,

Your election to the Student Government Legislature is truly an honor. With the casting of their votes, your classmates have invested their trust in you to represent them and their interests with regard to key campus issues. Like no other time in the history of Wake Forest University, our students need a strong and active Student Government. In recent years Wake Forest has redefined its vision through initiatives like the Wake Forest Undergraduate Plan (formerly the Plan for the Class of 2000) and last year's judicial reform. As these past changes are implemented and new changes are made, Student Government must strive to be an outspoken voice for all students.

Our essential goals for this year are to increase accountability and to improve representation. First, accountability; when the students, faculty, and administrators look at what Student Government has accomplished this year, they will look at what each of you have accomplished as individuals. It is only through your hard work and dedication that Student Government will fulfill its goals. Student Government has an unprecedented opportunity to provide innovative leadership for this University and make an impact for years to come. Our effectiveness will be determined through your service. In this binder you will find a Legislative Contract. This contract is not between you and the executive officers, but rather between you and your constituents. It details your responsibilities as a Legislator, from attendance at weekly meetings to completion of weekly constituent email letters. Let this contract serve as a source of motivation and encouragement, and as a constant reminder of your role as a public servant.

Our second goal is to improve representation. Your primary responsibility as a Legislator is to the students that elected you. In this binder, you will find a list of fifty names. These fifty students are your constituents. For every issue that comes to the floor of the Legislature you must do four things: first, educate yourself; second, educate your constituents; third, balance your best judgment with the educated interests of your constituents; and fourth, cast your vote accordingly. To educate your constituents, you will be required to email them once a week and meet with them twice a semester. This will allow Student Government to communicate our actions to the students, and all the students to communicate their interests to Student Government.

I encourage you to stop by the office at anytime to chat with us or to share your ideas on any subject. It is important that you take initiative and work on a project that you have invested interest in. Also, I plan to contact each of you to make an appointment in my office. Your peers placed their trust in you. Now it is up to you to execute the duties of your office to the best of your ability. Serve out your term with dignity and pride, and always remember those whom you represent. I am looking forward to a successful year. Thank you for your dedication, and congratulations.

Sincerely,

Ryan B. Opel

OFFICE OF THE PRESIDENT

September 27, 1998

Dear Legislator,

Congratulations on your election to the 1998-1999 Student Government Legislature! We are pleased to have you on board and look forward to a successful year. Judging by the amount of activity so far this semester, coupled with the energy and innovations that each of you brings, this year promises to be very productive and effective for Student Government.

In the past, the Legislature has worked on key issues such as establishing and designing Shorty's, creating the Campus Leadership Council, advocating social responsibility by lobbying for "Safe Roads" legislation to toughen state drunk driving laws, and researching and promoting the possibility of a Residential Study Center in Washington, DC. Perhaps the most impacting of Student Government's successes has been the reformation of the structure and processes of the Judicial Branch of Student Government, which garnered impressive support from the student body in last spring's campus-wide referendum. Members of the Legislature have also worked diligently to organize quality open forums, coordinate campus-wide social events, and pursue other initiatives to improve student life at Wake Forest.

This year promises many challenges and achievements for Student Government. Thus far, this semester has proven busy for Student Government. Accomplishments include establishing the 2000-2001 academic year as *The Year of Honor and Ethics*, the first student-initiated theme year; garnering President Hearn's support in examining the proposal for a Residential Study Center in Washington, DC; working with the Athletic Department on the possibility of a campus Rec Center; and exploring ways of promoting honor on campus through freshman orientation. Last weekend, September 18 to 20, the Executive Officers co-sponsored the Thirteenth Annual Presidents' Leadership Conference in Smith Mountain Lake, Virginia. Under the theme *Exceeding Expectations: A Higher Standard of Leadership*, this conference provided an effective venue for student leaders, faculty, and administrators to discuss campus issues, exchange ideas, and explore improvements for the Wake Forest Community.

This semester will undoubtedly be filled with an endless flow of issues, both the innovative ideas that you bring, as well as those concerns brought forth by the student body. With your help, we will seek new initiatives and resolve many issues for the betterment of our campus community. I challenge you to adopt the above theme as a source of motivation as you actively work to promote and represent student interests throughout the year. The effectiveness of SG ultimately resides in the efforts of you, the Legislator. Hold yourself to a higher standard, and exceed your own expectations as a leader and as a Legislator to exceed our expectations for Student Government. If you have questions, concerns, or ideas, please feel free to contact me at x5987 or come by the office in Benson 304. I look forward to a challenging and fulfilling year working with you.

Sincerely,

Susie

BASKETBALL TICKET DISTRIBUTION

Campout Guidelines

I. Rationale

We believe that basketball ticket distribution should be a ***student run process that rewards the most dedicated fans***. Due to problems maintaining order in last year's spring ticket pick-ups at Spry Soccer Stadium, Student Government has established guidelines for camping out prior to the pick-up time. We hope these procedures will make the ticket pick-up process more orderly, fair, and enjoyable. Most importantly, we hope these guidelines will ensure that basketball ticket distribution will remain a student run process. These new guidelines will start in the spring semester.

II. Campout Guidelines

A. An official list will be started at 5:30 p.m. the night before the basketball ticket pick-up. At this time, a Student Official will sign the names of those waiting in line on the official line list and will continue to sign in people as they arrive. *(Students arriving after 5:30 a.m. will not be included on the line list and are exempt from these campout procedures.)*

B. A line check will be done every 90 minutes beginning at 7:00 p.m. and ending at 8:30 a.m. A representative for the party on the official line list must be in line during these times. One line check may be missed with no penalty, excluding the mandatory 8:30 a.m. check. This will allow people to leave to get food or sleep for a few hours without penalty. However, a second miss will result in that party's removal from the official line list and will require re-registration.
(Line check times are: 7:00 p.m., 8:30 p.m., 10:00 p.m., 11:30 p.m., 1:00 a.m., 2:30 a.m., 4:00 a.m., 5:30 a.m., 7:00 a.m., and 8:30 a.m.)

C. Ticket distribution will begin at 9:00 a.m. in the order that names appear on the official line list.

**A party is made up of one student with a Student I.D. and up to six athletic passes.*

III. Student Officials

A. Workers: Student Government Executive Officers and Legislators can volunteer to work shifts during the spring ticket pick-ups. If not enough Execs and Legislators volunteer, the offer will be extended to other branches of SG, and then to interested students outside of SG.

B. Responsibilities:
1. Begin the official line list at 5:30 p.m.
2. Conduct line checks every 90 minutes beginning at 7:00 p.m. and ending at 8:30 a.m.
3. Register additions to the line list between 5:30 p.m. and 5:30 a.m.

C. Shifts:

5:15 p.m. – 9:15 p.m.	(2 students)	7:15 a.m. – 10:30 a.m.	(2 students)
9:15 p.m. – 1:15 a.m.	(2 students)	8:30 a.m. -12:00 p.m.	(4 students)
1:15 a.m. – 4:15 a.m.	(2 students)	12:00 p.m. – 4:00 p.m.	(1 students)
4:15 a.m. – 7:15 a.m.	(2 students)		

D. Reward: Student Officials will be compensated with 2 basketball tickets, likely between rows L-N of section 112 at the Coliseum.

Major Changes to the Judicial Statutes

(1) The following was added to page 17 on the Section of Ethics, there was previously no mention of ethical standards for the BIA.

Section 3- Ethics

Subsection c- Code of Ethics for Members of the Board of Investigators and Advisors

1. A member's public and official behavior should be beyond reproach and free from impropriety or the appearance of impropriety.
2. A member should always bear in mind, both when investigating a case and presenting it before the Honor and Ethics Council and when advising an accused student, that his/her primary responsibility is to discover the truth and to present the facts of the case to the Honor and Ethics Council in a clear and cogent manner.
3. A member should represent accused students to the best of his/her ability within the bounds of Wake Forest University policies and procedures.
4. A member should not knowingly advance a claim or defense if it cannot be supported by a good faith argument based upon University policies and procedures.
5. A member should maintain and protect confidential information concerning the accused student unless the disclosure is permitted by the student, the disclosure is necessary to carry out good faith representation, or the information concerns criminal activity unrelated to conduct giving rise to the charges under review.
6. A member should not knowingly conceal or obstruct access to facts or evidence necessary for consideration of a case, make a false statement, use perjured testimony, or counsel a student in conduct which he/she knows is unlawful or a violation of University policy.
7. A member should not discuss the case or cause another to discuss the case with any member of the hearing panel. It is expected that the two members appointed to a particular case, one to investigate and one to advise, will be in regular communication about investigation, both with each other and with the Co-Chair.
8. Violations of this Code of Ethics should be reported to the Judicial Council.

Subsection d- Oath for Members of the Board of Investigators and Advisors.

Each newly appointed member of the Board of Investigators and Advisors on an individual basis, will take the following oath to be administered by the Judicial Officer or his/her designate.

"I do solemnly affirm that I will work to the best of my ability as a member of the Board of Investigators and Advisors to discover the truth and to represent accused students fairly, that I will observe the Code of Ethics, that I will adhere to the University's judicial policies and to the rules and regulations of the University, and that I will always be mindful of the interests of the student, as well as the interests of the University and the public."

(2) On Page 18 of the handbook, section 5 subsection 2, only goes up to (c). The following section (d) was added to account for on-line plagiarism.

Section 5- Procedures of the Honor and Ethics Council
Subsection a- Honor Code Violations (pg. 18, L)
2(d) the use, by paraphrase or direct quotation, of on-line material without complete acknowledgment of the source. (added)

(3) On Page 20, first time offenders and cooperation were taken away as circumstances that would lessen a student's sentence.

Section 5- Procedure
Subsection d- The Hearing
9(a) Mitigating factors which may be considered by the hearing panel include:
i. Absence of any prior offenses of University policy; (omitted)
v. Evidence that the offender cooperated with the investigation and hearing of the case; (omitted)

(4) On page 20, the aggravating factor of premeditation of a violation was withdrawn from the statutes.

Section 5- Procedures of the Honor and Ethics Council
Subsection d- The Hearing
9(b)- Aggravating factors which may be considered by the hearing panel include:
ii Evidence that the offender acted in a purposeful manner in planning and preparing to commit the offense; (omitted)

(5) The following appears only in the Judicial Council Constitution on page 26. It was added to the statutes.

Section 5- Procedures of the Honor and Ethics Council
Subsection g- Mistrials
Note: Only substantial procedural error which prevents the continuation of a fair hearing constitutes appropriate grounds for granting a mistrial. Doubts about the appropriateness of granting a mistrial should be resolved in favor of allowing the hearing to proceed to judgement while reserving procedural issues for review by the Judicial Council. (added)

Prepared by your diligent Judiciary Co-Chairs Khalid Jones and Clint Watson. All questions should be directed to us…unless they're hard and should then be directed to Clint. Thank You.

BASKETBALL TICKET PICK-UP

Campout Guidelines

I. Rationale

We believe that basketball ticket distribution should be a ***student run process that rewards the most dedicated fans***. Due to problems maintaining order in last year's spring ticket pick-ups at Spry Soccer Stadium, Student Government has established guidelines for camping out prior to the pick-up time. We hope these procedures will make the ticket pick-up process more orderly, fair, and enjoyable. Most importantly, we hope these guidelines will ensure that basketball ticket distribution will remain a student run process. These new guidelines will start in the spring semester.

II. Campout Guidelines

A. An official list will be started at 5:30 p.m. the night before the basketball ticket pick-up. At this time, a Student Official will sign the names of those waiting in line on the official line list and will continue to sign in people as they arrive. *(Students arriving after 5:30 a.m. will not be included on the line list and are exempt from these campout procedures.)*

B. A line check will be done every 90 minutes beginning at 7:00 p.m. and ending at 8:30 a.m. A representative for the party on the official line list must be in line during these times. One line check may be missed with no penalty, excluding the mandatory 8:30 a.m. check. This will allow people to leave to get food or sleep for a few hours without penalty. However, a second miss will result in that party's removal from the official line list and will require re-registration.
(Line check times are: 7:00 p.m., 8:30 p.m., 10:00 p.m., 11:30 p.m., 1:00 a.m., 2:30 a.m., 4:00 a.m., 5:30 a.m., 7:00 a.m., and 8:30 a.m.)

C. Ticket distribution will begin at 9:00 a.m. in the order that names appear on the official line list.

**A party is made up of one student with a Student I.D. and up to six athletic passes.*

III. Student Officials

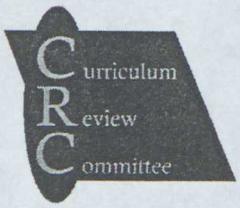

A. Workers: Student Government Executive Officers and Legislators can volunteer to work shifts during the spring ticket pick-ups. If not enough Execs and Legislators volunteer, the offer will be extended to other branches of SG, and then to interested students outside of SG.

B. Responsibilities:
1. Begin the official line list at 5:30 p.m.
2. Conduct line checks every 90 minutes beginning at 7:00 p.m. and ending at 8:30 a.m.
3. Register additions to the line list between 5:30 p.m. and 5:30 a.m.

C. Shifts:

5:15 p.m. – 9:15 p.m.	(2 students)	7:15 a.m. – 10:30 a.m.	(2 students)
9:15 p.m. – 1:15 a.m.	(2 students)	8:30 a.m. -12:00 p.m.	(4 students)
1:15 a.m. – 4:15 a.m.	(2 students)	12:00 p.m. – 4:00 p.m.	(1 students)
4:15 a.m. – 7:15 a.m.	(2 students)		

D. Reward: Student Officials will be compensated with 2 basketball tickets between rows L-N of section 112 at the Coliseum.

Recommendations of the Curriculum Review Committee, Fall 1998

Summary

1. Wake Forest should assign 3 credits for each course currently awarded 4 credits, and 4 credits for each current 5-credit course, with other courses proportionately adjusted.

2. Wake Forest should consider requiring 112 credits for graduation, if the 3-credit standard course value is adopted.

3. If the 3-credit standard is adopted, Wake Forest should adjust slightly the number of credits that can be taken in any one department, for a total maximum of 42.

4. Achieve flexibility for students within our curriculum through a well-publicized Open Curriculum option with clearly-defined criteria.

5. Make salient adjustments to the College curriculum without raising or lowering the number of required Basic and Divisional Courses.

6. Students should be required to take one course, at either the Core or the Major / Elective level, that educates them regarding cultural diversity.

7. Each Wake Forest undergraduate should take at least one course that requires quantitative reasoning, either as a qualifying course offering in the current Division II such as Math 108,109,111,112 or Physics 113 and 114; as an elective; or as a major course requirement such as Soc 371, Bio 380, and Bus 201.

8. Change the names of our Lower and Upper Divisions to Core, Major, and Elective Studies.

9. The Divisional structure of our Core Studies should be reordered to reflect the logic of our curriculum, and minor changes introduced to grant students more choices in fulfilling their requirements.

I. Designate the current Division III as Division I, The Humanities: Religion, Philosophy, and History. We recommend that Philosophy consider offering more than a single Core course.

II. Designate the current Division I as Division II, The Humanities: Literatures.

III. Designate the current Division V as Division III, The Humanities: The Fine and Performing Arts.

IV. Designate the current Division IV as Division IV, The Social and Behavioral Sciences.

V. Designate the current Division II as Division V, the Natural Sciences and Mathematics. We recommend that students must take three courses in Division V in at least two different departments.

10. The Curriculum Committee should be augmented by two representatives of our Interdisciplinary Programs, to be chosen from among the directors of those thirteen programs by vote.

11. All departments and programs not part of the current Core structure should be encouraged to propose courses to fulfill a requirement within an appropriate Division. These courses would be submitted to the Curriculum Committee to be considered initially by the appropriate subcommittee as currently constituted, augmented by either the chair of the petitioning department, at least one interdisciplinary representative, or the Dean of the Calloway School, according to each course.

12. Each department should work to expand and / or improve its Core offerings to ensure that Core courses are rigorous and intellectually engaging and challenging for all students, and create an Internet Web site with detailed course descriptions of Core courses so that students can make informed choices.

13. Advisers should explicitly encourage students to consider the implications of double majors and multiple minors.

14. The College should encourage interdisciplinary courses at the Major and Elective levels by awarding summer funding on a competitive basis to faculty for the purpose of developing them and by reserving some funds to hire replacement instructors as needed.

15. The College should continue to strengthen academic advising, particularly at the Core level, by offering mini-courses to new advisers and refresher seminars to veterans.

16. The faculty should consider implementing a one- or no-credit, Pass / Fail, Freshman Year Cultural and Academic Activities Requirement, to be monitored by academic advisers.

17. The College should adopt a mechanism for periodic review of its curriculum by the Committee on Academic Planning.

18. Each College department should adopt a mechanism for periodic review of its courses in both Core and Major / Elective Studies.

LEGISLATURE: 1998-1999
Parliamentary Procedure

- *Introduction:* Parliamentary procedure is a set of rules for conduct at meetings. It allows everyone to be heard and to make decisions without confusion. It is important because it is a time-tested method of conducting business in an efficient and orderly fashion at meetings and public gatherings.

- *Quorum:* A "quorum" is the number of members that must be present for business to be conducted legally. The actual number is usually stated in the bylaws.

- *Motions:* Members get their say by making a motion, a proposal that the assembly take a specific action on some issue. Members can present motions (make a proposal), second motions (express support for discussion of another member's motion), debate motions (give opinions on the motion), and vote on motions (make a decision). There are four general types of motions:
    - Main motions: Introduce subjects to the assembly for consideration.
    - Subsidiary motions: Change or affect how the main motion is handled.
    - Privileged motions: Raise urgent matters that are unrelated pending business.
    - Incidental motions: Raise questions of procedure that arise out of other motions.

- *Procedure:* To present a motion you must first obtain the floor. This is done through recognition by the Speaker of the House. Once you have obtained the floor you can make your motion. After a motion has been made it must be seconded by another member. Then the motion must be restated by the Speaker of the House. Next the floor is open for debate on the motion and expansion of the motion. Debate is ended through a motion calling the question. Finally, a vote is taken. The method for voting depends on the situation and on the laws of the organization, but can be done by voice, show of hands, roll call, ballot, or by general consent.

- *Pending business:* Business is pending when it has been stated by the Speaker of the House but not yet voted on. The last motion stated by the chair is the first pending. The main motion is always the last voted on. A motion to "table" can be made to lay something aside temporarily to take care of more urgent matters. A motion to "postpone indefinitely" allows members to dispose of a motion without making a decision for or against it.

Parliamentary procedure is the best way to accomplish things at meetings, but it only works if you use it correctly. Obtain the floor properly, make motions in their appropriate order, speak clearly and concisely, and obey the rules of debate. Most importantly, be courteous.
