Hudson Interviewing Tommy

Hudson: Alright, so my name is Hudson Lee. I'm from Spartanburg, South Carolina. And I'm here doing the interview with Tomahawk or some people call them 24 issues. were teammates on the baseball team. And I got a few questions

Hudson: Did you share about your background and where you grew up?

Tommy: From Oak Island, North Carolina, it's like, four hours towards the beach in the southern part of North Carolina. It's a really small town. Everyone knows everyone there. And just a good place to be very chill back there.

Hudson: Why did you decide to come to Wake?

Tommy: I came here to play baseball and the main reason I came was because of the head coach, because I like the head coach. Nothing other than that really matters to me. I mean, facilities are nice and everything but just the coach.

Hudson: You like Academics right? Alright, so what is your favorite week for us memory so far?

Tommy: My favorite Wake Forest memory probably has to be, I'd say probably playing in the regional last year.

That was a pretty good time. The stadium was packed and a lot was on the line. So yeah, that was a pretty cool experience. And it gives us and a lot of other people playing in the regional. It gives our team more experience.

And we're going to Omaha this year, so that'll be better. So What is the next question? Hudson: What has been the most challenging aspect of your time at Wake Forest?

Tommy: The most challenging aspect was, I'd probably say go into injury. Because I had surgery right before coming here. And when you get here, you're kind of like, I mean, you're with your team all the time, but you're kind of on your own, about how you do your thing. So going through an injury and not playing. I mean, that sucks. So you just gotta keep your head up. I guess that was definitely the toughest time since I've been here.

Hudson: Yeah, agree the same for me. Um, the next one is what is something you've done? While a student at Wake Forest that you're proud of?

Tommy: Something I've done that I'm proud of is, I'd say just being a part of a baseball team. Our team this year, especially because I mean, It'd be a once in a lifetime type of team at Wake Forest are the best in the country. So I'm pretty proud of that.

Hudson: What is your favorite place to go off campus and more?

Tommy: My favorite place to go off campus I'll probably say Putter's like all the people that work in their foods, good. Beers are good. Can't really complain much.

Hudson: That's right. Are there any clubs or organizations or communities that you're a part of? Well, I know you're part of the baseball team. But do you recommend like other baseball recruits, and what would you say to them?

Tommy: For sure, I think this place is a really good spot for a kid to land especially because I mean, the coaches, they let you play your own way, they really chill laid back, and programs are as good as it is just because of the coaches.

I mean, I tell any kid that they're definitely not making the wrong decision coming to Wake Forest.

Hudson: Where do you think you're gonna be in 10 years?

Tommy: 10 years I'll probably be in the show. If I'd be in the big leagues.

Not to sound cocky or nothing but I rake so apparently in the show.

Hudson: Alright, so last question. After you get drafted this year. What team do you want to draft you?

Tommy: I would play for any team that took me, but I'd have to say either the Yankees or

The Phillies both had their developmental leagues and spring training in Florida, Tampa Bay and really good organizations and I mean it's just fire to play for both of them. So yeah,

It is like a childhood dream.

thank you thank you
